RECORD OF TOWN MEETINGS

FOR THE YEAR ENDING JAN'Y 31ST, 1890.

ANNUAL TOWN MEETING, APRIL 1, 1889.

ARTICLE 1. To choose by ballot, a Moderator to preside in said meeting.

Samuel K. Hamilton was elected Moderator, receiving 37 votes to 21 for John M. Cate.

VOTED. To take up Article 70.

ART. 70. To see if the town will accept the provisions of Sections 74, 75, 76 and 77 of Chap. 27 of the Public Statutes, relating to the election of a Board of Road Commissioners.

A motion to accept was rejected and a motion to reconsider was lost.

ART. 2. To act upon the acceptance of the reports of Town Officers as printed.

VOTED. To accept the Reports as printed.

ART. 3. To bring in their votes, on one ballot, for Town Clerk, Town Treasurer, Selectmen, Assessors, Overseers of the Poor, Tax Collector, Park Commissioners, Board of Health, Constables, Fence Viewers, Fish Committee, for nine Trustees of the Beebe Town Library, three for a term of three years, three for two years, and three for one year, a board of three Auditors, and for three Road Commissioners, one for three years, one for two years, and one for one year.

Upon a separate ballot to bring in their votes for three members of the School Committee, two for a term of three years, and one for a term for two years; these ballots will be received at the same time and in the same box.

Upon a separate ballot to bring in their votes in answer to the question,—“Shall licenses be granted for the sale of intoxicating liquors in this town?”

Form of ballot, "Yes," or "No," in answer to that question; and these ballots will be received in the Standard registering box at the same time.

VOTED. To keep the polls open until 5 o'clock, p. m.

The Moderator appointed Chas. H. Davis and Wesley T. Harris to assist in checking names on the voting list, and R. L. Cooper and W. W. Bessey to work the Patent Ballot Box.

After the close of the polls at the appointed hour the votes were counted and the result declared by the Moderator in open town meeting as follows :

VOTE ON THE QUESTION OF LICENSE.

Yes, 277. No, 431.

ART. 4. To choose all other needed town officers.

VOTED. That a committee of three be appointed by the Moderator to nominate a committee of thirteen, three from the Centre and two from each of the outer wards, who shall nominate a list of officers not chosen by ballot. Messrs. Jas. F. Emerson, Robert Blyth and J. Wallace Grace were appointed, and they reported the following committee of thirteen :

Centre Ward—	S. O. Richardson, Thos. Winship, Richard Britton.
North	“ E. E. Emerson, Denis Daly.
South	“ H. H. Savage, A. H. Thayer.
East	“ A. L. Mansfield, J. T. Burditt.
West	“ Geo. H. Teague, C. Donovan.
Little World,	Geo. E. Donald, Patrick Kenney.

VOTED. To adopt the reported list.

At a later hour this committee made a report which was accepted and adopted as follows :

WEIGHERS OF COAL AND MERCHANDISE.

M. C. Evans,	Denis Greany,	A. L. Mansfield,
A. A. Mansfield,	A. W. Chapman,	Geo. W. Aborn,
	Geo. K. Gilman.	

MEASURERS OF WOOD.

Denis Greany,	M. C. Evans,	L. B. Eaton,
A. A. Mansfield,	A. L. Mansfield,	Charles Gorham,
E. E. Lee,	Ira Atkinson,	H. N. Oliver.

SURVEYORS OF LUMBER.

C. F. Bickford,	E. I. Purrington,	C. W. Trow,
H. B. Parker,	Roger Howard.	

FIELD DRIVERS.

Geo. H. Wiley,	H. N. Oliver,	Thos. Gould,
B. F. Shedd,	Lee S. Morrill,	W. W. Bessey,
	Simeon Parker,	

VOTED. To postpone further consideration of the town warrant to 1 o'clock, P. M. At that hour the meeting took up

ART. 5. To see if the town will authorize its Treasurer to hire money to pay all demands in anticipation of taxes.

VOTED. That the Town Treasurer be authorized, with the approval of the Selectmen, to hire money in anticipation of the taxes of the current municipal year, and to issue notes of the town therefor, and all debts so incurred shall be paid from said taxes ; Yes, 17 ; No, 0.

ART. 6. To raise and appropriate money for the payment of town debt and interest.

VOTED. That the sum of \$3,300 be raised and appropriated for the payment of interest upon the town debt ; and that the Treasurer be authorized to use any surplus of receipts received from various sources other than from loans and taxes, for the payment of the town debt. Yes, 24 ; No, 0.

VOTED. To take up article 57.

ART. 57. To see if the town will vote to instruct the Town Officers that all appropriations of money voted at the annual town meetings are to be used only for the payment of bills contracted during the then financial year ensuing, unless the special amounts for bills of the then previous year are mentioned in the motion for an appropriation.

VOTED. To so instruct the Town Officers.

ART. 7. To raise and appropriate money for schools.

VOTED. \$18,000 for the support of schools ; \$1500 for school contingent fund and \$1400 for school text books and supplies.

ART. 8. To raise and appropriate money for the support of the poor.

VOTED. \$5,000 and all receipts.

ART. 9. To raise and appropriate money for the repairs of highways and bridges and determine how it shall be expended.

VOTED. \$5,000 to be expended under direction of the Selectmen.

ART. 10. To raise and appropriate money for the Fire Department.

VOTED. \$2,000, of which \$150 shall be expended under direction of the Forest Fire Wards for services with Johnson Pumps, etc., they to give the location of said pumps in their next report.

ART. 11. To raise and appropriate money for the Public Library.

VOTED. \$400 in addition to the dog tax.

ART. 12. To raise and appropriate money for the Public Reading Room.

VOTED. \$175.

ART. 13. To raise and appropriate money for the salaries of Town Officers.

VOTED. \$2,550, and \$1,000 for police services in addition.

ART. 14. To raise and appropriate money for the care of Street Lamps.

VOTED. To lay on the table until the Committee on Electric Lights have reported.

ART. 15. To raise and appropriate money for Town House expenses.

VOTED. \$1600.

ART. 16. To raise and appropriate money for Miscellaneous expenses.

VOTED. \$3,000.

ART. 17. To raise and appropriate the sum of \$3,920 to pay the annual rental of hydrants as per contract with the Wakefield Water Co.

VOTED. \$3,000 for rental of 60 hydrants and \$25 per hydrant for the remainder, not in the original contract.

ART. 18. To see what method the town will adopt for the collection of taxes for the year ensuing.

VOTED. That all taxes not exceeding \$3 shall be paid on or before Sept. 1, 1889, and if not paid within 30 days from that date the Collector shall immediately proceed to collect them according to law :

One-half of all other taxes shall be payable on or before Sept. 15, '89, the other half on or before Feb. 15, 1890, and that the Collector allow a discount of four per cent. on all property taxes paid by Sept. 15, 1889.

On all taxes not paid within fourteen days after they are due, a notice shall be issued to the delinquent, demanding payment for which twenty cents additional shall be charged, and on all taxes not paid when due, interest at the rate of 6 per cent. per annum shall be added until paid.

That all property taxes not paid on or before April 15, 1890 be advertised and enough sold to pay the tax, interest and expenses.

That all taxes be payable at the office of the Collector, he to notify all persons to be found by the presentment of their bills, at least two weeks before the tax is due, poll taxes excepted.

That the Collector pay all money as fast as collected to the Treasurer, and shall be required to settle his tax list within two years from the time of his election, and upon his failure to do so, the Town Treasurer be instructed to sue the Collector's bond. That the same discount be allowed on poll taxes as upon property taxes.

ART. 19. To see if the town will authorize the Collector of Taxes for the year ensuing to use all means for the collection of taxes, which a Town Treasurer when appointed Collector, may use.

VOTED. To so authorize the Collector of Taxes.

ART. 20. To see what sum the town will raise and appropriate to be expended in concrete work.

VOTED. \$500 where the abutters pay one-half the expense for sidewalks.

ART. 21. To see if the town will authorize the Selectmen to provide a Night Watch, and will appropriate money for the payment thereof.

VOTED. \$1800 for the purpose named in this article.

ART. 22. To determine the compensation of Enginemen for the year ensuing.

VOTED. That the compensation be \$25. Yes, 82 ; No, 47.

ART. 23. To see if the town will raise and appropriate \$200 for the purposes of Memorial Day, and will grant the free use of the Town Hall to H. M. Warren Post, No. 12, G. A. R., for that day.

VOTED. \$200 and free use of the hall.

ART. 24. To see if the town will raise and appropriate five hundred dollars for enforcement of the liquor law, or what they will do about it.

VOTED. To indefinitely postpone action.

ART. 25. To see if the town will raise and appropriate money for the macadamizing of Main street from the Rockery to Water street, or what they will do about it.

VOTED. To indefinitely postpone action.

ART. 26. To see what sum the town will raise and appropriate for the care and improvement of the Common and Park for the year ensuing.

VOTED. \$450 for that purpose.

ART. 27. To see if the town will raise and appropriate money for repairs on the Town House.

VOTED. To lay this article on the table.

ART. 28. To see if the town will raise and appropriate two hundred and fifty dollars for premiums on insurance policies falling due the ensuing year.

VOTED. To indefinitely postpone action.

- ART. 29. To see if the town will raise and appropriate a sum of money to build a sidewalk on the south side of Richardson street, and repair that portion already built.
- ART. 30. To see if the town will raise and appropriate a sum of money to put West Water street in proper condition, or what they will do about it.
- ART. 31. To see if the town will raise and appropriate the sum of one hundred dollars for the purpose of repairing the sidewalk on the south side of Gould street, from Albion to Cedar street, or what they will do about it.
- ART. 32. To see if the town will raise and appropriate money to grade, drain and repair the sidewalks on Vernon street from Pleasant to Salem streets, or what they will do about it.
- ART. 33. To see if the town will raise and appropriate the sum of fifty dollars for opening the drain under Railroad street opposite land of heirs of Joel Winship, E. W. Eaton and others.
- ART. 34. To see if the town will raise and appropriate the sum of one thousand dollars to be expended in grading and building Greenwood and Spring streets, from the Melrose line, or what they will do about it.
- ART. 35. To see what action, if any, the town will take in relation to the widening of that portion of Water street, south of what is known as the Leonard Wiley estate.
- ART. 36. To see what action, if any, the town will take in relation to repairing the bridge over the Boston & Maine Railroad, at Greenwood.
- ART. 37. To see if the town will raise and appropriate money to repair the highway known as Prospect street, from the house of W. E. Cowdrey to the B. & M. Railroad, in accordance with the decree of the County Commissioners.
- ART. 38. To see if the town will raise and appropriate the sum of two hundred and fifty dollars to build a sidewalk on the north side of Lowell street, from Vernon street to house of Lewis Fogg.
- ART. 39. To see if the town will raise and appropriate the sum of five hundred dollars to complete the improvements begun two years ago on Greenwood street, or what they will do about it.

ART. 41. To see if the town will raise and appropriate the sum of one hundred dollars to be expended on Summer street.

ART. 42. To see if the town will raise the road bed of Foundry street and grade the same, build sidewalk on either side and re-lay water course at the junction of Foundry and Maple streets, and raise and appropriate a sum of money therefor.

ART. 43. To see if the town will raise and appropriate money to lay a drain pipe under Main street in front of the house of Charles S. Gerritson, Greenwood, or what they will do about it.

ART. 44. To see if the town will build a retaining wall against the sidewalk on the southerly side of West Chestnut street, bordering land of the late Samuel T. Parker, and appropriate money therefor, or what they will do about it.

ART. 62. To see if the town will raise and appropriate the sum of five hundred dollars, to grade and repair Melvin street, or what they will do about it.

ART. 63. To see if the town will grade Broadway street from Albion street to the Railroad crossing and build sidewalks thereon, and also to repair culvert bounding land of Orrin Potter and George W. Aborn, and appropriate money therefor.

ART. 64. To see if the town will raise and appropriate money to raise and repair the road bed and sidewalks on Centre street.

ART. 65. To see if the town will raise and appropriate money for the repairing of New Salem street.

VOTED. To refer the foregoing articles to a committee of nine, of whom the incoming Board of Selectmen shall be three, this committee to report to the town at an adjournment of this meeting.

VOTED. That this Committee be instructed to notify the parties interested when they will view the premises and when a final hearing will be given in the Selectmen's room.

The Moderator appointed on this committee, A. H. Thayer, W. E. Cowdrey, S. O. Richardson, Wm. F. Young, Wm. K. Perkins, Michael Low and the incoming board of Selectmen, Geo. E. Ricker, H. H. Savage and J. W. Grace.

ART. 56. To see if the town will raise and appropriate money to locate street lamps at the following places : eight on Greenwood street and Myrtle avenue ; one at junction of Lowell and Vernon

streets ; one on West Chestnut street, near residence of the late Samuel T. Parker ; one at the junction of Foundry and Maple streets ; one on Sweetser street near residence of A. B. Woodman ; one at corner of Nahant and Traverse streets ; and one at corner of private way and Gould street.

ART. 75. To see if the town will raise and appropriate money to locate street lamps at the following places : one at the corner of Summit avenue and Prospect street, one on Prospect street, near the "Old Cowdrey House," one at the corner of Adams street and West Chestnut, one on West Chestnut south of Adams street, one on Prospect street near residence of Hero Nichols, one on northerly side of Otis street between Crescent and Pleasant streets and two on Bennett street.

VOTED. To refer these articles to a committee of three, who shall investigate and report at an adjournment of this meeting. Geo. E. Ricker, J. W. Poland and Chas. H. Davis were appointed this Committee.

ART. 40. To see what action, if any, the town will take for the relief of lands in the Foundry and Lake street districts and bordering on stream to Lake street, from the floodings caused by the numerous obstructions to the flow of water.

VOTED. To appoint a committee of three to take this subject into consideration and report at the next meeting. J. F. Emerson, Wm. G. Strong and Joseph M. Skully were appointed.

ART. 45. To see if the town will locate and maintain two hydrants, one on West Chestnut street near the residence of T. F. Smith, and one on Bartley street, and appropriate money therefor, or what they will do about it.

VOTED. To lay this article on the table.

ART. 46. To see if the town will amend the Rules governing fishing in Lake Quannapowitt, so as to allow fishing therein on holidays and on Mondays during the season, subject to existing rules and to approval by the State Board of Commissioners on Inland Fisheries, or what they will do about it.

VOTED. To allow as requested in this article and appoint Fish Committee to carry out the vote.

ART. 47. To hear and act upon the report of the Selectmen for the laying out of a new town way over the private way known as Crescent Court.

ART. 48. To hear and act upon the report of the Selectmen for the laying out of a new town way over the private way known as Woodland Avenue.

The Selectmen reported in favor of accepting and building the above named streets.

VOTED. To accept and adopt the reports.

VOTED. To adjourn to 7.30 o'clock p. m. At that time the Moderator called the meeting to order.

ART. 49. To hear and act upon the report of the Committee on Electric Lighting chosen at the last annual meeting.

VOTED. To lay this article on the table.

The article was afterwards taken up and a report read, signed by Robert Blyth, E. G. Daland, Solon O. Richardson, J. W. Poland and A. S. Atherton.

VOTED. To accept the report.

VOTED. To lay this article on the table for two weeks; and that a committee of five be appointed to consider the advisability of the town putting in electric lights and the cost of the same.

Michael Low, Chas. W. Trow, Wm. F. Young, D. H. Darling and E. G. Daland were appointed.

ART. 50. To hear and act upon the report of the Committee appointed to consider the necessity and advisability of building a new school house, and if adopted to raise and appropriate money necessary to carry into effect the recommendations therein contained.

A report was read, signed by S. K. Hamilton of Board of Selectmen, and E. A. Upton, Chairman of School Committee, advising the erection of a substantial wooden building of six rooms for school purposes, on Academy Hill, Crescent street, at a cost of \$12,000.

VOTED. To accept and adopt the report.

VOTED. To raise and appropriate \$12,000 for the erection of said new school house, and that a committee of five be appointed, who shall cause plans and specifications to be prepared, and let the contract to the lowest responsible bidder. S. O. Richardson, A. H. Thayer, Selim S. White, S. W. Flint and W. E. Cowdrey were appointed this Committee. I. A. Parsons was added to the Committee.

ART. 51. To see if the town will authorize the School Committee to hire a clerk, and raise and appropriate money therefor

VOTED. To appropriate \$100 for the above purpose.

ART. 52. To see if the town will raise and appropriate a sum of money to purchase an electric gong to be placed at or near the Engine House, East Ward, or what they will do about it.

VOTED. To appropriate \$85 for above purpose.

ART. 53. To see if the town will grant the free use of the Town Hall to the High School Cadets for their annual drill and exercises connected therewith.

ART. 54. To see if the town will grant the Woman's Christian Temperance Union the free use of the Town Hall on six evenings during the ensuing year.

VOTED. To grant free use of hall as requested in these two articles.

ART. 55. To see if the town will take action with regard to terminating the lease of the town land on Church street, or what they will do about it.

VOTED. To direct the Selectmen to terminate such lease of town land and order the removal of any buildings thereon, and providing they grant any new lease the rental shall be payable in advance.

ART. 58. To see if the town will grant the free use of the Town Hall to Co. A, 6th Reg't, Richardson Light Guard, two evenings during the ensuing year, or what they will do about it.

VOTED. To grant free use of hall as requested.

ART. 59. To see if the town will choose a committee to report a systematic plan of numbering the houses in town, which shall cover all points connected with the subject and place it on a permanent basis, said plan to be deposited with the Town Clerk for the information of all the citizens.

VOTED. To refer to a committee of three. 86 yes ; 76 no. Jas. F. Emerson, Robert Blyth and W. D. Deadman were appointed.

ART. 60. To see if the town will raise and appropriate the sum of seventy-five dollars to pay the Superintendent of Fire Alarm for the ensuing year, or what they will do about it.

VOTED. To raise and appropriate \$50.

ART. 61. To see if the town will vote to change the day of its annual meeting to the first Monday of March in each year.

VOTED. To change the date from the first Monday in April to the first Monday in March.

ART. 66. To see if the town will permit the Society named "Mishkan Israel" to bury in their burial lot recently owned by Michael Goodwin.

VOTED. To indefinitely postpone action under this article.

ART. 67. To see if the town will authorize the Selectmen to have prepared a comprehensive index of the town records since its incorporation in 1812, or what they will do about it.

VOTED. To refer this article to the Selectmen to investigate, ascertain the expense and report at a future meeting.

ART. 68. To see if the town will instruct the Selectmen to have prepared plans for establishing a system of street grades, and raise and appropriate the sum of \$1800 therefor, or what they will do about it.

VOTED. To indefinitely postpone action.

ART. 69. To see if the town will raise and appropriate money for the purchase of 600 feet of fire hose to be used by the Volunteer Hose Co. under the direction of the Board of Fire Engineers, or what they will do about it.

VOTED. \$330 as requested in this article.

ART. 71. To see if the town will vote to change the name of a street running from Nahant to Charles street, now called Spring street, to that of Birch Hill Avenue.

VOTED. To change according to this article.

ART. 72. To see if the town will direct its Assessors to have printed a list of taxable polls and estates for the year 1889, and appropriate money therefor.

ART. 73. To see if the town will erect and maintain a hydrant on Prospect street, near the residence of John A. Thompson and appropriate money therefor, or what they will do about it.

VOTED. To indefinitely postpone action under these articles.

ART. 74. To hear and act on report of Committee on Sewerage, chosen at the last annual meeting.

VOTED. To accept the report as printed in reports of 1889.

ART. 76. To see if the town will authorize its Treasurer to hire money for a term of years, and issue the notes of the town therefor, to pay the expenses of macadamizing Main street from the Town House to the Rockery.

VOTED. To indefinitely postpone action.

VOTED. To adjourn to Monday, April 15, at 7.30 P. M.

Adjourned Town Meeting, April 15, 1889.

The meeting was called to order by the Moderator.

VOTED. To take up Article 27.

VOTED. To raise and appropriate \$1,200 for Town House repairs.

VOTED. To take up Article 7.

VOTED. To transfer \$200 from School Contingent to Regular School Fund.

VOTED. To take up Article 50.

A motion to reconsider vote under this article was rejected.

VOTED. To take up Article 49.

Mr. Michael Low presented a report of the Committee appointed April 1st, on electric lighting.

VOTED. To accept the report.

VOTED. That action under this report be postponed to the next annual town meeting.

VOTED. To take up Article 14.

VOTED. To raise and appropriate \$2,100 for care of street lamps.

VOTED. To take up Article 10.

VOTED. To raise and appropriate \$1,000 more for Fire Department.

VOTED. To take up Article 69.

VOTED. To adjourn to Monday, April 22, at 7.30 P. M.

Adjourned Town Meeting, April 22, 1889.

The meeting was called to order by the Moderator.

Article 69. Motions to lay on the table and to indefinitely postpone were lost. A motion to refer to a committee to investigate and report was ruled out of order.

VOTED. That Engineer Cobb be allowed to make an explanation in regard to the purchase of hose for the Volunteer Hose Co.

Mr. Cobb made a satisfactory explanation and it was

VOTED. To indefinitely postpone further action.

The committee to whom were referred Articles 29 to 39 inclusive, 41 to 44 inclusive, and 62 to 65 inclusive, then made the following

REPORT.

Your Committee, in accordance with the vote of the town, gave a hearing to the parties interested, at the Selectmen's room, on two evenings, and also at the places named in the articles, visiting and examining these 20 localities during one-half day. After this investigation it appears to us that there are many other places equally needing the expenditure of money, and in view of this fact, and of the large number of articles annually placed in the warrant calling for special appropriations for objects properly in charge of the Highway Department, we are unanimous in the opinion that no special appropriations should be made except in cases where special reasons exist, requiring them.

We find special reasons in connection with only two of the articles referred to us, namely, Articles 34 and 37.

We recommend the town to appropriate \$500 to be expended on Greenwood and Spring streets, Boyntonville, as asked in Article 34, and for the reasons given by the Selectmen in their annual report of this year.

We also recommend the town to appropriate \$500 to be expended on Prospect street, as requested in article 37 and as ordered by the County Commissioners some four years ago, said decree having been carried out on the western but not on the eastern portion of the street.

We make further recommendations as to the following articles :

Article 33. That it be indefinitely postponed, as we do not consider it the duty of the town to drain this land.

Article 35. That the town widen Water street, as requested in this article, if the land for the purpose be given.

Article 36. That the bridge named in this article be repaired by the proper authorities, upon whom its maintenance devolves.

Article 39. That it be indefinitely postponed being covered by Article 34.

As regards the other articles referred to us, namely Articles 29, 30, 31, 32, 38, 41, 42, 43, 44, 62, 63, 64 and 65, we recommend the town to refer them to the Supt. of Streets, the costs to be taken from the regular Highway Appropriation, which we recommend be increased in the sum of \$1000 to defray expenses incurred in carrying out the repairs and improvements contemplated by these articles. This reference to the Supt. of Streets coincides with the request of several parties interested and appearing before your Committee.

Respectfully submitted,

S. O. Richardson, Geo. E. Ricker, J. Wallace Grace, H. H. Savage,
Wm. F. Young, Wm. K. Perkins, Michael Low, A. H. Thayer.

WALDO E. COWDREY, *Sec.*

VOTED. To accept the report.

A motion to increase the amount to be added to Highway Appropriation to \$2000 was rejected, and also a motion to increase the amount for Greenwood street to \$700.

A motion as amended to increase the regular Highway Appropriation in the sum of \$3250, of which \$500 should be expended on Prospect street, \$500 on Greenwood street, \$500 on Vernon street, \$500 on Melvin street, \$500 on Broadway and \$250 for sidewalk on Lowell street, was carried. Yes, 99 ; no, 94.

VOTED. To reconsider this motion amending the Committee's report.
Yes, 116 ; no, 95.

VOTED. To adopt the report as presented by the Committee.

VOTED. To take up Article 40.

J. F. Emerson presented a report of the Committee on this article in regard to the drainage of the Foundry and Lake streets district and recommending an appropriation of \$600 to make a proper drainage.

VOTED. To accept and adopt the report.

VOTED. To take up Article 74.

Motion of Dr. S. W. Abbott to adopt the report of the Committee on Sewerage and carry out the plans proposed, was rejected.

VOTED. To indefinitely postpone action.

VOTED. To take up Article 17.

VOTED. To reconsider all action previously taken under this article.

After a long discussion it was

VOTED. To raise and appropriate \$3,845, to pay rental of hydrants the year ensuing, as follows : 60 at \$50, equals \$3,000 ; 18 at \$40 equals \$720 and 5 at \$25 equals \$125.

VOTED. To take up Article 9.

VOTED. To appropriate \$1000 more for Highways and Bridges.

VOTED. To take up Article 34.

VOTED. To appropriate \$500 for the purposes of this article.

VOTED. To take up Article 37.

VOTED. To appropriate \$500 for the purposes of this article.

The Committee to whom were referred Articles 56 and 75 then reported in favor of committing this subject to the Selectmen with full power to act, in view of the prospect of an early introduction of an electric lighting system.

VOTED. To accept and adopt the report.

VOTED. To take up Article 40.

VOTED. To reconsider the action taken while acting under this article.

VOTED. To refer the matter to the Selectmen.

VOTED. That this meeting be now dissolved.

TOWN MEETING, APRIL 22, 1889.

Pursuant to a warrant calling together the voters to act upon an Amendment to the Constitution of Massachusetts, as follows: "The manufacture and sale of intoxicating liquors to be used as a beverage are prohibited," and to act upon town affairs, at 1 o'clock, P. M., the voters met and were called to order by Chairman Savage of the Selectmen, who read the warrant. Prayer was offered by Rev. N. R. Everts.

VOTED. To keep the polls open until 5 o'clock, P. M.

R. L. Cooper and W. W. Bessey were appointed to work the patent ballot box, and Chas. H. Davis and Waldo E. Cowdrey to take charge of the voting list. At 9.15 o'clock, A. M., the polls were declared open.

At 1 o'clock, P. M., the meeting was called to order for the transaction of town business.

ART. 1. To choose by ballot a Moderator to preside in said meeting. John M. Gate had seven votes and H. H. Savage, one, and John M. Cate was declared elected Moderator.

ART. 2. To see if the town will rescind the vote passed at the annual town meeting, April 1, while acting under Article 57, of the warrant.

VOTED. To rescind the above named vote.

ART. 3. To see if the town will grant the use and custody of the Yale Engine to the Veteran Firemen's Association, or what they will do about it.

VOTED. To grant as requested.

ART. 4. To see what action the town will take in regard to the suit brought against the town by Hattie D. M. Clark, for injuries received on the highway.

VOTED. To refer to the Selectmen, with power to employ counsel to defend the suit.

ART. 5. To see if the town will authorize the Treasurer to hire money on a term of years and to issue notes of the town therefor, to provide funds to pay for the erection of a school-house, as voted at the annual meeting, April 1.

VOTED. That the Town Treasurer be authorized, with the approval of the Selectmen, to hire the sum of \$12,000, and to issue notes or bonds of the town therefor, one-third payable in the year 1895, one-third in 1896, and one-third in 1897, and that said amounts be included in the tax levies of the years named. Yes, 41; No, 0.

ART. 6. To see if the town will raise and appropriate money to pay for the repairs on the steamer.

VOTED. To pass this article over.

ART. 7. To see if the town will raise and appropriate \$35 to change and improve Battery, thereby saving two-thirds of the present cost.

VOTED. To pass this article over.

VOTED. That this meeting be now dissolved, so far as relates to town business. At 5 o'clock the polls were closed, the votes counted and the result of the ballot declared as follows: Amendment to the Constitution, Yes, 425; No, 454.

VOTED. That this meeting be now dissolved.

TOWN MEETING, JULY 22, 1889.

ARTICLE 1. To choose, by ballot, a Moderator to preside in said meeting.

Edward A. Upton was unanimously elected Moderator.

ART. 2. To hear and act upon the report of the Committee appointed at the annual meeting, to take charge of building a new school-house.

The report was read by W. E. Cowdrey, Secretary of the Committee, showing that Wait & Cutter were employed as architects and made detailed plans and drew specifications upon which bids were invited, and received from three contractors for the

heating and ventilating, and from five builders for the rest of the contract, the lowest bid for the entire contract being \$15,885, (\$2,385 and \$13,500 respectively.)

In addition to this amount it was estimated that 5 per cent. would be required for incidentals—5 per cent. for services of architects and \$500 for furnishing, making the total necessary to erect the building as called for by vote of the town, \$18,000. This was so large an addition to the original appropriation of \$12,000 that the committee thought best to report the whole matter to the town for instructions.

VOTED. To lay the report on the table.

ART. 3. To see if the town will appropriate an additional sum of money to carry out the vote of the town to erect a new school house, or what they will do about it.

VOTED. To lay this article on the table.

ART. 4. To see if the town will appropriate a sum of money to ventilate school buildings, as ordered by Department of Inspection of the District Police.

VOTED. That the School Committee be instructed to investigate as to the best method of meeting the requirements of the District Police in regard to the ventilation of school buildings and report at the next annual town meeting.

ART. 6. To see if the town will rescind the vote whereby it was voted to build a school-house on Academy Hill.

VOTED. To take up this article.

VOTED. Unanimously, that the vote taken while acting under Article 50 of the warrant for the annual town meeting, April 1, 1889, be rescinded.

ART. 7. To see if the town will choose a Committee to investigate the needs of the town as regards school accommodations and report at the next town meeting, or take such other action in the matter as may be deemed best.

VOTED. That the town choose a committee of 15 to investigate the needs of the town regarding school accommodations and buildings and report to the next annual town meeting. This committee to consist of the present building committee, such members of the School Committee as are not now on that committee, and five other citizens, two of whom shall be practical builders.

The Moderator appointed Wm. K. Perkins, Thos. Kernan, Wm. G. Strong, Otis V. Waterman and W. H. Lee, in addition to the School Committee and Solon O. Richardson, Silas W. Flint, Israel A. Parsons and W. E. Cowdrey of the original building committee.

ART. 5. To see if the town will vote to change the location of the new school-house ordered to be built on Academy Hill, or what they will do about it.

ART. 8. To see if the town will accept the provisions of Chapter two hundred and sixty-four of the Public Laws of 1886, entitled :
An act to provide for precinct voting in towns.

VOTED. To indefinitely postpone action under these articles.

ART. 9. To see if the town will grant to the Trustees of the Sweetser Lecture Fund the free use of the Town Hall for a course of eight lectures during the season of 1889-90, or what they will do about it.

VOTED. Free use of the hall as requested.

ART. 10. To see if the town will grant permission to the owner of the Leslie estate (so called), to enclose a piece of land between the dwelling-house and street, or what they will do about it.

VOTED. To indefinitely postpone action.

ART. 11. To see if the town will rescind so much of the vote passed May 7, 1883, while acting under article three of the warrant, as relates to one thousand dollars being raised by taxation in the year 1889 and subsequent years.

VOTED. To rescind according to the terms of this article.

ART. 12. To see if the town will rescind so much of the vote passed June 4, 1883, while acting under article eight of the warrant, as relates to fifteen hundred dollars being raised by taxation in the year 1889 and subsequent years.

VOTED. To rescind in accordance with the terms of this article.

ART. 13. To see if the town will rescind so much of the vote passed April 18, 1887, while acting under article eighty of the warrant, as relates to one-third of fifty-five hundred dollars being raised by taxation in the year 1889.

VOTED. To rescind as requested in this article.

ART. 14. To see if the town will rescind so much of the vote passed Nov. 12, 1888, while acting under article five of the warrant, as

relates to one-half of twenty-six hundred and seventy-five dollars being raised by taxation in each of the years 1889 and 1890.

VOTED. To rescind the above named vote.

ART. 15. To see if the town will authorize its Treasurer to hire money on a term of years and to issue notes of the town therefor, for the purpose of renewing or paying such loans maturing during the present municipal year, as are not provided for by taxation.

VOTED. That the Treasurer be authorized, with the approval of the Selectmen, to hire the sum of six thousand, one hundred and sixty and 84-100 dollars (\$6,160.84), and to issue the notes of the town therefor, \$1,500 to be made payable in the year 1892; \$1,000 in the year 1893; \$2,323.34 in the year 1894; and \$1,337.50 in the year 1895; the said amounts to be raised by taxation in the above named years. Yes, 55; No, 7.

VOTED. That this meeting be now dissolved.

STATE ELECTION AND TOWN MEETING, November 5, 1889.

Pursuant to a warrant duly drawn and served, the voters assembled at seven o'clock in the forenoon, to bring in their votes for Governor, Lieutenant Governor, Secretary, Treasurer and Receiver General, Auditor and Attorney General of the Commonwealth; for Councillor for the Sixth Councillor District; for a Senator for the Sixth Middlesex Senatorial District; for a Representative to the General Court to represent the thirteenth Middlesex Representative District; for County Commissioner; for three Commissioners of Insolvency; for Sheriff of Middlesex County; for District Attorney for the Northern District and for two special County Commissioners. The votes for the officers above-named were received according to the provisions of Chapter 436 of the Acts of 1888 as amended by Chapter 443 of the Acts of 1889, known as the Australian system of voting. The meeting was called to order and the warrant read by Chairman Savage of the Selectmen. Prayer was offered by Rev. L. L. Greene. J. Fred Parker and E. M. Southworth were appointed Inspectors and Thomas Kernan and Wesley T. Harris, Deputies. Chas. H. Davis, Cornelius Donovan, W. E. Cowdrey, A. H. Thayer and Thos. Hickey

were appointed Tellers ; and R. L. Cooper and W. W. Bessey to work the patent ballot box. D. H. Darling, A. S. Atherton, James Low, G. H. Maddock. C. H. Clark and P. F. Kalaher were appointed counters.

VOTED. To close the polls at 4.30 p. m. At that hour the polls were closed, the register showing 1097 ballots cast. Upon the completion of the count, public declaration in open town meeting was made of the

William S. Greenough was declared elected.

At 10.20 p. m. the ballots and voting lists were sealed up according to law, and it was

VOTED. That this meeting be now dissolved.

Pursuant to a warrant drawn and issued with the one calling a meeting for the State Election, the voters assembled at 7 p. m., and were called to order by Chairman Savage for the transaction of town business.

ARTICLE 1. To choose, by ballot, a Moderator to preside in said meeting. Samuel K. Hamilton had one vote (cast by the Town Clerk, as instructed) and was declared elected.

VOTED. To adjourn to Monday, Nov. 11, at 7.30 p. m.

Adjourned Town Meeting, Nov. 11, 1889.

Called to order by the Moderator.

ART. 2. To act upon the acceptance of the list of Jurors as selected and submitted by the Selectmen, in compliance with the law.

After revision it was

VOTED. To accept the List of Jurors.

ART. 3. To see if the town will appropriate an additional sum of money for the miscellaneous fund.

VOTED. To appropriate \$1500.

ART. 4. To see if the town will appropriate an additional sum of money for highways and bridges.

VOTED. \$1000. (Motion for \$2,500 rejected.)

ART. 5. To see if the town will appropriate a sum of money for the drainage of the Foundry and Lake street district, as voted at the April meeting.

VOTED. To appropriate \$300.

ART. 6. To hear and act upon the report of the Selectmen for the widening and straightening of Myrtle ave., and appropriate money for the same.

The report was read and favored this improvement and recommended the appropriation of \$300 for the purpose.

VOTED. To accept and adopt the report.

ART. 7. To hear and act upon the report of the Selectmen for the laying out of a new town way over the private way known as Summit avenue, and appropriate money for the same.

Report in favor of laying out this new town way was read recommending the appropriation of \$800.

VOTED. To accept and adopt the report.

ART. 8. To see if the town will appoint an appropriation committee to make recommendations for current expenditures for 1890-'91.

VOTED. To appoint such a committee.

It was constituted as follows: Wm. G. Strong, H. H. Savage, Selim S. White, S. W. Flint, Geo. L. Kilgore, Waldo E. Cowdrey, Everett Hart, S. O. Richardson, Wm. S. Greenough, David H. Darling, Michael Low, Richard Britton, Wm. F. Young, Thomas Winship, I. F. Eaton.

ART. 9. To hear the report of the Committee to whom, at the last April meeting, was referred Art. 59 of the warrant, relating to the adoption of a system for the numbering of buildings in this town, and act thereon.

Mr. Jas. F. Emerson read a report of this committee giving a plan for a system of numbering.

VOTED. That the Selectmen be instructed to have 200 copies of this plan as adopted by the town, printed, a few posted and the balance placed with the Town Clerk, to be obtained by citizens, on application.

ART. 10. To see if the town will appropriate the sum of seventy-five dollars to pay the balance of rental of five hydrants, in accordance with the claim of Wakefield Water Company.

VOTED. To appropriate \$75 for this purpose.

VOTED. That this meeting be now dissolved.

TOWN MEETING, MONDAY, JAN. 27, 1890.

ARTICLE 1. To choose, by ballot, a Moderator to preside in said meeting.

J. Fred Parker was unanimously elected Moderator.

ART. 2. To see if the Town will instruct the Wakefield Water Co. to lower the pond to its water mark, or what they will do about it.

VOTED. To so instruct them.

ART. 3. To see if the Town will appropriate one thousand dollars for cleaning and repairing the drain and culverts from Albion street to below the Rattan Factory, or what they will do about it.

VOTED. To indefinitely postpone action.

ART. 4. To see if the town will accept the provisions of Sections 74, 75, 76 and 77, of Chapter 27, of the Public Statutes, relating to the election of a Board of Road Commissioners.

VOTED. To accept the provisions named in this article.

ART. 5. Whether they will vote to instruct the Selectmen to grant to the Citizens' Gas Light Company, of Reading, South Reading and Stoneham, the privilege of erecting poles and wires in the streets and highways of the town, to be used in carrying on the business of furnishing electricity for light and power, or what they will do in the premises.

VOTED. To instruct the Selectmen not to grant this privilege to the Citizens' Gas Light Company.

ART. 6. To see if the Town will vote to instruct the Selectmen to grant to the Wakefield Electric Light and Power Company, the privilege of erecting poles and wires in the streets and highways of the town, to be used in carrying on the business of furnishing electricity, for light and power, or what they will do in the premises.'

Before any action was taken on this article it was

VOTED. That this meeting be now dissolved.

ALVIN L. VANNAH,
JAMES A. McFADDEN,

Night Watchmen.

Until the present year the Town of Wakefield has never rounded its police administration with the efficiency pertaining to a complete whole. No police quarters have ever been established where citizens could readily find an officer, or lodge complaints, or seek such assistance as circumstances required. Officers from other cities and towns have been under the necessity heretofore of searching for local police assistance (until some stray officer could be found) when immediate aid was of the utmost importance. Lost children, run-aways, accidents and the many causes for action on the part of the police have heretofore devolved upon a divided and consequently

inefficient police service. As at present provided for, the Police Department as a working organization, though small, is established upon a basis which calls for continued support and recognition. Officers may be changed, but the organization if continued, as all law-abiding citizens should demand and provide for, must, in the nature of things, meet just the want which has for a long time been felt, of guaranteeing the exact, prompt and efficient assistance which the divided and inefficient service heretofore mentioned has failed, and must fail, to guarantee or provide for. During the eleven months last past an officer has been on duty at all times through the day and evening, and when not engaged in actual police duty away from the office, has been unremittingly engaged in the innumerable duties heretofore distributed among various police officers or left undone. The present Board of Selectmen have placed the Police Department in line with the towns in our immediate vicinity, and upon a basis which the best sentiment of the community in warm terms sustains, and which I have no doubt is the wisest move in the right direction, whoever may be called to administer the office.

The following recommendations are offered as necessary and important.

FIRST. Three new cells should be built for the accommodation of persons who apply for lodgings, so that the present accommodations may be used solely for the legitimate purpose for which they were constructed.

SECOND. An entrance to the lockup should be constructed from the outside ; a reasonable investigation of this proposition will disclose the necessity for its recommendation.

I desire in conclusion to add my personal and official acknowledgement to the night officers for the faithful and efficient manner in which their duties have been performed, and for various additional and voluntary offices tendered by them, and accepted for the public good.

CHARLES E. NILES, *Chief of Police.*

JAN. 31, 1890.

Report of Appropriation Committee.

This Committee was in session during two evenings, and met the representatives of the different departments, and after conference with them, and careful consideration, would recommend the following appropriations for the ensuing year :

Support of Schools,	\$17,800 00
School Contingent Fund,	1,800 00
School Text Books and Supplies,	1,200 00
Poor Department, the income from farm and	5,500 00
“ “ repairs of buildings,	500 00
Fire Department,	2,500 00
Street Lamps,	2,100 00
Town House Expenses,	1,600 00
Highways and Bridges,	8,000 00
Concrete Sidewalks and Crossings,	500 00
Repairs of Concrete Sidewalks and Crossings,	500 00
Salaries of Town Officers,	2,650 00
Police Department,	1,000 00
Night Watch,	1,800 00
Miscellaneous Expenses,	3,000 00
Beebe Town Library, the dog tax and	400 00
Public Reading Room,	175 00
Common and Park Expenses,	750 00
<hr/>	
Total,	\$51,775 00

The recommendation as to the appropriation for salaries of Town Officers is made upon the following basis of division :

Town Treasurer,	\$200 00
Town Clerk,	100 00

Board of Selectmen,	400 00
“ Road Commissioners,	200 00
“ Assessors,	400 00
“ Overseers of the Poor,	250 00
“ School Committee,	250 00
“ Auditors,	115 00
“ Registrars,	110 00
“ Fire Engineers,	75 00
“ Health,	50 00
Tax Collector,	500 00
<hr/>	
Total,	\$2,650 00

No recommendation is made as to the appropriation for payment of Town Debt and Interest as the subject is fully and carefully considered in the report of the Town Treasurer to which we refer voters for information. Messrs. Thos. Winship, W. F. Young, S. S. White and Geo. L. Kilgore, having been absent from the meetings of the Committee, do not sign this report.

Respectfully submitted,

ANNUAL REPORT OF SUPT. OF FIRE ALARM.

To the Honorable Board of Selectmen.

GENTLEMEN:—The Wakefield Fire Alarm consists of ten miles of line, one thirty-cell gravity battery, eight fire alarm boxes located as follows:

Box 12,	on pole at Greenwood.
“ 15,	“ Junction.
“ 23,	“ near Hamilton School.
“ 35,	“ Post Office.
“ 37,	“ Corner Salem and Main Streets.
“ 41,	Corner of Cordis and School Sts., N. Ward.
“ 54,	Junction of Lowell and Salem Sts., E. Ward.
“ 31,	on Rattan Company's Office.

One tower striker on High School, one whistling machine at Rattan Factory, one steam gong at Rattan Factory, one house tapper at Hathaway's Stable, one galvanometer at Hathaway's Stable, one break circuit clock at Centre Depot, one break circuit key in High School building for school service, two-cell La Clance battery, one test bell for testing boxes.

SUPPLIES AND TOOLS.

Thirty zincs, small lot blue vitriol, five pounds sal. ammoniac, twenty 6x8 glass battery jars, twelve glass insulators, fifty feet No. 9 telegraph wire, two switch pins, small lot braided wire, two dozen key box glasses, one pair steel spurs, one pair stub steel plyers, one vice and strap.

On May 11th, as per vote of the town at the annual meeting, an 18 inch gong was placed upon the Engine House at East Ward, at an expense of \$82.55.

On May 18th, the boxes were painted, and a break circuit key was placed in the clock at the Centre Depot, so when the clock should get out of repair the town could still have the standard time.

Your Superintendent has arranged in case of a large fire, the third alarm calls aid from Reading.

Standard time will be given by one blow at 9 A. M.

5—5 will be struck at 7.45 A. M. for no school in forenoon, same at 11.55 for no school in afternoon.

May 12th, Mr. James Graham was hired as assistant on fire alarm for one year to look after the alarm during the day as business takes the Superintendent out of town.

May 30th, set pole and placed gong on front of Greenwood School House. This gong was borrowed from G. M. Stevens and is not the property of the town.

The alarm was used seven times during the month of May, four times for brush fires and three times for school service. The alarm was not used during the month of June. The alarm was used three times during the month of July, and a house tapper was placed in the Chief Engineer's house on Pleasant Street. The alarm was not used during the months of August and September. The alarm was used once for fire during the month of October.

November 1st, the Wakefield Rattan Company requested that a fire alarm box be placed at or near the Factory, and as they make no charge for steam, to blow the whistle, box 31 was placed on their office for their use in case of fire. Cost of running line, box and labor, \$48.13.

The alarm was not used during the month of November. The alarm was used once during the month of December for fire.

There have been during the year, several wild cat blows caused by outside parties breaking the line, moving buildings and derricks and a jar.

I would recommend that the line be extended and boxes placed so as to protect the new houses on Converse Street and Cowdrey's Hill. This can be done by running a single wire and forming a large loop, with as many boxes as the town may choose to have. By running the line in this way all of the west portion will be amply protected.

I would also recommend that the alarm be extended, and a box placed at or near the corner of Richardson and Melvin Streets. This can be done by looping the same as the West Ward.

There is need of a striker or large gong in the West Ward, for in windy weather it is impossible to hear the present alarm.

The battery has been cleaned and renewed as occasion required during the year. The boxes have been tested and the system kept in perfect working order.

In closing, I would take this opportunity to thank the Engineers and Town Officers in general for courtesy and kindness during the year.

Respectfully submitted,

A. S. COBB,

Superintendent Fire Alarm Telegraph.

WAKEFIELD, MASS.

REPORT OF FOREST FIREWARDS.

During the twelve months ending Dec. 31, 1889, there have been thirty-seven fires, viz. :

January,	5	July,	1
February,	0	August,	0
March,	9	September,	1
April,	10	October,	0
May,	7	November,	1
June,	2	December,	1

Three hundred persons have been employed at an average expense of 51 cents and a fraction, or a fraction over \$4.14 per fire. Three of these fires were well under way before the people were properly alarmed, which made the expense correspondingly heavy, the three fires costing \$60.75.

The Fire Department have been needlessly called to four wood fires, these calls being given without the knowledge of the Firewards.

The number of fires and the expenses in each ward were as follows :

Centre District, 5 fires,	\$5 00
North " none,	
South " 7 fires,	62 00
East " 12 "	40 75
West " 4 "	8 25
Woodville " 9 "	37 50
Total,	<u>\$153 50</u>

Thirty of the town's Johnson Pumps were used at these fires, and fifty of the town's buckets and fire cans.

RECAPITULATION.

Appropriation,	\$150 00
Expense of 37 fires,	\$153 50	
Printing Precaution Notices,	1 09	
Repairs on pumps,	7 20	
						<u> </u>	<u>\$161 79</u>
Amount overdrawn,	<u>\$11 79</u>

JOHNSON PUMPS.

In compliance with the vote of the town at its annual meeting the Forest Firewards herewith furnish a list of the present locations of the town's Johnson Pumps now numbering sixty-eight, as follows :

ENGINEERS' REPORT.

To the Honorable Board of Selectmen :

GENTLEMEN, — The annual report of the Engineers of the Fire Department is herewith presented, giving details of the force and apparatus, records of the fires and alarms which have occurred during the past year, amount of losses and insurances of property as near as could be ascertained.

The force of the department consists of three Fire Engineers, one who is Superintendent of Fire Alarm, one Engineer of Steamer, one Assistant of Steamer, one stoker who is steward, thirty hosemen, fifteen Hook and Ladder men, and two Volunteer Hose Companies, divided as follows :

STEAMER LUCIUS BEEBE, NO. 1.

Foreman, Levi Flanders. One third-class Silsby Steam Fire Engine, one supply wagon for coal, one four wheeled hose carriage carrying 650 feet cotton hose. Thirteen men.

April, 1889, the steamer was sent to the Silsby Man'fg Co., Seneca Falls, N. Y., and provided with a new set of smoke flues, crown sheet in the boiler and fire box. The engine is in first-class condition.

WASHINGTON HOOK AND LADDER CO., NO. 1.

Foreman, Philip J. Flanders. One truck carrying 153 feet of ladders, one life saving or jumping net, fifteen men.

J. H. CARTER HOSE CO., NO. 1.

Foreman, W. C. Allen. One two-wheel hose carriage, carrying 650 feet cotton hose, ten men.

C. WAKEFIELD CHEMICAL ENGINE CO., NO. 2.

Foreman, Thomas Gould. One chemical engine carrying 100 feet, one inch rubber hose, ten men.

Yale Hand Engine in charge of the Veteran Fireman's Association.

THE VOLUNTEER HOSE CO., NO. 2.

Foreman, William E. Cade. Have 600 feet cotton hose in their charge and maintain their independent company. They deserve honorable mention, and have the thanks of the Engineers and the citizens of the town for their active service.

GREENWOOD HOSE CO., NO. 3.

Foreman, Daniel Evans. One two-wheeled hose carriage carrying 500 feet cotton hose, 10 men.

Your Engineers placed one hose carriage in the stable of G. H. Hathaway.

The total amount of serviceable hose now in use by the several companies is 3,050 feet.

One fire extinguisher located at Town House, one Lowry hydrant head in closet south side of vestibule, Town House. Base of hydrants head at intersection of Main and Lincoln Sts.

*Fire Record from February 1, 1889 to February 1, 1890,
to which the Department responded promptly.*

March 30. Alarm from box 37. Dwelling house owned by Mr. H. Obst, occupied by Mr. W. Jones. Defective chimney. Loss, \$200. Insured \$500.

April 10. Alarm from box 12. Seven cords oak wood burned. Oak street, Woodville.

April 10. Alarm from box 12. Brush fire. Myrtle street, Greenwood.

April 11. Alarm from box 12. Grass fire, no damage.

April 20. Alarm from box 54. Brush fire. Wiley street, Montrose.

April 24. Alarm from box 35. Three boys lost. At the sound of the fire alarm the boys ran from a barn where they had been in hiding, the anxiety of their parents thus relieved.

May 18. Alarm from box 35. Brush fire. Montrose.

July 4. Alarm from box 54. False alarm, rung by an unknown person.

July 4. Alarm from box 54 at John Hartshorne's, Main street. No damage.

Sept. 21. Alarm from box 41. Stable owned by Mr. F. H. Laetsch. Loss, \$330. Insured \$100.

Oct. 12. No alarm. Coal on fire at the Wakefield Rattan Co., damaged, \$6,600. Insurance allowed \$6,100.

Dec. 27. Alarm from box 12. House and stable owned and occupied by Mr. G. L. Kilgore, Greenwood. Loss \$10,150. Insured \$5,800.

FIRE ALARM TELEGRAPH.

We have added during the past year one alarm box, one 18-inch gong, one 6-inch gong. There are nearly ten miles of wire, one Electric Clock, five fire-alarm gongs, eight fire alarm boxes, located as follows :

- Box 12,—Greenwood.
- “ 15,—Junction.
- “ 23,—West District.
- “ 31,—Office Rattan Factory.
- “ 35,—Post Office.
- “ 37,—Cor. Main and Salem streets.
- “ 41,—North Ward.
- “ 54,—Montrose.
- “ 55,—No School.

Electric Clock at Centre Depot in care of Mr. L. B. French, Station Agent, who has the thanks of the Engineers and citizens of the town for testing the wire daily by one blow, giving standard time at 9 a. m.

One 10-inch double bell steam gong on No. 2 building at the Wakefield Rattan Co.; one bell striker on High School building, Main street; one 18-inch gong on Chemical Engine house, Montrose; one 6-inch gong on Chief Engineer's house, Pleasant street; one 6-inch gong in Hathaway's stable; one 18-inch gong on Greenwood school-house; it is loaned to the town on trial by Mr. G. M. Stevens.

On account of the severe storms and high winds, it has required close attention to keep it in working order. The Stevens' Fire Alarm system works satisfactory. The Wakefield Rattan Co. have furnished steam for the 10-inch gong since 1887. Without making any charge they concluded to have a fire alarm box to connect with the fire-alarm telegraph. Your Engineers placed Box 31 for their use.

RECOMMENDATIONS.

Your Engineers think it advisable for the town to dispose of the four-wheeled hose carriage, which has been in service for more than a score of years, and to purchase one horse wagon that will carry 1,000 feet hose and life saving apparatus that the law requires us to carry; also that the fire alarm telegraph be extended, placing one fire alarm box at or near the Gas House, and extend to the Town Farm with a fire alarm box, and one at the corner of Melvin and Bennett streets. The gong on the Greenwood School-house, loaned by Mr. Stevens on trial, we would recommend to be purchased for the sum of \$60. Also 500 feet of cotton hose.

The double-nozzle fire hydrants, leased by the town, are warranted by the Wakefield Water Co. to be in good condition. Many of them were inspected by your Chief Engineer and found satisfactory.

For Fire Department expenses see Auditors' page. For the ensuing year would recommend the sum of \$2,500 be raised and appropriated for the use of the department.

In conclusion we desire to express our thanks to the Selectmen, the members of the fire departments, and citizens of the town who have so cheerfully assisted us in all our efforts to make the department successful.

Respectfully submitted,

OWEN CORCORAN, *Chief*,
ROGER HOWARD,
ALONZO S. COBB.

Engineers.

REPORT OF BOARD OF HEALTH.

Our Board held its first meeting soon after election, and organized by electing Mr. Wiley chairman, Dr. O'Leary secretary, and Mr. Cate health officer.

It was determined at the beginning of the year that the rules of the Board should be strictly enforced and a vigorous policy adopted for the year's work.

As near as possible this policy has been carried out, but owing to the absence of different members, (there being at one time, in mid-summer, only one member in town), the work has been somewhat broken up. However, the health of the town has been carefully looked after, many nuisances investigated and abated, and several new and important rules added to the Regulations. A rule that has been enforced this year is that requiring the reporting of contagious diseases and placarding of houses containing the same. The swine question has been handled with good results.

NUISANCES.

Many minor nuisances have been reported and abated this year, and several more important ones have been attended to.

The ditch of stagnant water on Railroad street, situated on the adjoining estates of Messrs. Rayner, Eaton and Wiley, during the summer became offensive to sight and smell, and was viewed by the Board. The question of whose business it was to abate it was a complicated one, and the Health Officer was at a loss to know upon whom to serve notice to abate. The stagnant water was caused by the blocking up of a drain pipe put in by the town some years ago, and yet the nuisance was on the land of the owners thereof. The matter was finally settled by the town taking up and repairing the drain, so that the nuisance was speedily abated.

A nuisance on Richardson street that had been bequeathed this year's Board by the retiring Board, was promptly and effectually settled. An effort has been made to improve the Lake street district by opening the culverts and draining the land by allowing the water

to flow off. The results have not been entirely satisfactory for several reasons, among them being the emptying of the Water Co's overflow pipe on this land, and the extreme height at which the water in Crystal Lake has been held. We have no doubt this matter will soon be properly attended to, as the town is now taking an active interest in draining the district.

THE SWINE QUESTION.

It has been thought advisable by the Board of Health in past years to prohibit the keeping of swine within the centre of the town, but no action was taken and no rule to that effect made. One of the first things considered by us this year was this very important matter and we decided to get the opinion of the citizens of the town who were interested, by giving a public hearing on the question.

Accordingly a hearing was held April 24, and the opinion of those present was asked. The attendance was small, only those directly interested being present, but the subject was thoroughly discussed and all agreed that it was a good thing and should be carried out with certain restrictions. After the hearing the Board went into executive session and voted to adopt Reg. 9, and to have it go into effect July 1, 1889.

We desired to be as lenient as possible in the matter, consistent with the public health, and to give those who had swine within the limits an opportunity to dispose of them to advantage, so for this reason did not have the new rule take effect before July 1.

As this rule was a new and strict one the Board expected some trouble in enforcing it. Swine at the best cause more or less bad odor, but the swine within the limits kept the Board of Health in mal-odor during all the summer months. While the greater part of those upon whom we served notice to remove their swine, readily and cheerfully complied, we are sorry to say that in some cases we met decided opposition, and one party went so far as to prepare to contest the case in law, although he finally, after causing us much trouble, complied with the regulation.

We would recommend to future Health Officers the strict enforcement of Reg. 9, as our town is rapidly growing and the population is becoming more dense, especially at the centre, so that the future health of the inhabitants demands that this matter be carefully looked after. "Public health is public wealth," and we cannot be too active in matters relating to our sanitary welfare.

DISEASES AND DEATHS.

Our town still maintains its high average of health, and our citizens are to be congratulated on the freedom of the town from an epidemic of any contagious disease during the past year. To be sure "La Grippe" visited us as it did the rest of the world, but even with this disease we escaped more fortunately than most of the neighboring towns and cities. The number of deaths resulting from Influenza was very small, if any could be directly attributed to it, while about us its victims were counted by the score.

The number of contagious diseases reported was small, and in this we have been fortunate as some of our nearer neighbors have been afflicted with severe runs of Diphtheria and Scarlet Fever.

For the year there were reported as follows :

Measles,	10	cases	with	no	deaths.
Diphtheria,	8	"	"	4	"
Scarlet Fever,	5	"	"	no	"
Typhoid Fever,	3	"	"	2	"

An examination of the mortality list shows that as usual Consumption leads, there being 16 deaths from this cause, while Heart Disease is a close second with 14 deaths. The year has been marked by many sudden deaths, chiefly from Heart Disease and Apoplexy, a number of familiar faces having been removed by these causes.

The number of deaths which occurred from different causes during the year 1889 is as follows :

Consumption,	16	Meningitis,	4
Heart Disease,	14	Diphtheria,	4
Apoplexy,	7	Cholera Infantum,	4
Still Birth,	6	Inanition,	3
Paralysis,	6	Old Age,	3
Cancer,	5	Membranous Croup,	2
Pneumonia,	5	Premature Birth,	2
Marasmus,	4	Typhoid Fever,	2

R. R. Accident, Puerperal Uraemia, Debility, Renal Hemorrhage, Pleuro-Pneumonia, Jaundice, Entero-Colitis, Thrush, Scrofula, Accident, Congestion of Lungs, Capillary-Bronchitis, Inflammation of Lungs, Bright's Disease, Rheumatism, Acute Bronchitis, Cancer of Liver, Acute Inflammatory Fever, Diabetes, Congestion of Brain, Drowning, Cancer of Stomach, Anaemia, Chronic Bronchitis, Exhaustion, Unknown Cause, 1 each. Total, 113.

SUGGESTION.

The official and active agent of a Board of Health is the Health Officer. To him is assigned all the real work of that body and he is the one who has to investigate complaints, reason with his fellow-citizens and often command them to conform with the rules and abate nuisances caused by them or on their property. This is not a pleasant duty at any time, for the party responsible for the nuisance is rarely willing to admit that it is deleterious to public health, and even if he does, is slow to abate it, stopping long to consider the expense of cleaning up, and waiting to see if his neighbors and the Board of Health will not forget all about it.

During the hot summer months when complaints are coming in from all sides of the town the position of the Health Officer is not an easy one, and he finds his hands full of public business to the injury of his own private affairs. Each case takes time to properly investigate and must be followed up to see that the parties comply with the law.

The experience of the present and past Boards leads us to offer a suggestion on this matter, which, if carried out, will no doubt improve the sanitary condition of the town by facilitating the work of the Health Officer.

We would suggest that the position be held by some town official who gives his entire time to public duties, as for instance, the Chief of Police or the Sup't of Streets, (though not necessarily these.)

Either of these officials being about the town continually would be able to not only readily investigate nuisances reported but also discover those not reported but which, nevertheless, should be abated. Their entire time being given to public duties we think they would be able to produce more satisfactory results than are now attainable.

Respectfully submitted,

J. B. WILEY,
J. A. O'LEARY,
J. M. CATE,

Board of Health.

WAKEFIELD, Feb. 10, 1890.

OVERSEERS' REPORT.

The duties and responsibilities of Overseers of the Poor are sometimes simple, often complicated, but always imperative. One applicant may be reasonable in requests for aid, while another will urge his demands regardless of reason or justice.

In some cases, after much perplexity, little satisfaction is gained in either giving or receiving; our aim in all cases is to give reasonable and needful aid without encouraging a spirit of pauperism.

The necessities of the unfortunate and needy or the criticisms of generous minded persons in their behalf, cannot be fully met under the present statutes governing the action of the Overseers of the Poor. The foregoing is in brief the experience year after year, but more especially the last year when largely increased calls have required greater caution and more economy on the part of this Board. The examinations required in many cases to determine place of settlement have taken much time but have been faithfully conducted.

We have declined to pay for clothing for patients in Insane Hospitals the past year, the opinion of the Attorney General being that such expenses are included in the amount of \$3.25 paid per week for support. The Danvers Hospital still sends bills for clothing and breakage.

We will not repeat the facts in regard to the farm given in our extended report of last year. There are certain matters, however, that deserve mention as bearing on the receipts from the farm. The continued wet weather during 1889, reduced the potato crop from 250 bushels to 80. It has also prevented the getting out of meadow muck which has necessitated the purchase of a certain amount of manure. The price of pork and pigs has been so low the past year as to reduce the receipts from that source about one third.

In spite of the wet weather the hay crop was got in, in good order. The usual quantity of wood has been cut the past winter, some 40 cords. The general policy of improving the condition of the farm has been continued during the past year. Another half acre of meadow land along Saugus River has been reclaimed. About 30 rods of wire fencing has been put in.

Our Almshouse, so far as cleanliness, and care on the part of the superintendent is concerned, is pronounced by the State Inspector as second to none in the State. We have engaged Mr. Donald as keeper for the coming year.

For a detailed report of the expenses at the farm and for outside relief we refer to the figures we have furnished the Auditors.

During the past year we have aided individuals and families representing 180 persons, outside the Almshouse.

In conclusion we wish to say that the painting and shingling of the house the coming year is an absolute necessity.

Respectfully submitted,

SILAS W. FLINT,
HIRAM EATON,
THOMAS KERNAN,

WAKEFIELD, February 10th, 1890.

Overseers of the Poor.

REPORT OF FISH COMMITTEE.

Our fourteenth annual report will be brief, as there are few facts worthy of record in connection with the past year's fishing in Lake Quannapowitt.

Through the whole season the water in the lake was at an unusual height, and to this we attribute the fact, that fewer fish than usual were taken. Many large pickerel were caught, and Mr. J. C. Harts-horne reports one weighing 6 lbs., which is the largest ever taken from the lake.

While the high water interfered somewhat with the season's sport, it was the means of bringing the alewives from the sea, in much greater numbers than ever before. The whole number of permits sold was 350, but so few returns have been received that their tabulation would be of little value.

We estimate the season's catch at 3,000 lbs., which is, undoubtedly considerably below actual results.

Respectfully submitted,

W. S. GREENOUGH,
SAM'L PARKER,
WILL H. WILEY,

TRUST FUNDS.

EZRA EATON BURIAL LOT FUND, \$100.

This fund was a gift to the town, March 2, 1857, the income of which is used at the discretion of the Board of Selectmen to keep in repair the burial lot of Mr. Ezra Eaton. The sum of \$2 has been expended by the Selectmen the past year.

THE FLINT MEMORIAL FUND, \$1,000.

This fund from Mrs. Harriet N. Flint, is for the benefit of the Beebe Town Library, the interest thereon to be expended in the purchase of books.

The sum of \$55 as eleven months' interest to Feb. 1, 1890 has been paid to the Trustees of the Library.

DR. F. P. HURD LIBRARY FUND, \$2,500.

This fund is for the benefit of the Beebe Town Library, and is invested in coupon notes of the town of Wakefield, bearing interest at the rate of four per centum per annum.

C. WAKEFIELD LIBRARY FUND, \$500.

This fund is also for the benefit of the Beebe Town Library and is invested in a coupon note of the town of Wakefield bearing interest at the rate of four per centum per annum.

JONATHAN NICHOLS' TEMPERANCE FUND, \$1,000.

This fund was a gift to the town on certain conditions as described in the vote accepting the same. The conditions are such that any young man of Wakefield, who files his name with the Town Clerk before he is sixteen years of age, and declares his intention not to drink intoxicating liquors, and not chew or smoke tobacco, until he shall become twenty-one years of age, and shall have kept his pledge until that time, shall receive from the income of this fund ten dollars together with a certificate of commendation from the Selectmen.

The Town Clerk has now on file the names of 199 young men who have thus pledged themselves.

C. SWEETSER LECTURE FUND, \$10,000.

Invested as follows :

Town of Attleboro, 4s due 1897, 5 Bonds, \$1000 each,	\$5,000 00
Town of Brookline, 4s due 1893, 5 Notes \$1000 each,	5,000 00
	<hr/>
Total,	\$10,000

Income from above one year, \$400, which has been paid to Thomas J. Skinner, Treasurer Sweetser Lectures.

This fund is for the purpose of providing such lectures as will tend to improve and elevate the public mind and to impose a reasonable fee for admission to such lectures and pay over the net proceeds of the same to such charitable organization in said Wakefield, as the municipal officers of said town may designate, to be distributed among the worthy poor of said town.

The fourth course, season of 1889-90, has been in charge of Jacob C. Hartshorne, Esq., he having been appointed Curator by the Board of Selectmen, and has been more largely attended than any course thus far. The course tickets for eight lectures were placed at 50 cents each and single admission 10 cents. Two extra lectures have been given to which those having course tickets were admitted, making ten lectures for fifty cents. There were 293 Course tickets sold and the evening admissions have varied from 52 smallest to 195 largest, up to the present time (Feb. 1.)

On account of the financial year of the town closing one month earlier than heretofore, the course was not completed in season to render the financial statement in this report. It will be given in the local press at the close of the Course, and will also appear in the next annual Town Report.

The proceeds of the first three courses amounting to \$75.33 still remains in the Treasury, awaiting the action of the Selectmen for its disposal, in accordance with the terms of the bequest.

The Treasurer would recommend that the town appropriate the sum of \$3000 for interest upon the Town Debt. In my last report I stated that the principal of the debt was so arranged and provided for by previous votes of the town, that it would be annually met by taxation without any further special appropriation therefor, but the action of the town, at the meeting held July 22 last, in rescinding certain votes relative to the debt, will necessitate some action by the town to provide for the payment of a portion of the debt maturing during the coming year. The portion requiring such provision is as follows :

The Hamilton School House Loan,	.	.	.	\$1500 00
" Park Loan,	.	.	.	1000 00
" Highway Loan (land near Depot)	.	.	.	1337 50
				<hr/>
				\$3837 50

These can be provided for in two ways ; either by a vote to raise and appropriate this amount at the annual meeting, or by a vote to refund the same. But in case of refunding in order to comply with the law, as I understand it, the loans for the Hamilton School House and the Park, should be made payable *before* the years 1893 and 1894 respectively, and as we have similar portions of the debt maturing each year previous to those years, it is difficult to see the relief to be gained by transferring the payment from one year to another as was argued at the July meeting. The relief can be but temporary, and in point of fact we shall have a larger amount of the debt maturing in the years 1892 and 1893 than in the present year.

For these reasons I favor and would recommend to the town, that under the article to provide for the payment of the town debt, they raise and appropriate the sum of \$3837 50 the present year. If the town decide otherwise, the other alternative is to refund under a later article which I have requested to be placed in the Warrant, and under which I shall be prepared to offer a motion.

I base my views as herein stated upon Chapter 29 of the Public Statutes, particularly sections 8 and 14. I have also submitted the situation to the Tax Commissioner who sustains me in the position I have taken.

My report as Treasurer of the Beebe Town Library will be found in connection with the Trustees' Report.

Respectfully submitted.

THOMAS J. SKINNER,

Treasurer.

WAKEFIELD, MASS., Feb. 8th, 1890.

SELECTMEN'S REPORT.

To the Citizens of Wakefield.

In presenting the report of the work of the Selectmen for the year we wish to congratulate you upon the prosperous condition of our town and the flattering outlook for its future growth and prosperity. We see on every side new buildings being erected not for speculative purposes alone but for actual settlement in our town, of people who are coming here from surrounding towns and cities to dwell and share with us the many natural advantages which our town possesses. They receiving the encouragement also from our public spirited and valued citizens who are ever ready to welcome the stranger and friend.

No small amount of money is being brought to our town and invested in real estate and in building numerous and commodious dwellings, and in the construction of new streets. A large outlay of money is being expended in substantial public buildings. In looking about it is easy to discover substantial evidences of contemplated new and fine buildings such as the Grand Army Memorial Hall, the new brick and stone depot and others, altogether largely increasing our taxable property.

FINANCE.

For the detailed account of the several departments of the town we respectfully refer to the reports of the various departments. For a summary of appropriations and expenditures for the year we refer to the Auditors' final balance sheet. For the statement of the town's liabilities and available assets we refer to the Treasurer's report.

INSURANCE.

A policy on the town house fixtures amounting to two thousand dollars expired in June last, and it being the only insurance on the fixtures we thought it best to have the same renewed. One policy on the town house for five thousand dollars expired in September and was not renewed, the town having voted to reduce the insurance.

POLICE.

Mr. Charles E. Niles was re-appointed Chief of Police with a salary of six hundred dollars per year, he to devote his entire time to the duties pertaining to that office. We are well satisfied that the change in that direction has proved advantageous to the town. A much needed and suitable office was fitted up for the accommodation of the department. Too much praise cannot be given him for his unremitting and very successful prosecution and suppression of illegal liquor traffic and the consequent lessening of disorder and crime which is agreeably perceptible in our town. Messrs. Vannah and McFadden have been continued as night watch the past year who have rendered the same vigilant care as in former years.

CLAIMS.

The suit of Mr. John Millerick against the town for damages said to have been received by him on account of defective condition of sidewalk on Crescent street, came to a trial in court, and a verdict given to the town. The suit brought against the town by Miss Hattie D. M. Clark for injuries said to have been received from an alleged defect in the sidewalk on Elm street, was decided by jury in court, against the town, and damages to the amount of one thousand dollars was awarded her, but in consultation with the counsel for the town the Board decided it advisable to file exceptions to the ruling of the court, which exceptions are now pending.

A suit is entered against the town by Mrs. Rebecca C. Arrington for the sum of five thousand dollars for injuries said to have been received on Mechanic street, caused by reason of an alleged defect in sidewalk. The Board has engaged counsel to appear in court and defend the town. It is expected the case will be reached at an early date.

The Board received summons to appear in court and defend the town against Frank McGlory for damages claimed to have been received on account of defective condition of Railroad street at the Peoples' Ice Company's crossing. Notice has been served on the Peoples' Ice Company that the town holds them responsible for all damages and cost attending this suit. A communication has been received by the Board from Mrs. James I. Brown for a claim against the town for damages to her estate on Greenwood street caused by grading the same.

Your Board finds the expense, as inquired for at last annual town meeting, for indexing the town records since its incorporation in 1812—seventy-eight years, will cost about one hundred and fifty dollars.

The perambulation of the town lines of Wakefield, Saugus and Melrose have been attended to for the year 1889, as required by law.

The repairs on the town house have been thoroughly and well done. The slating, which was done by Mr. Gray of Stoneham, will remain good for a number of years. The frescoed ceiling in the main hall was touched up and stains removed; the upper hallways and stairways and walls tinted as also the Library, Reading Room and Court Room; the woodwork varnished and a thorough cleaning up of the whole building; in the Court Room was put a large ventilating transom over the door.

In the fall state election your Board had a new experience in meeting and providing for the new Australian system of election as enacted in Legislature in 1888, and although not perfect in all its details we realized its success and general satisfaction, and recommend its adoption at future town meetings.

The boundary lines between the town and the first parish have been established according to the transfer of deeds by the last Board. The lease of town land on Church street to Mrs. Rebecca C. Arrington has been terminated. The vote of the town has been carried out as recommended by the Committee who reported a systematic plan of numbering houses in town. Printed copies of said plan may be found with the Town Clerk. Mr. Jacob C. Hartshorne was appointed Superintendent of the Sweetser Lecture Course and he has performed the duties well and with marked success.

Your Board received a petition from the Wakefield and Stoneham street railway company for a location of tracks through Albion street which was granted them. Mr. Justin Howard has been appointed Soldiers' Undertaker as called for in Chapter 395 Acts and Resolves for the year 1889, he being acceptable to the Grand Army post of this town and a member of same.

HIGHWAYS AND BRIDGES.

At the beginning of the municipal year we appointed one of the Board—Mr. George E. Ricker, temporarily Superintendent of Streets hoping to find some man of experience in road building, but failing to agree upon any one, we made the appointment of Mr. Ricker permanent. For detailed account of expenditures in that department we refer to the report of the Superintendent of Streets.

ELECTRIC LIGHTS.

Early in the summer, application was made to the Board by the People's Electric Light and Power Company for permission to erect poles and string wires on same for the purpose of conveying electric current for electric lighting and power. A little later the Wakefield Electric Light and Power Company applied for like franchise, this Company having previously applied to the former Board of Selectmen who took no apparent action in the matter. A public hearing was given both companies. Before a discussion was reached, however, in favor of either company, the Citizens' Gas Light Company on receiving permission of the State Gas Commissioners to enter into the electric light business, then petitioned your Board for a similar franchise in the town, and after granting a public hearing in their behalf we took under consideration the merits of the three companies. Application by three out of town companies had also been received for the same privilege, but no action was taken in their behalf, feeling that home companies should have the preference. A definite conclusion was difficult of attainment by the Board owing in part to a very pronounced feeling in the community against electric lighting in our town. A strong sentiment among some of our best citizens against taking final action in the matter at present, has been urged upon individual members of the Board. We feel that there has been nothing lost to the town by making haste slowly. Improvements certainly have been made in the meantime and prices for same materially lessened.

All of which is respectfully submitted,

HENRY H. SAVAGE,
GEO. E. RICKER,
J. WALLACE GRACE,

Selectmen.

WAKEFIELD, Feb. 12, 1890.

REPORT OF SUPT. OF STREETS.

To the Honorable Board of Selectmen :

The Superintendent of Streets herewith submits the following report :

At the annual meeting the sum of \$6,000 was appropriated for general work, with two special appropriations, \$500 for Prospect street and \$500 for Greenwood street. An additional appropriation was voted at the fall meeting of \$1,000 for general work, \$800 for Summit avenue, \$300 for Myrtle avenue, and \$300 for draining the sa-called Foundry district, making a total of \$9,400 which is an increase of \$1,000 on general, and \$1,800 on special work, over last year.

Work on the streets was commenced April 10, and ended Dec. 24, covering a period of 220 working days, out of which the department worked about 180 days.

The Superintendent received \$3 per day for his services, and \$2 for his horse. Laborers, with the exception of C. H. Hart who received \$2.25, were paid \$2 per day until Nov. 1, when they received \$1.75 per day. A man and horse received \$4 per day, until July 19, after which they received \$3.50 per day.

The amount paid each person for material, etc., will be found in the financial report.

As a large part of the work on a number of the streets was done somewhat connectedly, it is rather difficult to give the exact amount expended on each street.

We give below the amount as near as could be estimated on general work per pay roll :

Lawrence St., macadamizing, \$901.88, removing soil,	
\$355.32,	\$1,257 20
Crescent and Water streets,	183 25
Summer street and Birch Hill avenue,	470 37

Smaller sums were expended in repairing streets in various parts of the town. All of the streets with one or two exceptions were scraped with the road machine. Culverts were cleaned out and gutters and sidewalks repaired.

Cordis street was found to be in a very bad condition and required considerable work, also some parts of Main, Vernon, Farm and Lowell streets.

The street scrapings were used to widen Water street, and build a sidewalk on Lowell street, besides repairing numerous other sidewalks in different parts of the town.

Owing to the heavy rains of the past season causing so many wash-outs, much extra labor was required to repair the same, especially on Main, Albion, Richardson and Melvin streets.

Melvin street had to be graded all the way down on the north side and about half way down on the south. Richardson street and Albion street at the junction with Broadway also had to be graded in order to make them safe.

Crescent Court, a new street having no special appropriation, had to be built from the general fund. The formation of the street being of clay necessitated its removal. A road bed of stone was then laid and the street graded. Crescent street to Water and Water to the railroad crossing were also graded at the same time.

The road bed of Lawrence street was found to be in the same condition as Crescent Court, and required the removal of about 2,000 loads of clay, which was used to widen Main street at Lakeside. The street was then macadamized, and is now one of the best in town. This street was expensive owing to the fact that the material had to be brought from the stone crusher pit, which is quite a distance.

Smith and Lincoln streets, around the Town Hall were graded which was a much needed improvement. Birch Hill avenue and part of Summer street were rebuilt, Birch Hill avenue being cut down, and a new road bed of stone laid on Summer street and the whole graded.

By order of the Board of Health a drain was laid on Railroad street at the junction of Church street, and a sand catcher put in.

Albion street has been graded from the Catholic Church up to Cedar street, with gravel delivered by Mr. George W. Killoran at a cost of 23 cents per load.

Broadway was graded from the pumping station to the railroad crossing with gravel delivered by N. H. Dow at 25 cents per load the work on the last two named streets being especially needed.

The gravel taken from the G. A. R. cellar was used in grading West Water street, Foundry street and repairing Main street at Lakeside. Sidewalks were also built on West Water street and Main street at Lakeside with gravel from the same cellar.

A new bridge has been built at Greenwood over the B. & M. railroad by Clark & Lee, contractors, for the sum of \$145.

Bushes and grass have been cut and railings replaced on streets where needed.

Greenwood street, Prospect street, Summit avenue, Myrtle avenue and the Foundry district all had special appropriations and for itemized account see financial report.

Greenwood street, as per contract,	\$450 00
Myrtle avenue, as per pay roll,	275 75
Summit avenue, as per pay roll,	740 43
Prospect street, per pay roll,	489 13
Foundry district, culverts as per pay roll,	240 39

Greenwood street was rebuilt by contract by Mr. Michael O'Connell. All other special work has been done by the Superintendent. The work of raising and cleaning the culverts on Broadway, Railroad, Main and Water streets has been done and the B. & M. R. R. Co. have widened and repaired the culvert on Water street under their tracks. It is now our opinion that if the water course is properly cleared the long-standing trouble will be remedied.

CONCRETE.

At the annual meeting the sum of \$500 was voted for concrete work. The contract was awarded to W. B. Ellis of Melrose for 37c. per yd. for sidewalks and gutters and 50c. per yd. for crossings. The expenditure has exceeded the appropriation (see financial report.) As a new sidewalk was needed on Crescent street the old one being too low, and new crossings were laid at the Hamilton school building, Gould and Greenwood streets and some sidewalks repaired, all this was a work of necessity of which the town had to bear the entire expense.

It was our intention to work the stone crusher but at the first of the season we did not succeed in obtaining a man who understood working the steam drill, and later on as we found stone enough at the "stone crusher pit" already broken, to build the road-bed on Lawrence street and Crescent court, and also had the gravel from the Depot, G. A. R. and Catholic Church cellars to use, and being under extra expense owing to the heavy rains of the season we found our appropriation overdrawn. So the stone crusher was allowed to sleep, but should be awakened, for in all probability the town will not be as fortunate in obtaining such a supply of good gravel as we have had this year. And we hope that the town will appropriate a sufficient sum at the annual meeting to enable the crusher to be worked and the crushed stone to be placed upon our streets in localities where most needed, particularly on Main street.

Railroad street from Church street to the gas house is in a deplorable condition and needs attention at once, and that section of Lowell street near the Lake is in much the same state; also Vernon street

should receive some attention ; and New Salem street and Main street from the bridge to S. W. Flint's in Greenwood should be graded anew. Concrete or paved gutters are needed on Prospect street, and with our limited experience we would recommend a paved gutter on a steep grade as the water very soon works under the concrete and destroys it.

Provision should be made for draining Elm street and there are also many concrete sidewalks in the centre of the town that need top-dressing. A word of explanation may be needed in regard to Summit avenue. We expended as per pay roll, \$740.43. The balance of the sum voted was expended for drain pipe, blacksmith work and tools but as we used about \$40 worth of dynamite from the stone crusher, the appropriation did not suffer by the money that was spent for tools. As the town has expended nearly \$1,900 for teams it might be well for them to consider the advantage of owning their own teams in the near future. Below we give a list of tools on hand belonging to the Highway Department :

Five setts drills 4 drills each, 1 hoe, 14 picks, 1 potato hoe, 2 grub hoes, 1 rake, 7 crowbars, 2 shovels, 2 striking hammers, 1 axe, 3 stone hammers, 175 steel tape, 2 lanterns, 1 stone drag. (For an account of soil sold see financial report.)

In closing these remarks although aware of some errors we believe that most of the work has been well done and the men with few exceptions have given a fair day's work for a day's pay.

Respectfully submitted,

GEO. E. RICKER,

Supt of Streets.

REPORT OF THE TRUSTEES

OF THE

BEEBE TOWN LIBRARY.

The Trustees herewith present the 34th Annual Report of the Beebe Town Library and Public Reading Room.

Under the new law regulating the number, method of election, and term of service of Trustees of Public Libraries, accepted by the town last year, the Board was necessarily reduced in size, but we think the welfare of the Library has not suffered thereby, as, with the exception of a few members, the duties have always been chiefly supervisory. The plan of electing but three members annually and those for a term of three years, ensures at all times the presence of some who are experienced in the work and wants of the institution.

During the year the Town Treasurer, Mr. Skinner, in accordance with the provisions of the law, has acted as our Treasurer, and the Trustees take this opportunity to express their entire satisfaction with his services, as well as their thanks for the same, it being an addition to his former labors and without any accompanying compensation.

The terms of office for which Messrs. Waterman, Mitchell and Rogers were elected having expired, it devolves upon the town to elect by ballot three new members to serve for three years each.

FUNDS.

The endowments of the Library are as follows :

The Hurd Fund of \$2500, a bequest of the late Dr. Hurd, is invested in a loan to the town at 4 per cent.

The Flint Fund of \$1000, a gift of our well-wisher, Mrs. Harriet N. Flint—would that there were more like her—is also in the possession of the town, and draws 6 per cent. income.

The Wakefield Fund of \$500, a legacy from the late Cyrus Wakefield, is on deposit in the Savings Bank at 4 per cent. interest.

Our total annual income, therefore, from our vested funds is but \$180, a small amount in comparison with the liberal endowments of some of our sister libraries. However, there's a silver lining to every cloud, and, while yearning for further benefactions, the Trustees note with twinkling eyes the increasing number of *dogs* in our town, well knowing that each new resident puppy, on arriving at the dignity which three months age imparts, will serve to swell the Library's revenue.

USING THE LIBRARY FOR REFERENCE.

The Trustees earnestly recommend to the citizens of the town that those books in the Library which may properly be termed books for reference, be more frequently consulted than heretofore.

The Library is open on Wednesday and Saturday afternoons, during which time the Reading Room is not crowded but affords ample accommodations for any having occasion to consult books, which, from being cumbersome or *starred* cannot readily be taken home.

Teachers having special topics to prepare on, scholars having compositions to write, and others having various kinds of literary work to do, can all find numbers of works in the Library which will help them, and they will ever find our Librarian not only willing to assist, but of great service in telling them what books to consult. Catalogues are always to be found on the Reading Room tables. We buy our books for *use*, not ornament, and are disappointed when we find them unappreciated.

BOOKS.

We come now to the books, by far the most important topic. In making their selection of new books the Trustees have endeavored to use their best judgment in trying to cover as large a range of subjects as their appropriation and funds would warrant. They are well aware that if the purchasing could be done by those not hampered by lack of time, as well as by those who have been able to pursue a much more general course of reading than the Trustees, the Library would be materially benefited. We have, however, made the best use of our time and talents we think.

The books are selected monthly by the chairman of the Book Committee, and voted upon at their meeting occurring upon the first Monday of each month, previous to which the several mem-

bers of the Committee have an opportunity to examine them. The Chairman frequently has names of books desired by readers handed to him, and their requests, if not unreasonable, have generally been complied with.

Among the more important additions we call attention to the following: On

ARCHITECTURE.

Convenient Houses,	Gibson.
Ventilation and Heating,	Billings.

ART AND INDUSTRY.

History of French Painting,	Stranahan.
Bench Work in Wood,	Goss.
Industrial Progress of the Nation,	Atkinson.
The American Railway,	Clark.

ATHLETICS.

Home Gymnastics,	Angerstein.
Athletics and Football,	Shearman.

BIOGRAPHY.

John Randolph,	Adams.
John Sevier, the Commonwealth Builder,	Gilmore.
John Lothrop Motley, 2 vols.,	Curtis.
Gouverneur Morris,	Morris.
Savanarola, 2 vols.,	Villari.
George Washington, 2 vols.,	Lodge.
Louisa M. Alcott,	
Cardinal Wolsey,	Creighton.
Frederick the Great,	Brackenbury.

DISCOVERY AND RESEARCH.

Norumbega,	Horsford.
The Ice Age,	Wright.
The Viking Age, 2 vols.,	Du Chaillu.

ENCYCLOPEDIAS.

Britannica, 24 vols.	
Industrial Cyclopedia,	Blakeslee.

FICTION.

Annie Kilburn,	Howells.
Sant Ilario,	Crawford.
Greifenstein,	Crawford.
The Open Door,	Howard.
Passe Rose,	Hardy.
Micah Clarke, His Statement,	Doyle.
Children of Gibeon,	Besant.
Monks of Thelema,	Besant and Rice.
Metzerodt, Shoemaker,	
A Hardy Norseman,	Lyell.
Son of a Star,	Richardson.
Reproach of Annesley,	Grey.
Two Chiefs of Dunboy,	Froude.
Two Coronets,	Tinker.

GEOLOGY.

The Earth and its Inhabitants,	Reclus.
Aspects of the Earth,	Shaler.

HISTORY.

Moorish Conquest of Spain, 2 vols.,	Coppée.
History of New England, 4 vols.,	Palfrey.
Beginnings of New England,	Fiske.
Constitutional History of the United States,	Von Holst.
The Three Germanys, 2 vols.,	Fay.
The Winning of the West, 2 vols.,	Roosevelt.
The Indian Mutiny, 5 vols.,	Kaye.
Reconstruction of Europe,	Murdock.

LITERATURE.

English Writers, 4 vols.,	Morley.
Half-hours with the Best Humorous Authors, 4 vols.,	Morris.
The World's Best Books,	Parsons.
Library of American Literature, 10 vols., Stedman & Hutchinson.	

MEMOIRS.

Diary of Philip Hone,	Tuckerman.
Journal of a Young Artist,	Bashkirtseff.
James G. Birney and his Times,	Birney.
Recollections of Mississippi,	Davis.
Father Damien,	Clifford.

NATURAL HISTORY.

Natural History of Selborne,	White.
Across Lots,	Lunt.
Walks Abroad by Two Young Naturalists,	Beaugrand.
Up and Down the Brooks,	Bamford.
Riverside Natural History, 6 vols.,	Kingsley.
Three Cruises of the Blake, 2 vols.,	Agassiz.

ORATORY.

Gov. Bullock's Speeches.	Rufus Choate's Speeches.
Speaker's Garland, 8 vols.	

POETRY.

American War Ballads,	Eggleston.
Pipes O Pan at Zekesbury,	Riley.
Asolando,	Browning.
In the Garden of Dreams,	Moulton.
Demeter,	Tennyson.
Poems,	Goldsmith.

POLITICAL ECONOMY.

Profit Sharing,	Gilman.
Co-operative Savings,	Dexter.
Money,	Platt.
Recent Economic Changes,	Wells.

TREES.

Trees and Shrubs of Mass.,	Emerson.
--------------------------------------	----------

TRAVEL.

Last Voyage of Lady Brassey.	
Emin Pasha in Central Africa.	
Thousand Miles on an Elephant in the Shan States,	Hallett.
Travels in Atlas and Morocco,	Thomson.
Untrodden Peaks,	Edwards.
Race with the Sun,	Harrison.
Among the Cannibals,	Lumholtz.

MISCELLANEOUS.

Social Customs,	Hall.
Party Giving on Every Scale.	
South and West,	Warner.
Homes of Our Forefathers,	Whitefield.
A Yankee in King Arthur's Court,	Clemens.

In addition to the foregoing our young readers have been supplied with a host of good books, in accordance with the views of the Trustees expressed in their last report, all of which will appear with many others, on the pages of the forthcoming Bulletin, supplied to readers by the Librarian at a cost of five cents each.

READING ROOM.

This institution has been maintained during the year within the limits of the appropriation granted, and has, judging from appearances, afforded much satisfaction to those who are nightly found at its tables. The attendance and order has been uniformly good and no complaints have been preferred. Very much, however can be done by way of improvement, and the Trustees hope to see their way clear towards this ere long.

APPROPRIATIONS.

The Trustees recommend that the town appropriate \$400 and the proceeds of the Dog Tax for the Library, and for the Public Reading Room \$175.

For the Trustees,

WILLIAM E. ROGERS, *Sec'y.*

ORGANIZATION OF TRUSTEES.

<i>Chairman,</i>	Sam'l K. Hamilton.
<i>Treasurer,</i>	Thomas J. Skinner.
<i>Secretary,</i>	William E. Rogers.

COMMITTEE ON LIBRARY.

Thomas Winship,	Junius Beebe,
George E. Dunbar.	

COMMITTEE ON FINANCE.

Report of the School Committee.

The School Committee of the town of Wakefield, conforming to the statute requirements, respectfully submit for the consideration of its citizens a detailed report of the condition of the public schools located within its limits, for the year commencing January 1st, 1889 and ending December 31st, 1889.

As the town appropriated, with its accustomed liberality, at its annual meeting in April, 1889, the amount of money which the committee considered necessary to secure and retain the services of competent teachers, and provide the schools with the sufficient number of text books and quantity of supplies and other incidental means necessary to their support, the several schools have maintained during the year, their usual standard of proficiency, and are at the present time in a successful condition.

A large majority of our citizens realizing that the success of young persons, who aspire to engage in after life in some useful and profitable employment largely depends upon their intelligence, and knowing also, that intelligence is the main pillar upon which this republic chiefly rests, the town has from year to year liberally appropriated from its resources, the means to provide for all children living within its boundaries, the privileges and advantages for instruction in the various branches of education, essential to perform in a proper and intelligent manner the duties of an American citizen. The common schools being the foundation upon which the future and higher intelligence of a large majority of the children in this country rests, the committee urge with earnestness as in previous reports, for all classes of citizens to support and maintain by their influence and votes the free system of public schools, and by their counsel to stimulate in the young an ambition to use their educational privileges, so as to derive all the benefits which they confer.

ATTENDANCE AT SCHOOL AND EMPLOYMENT OF CHILDREN.

The committee in their last annual report fully considered this subject, but it is evident from personal observation and informa-

tion, that many parents and guardians do not understand, that they are legally required to educate the children who are under their care and management before reaching the age of sixteen years, and the employment of such children in certain business occupations is either forbidden or regulated by law.

The attention of such parents and guardians is particularly directed to the fact, that the law requires every child between eight and fourteen years of age, for six years, to receive yearly twenty weeks schooling in some private or public school, where the branches of learning required in the common schools are taught, or has otherwise received an equivalent instruction in the same studies, unless the child is prevented from attending school or receiving instruction by some physical or mental disability.

The law relating to the employment of children between eight and sixteen years of age, for compensation, is closely connected in principle and object to the law which guarantees and should secure to every child a good common school education. This law forbids the employment of any child under thirteen years of age in any factory, workshop, or mercantile establishment under any circumstances, or to engage in any inside work, or any kind of employment for compensation during the daily sessions of the public schools in the place where the child resides, unless such child has attended school twenty weeks during the year next prior to such employment.

The law also prohibits the employment of any child under fourteen years of age in any of said establishments, or to engage in any kind of occupation for compensation, except during the vacations of the public schools in the town or city where the child resides, *unless* the employer first signs a written statement giving a personal description of the child and his intention to employ him, and a certificate signed either by his father, mother or guardian stating when and where born, date of birth and age of the child, which certificate must be approved by some person appointed by the school authorities, and certified by him, that the child can read and write and has attended school twenty weeks as required by law.

The law applies to children under sixteen years of age, when employed in any situation or manner as therein described. It is the duty of employers, parents and guardians having children under their care and management between the ages mentioned, to

furnish, prepare and sign the necessary ticket and certificate before they receive the approval of the school authorities, but as a rule during the year, children have seen the committee and requested a permit to work for Mr. so and so, followed by the statement, "he sent me for it."

The committee are not required or allowed to issue working permits, but only approve and certify to certain facts, concerning the child, known or believed to be true, in a stated manner or form which will legally authorize any person to employ the child as provided by the law.

Persons convicted of violating this law shall be punished by a fine not less than twenty nor more than fifty dollars. Many parents in town during the year having the care and custody of children between the ages described, either from pecuniary necessity or a desire to swell their bank account, have transferred their children from the school room to factories and other places of manual employment. Statistical authority informs us that 17,000 children under the age of fourteen years are employed in the state in the work of manufacturing, a large majority of whom, living to exercise the rights and perform the duties of citizenship, will bring to their work a disordered physical system and a weak intellectual ability, for it is a physiological fact that the bodily strength and mental faculties of those children who are daily confined to monotonous toil in factories and workshops and denied the school privileges provided by law, become seriously impaired before and after reaching maturity, therefore is it an advantage or a detriment to accumulate wealth by the labor of children?

"Ill fares the land to hastening ills a prey
Where wealth accumulates and men decay."

TRUANCY.

The committee are authorized to appoint two or more truant officers whose duty requires them to examine all known cases of neglect to send children to school, and to prosecute, when directed by the committee, by a criminal prosecution, any parent or guardian who violates the law relating to the schooling of children, also to investigate the cases of minor children, who are habitual truants, or wander about the streets or public resorts of the place where they reside without any lawful employment, or not attending school and growing up in ignorance. Children convicted of com-

mitting any of these offences are liable to be sent to some truant school, or other suitable situation provided for the purpose for a length of time according to the character of the offence and the reputation of the offenders. In the spring of 1889, the committee appointed Messrs. George H. Teague and William W. Bessey, truant officers, and from their report we learn, that they have investigated nearly forty cases of truancy during the year, having their attention directed to a large majority of the cases by the teachers.

The committee and officers after ascertaining the facts and circumstances connected with each case did not consider it necessary or judicious to resort to the severe measures of a criminal prosecution, but treated them with leniency and firmness, accompanied with kindness, for often it is chiefly through the failure of home training, or the want of any training at all, that this class of children are "more sinned against, than sinning," therefore in dealing with them the severe penalties of the law should not be enforced until all other means fail to restrain them from continuing in their evil course of life, for persons confined in our penal institutions for crime generally lose the respect of others, and frequently self respect, therefore care should be exercised, before this unfortunate class are treated as incipient criminals, for it has been wisely and truly said, "the first step downward is to sink in the estimation of others, the next and fatal step is to sink in one's own estimation."

NEW AND IMPROVED SCHOOL BUILDINGS.

It is generally a conceded fact among our citizens informed on the subject, that in certain localities of the town new and improved school accommodations are required to meet the present and future needs of the children herein residing.

This subject was considered by the town at its annual meeting in April, 1889, and referred to a committee of fifteen including the school committee, and their report will be presented to the town for its consideration at the next annual meeting in March. The question of necessity is obviously settled and only the question of location and expenses remains for adjustment. The school committee consider their duty performed when they have stated the facts connected with the subject, and leaving to the town, without argument, to fix the locality for the new building and to

make the necessary appropriations. The last annual school report contained the information, that certain schools located in the center of the town should be relieved from their crowded numbers and removed into more suitable and convenient accommodations. These schools comprised the Center 1st Grammar, Center 3rd Grammar, Center 2nd Intermediate and Center 2nd Primary.

The Hamilton Intermediate and the West Primary schools have been excessively crowded during the year, and the prospective growth of the town in the western locality will increase rather than diminish the necessity of providing additional school accommodations. The committee have been informed by observation and experience that parents prefer to send their children to school towards, rather than from the center ; therefore they would recommend, if the town concludes to build only one school house, to build that one of sufficient dimensions, and locate it in the center of the town, so as to conveniently accommodate the largest number of scholars.

It is difficult to harmonize all individual objections raised against building a school house in any particular locality. Therefore, as a public measure, individuals should yield their personal objections, when their public rights are not denied, which they may have to any plan or system offering the greatest convenience and most benefit to the largest number of citizens. This we believe to be the right policy of good citizenship. The Intermediate and Primary school rooms in the Franklin school house are so limited in dimensions and poorly ventilated for the number of children attending school therein, that we seriously question if a good husbandman with a moderate regard for his reputation as being a "man merciful to his beast," in providing shelter for the safety and health of his stock, would have an equal number of young animals in these rooms in their present condition.

The state authorities have called the attention of the committee to the necessity of making alterations and improvements in the building, which will remove the existing difficulty, and through the committee the town's attention is directed to the same subject.

VENTILATION.

Study of any kind, the mere act of living, is a consuming process. Air and food constitute the fuel for our bodies. If they

are poor the result will appear in languid, listless actions and feeling, and a disinclination, often a positive inability to perform our work.

If good air and an even temperature are required to maintain a healthy physical and mental system it is never more imperative than when the brain is busy and the body inactive. But that these atmospheric conditions are not always present when they are most required, will be evident to any person visiting some of our overcrowded school rooms. In these rooms a close, disagreeable odor, especially pronounced during the winter months, when windows are necessarily closed, will be found to exist.

Teachers cannot work with energy themselves nor obtain good results from their pupils without an adequate supply of fresh air.

Frequent complaints of headaches from teachers and scholars in several of our overcrowded rooms have convinced us that it is imperative that the cause should at once be removed. "The cause of the trouble is commonly stated to be the presence of carbonic acid in the air which we inhale, * * * * but so far from its being the principal evil in vitiated air, it is proved by experiment that a still larger proportion of carbonic acid than is contained in the close air of an unventilated room may be mixed with ordinary air, and breathed without inconvenience.

We must, then, seek further for sufficient causes for the foul condition of the air in an occupied room. We shall discover in it not only this deleterious acid, but in still greater proportion the watery vapor and the animal matter thrown off by both lungs and skin. This vapor contains animal matter, which seems to putrefy almost immediately after being thrown into the air. It is the source of the vile odor in ill-ventilated rooms, and, in its effects on the health, is far more dangerous than carbonic acid gas. * * * * No surer or more exact test than a well-educated nose has, as yet, been discovered to measure the amount of vitiated animal matter that is thrown into the air. The air we breathe is exhausted of its life-giving power after a few inhalations. We are then forced to conclude, from the nature of the evil, and from the imperative necessity of its entire removal, that no remedy can be successful, which does not ensure a full and complete renewal of the air in the room as often as it becomes foul or dead. Nothing less than an absolute change of the whole volume of air can accomplish the object. How often this must be done within a given time,

must depend upon the size of the room, and the number and age of the persons occupying it."

The above is quoted from a paper by the late A. C. Martin, written about twenty years ago, and sanitary experts of the present day agree with Mr. Martin in all essential points.

Prof. F. W. Draper says: "The ordinary conditions of the unrenewed air of a school room are quite enough to astonish us, if we stop a moment to think of them. For there are not only the inevitably vitiating effects produced by respiration and the constant activity of the skin in persons who are healthy and cleanly, but the additional exhalations proceeding from unclean bodies, from ill-odored mouths, from decaying teeth, from dirty clothing, too frequently accompany the school boy or school girl to the crowded room which is the scene of their daily tasks."

"The act of respiration and the emanations from the person, which, though insensibly, are constantly taking place, vitiate it to a serious extent. But all good air contains about four parts of carbonic acid gas to 10,000, which amount may be slightly increased by the admixture of human breath, without rendering it close and offensive. Suppose fifty children are confined in a school room twenty feet by thirty, and ten feet high. These children will spoil about one hundred and fifty feet of air in one minute, or nine thousand feet per hour, or *twenty-seven thousand feet in three hours*, a usual half day's session. But the room holds only *six thousand cubic feet of air, the whole of which these children would spoil in forty minutes*. Does not this simple fact show the absolute necessity of ventilation?"

Regarding the "standard of the best authorities," while they differ somewhat, as to the exact amount of fresh air necessary, it is agreed that a fair average is about ten thousand cubic feet per hour, or about thirty-three feet per minute. This is upon the basis of two hundred and fifty cubic feet of air space in the room to each scholar. If the room is small or overcrowded then the air must be changed much oftener than with the above conditions. Dr. J. G. Pinkham of Lynn, who made an extended report in the 19th annual report of the State Board of Health, on the ventilation of school rooms says:

"A reasonable estimate of the amount of fresh air required by the pupils of an ungraded school would be two thousand cubic feet each per hour. For a school room containing ten thousand

cubic feet of air-space, and accommodating forty-five pupils, this would mean that eighty thousand cubic feet of fresh air must be supplied each hour, or that the air of the room must be changed completely once in every seven and one-half minutes. The impossibility of effecting such a result in cold weather, and of keeping the room warm at the same time, with the means of heating and ventilating in common use, must be apparent to any one; and without regard to the temperature of the room, it would be difficult to effect it except by means of widely opened windows or doors, and a strong breeze blowing directly in. * * * If air should enter at the rate of two hundred lineal feet per minute—a liberal estimate—the amount supplied would be ten thousand cubic feet per hour,—just one-eighth of what would be needed. * * * and we still do not have enough to prevent the air of the room from becoming decidedly foul, and remaining so during a considerable portion of the time when the school is in session. But even this limited air supply involves a certain amount of danger in cold weather from drafts and unequal heating. The evil is not imaginary. It is extremely common for children who are compelled to sit near open windows in school rooms to complain of the draft, and to take cold from this cause.”

We might quote indefinitely from equally reliable sources, and all would agree in essential points which are not theoretical simply, but which have been proved practical and sensible.

In January, 1889, an order was received by the committee from J. T. White, Inspector, and approved by Rufus Wade, Chief of the District Police, to improve the ventilation of the High School building, the old High and Grammar school buildings, and the Franklin street building, to the standard of the best authorities.

In consideration of the fact that the town were considering the erection of a new school building, which might relieve two of the buildings, the matter by consent of the state authorities was allowed to rest for the time, but now at the end of another year we find ourselves practically in the same condition as one year ago. It is hardly to be supposed that the state authorities will as readily acquiesce in another postponement.

The act under which the above order was issued, was passed March 20, 1888 and can be found in the Acts and Resolves of that year, Chap. 149.

This law impresses one as being extreme in its provisions. But

what does it require? Simply that public buildings including school houses, shall be kept clean and supplied with wholesome air, through some approved method of ventilation, and provided with suitable water closets.

This law cannot fail ultimately to result in great good to the pupils in our schools by directing public attention and the attention of School Boards to a most important question, and one not well understood.

Chief Wade says in his annual report in regard to appliances :
 " It is no part of the duties of the Inspection Department of the District Police to designate what particular system or method of ventilation is most effective, and to insist upon the adoption of the selected scheme. The results which can be reached and determined after proper investigation are what we expect or require." Briefly stated they require the introduction to school rooms of a very much larger amount of pure air than formerly, and the removal of the foul air, and that this shall be done in such a manner as to keep the rooms of even temperature and free from drafts. Systems and appliances are left entirely to the discretion of School Boards.

In January, 1889, T. P. Perkins, civil engineer of Lynn, Mass., who had charge of the improvements in ventilation of some of the Lynn school buildings, was engaged by the Committee to make estimates of the cost of ventilating the buildings mentioned, and the results were reported at the annual town meeting in April.

The town voted to refer the matter to the School Committee for investigation and to obtain plans and detailed estimates of the expense. The School Committee employed Mr. Perkins to make those estimates, and he has submitted two plans, one being essentially the same as that used successfully in some of the Lynn school buildings by jacketed stoves ; the other plan being to heat by furnaces.

In the High School building it is proposed to heat and ventilate the entire building below the third floor by means of one piece. This plan contemplates heating by steam ; a necessity long recognized by your committee, as the furnaces now in use are inadequate even for present requirements, and it must be evident that with the supply of fresh air so largely increased, a corresponding increase of heating capacity is demanded.

The following estimates include the cost of heaters, steam apparatus for High School building, and the construction of the requisite ventilating chimney stacks and all connecting flues.

The estimates for the two systems are as follows :

JACKETED STOVES.

Old High School building,	\$1,122 00
Grammar " "	1,230 00
Franklin St. School, (present size)	804 00
	<hr/>
	\$3,156 00

BY GOLD'S HYGEIAN HEATER.

Old High School building,	\$1,809 30
Grammar " "	2,070 75
Franklin St. building,	1,300 00
	<hr/>
	\$5,180 05
Estimate for heating and ventilating the High School building (by steam)	\$3,428 00

While the second system is the most expensive to introduce, there is a very large saving in fuel and labor over the jacketed stove system.

SCHOOL BUILDINGS.

The sub-committee on prudential affairs have the general care and oversight of the school buildings for the purpose of keeping them in repair and the grounds and fences around them. The expenses connected with this department have not increased for several years, the appropriation for the past four being \$1300, and for three years previous to the last four \$2700, \$2000 and \$1500 respectively. Some of the yards require grading against the concrete walks, and new fences should be built around a portion of Academy Hill. Many of the land owners adjoining the Hill, if not all, claim that the town should pay all of the expense incurred in building the fences, but the committee do not understand that any different principle applies in this case than is generally applied when abutters build division fences between their adjoining lands, each being required to pay his proportional part of the cost.

All of the school buildings, except the High and Hamilton, should be painted for their general appearance and protection from the weather. A special appropriation should be made by the town this year for this purpose, and it would be a wise, practical measure for

the town to appropriate yearly a certain amount of money to be used at the discretion of the committee in painting the school buildings which most require it. This course of action would remove the necessity of making a large appropriation at any given time for this purpose, and keep the buildings in a better condition for the future than they have been in the past.

PUBLIC SCHOOLS.

Our report presents the record of the usual characteristics concerning our schools which have appeared in former reports.

Harmony, which is so essential to secure the desired purpose for which our schools were established and are maintained, has prevailed between the school authorities, teachers, parents and scholars. Teachers have applied themselves with fidelity and zeal to their work, the scholars have generally been faithful and diligent in their studies, and parents, if not accepting, have not complained of the results attained by the schools as unsatisfactory. Under these favoring circumstances, the progress of the several schools in their line of work has been constant and progressive, and their present condition merits public approval.

STATISTICS OF SCHOOL CHILDREN.

Number of children in town May 1st, 1889 between the ages of 5 and 15 years, as reported by Mr. William W. Bessey, census taker :

PRIMARY SCHOOLS.

Number of Primary Schools,	6
“ “ scholars	418
“ “ teachers,	8

This is one of the most important grades in our common school system and should receive that support from the public, care and attention from the school authorities, as will secure and retain that class of teachers who are especially qualified by natural and acquired abilities to manage and discipline young children when commencing their school life. It is desirable to have the services of competent teachers in every grade of schools, and more especially in this grade, for it has been truly said, "The teacher of a Primary School sweetens or embitters the waters at the foundation."

At the commencement of the fall term more scholars entered the Hamilton Intermediate School than the room would accommodate, consequently several pupils were transferred to the West Primary classifying that school into two Intermediate and two Primary grades. Increasing the number of scholars and classes required an increase in the teaching force, and Miss M. A. Currier was appointed assistant teacher. Both instructors are obliged to conduct their school exercises in the main school room, having no other place, which on account of the disturbance necessarily produced in the school by this joint action, seriously interferes and prevents the teachers and scholars from realizing the best results from their labors. Miss A. E. Tucker, assisted by Miss H. Horton, instructed the Centre 2nd Primary until the close of the Summer term, when Miss Tucker resigned in consequence of ill health. At the commencement of the fall term Miss Carrie L. Mason was appointed principal and Mrs. Florence Allen assistant teacher.

Miss E. F. Emerson, teacher in Centre Primary No. 1, after four years of successful service in our primary schools, resigned, to fill a similar situation in Malden for a larger compensation than she received from this town, and Miss Clara P. Riggs, a teacher of excellent attainments for the position, was appointed, and has had charge of the school since Sept. 10th, 1889.

INTERMEDIATE SCHOOLS.

Number of graded schools,	5.
Number of Interm. scholars attending school Dec. 31, '89,	405.
Number of teachers,	5.

This is one grade in advance of the Primary and divided into three divisions, known as the 1st, 2nd and 3rd Intermediate schools or classes.

The 1st, 2nd and 3rd Centre Intermediate Schools contain only one division while the Franklin and Hamilton schools of this grade contain two divisions, because the number of scholars belonging to any one division living within the limits of the two last mentioned school districts, are not sufficient to furnish pupils enough to make a school of suitable size. Schools of this grade are in a successful condition, and the scholars are learning "the cardinal lessons of punctuality, promptness, cleanliness, silence, industry, self-control, attention and application." Miss Lucy E. Evans, teacher of the Centre 2nd Intermediate School, after six years of faithful and effi-

cient services, resigned her position in Sept., to accept an appointment as instructor in a school at Arlington, and Miss E. R. Sanborn was transferred from Woodville school to the vacant situation.

GRAMMAR SCHOOLS.

Number of schools,	9.
Number of Grammar scholars attending school,	369.
Number of teachers,	10.

This grade is arranged into four divisions, known as the Advanced, First, Second and Third Grammar schools or classes. The Greenwood, Franklin and West schools each contain the Third Grammar and one or more divisions of the Intermediate grade, for the same cause which makes it a necessity to have different grades in some of the Intermediate schools. The general efficiency and success of the Grammar schools during the year is the combined result of duties well and faithfully performed by the teachers, and the degree of interest manifested by the scholars in their school work. Only two changes of teachers have occurred during the year in this department of our schools. Miss Mattie E. Bruce, who taught the Centre 1st Grammar until the close of the summer term, resigned, and Miss L. F. Ingram, formerly a teacher in our schools, but who had been absent for one year, at her personal request for rest and study, was appointed to fill the vacant situation. Miss C. P. Riggs, assistant teacher in the Advanced Grammar school, having accepted the teacher's position in the Centre 1st Primary, Miss Alice S. Appleton of Marblehead, a lady of excellent teaching qualifications, received the appointment to the assistant's position vacated by Miss Riggs.

UNGRADED SCHOOLS.

The ungraded or mixed schools are located in Montrose, Woodville and North Ward, and each school contains the Grammar, Intermediate and Primary grades, consisting of one Grammar, three Intermediate and two Primary classes. The number of classes in three different grades renders it impossible for the teachers to give the same thought and instruction to the pupils in each grade that scholars receive in corresponding classes in graded schools, therefore their improvement in the various branches of study which engages their attention cannot be of so marked a character as may be made

by the pupils in those schools where the instruction and attention of the teachers is less divided. The general progress and deportment of the pupils in these schools testifies that they have been taught by earnest and faithful teachers during the year. Miss E. R. Sanborn was transferred in September to the Centre 2nd Intermediate School and Miss M. A. Kalaher, formerly assistant in the same school, was appointed to fill the vacancy.

HIGH SCHOOL.

The statement expressed in the last School Report, that it was the purpose and object of the committee and teachers to create more

enthusiasm in the scholars to obtain a higher degree of excellence in their intellectual attainments, and raise the standard of scholarship, has been in a reasonable measure realized, and the school now merits, as it receives, the public confidence and regard.

All of the youth of our town, possessing the necessary qualifications, are cordially invited to avail themselves of the rich facilities which this school affords for instruction in all the higher branches of intellectual education, patriotism and morality.

The work in our High School during the past year has been one of close application and progress. No change has occurred in the corps of teachers, a cause for satisfaction,—as the frequent interruptions from such *changes* are a great detriment to the best work in any school. An endeavor has been made to improve the condition of the school in many directions. More system has been observed in the arrangement of studies, a higher standard of *scholarship* has been required, and more thorough work has been performed. Great attention has been given to the study of English, a policy in keeping with the demand of the times and the wishes of the people. The use of the Chemical Laboratory, mentioned in the last report, has proved the wisdom of the expense incurred in preparing it for use and occupation. Much interest has been aroused in scientific thought, and the valuable lessons of observation and personal investigation have been taught with signal success.

The College preparatory work has been put upon a more thorough and systematic basis and its results are gratifying. Graduates from the school in the class of '89 have passed successful examinations for entrance into Harvard University, Boston University, and the School of Technology. While the High School is not primarily, a fitting school, it is pleasing, however, to note that our young people can be prepared for higher schools of learning without extra expense to the parent, and remain under the valuable influence of the home.

Several text books which have been in use for many years, have been exchanged for later and better editions, thereby enabling us to keep our school with the advance of science and the newer ideas and methods of the present.

Believing that a hall of learning ought to be a place of attraction, the large room in the High School building was papered on ceiling and wall during the summer vacation, and curtains in harmony with the general effect of the room have replaced those which had seen

years of service. To meet the increased demand for opportunity to consult reference books and atlases, two book cases have been built in the rear of the large study room. The scholars likewise have caught the spirit of beautifying their schoolroom, and busts of Washington and Lincoln, and four large and costly pictures have been added to the ornaments of the room. These improvements added to a room originally well adapted for its purpose, and attractive in appearance, furnish for our young people a study-room which is surpassed for usefulness and beauty by few schools in the state.

The military department of the school is continuing to do splendid work, and the change from a company to a battalion was deemed wise for purpose of comparison and rivalry in drill.

The purpose of the drill is not a primary object of the school, but it is intended to assist in the physical development of the cadets, as well as being a great help in the better discipline of the school. In the future, promotion to office in the battalion will depend first of all upon deportment, second, scholarship, and third, military proficiency. Promptness and obedience should be the prominent lessons of the military drill, and an earnest effort will be made to make it a valuable aid to the efficiency of the school.

The school needs at the present time better facilities in regard to reference books. There is no modern Encyclopaedia in the school library, and other books, such as gazetteers and dictionaries are in poor condition or entirely wanting.

If the school continues to receive the liberal support from the citizens of the town as in the past, we feel sure that our High School will continue to advance in efficiency and be an honor to the town.

The Committee, acting under the State authorities, ordered a fire escape for the school, which was constructed under the direction of Mr. George H. Teague on the northerly side of the building, and meets the necessary requirements.

Wednesday evening, June 26th, 1889, a large and appreciative audience attended the exercises of the graduating class in the Town Hall, which were noted for the literary qualifications manifested by the scholars in their essays, and their pleasing and easy address in declaiming. The following is the programme of the exercises :

PROGRAMME.

- GRAND MARCH. "Alma Mater." *Ripley.*
Mozart Orchestra.
- GREETING SONG. *Rowley.*
- SALUTATORY. Emily Mabel Wright.
- DECLAMATION, "The Ballad of Carmilhan." *Longfellow.*
George Aymar Taber.
- ENGLISH HONOR ESSAY, "Beyond the Alps lies Italy."
Adah Blanche Phinney.
- SEMI-CHORUS, "Like the Lark." *Fichberg.*
- CLASS HISTORY, "A Class Reunion."
Mary Alice Knight.
- DEBATE, "Resolved, that Canada should be annexed to the
United States."
Aff. Gorge Lincoln Wakefield.
Neg. Charles Francis Parker.
- RECITATION, "The Little Stow-a-way." *Anon.*
Annie Floyd Emmons.
- SELECTION, "The Beggar Student." *Milloecker.*
Mozart Orchestra.
- DECLAMATION, "Herve Riel." *Robert Browning.*
William Augustus Gardner.
- ESSAY, "Bryant as a Lover of Nature."
Addie Frances Eaton.
- PRESENTATION, Pictures of "The Muses" and "The Aurora."
George Maude Hackett.
- DECLAMATION, "The Death-bed of Benedict Arnold." . . . *Lippard.*
Thomas Francis Madden.
- PIANO DUET, "Qui Va La?" *Sidney Smith.*
Edith Rebecca Marshall and Hattie May Godfrey.
- ORATION, "The New England Town-Meeting."
Edward Stacey Mansfield.
- RECITATION, "The Jonesville Singin' Quire." *Josiah Allen's Wife.*
Fanny Isabella Crosby.
- CLASS PROPHECY, "Old Ocean's Song."
Isabel Gertrude Flint.
- SEMI-CHORUS, "O'er the Waters." *Rowley.*
- ESSAY, "The Value of Thought."
Emma Brown Skinner.
- VALEDICTORY, "The Sea ! The Sea !"
Fred Howes Anderson.
- PRESENTATION OF DIPLOMAS.
- CLASS ODE. Written by ABBY OAKES FULLER.
- BENEDICTION.

NAMES OF GRADUATES.

CLASSICAL COURSE, FOUR YEARS.

Fred Howes Anderson, Fanny Isabella Crosby, Annie Floyd Emmons, Isabel Gertrude Flint, Abby Oakes Fuller, William Augustus Gardner, Emily Mabel Wright.	Hattie May Godfrey, Mary Alice Knight, Edward Stacey Mansfield, Edith Rebecca Marshall, Emma Brown Skinner, George Aymar Taber,

TEXT BOOKS AND SUPPLIES.

The town granted the School Committee for the purchase of text books and supplies fourteen hundred dollars, and the town received from the sale of old books ninety-four dollars and seventy-three cents which was appropriated by the committee for this object. The following schedule contains the number and kind of books and supplies, together with the price of each, which have been delivered to the several schools by a written order from each teacher and a receipt given for the same and both order and receipt are on file in the office of the committee :

TEXT BOOKS.

CONCLUSION.

The school work for the Committee yearly increases in proportion as the number of schools grows larger and new duties are imposed by additional laws. Much time, thoughtful attention and careful work are required to select, purchase and deliver text books and supplies and attend to the prudential affairs for twenty-three schools, containing nearly twelve hundred pupils, examine and adjust difficulties which frequently arise between parents, teachers and scholars, grant permits for children to enter school and transfer them from one school to another, sign certificates for them to engage in some business employment, employ teachers and arrange their monthly pay roll, visit each school, not as the law requires on some day in the first and last two weeks of the school, and also once each month, but as necessary circumstances may require and opportunity permit, and attend to numerous other matters relating to and connected with the several schools. The time has been, is now, and ever will be, while the number of schools and children attending them, remain as at present, that these duties can be better attended to and performed for the better and higher interests of the schools, town and state by one qualified person, specially designated and paid for that purpose, than by any number of men, having the best qualifications for that position, but whose time and attention are well occupied in caring for and attending to their own individual and private business.

The term of service for which Mr. Selim S. White and Mr. Melvin J. Hill was chosen, terminates at the close of the present school year, creating two vacancies in the School Board, which the town must supply at its next annual meeting.

The Committee heartily thank the parents, teachers and scholars for their concurrent efforts in aiding and assisting them in their official duties, which though arduous, and at times vexatious, have been made easy and pleasant.

Respectfully signed,

SELIM S. WHITE, *Chairman*,
ASHTON H. THAYER, *Sec'y*,
MELVIN J. HILL,
WILLIAM E. ROGERS,
CHARLES J. RYDER,
EDWARD A. UPTON.

AUDITORS' FINAL STATEMENT.

During the year ending Jan. 31, 1890, the Selectmen have drawn 854 orders on the Treasurer, amounting to \$59,264.82, and representing between 11 and 12 hundred bills, which we have examined and certify to be correct. We have also examined the books of the Collector of Taxes and find them correct, and the account of T. J. Skinner, as Treasurer of the Public Library and Reading Room, which is correct. The receipts of all departments paying over money to the Town Treasurer have been verified. The details of expenditures in the different departments will be found on pages 97 to 132. The accounts of the Library and Reading Room are inserted between pages 94 and 95. No town orders were drawn for these bills as the law puts it in charge of the Town Treasurer if the town so elect. The amount paid out by the Treasurer on this account, \$1,365.05, and on town debt and interest, \$6,265.12, added to the amount of town orders drawn as above, \$59,264.82, will give the total expenditures, as shown in our final balance sheet (page 132) \$66,894.99. We have examined the accounts of T. J. Skinner, Town Treasurer, (pages 68 and 69), and find them correct and well kept, with proper vouchers for all receipts and payments, and that he has a cash balance of \$2,318.77 on deposit in the Nat. Bank of South Reading. We also certify that he holds \$10,000 in town bonds as stated on page 71, (C. Sweetser Lecture Fund), and \$3,000 in town of Wakefield notes, (see page 70), representing the Hurd and Wakefield Library Funds, and has \$1,000 deposited in Wakefield Savings Bank, (C. Sweetser Burial Lot Fund).

So far as the finances of the town come under our supervision we find them well managed and we believe them to be so throughout. It only remains for the voters to exercise a wholesome economy where needed, and a prudent liberality where the honor and welfare of the town are concerned.

Respectfully submitted,

WALDO E. COWDREY,
WILLIS S. MASON,
EVERETT W. EATON,

Auditors.

WAKEFIELD, February 21, 1890.

RECORD OF TOWN MEETINGS

FOR THE YEAR ENDING JAN. 31ST, 1891.

ANNUAL TOWN MEETING, MARCH 3, 1890.

ARTICLE 1. To choose by ballot a Moderator to preside in said meeting.

Waldo E. Cowdrey was elected Moderator, and assumed the duties of that office.

Prayer was offered by Rev. Wm. F. Cook.

ART. 2. To act upon the acceptance of the reports of Town Officers as printed.

VOTED. To accept the Reports as printed.

ART. 3. To bring in their votes on one ballot for Town Clerk, Town Treasurer, Selectmen, Assessors, Overseers of the Poor, Tax Collector, Park Commissioners, Board of Health, Constables, Fence Viewers, Fish Committee, three Trustees of the Beebe Town Library, for a term of three years, Board of three Auditors, and three Road Commissioners, one for a term of three years, one for two years, and one for one year. Upon a separate ballot to bring in their votes for two members of the School Committee for a term of three years; these

ballots will be received at the same time and in the same box.

Upon a separate ballot to bring in their votes in answer to the question "Shall licenses be granted for the sale of intoxicating liquors in this town?"

Form of ballot "Yes" or "No" in answer to that question: these ballots will be received in the Standard registering box at the same time.

The Moderator appointed W. W. Bessey and I. A. Parsons to work the Patent Ballot Box.

The polls were then declared open for the reception of ballots for the various officers mentioned in Article 3 and for votes upon the license question.

VOTED. To keep the polls open until 5 o'clock, P. M.

After the close of the polls at the appointed hour the votes were counted and the result declared by the Moderator in open town meeting as follows:

VOTE ON THE QUESTION OF LICENSE.

Yes, 243. No, 385.

ART. 4. To choose all other needed town officers.

VOTED. That a committee of three be appointed by the Moderator to nominate a committee of thirteen, three from the Centre and two from each of the outer wards, who shall nominate a list of officers not chosen by ballot. Messrs. Michael Low, J. Wallace Grace, and Wm. K. Perkins were appointed, and they reported the following committee of thirteen:

Centre Ward—W. S. Greenough, T. J. Skinner, D. H. Darling.

North " Wm. K. Perkins, Geo. R. Morrison, Denis Daly.

South " H. H. Savage, A. H. Thayer.

East " J. T. Burditt, Geo. K. Walton.

West " George H. Teague, C. Donovan.

Little World—Geo. E. Donald.

VOTED. To adopt the reported list.

At a later hour this committee made a report which was accepted and adopted as follows:

WEIGHERS OF COAL AND MERCHANDISE.

M. C. Evans,	*A. A. Mansfield,	A. L. Mansfield,
*Denis Greany,	A. W. Chapman,	*Geo. K. Gilman,
	*Geo. W. Aborn.	

MEASURERS OF WOOD.

Denis Greany,	*Charles Gorham,	L. B. Eaton,
*A. A. Mansfield,	M. C. Evans,	*E. E. Lee,
A. L. Mansfield,	H. N. Oliver,	Ira Atkinson.

SURVEYORS OF LUMBER.

*Chas. F. Bickford,	Roger Howard,	C. W. Trow,
*A. H. Look,	E. I. Purrington.	

FIELD DRIVERS.

*H. W. Savage,	Simeon Parker,	H. N. Oliver,
R. J. Daly,	O. C. Potter,	L. S. Morrill,
B. F. Shedd,	L. W. Flint, Jr.	*Geo. K. Walton.

At this stage of the meeting Mr. Cowdrey resigned the office of Moderator, and Article 1 was again taken up and Edward A. Upton was unanimously elected Moderator, receiving 8 votes.

VOTED. To take up remaining articles of the warrant in regular order.

VOTED. To postpone further consideration of the town warrant to 1 o'clock, P. M. At that hour the meeting took up

ART. 5. To see if the town will authorize its Treasurer to hire money to pay all demands in anticipation of taxes.

VOTED. That the Town Treasurer be authorized, with the approval of the Selectmen, to hire money in anticipation of the taxes of the current municipal year, and to issue notes of the town therefor, and all debts so incurred shall be paid from said taxes.

ART. 6. To raise and appropriate money for the payment of town debt and interest.

VOTED. \$3837.50 for the payment of debt and \$3000 for the payment of interest.

ART. 7. To raise and appropriate money for schools.

VOTED. \$17,800 for the support of schools, and \$1800 for school contingent fund, and \$1200 for school text-books and supplies.

ART. 8. To raise and appropriate money for the support of the poor.

VOTED. \$5500 and the income from the farm, and \$500 for the repair of farm buildings. Also voted that all the supplies of groceries and grain be bought at wholesale for the use of the Poor Department and that a stock be kept at the Alms-house for supplying the demands of the outside poor, that they may have the advantage of wholesale purchases.

ART. 9. To raise and appropriate money for the repairs of highways and bridges and determine how it shall be expended.

VOTED. \$8000 to be expended under the direction of the Board of Road Commissioners, and that the hauling of all gravel and crushed stone be let out by the cubic yard to the lowest responsible bidders; such bids to be advertised for in the local papers.

ART. 10. To raise and appropriate money for the Fire Department.

VOTED. \$2300 to be expended by the Engineers, and \$200 by the Forest Fire Wards for services and repairs of Johnson pumps, buckets, and cans.

ART. 11. To raise and appropriate money for the Public Library.

VOTED. \$400 and the dog tax.

ART. 12 To raise and appropriate money for the Public Reading Room.

VOTED. \$175.

ART. 13. To raise and appropriate money for the salaries of Town Officers.

VOTED. \$3725 to be apportioned as reported by the Appropriation Committee among Town Officers, and to include \$1000 for the Police Dept. and \$75 for salary of Forest Fire-wards.

ART. 14. To raise and appropriate money for the care of street lamps.

VOTED. \$2,100.

ART. 15. To raise and appropriate money for Town House Expenses.

VOTED. \$1,600.

ART. 16. To raise and appropriate money for Miscellaneous Expenses.

VOTED. \$3,000.

ART. 17. To raise and appropriate money for the annual rental of hydrants.

VOTED. \$3,920.

ART. 18. To see what method the Town will adopt for the collection of taxes for the year ensuing.

VOTED. That all taxes shall be due on Sept. 15, 1890, and that a discount of four per cent. be allowed on all taxes paid on or before that date: Interest at the rate of 6 per cent. to be added after Dec. 1, 1890, until paid. That all property taxes not paid on or before April 15, 1891, be advertised and enough sold to pay the tax, interest and expenses.

That all taxes be payable at the office of the Collector, he to notify all persons to be found, by the presentation of their bills, at least two weeks before taxes are due, poll taxes excepted. That the Collector pay all money as fast as collected to the Treasurer; and shall be required to settle his tax list within two years from the date of the tax warrant, and, upon his failure to do so, the Treasurer be instructed to sue the Collector's bond.

ART. 19. To see if the Town will authorize the Collector of Taxes for the year ensuing, to use all means for the collection of taxes which a Town Treasurer, when appointed Collector, may use.

VOTED. To so authorize the Collector of Taxes.

ART. 20. To see what sum the Town will raise and appropriate for concrete work.

VOTED. \$500 for new concrete sidewalks and crossings where the abutters pay one-half the sidewalk expense; and \$500 for the repairs of old sidewalks and crossings.

ART. 21. To see if the Town will authorize the Selectmen to provide a Night Watch, and will raise and appropriate money to pay them.

VOTED. \$1,800 according to the provision of this article.

ART. 22. To determine the compensation of Enginemen for the year ensuing.

VOTED. \$20 for the firemen of the Centre Ward whose duty it is to respond to all alarms; and \$10, to those of the outer wards who answer second or third alarms; and such pay as awarded by the Forest Fire wards.

ART. 23. To see if the Town will raise and appropriate two hundred dollars for the purposes of Memorial Day.

VOTED. \$200.

ART. 24. To see if the Town will authorize its Treasurer to hire money on a term of years and to issue notes or bonds of the Town therefor for the purpose of renewing or paying such loans maturing during the current municipal year as are not provided for by taxation.

VOTED. To pass this article over.

ART. 25. To hear and act upon the report of the Committee on increased school accommodations, appointed at the meeting of July 22.

The report of the Committee, subscribed by its twelve members, was read by A. H. Thayer, Secretary.

VOTED. To accept the report and lay it upon the table for further action.

ART. 26. To see if the Town will raise and appropriate fifteen thousand dollars for a new school-house and enlarging, heating and ventilating the Franklin Street school-house, as recommended in the report of the above committee, or what they will do about it.

VOTED. To take Article 25 from the table and act on it with this article.

VOTED. \$10,000 for a new four-room school-house on the northerly side of the Academy Hill lot; and \$5000 for enlarging the Franklin Street school-house by the addition of two rooms. \$5000 to be paid from the taxes of 1895; \$5000 from those of 1896; and \$5000 from those of 1897, and that the Treasurer be authorized to hire money for the purpose; that the Chairman appoint a Building Committee of five to take charge of the work and that it be let to the lowest responsible bidder.

ART. 27. To see if the Town will raise and appropriate seven thousand five hundred dollars for heating and ventilating the

High, old High and Grammar school-houses and making necessary alterations.

VOTED. \$7500 for the purposes named, the work to be done under the supervision of the committee appointed under article 26; and \$4000 to be paid in 1898 and \$3500 in 1899, the Treasurer being authorized to hire the money.

ART. 28. To see if the town will instruct the School Committee to pay one-half the cost of car fares of scholars from Greenwood attending school in the Centre, and will raise and appropriate two hundred dollars therefor.

VOTED. To indefinitely postpone action.

ART. 29. To see if the town will raise and appropriate one hundred dollars for paying a clerk for the School Committee.

VOTED. \$100 for this purpose.

ART. 30. To see if the town will relay the concrete walk across Water street, opposite the Episcopal Church.

VOTED. To refer to the Road Commissioners.

ART. 31. To see if the town will raise and appropriate money to grade, drain and repair the sidewalks on Vernon street from Pleasant to Salem street.

ART. 32. To see if the town will raise and appropriate one hundred dollars to build a sidewalk on the north side of Otis street from Pleasant to Vernon street.

ART. 33. To see if the town will raise and appropriate money to build sidewalks and grade Broadway from Albion street to Smith's pond.

VOTED. To refer these three articles to the Road Commissioners.

ART. 34. To see if the town will authorize the Selectmen to relieve the district bounded by Broadway, Albion, Lake and Foundry streets, of water flooding it.

VOTED. To refer to the Selectmen to settle with the Boston & Maine Railroad according to a plan already agreed upon with that Corporation.

ART. 35. To see if the town will raise and appropriate three hundred dollars to build a stone bridge under Lake street, of sufficient capacity to carry the water.

VOTED. To refer to the Selectmen.

ART. 36. To see if the town will raise and appropriate one thousand dollars for improving the channel of Saugus river from Water street to the town line.

VOTED. \$300 for improving the bridge from the north side of Water street.

ART. 37. To see if the town will raise and appropriate five hundred dollars to drain and repair Park street.

VOTED. To refer to the Road Commissioners.

Motion to raise \$300 was rejected.

ART. 38. To see if the town will raise and appropriate money to do a portion of the improvement on Main street, by the side of the pond, ordered by the County Commissioners to be made in two years.

VOTED. \$1,500 to be expended under contract.

ART. 39. To see if the town will raise and appropriate five hundred dollars to repair Green street.

A motion to raise \$500 was rejected.

ART. 40. To see if the town will raise and appropriate three thousand dollars to grade and repair Railroad street from Reading line to the Junction.

VOTED. \$3000 to be expended under contract. Yes, 61. No, 42.

VOTED. To take up Article 16 (Miscellaneous Expenses).

VOTED. \$750 in addition, for Common and Park expenses.

ART 41. To see if the town will raise and appropriate money to build a sidewalk on the north side of Byron street from the house of John Wooldridge to corner of Gould street.

ART. 42. To see if the town will instruct the Road Commissioners to build a sidewalk on Water street from the end of the present sidewalk to Farm street.

VOTED. To refer these articles to the Road Commissioners.

ART. 43. To see if the town will raise and appropriate money to locate street lamps at the following places: three on Water street, east of Wiley street; four on Greenwood ave.; two on Main street, south of L. Pitman's; one on the N. W.

corner of Water and Vernon streets; one on north side of Otis street, midway between Pleasant and Vernon streets; three on Valley street, and three on Myrtle avenue.

VOTED. To refer to the Selectmen to report at an adjourned or future meeting.

ART. 44. To see if the town will grant the free use of the Town Hall to the following organizations: to Post 12, G. A. R., for the evening of Memorial Day; to the Wakefield High School Cadets for the evening of their annual drill; to the Richardson Light Guard for two evenings; to the Woman's Christian Temperance Union for six evenings.

VOTED. To grant free use as requested.

ART. 45. To see if the Town will put hydrants on Myrtle avenue, and contract with the Wakefield Water Company for the same.

VOTED. That the Selectmen contract for three hydrants.

VOTED. To take up Article 17 (Hydrant rental).

VOTED. \$120 additional.

ART. 46. To see if the town will change the name of Prospect street to Lexington avenue, and will name the new street, leading from Prospect to Elm street, Prospect avenue.

VOTED. To pass this article over.

VOTED. To adjourn to 7.30 o'clock P. M. At that time the Moderator called the meeting to order.

ART. 47. To see if the town will raise and appropriate one hundred dollars to enforce the provisions of Chapter 318 of the Acts of 1888, for the protection of great ponds against any encroachments made in, over, or upon the waters of any great pond in this town below the high water mark, or what action they will take in the matter.

VOTED. \$100 to be expended by the Chief of Police.

VOTED. To take up Article 33 and reconsider the action previously taken.

VOTED. \$1,000 to grade Broadway and build sidewalks from Albion street to Smith's Pond.

VOTED. To take up Article 31 and reconsider the action already taken.

VOTED. \$700 to grade, drain and repair the sidewalks on Vernon street from Pleasant to Salem street.

VOTED. To take up Article 22 and reconsider the action before taken.

VOTED. That the compensation of firemen be fixed at \$23 and the poll tax.

ART. 48. To see if the Town will authorize its Collector of Taxes to contract with some incorporated company, legally authorized to act, to furnish sufficient sureties on his official bond as such Collector, and appropriate money in payment thereof.

VOTED. That the Collector of Taxes so contract for an official bond of \$15,000, the cost to be paid out of the miscellaneous fund, and that the Collector be instructed to pay promptly to the Treasurer the taxes collected and not to hold at any time a sum exceeding his bond.

ART. 49. To see if the town will instruct its Assessors to have printed a list of taxable polls and estates for the year 1890, and appropriate money therefor.

VOTED. To appropriate \$100 for the above purpose.

ART. 50. To see if the town will grant to the Wakefield Historical Society the use of a room in the Town House, and appropriate a sum of money not exceeding one hundred dollars to put such room in suitable condition for occupancy.

VOTED. To appropriate \$25 and to grant the free use of the northeasterly corner room on the second floor.

ART. 51. To see what action the town will take in regard to the suits brought against the town by Mrs. Rebecca C. Arrington and Frank McGlory for injuries received on the highways.

VOTED. To refer to the Selectmen with full power to act.

ART. 52. To hear and act upon the report of the Selectmen for the laying out of six new town ways over certain private ways in Greenwood Park.

The Selectmen made a report in favor of laying out said six new town ways to be named Greewood avenue, Madison

avenue, Pitman street, Warren avenue, Francis avenue, and Green street.

VOTED. To accept and adopt the report.

VOTED. To adjourn to Monday, March 10, at 7.30 P. M.

Adjourned Town Meeting, March 10, 1890.

The meeting was called to order by the Moderator.

ART. 53. To see if the town will fix the compensation of firemen in the East and South wards with the understanding that the Companies in these districts are not to attend fires out of their respective wards, except upon a third or general alarm.

ART. 54. To see if the town will buy a hose carriage for the Greenwood Hose Co., and raise and appropriate money therefor.

ART. 55. To see if the town will raise and appropriate three hundred and twenty-five dollars to buy an improved hose wagon to carry 1,000 ft. of hose and the life saving net.

VOTED. To indefinitely postpone action under these articles.

ART. 56. To see if the town will raise and appropriate three hundred dollars to buy 500 ft. of jacketed cotton hose.

VOTED. \$300.

ART. 57. To see if the town will raise and appropriate one hundred and twenty-five dollars to buy forty-eight army coats, for firemen's use at fires.

VOTED. \$125.

ART. 58. To see if the town will raise and appropriate sixty dollars to buy the gong now on the South Ward school-house.

VOTED. To indefinitely postpone action.

VOTED. To take up Article 45 and reconsider previous action.

VOTED. To contract for *two* hydrants on Myrtle avenue.

VOTED. To take up Article 9 (Highway appropriation.).

VOTED. To instruct the Road Commissioners to repair Railroad street from Reading line to the Junction at a cost not exceeding \$2,000.

VOTED. To adjourn to Monday, March 17, at 7.30, P. M.

Adjourned Town Meeting, March 17, 1890.

The meeting was called to order by the Moderator.

VOTED. To take up Article 43, referred to the Selectmen March 3.

They reported in favor of placing street lights as follows: two on Valley street; three on Greenwood avenue; two on Main street, Greenwood and three on Myrtle avenue.

VOTED. To accept and adopt the report and appropriate \$40.

ART. 59. To see if the Town will extend the fire alarm to the Gas House at a cost not to exceed two hundred dollars; also to Almshouse.

VOTED. To refer the last part of this article relating to the Almshouse to the Engineers, to report at a future meeting.

ART. 60. To see if the town will increase the pay of the Fire Engineers from twenty-five dollars a year, each, to fifty dollars each.

VOTED. To indefinitely postpone action.

VOTED. To take up Article 26 and to reconsider all action previously taken under this article.

VOTED. To take up Article 27 and reconsider the action heretofore taken.

VOTED. To refer this article to a Committee of five to be appointed by the Moderator, to enquire into the method and cost of heating and ventilating the High, old High and Grammar school-houses, and to report at a future meeting. The Moderator appointed the following gentlemen: Chas. J. Ryder, A. H. Thayer, Thos. Hickey, W. G. Strong, and A. W. Brownell.

ART. 61. To see if the Town will choose an Appropriation Committee to consider the matter of appropriations for the year 1891, and report in the Town Report of that year.

ART. 62. To see if the Town will raise and appropriate five hundred dollars to complete the improvements on Prospect street, as ordered by the County Commissioners.

No action was taken on these articles.

VOTED. To extend the thanks of the Town to the Moderator, and to pay him \$20 for his services.

VOTED. That this meeting be now dissolved.

TOWN MEETING, JUNE 1890.

ART. 1. To choose by ballot a Moderator to preside in said meeting.

S. K. Hamilton had fifteen votes and E. A. Upton had thirteen votes, and S. K. Hamilton was declared elected.

ART. 2. To see if the town will release and convey to the First Parish of Wakefield all its right, title, and interest in a strip of land in the Old Cemetery on the southerly side thereof, so as to allow said parish to place its new church edifice further back from the street, and take any action that may be proper or necessary therefor.

VOTED. That the town deed to the First Parish the strip of land mentioned in this article; and the Town Treasurer was directed and empowered to make and execute a deed and any other writing necessary. It was further

VOTED. That the town release to said parish all that portion of the Old Cemetery lying easterly of an extention of the westerly line of the parish land to the northerly line of the Cemetery, in consideration that said parish votes to hereafter take proper care of said portion, the right being reserved to the town to enter upon the same at all reasonable times, for the purpose of caring for any burial lots for which the town is responsible.

ART. 3. To see if the town will appropriate the sum of three hundred and fifty dollars for the purposes enumerated in Chapter 298 of the Acts of 1889, relating to the relief of soldiers and sailors and their widows.

VOTED. To appropriate \$350, and that the same be paid from the miscellaneous fund.

ART. 4. To see if the town will authorize the Selectmen to furnish additional accommodations for prisoners, and appropriate the sum of two hundred dollars for the same.

VOTED. \$200 to be taken from the miscellaneous fund.

VOTED. That this meeting be now dissolved.

TOWN MEETING, AUGUST 4, 1890.

ARTICLE 1. To choose a Moderator to preside at said meeting.

Edward A. Upton was unanimously elected Moderator.

ART. 2. To see if the town will authorize the removal of the Brick Engine House to a location which may be more central and convenient, and will request the Selectmen to investigate and report upon the best location for such Engine House, or what they will do about it.

VOTED. To request the Selectmen to investigate and report the cost of removal and the best location.

ART. 3. To see if the town will vote to prohibit the further use of the Old Burying Ground for burial purposes, except the use of the town tomb for temporary deposit, or what they will do in relation thereto.

ART. 4. To see if the town will choose a committee to investigate and report upon the best location for new burial grounds, or what they will do in the premises.

VOTED. To refer these articles to a committee of three to report at a future meeting. The Moderator appointed James F. Emerson, Wm. E. Rogers and Thomas Winship.

ART. 5. To see if the town will authorize the Selectmen to remit the amount due from the H. M. Warren Post 12, G. A. R. Association for the use of the Town Hall from Apr. 15 to Apr. 19, 1890.

VOTED. To so authorize the Selectmen.

ART. 6. To hear and act upon the report of the Road Commissioners in relation to laying out, widening and extending Auburn street.

The report of the Road Commissioners was read and accepted.

VOTED. To refer this article back to the Road Commissioners with instructions to ascertain the land damages, and report at an adjournment of this meeting.

ART. 7. To see if the town will appropriate an additional sum of money for miscellaneous expenses.

VOTED. \$1,500, the Town-Treasurer to issue notes therefor, payable in 1891.

ART. 8. To see if the town will take any action relative to erecting a new School Building on Academy Hill.

VOTED. To appoint a committee of nine, with authority to solicit plans at an expense not exceeding \$300, and to report not later than the annual meeting, March, 1891.

ART. 9. To hear and act upon the report of a committee chosen at the last annual town meeting, to whom was referred the matter of investigating as to heating and ventilating the old High and Grammar, and the new High School Buildings.

The report of the committee recommended the introduction of the Fuller and Warren Company's system of heating, ventilating, and sanitary closets in the High School Building only, at a cost of \$4,547.

VOTED. To accept and adopt the report.

ART. 10. To see if the town will appropriate money for the heating and ventilating of the old High, Grammar, and new High School Buildings in conformity with the order of the State Inspectors, or what they will do in the matter.

VOTED. To appropriate \$4,547, the Town Treasurer to issue notes therefor payable in 1891, to be expended as per report of committee on Article 9, and under the direction of said committee.

ART. 11. To see if the town will appropriate money for heating and ventilating the Franklin Street School Building, in conformity with the order of the State Inspectors, or what they will do in the matter.

VOTED. \$875, to be expended by the committee on Article 10.

ART. 12. To see if the town will grant to the trustees of the Sweetser Lectures the free use of the Town Hall for a course of lectures during the season of 1890-91, or what they will do about it.

VOTED. To grant the request in this article.

VOTED. To take up Article 6.

VOTED. To adjourn to Monday, Sept. 23, at 7.30, P. M.

Adjourned Town Meeting, Sept. 23, 1890.

The meeting was called to order by the Moderator.

Acting under Article 6, the Road Commissioners reported that the Real Estate and the Building Association claim \$600 damages in lieu of \$244.22 awarded; and M. F. Lyons claims \$1,056.40 instead of \$528.20 awarded.

VOTED. To accept the report. On account of the heavy land damages asked, no further action was taken.

VOTED. That this meeting be now dissolved.

STATE ELECTION AND TOWN MEETING, NOV. 4, 1890.

Pursuant to a warrant duly drawn and served, the voters assembled at 7 o'clock in the forenoon, to bring in their votes for Representative to Congress to represent the Sixth District of Massachusetts in the fifty-second Congress of the United States; for Governor, Lieutenant Governor, Secretary, Treasurer and Receiver General, Auditor and Attorney General of the Commonwealth; for Councillor for the Sixth Councillor District; for a Senator for the Sixth Middlesex Senatorial District; for a Representative to the General Court to represent the Thirteenth Middlesex Representative District; for one County Commissioner for the County of Middlesex; and also to bring in their votes, Yes or No, on the same ballot, on the following proposed articles of amendment to the Constitution, to wit:

ARTICLE OF AMENDMENT TO PREVENT THE DISFRANCHISEMENT OF VOTERS BECAUSE OF A CHANGE OF RESIDENCE WITHIN THE COMMONWEALTH.

No person otherwise qualified to vote in elections for governor, lieutenant-governor, senator and representatives, shall, by reason of a change of residence within the Commonwealth, be disqualified from voting for said officers in the city or town from which he has removed his residence, until the expiration of six calendar months from the time of such removal.

ARTICLE OF AMENDMENT RELATIVE TO SOLDIERS AND SAILORS
EXERCISING THE RIGHT OF FRANCHISE.

Article twenty-eight of the Amendments of the Constitution, is hereby amended by striking out, in the fourth line thereof, the words "being a pauper," and inserting in place thereof, the words:—"receiving or having received aid from any city or town"—and also by striking out in said fourth line, the words "if a pauper," so that the article as amended shall read as follows:

ARTICLE XXVIII.

"No person having served in the army or navy of the United States in time of war, and having been honorably discharged from such service, shall be disqualified therefor on account of receiving or having received aid from any city or town, or because of the non-payment of a poll tax."

The votes for all the above-named officers, and for the Articles of Amendment to the Constitution shall be upon one ballot, and received according to the Provision of Chapter 423, of the Acts of 1890, entitled "the Election Act of Eighteen Hundred and Ninety." The polls will be open for the choice of the above-named officers at 7.15 o'clock in the forenoon, and will remain open for four hours at least, and for such longer time as the majority of the voters present, shall by vote direct, not later than the hour of sunset.

The meeting was called to order and the warrant read by Chairman Savage, of the Selectmen. Prayer was offered by Rev. Irving Spencer. The following officers were appointed:

J. Fred Parker and Ezra M. Southworth, Inspectors; Cornelius Donovan, Leroy E. Howlett, Geo. E. Ricker and Alonzo S. Cobb, Deputy Inspectors; Chas. H. Davis, W. W. Bessey and Hoyt B. Parker, to work the patent ballot box; Chas. E. Walton, Thos. Kernan, Jas. A. Hickey, Thos. Hickey, A. H. Thayer, M. J. Hill, Geo. H. Teague and W. W. Taft, Counters.

VOTED. To close the polls at sunset. At 4.34 P. M., the polls were closed. The patent ballot box failed to register correctly. Upon the completion of the count, public declaration in open town meeting was made of the

Amendment to the Constitution relative to soldiers and sailors exercising the right of franchise :

Yes, 660 ; No, 101 ; Blank, 97 ; Defective, 2.

VOTED. That this meeting be now dissolved.

Pursuant to a warrant drawn and issued with the one calling a meeting for the State Election, the voters assembled at 7 P. M. and were called to order by Chairman Savage, for the transaction of town business.

ARTICLE 1. To choose by ballot a Moderator to preside in said meeting.

Samuel K. Hamilton had three votes and was declared elected.

VOTED. To adjourn to Tuesday, Nov. 11, at 7.30 P. M.

Adjourned Town Meeting, Nov. 11, 1890.

Called to order by the Moderator.

ART. 2. To act upon the acceptance of the list of Jurors as prepared and submitted by the Selectmen in compliance with the law.

After revision it was

VOTED. To accept the list of Jurors.

ART. 3. To see if the town will appropriate a sum of money sufficient to pay the judgment and costs in the suit of Hattie D. M. Clark against the town of Wakefield, and authorize the Treasurer to hire the same.

VOTED. \$1,400 according to terms of this article.

ART. 4. To see what action, if any, the town will take upon the report of the Road Commissioners relative to the laying out, widening and extending of Auburn street.

A motion made by W. N. Tyler to contract for building this street was rejected.

ART. 5. To see if the town will vote to place hydrants on the following streets, namely: one on the corner of Greenwood avenue and Francis street; one on the corner of Greenwood avenue and Orchard street; one on the corner of Warren avenue and Madison avenue, in Greenwood; and one on Gould street, near Emerson street; and one on Cedar street, near Auburn street, and appropriate money to pay for the same.

ART. 7. To see if the town will establish hydrants as follows:—one at the corner of Greenwood street and Spring street, and one at the corner of Spring street and a new street recently

opened by Nutter and Boynton, and leading out of said Spring street, in that part of Wakefield known as Boyntonville, as petitioned for by Thomas F. Nutter and others, and appropriate money therefor.

ART. 8. To see if the town will establish hydrants as follows:— one at or near the corner of Chestnut street and Prospect street, and one at or near the corner of Summit avenue and Adams street, and appropriate money to pay for the same, upon the petition of Rufus S. Merrill and others.

VOTED. That the town contract with the Wakefield Water Company for hydrants as asked in these articles, the contract to expire Dec. 1, 1893.

VOTED. That a committee of seven be appointed to take into consideration the location and price to be paid for these hydrants and make the contract for them.

The Moderator appointed Wm. S. Greenough, James H. Carter, Michael Low, H. H. Savage, J. Wallace Grace, Wm. N. Tyler and James Hickey.

VOTED. To add the Fire Engineers to this committee.

ART. 6. To see if the town will authorize and instruct the Selectmen to petition the next Legislature to grant the town authority to raise and appropriate money to dredge and care for Lake Quannapowitt.

VOTED. To instruct the Selectmen to this effect.

A motion to take up Article 4 was rejected.

ART. 9. To see if the town will authorize and instruct the Fish Committee to petition the Legislature, in behalf of the town, for authority to regulate fishing in Crystal Lake, or what they will do about it.

VOTED. To instruct the Fish Committee to this effect.

ART. 10. To see if the town will grant the free use of the Town Hall to the Veteran Fireman's Association one evening during the winter of 1890 and '91.

VOTED. To grant free use as requested.

ART. 11. To see if the town will choose an Appropriation Committee to consider the financial needs of the town for 1891

and 1892, and report in the annual report of the town for 1890, or what they will do about it.

VOTED. To appoint such a committee.

The Moderator appointed Wm. G. Strong, H. H. Savage, W. E. Rogers, Waldo E. Cowdrey, S. W. Flint, S. O. Richardson, Michael Low, Wm. S. Greenough, Richard Britton, Roger Howard, Everett Nichols, Thos. Hickey and Wm. K. Perkins.

VOTED. That this meeting be now dissolved.

TOWN MEETING, JANUARY 6, 1891.

Owing to the absence of Town Clerk Hartshorne, by reason of sickness, Edward M. Ransom was elected Clerk pro tem.

ARTICLE 1. To choose a Moderator to preside at said meeting.

Jacob C. Hartshorne had eleven votes and Edward A. Upton had eight votes and Mr. Hartshorne was declared elected.

ART. 2. To see if the town will vote to accept a street leading easterly from Elm street, as laid out over land of George E. Smith, according to a plan recorded in Middlesex South District, Registry of Deeds, Book of Plans No. 63, Plan 49.

VOTED. To refer to the Road Commissioners to report at annual meeting.

ART. 3. To see if the town will appropriate the sum of one hundred and twenty-five dollars, in addition to the sum already appropriated, for the purpose of purchasing forty-eight overcoats for the use of the firemen, at fires.

VOTED. \$125, as asked in this article.

ART. 4. To see if the town will contract with the Citizens' Gas Light Company, for lighting its streets with electric lights and appropriate money therefor, or what they will do about it.

ART. 8. To see what action the town will take in regard to establishing an electric light plant for lighting its streets and public buildings.

These two articles were taken up together and after discussion, it was

VOTED. That the Moderator appoint a committee of five to nominate a committee of seven (two from the Centre and one from each of the outer Wards) to take into consideration and report upon these articles at the annual meeting.

The Moderator appointed Wm. G. Strong, James H. Carter, George H. Maddock, E. A. Upton and Charles Jordan, and they reported the following committee of seven: S. K. Hamilton, J. H. Carter, Centre; W. F. Young, North; J. C. Hartshorne, West; A. H. Thayer, South; Moses P. Parker, East; W. G. Strong, Little World.

VOTED. To accept this committee; that they report in print before the annual meeting; have power to draw money for expenses and to fill vacancies.

VOTED. To take up Article 6 on motion of R. H. Mitchell.

ART. 6. To see if the town will accept a proposition from H. M. Warren Post Grand Army Association, in regard to a conveyance to the town, of its property on Albion street, as a site for a building, for fire department purposes.

The proposition was read by W. N. Tyler and after discussion by W. S. Greenough and others, it was

VOTED. To lay Article 6 on the table.

VOTED. To take up Article 5.

ART. 5. To hear and act upon the report of the Selectmen, relative to the best location to remove the brick Engine House, and the amount such removal will cost the town.

Pending action on this article, on motion of W. E. Cowdrey, it was

VOTED. To adjourn to Monday, Jan. 12, at 7.30 P. M.

Adjourned Town Meeting, Jan. 12, 1891.

Called to order by the Moderator.

Article 5 being under consideration, the report of the Selectmen was read, giving the cost of various central locations (and the cost of removal as \$750) and recommending that no action be taken about removal.

VOTED. To accept the report and lay it on the table.

A motion to take Article 6 from the table was lost.

ART. 11. To see if the town will appropriate an additional sum of money for miscellaneous expenses.

VOTED. \$500 to be hired by the Treasurer.

ART. 10. To see if the town will cause the reservoir at the intersection of Salem and Pleasant streets to be reopened, or what they will do about it.

VOTED. To instruct the Road Commissioners to open this reservoir at the earliest possible day.

ART. 7. To see if the town will accept the provisions of Chapter 386, of the Acts of the year 1890, being an act to authorize the printing and distributing of ballots for town elections, at the public expense, and applying the principles of the Australian system, so called, to town elections, and to determine what officers, if any, not required by law to be chosen by ballot, shall be so chosen; also the number and terms of such officers.

VOTED. To accept the provisions of Chap. 386, Acts 1890.

VOTED. That the town choose Town Clerk, Town Treasurer, three Selectmen, Road Commissioners, Assessors, Overseers of the Poor, Collector of Taxes, Fish Committee, Board of Health, Constables, Fence Viewers, Park Commissioners, Auditors, Trustees of Library and School Committee; and that the Road Commissioners, Trustees of Library and School Committee be chosen for such terms as are provided by statute, and all other officers for one year.

ART. 9. To see if the town will establish a hydrant at or near the corner of Railroad street and Beacon street, and appropriate money therefor.

VOTED. To authorize the Selectmen to establish this hydrant.

ART. 12. To see if the town will establish and maintain three street lamps, on Water street, between Brook avenue and Farm street, upon the petition of John A. Sanborn.

VOTED. To instruct the Selectmen to take action as requested in this article.

ART. 13. To see if the town will instruct the Road Commissioners to build a sidewalk on Water street, from Brook avenue to Farm street, and appropriate money therefor, upon the petition of John A. Sanborn.

Before any action was had on this article it was

VOTED. That this meeting be now dissolved.

CHARLES F. HARTSHORNE,

Town Clerk.

REPORT OF BOARD OF HEALTH.

The result of the annual election in 1890, for Board of Health, showed that Mr. J. B. Wiley, Dr. J. W. Heath and Dr. J. A. O'Leary were chosen to serve for the ensuing year; but Dr. Heath declining to qualify, it was necessary to proceed according to Chap. 307, Acts of 1885.

Accordingly a joint meeting of the Boards of Selectmen and Health, was held March 21, and Mr. C. E. Niles was chosen to fill the vacancy.

Organization was affected by the choice of Mr. Wiley as chairman and Dr. O'Leary as secretary. It was voted at the first meeting that Mr. C. E. Niles be appointed "agent and Health Officer" for the year.

Last year's Board made a suggestion that the Health Officer be a man who gave his entire time to public duties in the town, claiming that the work would be accomplished with better satisfaction and that better results would be obtained.

The experience of the past year proves this to be true, for the work has been more satisfactorily performed and the results have been all that could be expected. There has been less friction and a much more ready compliance with the rules of the Board than in some previous years. A request to abate a nuisance has been followed by immediate attention and all notices and orders have been promptly complied with, so that the duties of the Health Officer have been less arduous than heretofore. This is as it should be, and has been due to the executive ability of the Health Officer assisted by the fact that he was also Chief of Police.

The retiring Board sincerely hopes that the work of the future Boards will run as smoothly as that of 1890.

DISEASES AND DEATHS.

The past year has been one filled with sickness and all the anxiety and distress accompanying it.

From the early days of the year when everybody had the Influenza, through the long hot summer with its attending diseases, to the closing epidemic of Scarlet Fever and Measles, it has been one long siege of illness.

The death rate has increased, but not in proportion to the amount of sickness and the character of the diseases. La Grippe was with us and staid a while, but the number of deaths immediately following its visit were few, though some died during the year from diseases that followed, or were complications of it. The number of deaths resulting from summer diseases was not above the average.

The epidemic of Scarlet Fever has been of a mild character and the percentage of deaths has been small. The deaths occurring have resulted from the disease taking on a malignant form, or from some complication, as Diphtheria.

Statistics show that the number of fatal cases in different epidemics of Scarlet Fever, varies very largely, from 3 in 100 cases to 34 or even 40 in 100, and in one particularly severe epidemic, 53 in 100. The number in our town during the present run, has been 8 in 94 cases or 8 1-2 per cent.

The season of the year and condition of the weather usually has no effect upon the spread of the disease, and does not seem to change its type, but we had comparatively few cases until cold weather set in, and it seemed to spread most rapidly when the conditions of temperature and moisture were least favorable.

The first case was reported Feb. 1, 1890, and there were no more until June 2. The number of cases in each month, was as follows: Feb., 1; June, 2; July, 7; Ang., 2; Sept., 10; Oct., 10; Nov., 22; Dec., 29; Jan., 1891, 11.

It has visited all parts of the town and at one time was so prevalent among children attending the schools on Academy Hill, that, after consulting with the School Committee, it was deemed best to close those schools for several weeks.

As an accompaniment of the Scarlet Fever we have had, and there is still, a run of Measles. This disease, while more contagious than the other, is not of so malignant a character, though

every case is attended by more or less danger, if not from the course of the disease, from its sequelæ. Parents are, in too many cases, apt to regard both of these fevers as something that children must have, and think the sooner they get them the better for the children. They look upon it as some boys do smoking; they never will be men until they can smoke without getting sick; and these parents appear to think that their children cannot grow up until they have had all the diseases of childhood. Taking this erroneous view of it, they take little or no pains to protect them from contagion, and in some instances deliberately allow them to come into contact with some little patient who has the disease in a mild form.

Below is a list of the contagious diseases reported to the Board; but it does not represent the full number of cases that have occurred in town, as there have been a great many that were not seen by physicians, and so were not reported.

From Feb. 1, 1890, to Feb. 1, 1891, there have been of

Scarlet Fever, 94 cases with 8 deaths.

Measles, 43 “ “ 0 “

Diphtheria, 3 “ “ 0 “

Typhoid Fever, 1 “ “ 0 “

The number of deaths occurring in Wakefield for 1890 was 115. The list of causes presents no peculiar features, and as usual Consumption leads with a heavy percentage to its credit.

Consumption,	15	Marasmus,	4
Heart Disease,	10	Still Births,	4
Cancer,	10	Gastritis,	4
Meningitis,	10	Convulsions,	3
Pneumonia,	6	Chronic Bronchitis,	2
Apoplexy,	5	Bronchitis,	2
Heart Failure,	5	Immaturity,	2
Scarlatina,	5	Puerperal Convulsions,	2
Old Age,	5	Cholera Infantum,	2

, Capillary Bronchitis, Premature Birth, Pelvic Abscess, Hepatitis, Suicide, Puerperal Fever, Chronic Nephritis, Dropsy, Chronic Diarrhœa, Tubercular Peritonitis, Uræmia, Dysentery, Cause Unknown, Prostatitis, 1 each.

NUISANCES.

There have been no nuisances of any great importance for us to abate this year, and all the minor ones that have come to our notice have been carefully attended to. Improvement has been made in the Lake Street District by a change in the course of the outlet of the stream draining this section, but it will not be in good condition until the entire stream has been carefully cleared, obstructions removed, and a free water course made.

Every summer the Road Commissioners find it necessary to clean out several times the catch basins of the drain on Main street, and the material removed and the accompanying odor clearly prove that something besides rain water flows through the drain.

If this drain which was laid years ago, and has a number of private drains emptying into it, was intended for a public sewer, it should have been constructed so that the openings on the Main street would not act as chimneys for the escape of foul air. Private drains, overflow from cesspools, in short, no drain of any kind has a right to empty into this main drain which we understand was constructed solely to receive and carry away the excess of rain water from the street.

By some mistake the builders of the basement of the proposed G. A. R. hall were given permission to connect a drain from the cellar with the main drain. The Board of Health is the only body having power to grant a permit in such a case, and this we did not do and would not, had application been made. As the building has not been erected or the drain used, the matter has not come before us or received our official attention.

The open drain or water way running parallel with, and east of, Main street has been thoroughly cleaned and opened up.

There is one spot in our town that is not a credit to it, is not pleasant to behold, and in hot weather is far from agreeable to approach. That is the pond at the Centre Depot. Its present use is as a receiving basin for several drains, and it looks like and acts as a large open cesspool. Now there is no reason for its existence; it serves no special purpose, is not beneficial in any way; in fact, has no redeeming qualities and many bad ones. The drains which empty into it could be continued or united into

one large one at this point and the rest of the surface covered in, making land that in a few years would be valuable. The value of the land thus made would cover the expense, the appearance of this part of the town would be greatly improved, and we are sure the sanitary condition would be benefitted.

SEWERAGE SYSTEM.

At the annual town meeting held in April, 1888, a committee was chosen to consider the subject of a sewerage system, and this committee consulted a civil engineer who surveyed the town, drew up a plan and gave an estimate of the cost.

The report of this committee will be found in the Town Report for 1889 and contains much valuable information on this important matter. The committee strongly urged that the town give the subject early and serious consideration, but no action was taken, and not any since, so that the matter has slipped from the public mind. The need is just as urgent to-day, and more so, as the population has increased and more houses have been built and occupied since the report was made.

The present Board has no new ideas to offer and no suggestions to make, but wishes to bring the attention of the voters to this necessity, and we earnestly hope that the public mind will be fixed upon it and not taken off until it is finally settled.

Large undertakings require great and constant pressure to start them, and this sewerage question will have to go through a great deal of steady agitation before it comes to an issue; so the sooner we commence to agitate, the sooner the work will be done.

Respectfully submitted,

J. B. WILEY,

J. A. O'LEARY, M. D.,

C. E. NILES,

Board of Health.

WAKEFIELD, Feb. 10, 1891.

JOHNSON PUMPS.

In compliance with the vote of the town at its annual meeting, the Forest Firewards herewith furnish a list of the present locations of the town's Johnson Pumps, now numbering sixty-eight. as follows :

No. 1, John A. Meloney, Prospect Street, West District.	No. 25, Geo. K. Gilman, Charles St., Centre District.
" 2, John F. Whiting, Pleasant Street, Centre District.	" 26, Chas. Gorham, Lowell St., North District.
" 3, Wm. H. Atwell, Prospect Street, West District.	" 27, John McManuis, Lowell St., North District.
" 4, Richard Britton, Main St., Centre District.	" 28, Wm. K. Perkins, Central St., North District.
" 5, John M. Cate, Main Street, Centre District.	" 29, Samuel Parker, Main St., North District.
" 6, C. C. Eldridge, Myrtle Ave., South District.	" 30, W. H. Knight, Cordis St., North District.
" 7, Noah M. Eaton, Park Street, Centre District.	" 31, J. R. Reid, Salem and Lowell Streets, East District.

B. W. OLIVER,

A. L. MANSFIELD,

RUFUS KENDRICK,

Forest Firewards.

REPORT OF POLICE DEPARTMENT.

To The Honorable Board of Selectmen of the Town of Wakefield :

GENTLEMEN :—I have the honor herewith to submit for your inspection and information the annual report of the Department of Police for the year ending January 31, 1891, together with the report presented to me of the night officers.

Whole number of arrests,	145
Males,	132
Females,	13

CLASSIFIED AS FOLLOWS.

Assault including, assault on officers,	27
Adultery,	3
Bastardy,	1
Breaking and entering,	2
Common drunkard,	3
Cruelty to animals,	2
Default warrant,	3
Defrauding boarding house,	1
Disturbing the peace on railroad,	1
Drunkenness,	68
False alarm of fire,	8
Larceny,	6
Neglect of family,	4
Stubborn child,	1
Threatening to do bodily harm,	2
Vagrancy,	3
Violation of liquor law,	8
“ Lord’s day,	2
Total,	145

SEARCH WARRANTS SERVED.

Search for intoxicating liquor,	7
Search for stolen goods,	1
Total,	8
Lodgings furnished at lockup,	227

OF THE NUMBER ARRESTED THERE WERE

Foreign born,	109
Native born,	36
Children found and returned to their homes,	5
Persons committed to Insane Asylum,	3
Stolen property recovered and returned to owners. Value	
of same,	\$661 50
Details of police have been made for three parades.	

REPORT OF NIGHT WATCH.

Whole number of arrests,	52
Arrests made on warrants,	17
Arrests made without warrants,	35
For drunkenness,	37
For assault,	7
For larceny,	2
For bastardy,	1
For threatening bodily harm,	1
For illegally selling liquor,	1
On default warrants,	3
<hr/>	
Total,	52
Disturbances suppressed,	7
Assisted home,	11
Alarms of fire given,	1
Fires put out without alarm,	1
Lost children found and restored to parents,	2
Stray teams found,	2
Stray horses found,	3
Places of business found open and secured,	65

ALVIN L. VANNAH,

JAMES A. McFADDEN,

Night Watchmen.

During the year, the recommendation made in my last report, relative to furnishing more adequate accommodations for persons applying for lodgings, has been met by the town, and a room with eleven bunks for night lodgers, has been constructed, and two additional cells for prisoners, added to the original number in the lockups. I desire, in this connection, to urge the necessity which now exists, for immediate action on the part of the town, for the separation of female prisoners or lodgers from men who are now

lodged in the tramp room or confined in the cells. The necessity for this action is apparent, when we consider that insane persons and women of respectable appearance and manners, awaiting trial, are now obliged to occupy quarters in direct connection with prisoners whose moral sense recognizes no qualification of speech or action as between sexes, and who, as experience has shown during the year, launch forth invective and filth, regardless of the presence of woman. I therefore recommend that a separate cell be constructed for the sole use of female prisoners, lodgers or insane.

FOURTH OF JULY CELEBRATION.

A matter of serious concern to the people is presented in the reasonable and proper observance of our national celebration of the independence of the United States. In conjunction with all other patriotic citizens, I fully appreciate and heartily join in all public demonstrations made on that day, but it is questionable whether an excess of license of a mischievous and dangerous character, is conducive to fealty and loyalty to the country, or safe for property.

The building of large bonfires in our public streets, with the large increase in police appointments to watch and protect property, the danger of conflagrations, and the frightening of horses, and danger to lives, ought, in my judgment, to serve as a warning to the people to join in an effort to circumscribe such demonstrations to a reasonable and proper limit.

The year just closed has had its full measure of responsibility, care and duty performed. The night officers have faithfully discharged their important trusts, and in no city or town in our immediate vicinity can there be found officers superior in qualifications for the duty they are called upon to perform. I have personally discharged the duties of day officer, attending to all calls for police service in its varied and various phases and multiplicity of detail, of which no one, not conversant with present demands can adequately appreciate or fully understand. The days have frequently lengthened far into the night before the routine of duty or demand has ceased, and it has become a matter of public necessity to meet the increased and still increasing demands of police work, extending as it does into innumerable and

widely divergent paths, to more adequately provide for ways and means incident to such service. The amount appropriated for personal supervision and for the ordinary and reasonable expense necessarily incurred, is now wholly inadequate to meet the requirements of even a limited efficiency, while increasing necessities and imperative calls co-operative with, and incident to, general police accommodation maintained in other near and remote cities and towns, makes urgent the demand for increased facilities for efficient and satisfactory work in the administration of this office.

I therefore earnestly recommend an appropriation sufficient to meet the just requirements of the public.

CHARLES E. NILES,

Chief of Police.

REPORT OF APPROPRIATION COMMITTEE.

This committee was instructed by vote of the town, to inquire into the financial needs of the town for the year 1891-2, and has performed the duty imposed by informing itself in regard to the expenditures in the different departments for the past year, and by conference with representatives of these departments.

Upon this basis, the following appropriations are recommended for the ensuing year :

Support of Schools,	\$19,000 00
School Contingent Fund,	1,400 00
School Text Books and Supplies,	1,300 00
Poor Department, the income from farm and	5,000.00
Fire Department (including \$200 for Forest Firewards),	2,500 00
Street Lights,	2,000 00
Town House Expenses,	1,600 00
Highways and Bridges,	8,000 00
Concrete Sidewalks (abutters paying one half), Crossings, -etc.,	500 00
Repairs of Concrete Sidewalks, Crossings, etc.,	500 00
Salaries of Town Officers,	2,725 00
Police Department,	1,000 00
Night Watch,	1,800 00
Miscellaneous Expenses,	4,000 00
Beebe Town Library, the dog tax and	400 00
Public Reading Room,	175 00
Common and Park Expenses, ,	400 00
Total,	\$52,300 00

The recommendation as to the appropriation for salaries of Town officers is made upon the following basis of division :

Town Treasurer,	\$200 00
Town Clerk,	100 00
Board of Selectmen,	400 00
“ Road Commissioners,	200 00
“ Assessors,	400 00
“ Overseers of the Poor,	250 00
“ School Committee,	250 00
“ Auditors,	115 00
“ Registrars,	110 00
“ Fire Engineers,	75 00
“ Forest Fire Wards,	75 00
“ Health,	50 00
Tax Collector,	500 00
<hr/>	
Total,	\$2,725 00

After consultation with the Town Treasurer, we endorse the recommendation as to the appropriation for payment of Town Debt and Interest, which he makes in his report All the members of the Committee were present at the meetings and sign this report.

Respectfully submitted,

WM. G. STRONG, *Chairman*,
 RICHARD BRITTON,
 SILAS W. FLINT,
 WM. S. GREENOUGH,
 THOMAS HICKEY,
 ROGER HOWARD,
 MICHAEL LOW,
 EVERETT NICHOLS,
 WM. K. PERKINS,
 SOLON O. RICHARDSON,
 WM. E. ROGERS,
 HENRY H. SAVAGE,
 WALDO E. COWDREY, *Secretary*.

REPORT OF THE ROAD COMMISSIONERS.

The Road Commissioners of the town of Wakefield herewith respectfully present their report for the year ending Feb. 1, 1891.

At the last annual meeting the sum of \$8,000 was appropriated by the town for general highway purposes.

Received from individuals for extra work and sale of material as follows:

N. H. Dow for stone,	\$21 45
Gas Company, crushed stone,	10 00
J. H. Carter, loam,	10 00
J. H. Carter, extra labor,	9 00
S. B. Dearborn, extra labor,	5 00
H. P. Pinkham, extra labor,	4 00
C. H. Davis extra labor,	3 00
W. P. Preston, extra labor,	8 00
J. W. Poland, extra labor,	5 00
C. R. Tuttle,	5 00
Making a total of,	\$8,080 45

All the work on the highways has been done under the direction of the three Road Commissioners, who received for their services \$2.50 per day until Nov. 1st. Since that time, \$2.25 per day. Laborers were paid \$2.00 per day until Nov. 1st. Since that time, \$1.75 per day. And the same was allowed for horse and cart. The pay roll is as follows:

LABOR ON HIGHWAY AS PER PAY ROLLS.

Everett Nichols,	\$281.16	Daniel Carter,	\$49.38
F. P. Hoyt,	318.28	Frederick Neiss,	124.13
H. N. Oliver,	189.57	William Oliver,	236.44
G. E. Mears,	107.76	Thomas Haverty,	185.50
Patrick Muse,	112.50	Dennis Brennan,	256.44
Patrick Donahoe,	19.44	John Flynn,	43.00

John Lee,	\$10.00	John Kane,	\$8.00
J. J. Nichols,	29.00	Francis Brady,	9.00
Richard Maloney,	8.00	B. F. Shedd,	11.50
Daniel Shannahan,	38.75	William Welch,	31.00
D. P. Richardson,	5.50	W. H. Arrington,	48.25
F. A. Heath,	53.00	Francis Lunt,	4.00
Frank Stoddard,	71.32	Dennis Conner,	10.00
Martin Glynn,	19.00	James Hennesy,	29.00
C. H. Hart,	92.88	John O'Neil,	10.00
Andrew Young,	35.00	L. D. Hoyt,	50.50
John Hassett,	20.00	John Toomey,	21.50
Michael Madden,	109.44	Michael O'Connell,	9.25
Michael O'Neil,	16.00	H. N. Winslow,	2.00
A. A. Mansfield,	1.00	Chas. Wanamake,	11.00
Joseph Connell,	39.00	Lee Bartlett,	3.00
James Graham,	27.57	Stephen Gates,	12.63
D. C. Wright,	30.00	W. O. Stoddard,	2.00
John Donahoe,	22.00	William Lee,	3.00
L. P. Hooper,	115.88	Morris Welch,	30.00
Geo. Southerland,	114.50	G. K. Walton,	20.00
William O'Neil,	9.50	Joseph Hyde,	13.00
John O'Hearn,	9.50	Jacob Rummel,	5.25

TEAMS ON HIGHWAY AS PER PAY ROLLS.

Everett Nichols,	\$273.87	Joseph Connell,	\$19.50
F. P. Hoyt,	216.25	D. C. Wright,	28.00
H. N. Oliver,	72.68	N. H. Dow,	12.00
G. E. Mears,	106.76	L. P. Hooper,	5.25
John Flynn,	22.00	B. F. Shedd,	11.50
John Lee,	10.00	William Welch,	31.00
J. J. Nichols,	26.50	Francis Lunt,	4.00
C. H. Hart,	49.00	John Toomey,	21.50
Andrew Young,	70.00	Michael O'Connell,	4.88
D. W. Hunt,	40.00	Chas. Wanamake,	6.75
A. A. Mansfield,	1.00	Stephen Gates,	21.00

THE STREETS RECEIVING THE LARGEST EXPENDITURE
ARE AS FOLLOWS :

Main street,	\$1,000.00	Albion,	\$150.00
Railroad,	987.50	Prospect,	125.00
Pleasant,	50.00	Salem,	50.00
Vernon,	300.00	West Chestnut,	40.00
New Salem,	250.00	Travers,	50.00
Haverhill,	200.00	Byron,	50.00
Spring,	150.00	Water,	20.00
Park,	150.00	Valley,	20.00

Other streets have received attention, and smaller amounts expended thereon.

The road-scraper has been used in parts of the town where most needed. In accordance with the vote of the town, the work, where practicable, has been done by contract.

A special appropriation of \$1,000 was made for repairing Broadway. \$987.35 was expended on said street. The contract was awarded to N. H. Dow.

A special appropriation of \$300 was made for Water street bridge. The sum of \$347.72 was expended on said bridge.

The contract was awarded to N. H. Dow.

A special appropriation of \$700 was made for sidewalks on Vernon street, but as the action of the town did not cover the intent of the article, it was thought best to let the street lay over until another year. The sum of \$29 was spent on sidewalks on said street.

A special appropriation of \$1,500 was made for Main street, as laid out by the County Commissioners, but, as an injunction was issued on the same, nothing was done.

The town made no special appropriation for opening the ledge for the use of the crusher, so that money had to be taken from the general fund which was much needed on the streets.

The crusher is in good working order and has proved capable of doing all that was anticipated. Five hundred dollars should be appropriated to put the ledge in first-class condition; and when once fairly opened nothing more will be needed in that direction. The ledge proves to be of excellent quality of stone and works up to advantage.

It is hoped that a sufficient sum of money will be appropriated the present year to put Main street in good condition.

CONCRETE.

At the annual meeting \$1,000 was appropriated for concrete work. The contract for concreting was awarded to G. W. Killorin for 50 cents per yard.

The sum of \$1,494.66 was expended for concrete as per contract. \$436.79 has been collected from abutters. Amount expended by the town, \$1,057.21.

James Boyd,	\$31.75	J. M. Gilman,	\$34.73
S. W. Flint,	26.48	James Garraty,	15.03
J. G. Morrill,	3.50	Ida Skinner,	12.30
D. G. Walton,	20.00	L. J. Pitman,	68 25
W. P. Preston,	32.90	Wood, Harmon & Co.	103.63
J. W. Poland,	13.56	C. A. Evans,	16.73

GUIDE-BOARDS.

The guide-boards are all in good condition.

The details of expenditures will be found in the financial report.

Respectfully submitted,

EVERETT NICHOLS,

HENRY N. OLIVER,

FRANK B. HOYT,

Road Commissioners.

WAKEFIELD, Feb. 1, 1891.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen :

GENTLEMEN,—The annual report of the Engineers of the Fire Department is herewith presented, giving details of the force and apparatus, records of the fires which have occurred during the past year, amount of losses and insurances of property, as near as could be ascertained.

The force of the department consists of three Fire Engineers, one Engineer of Steamer, one Assistant Engineer, one Steward, thirty hosemen, fifteen Hook and Ladder men, one Volunteer Hose Company, divided as follows :

STEAMER LUCIUS BEEBE, NO. 1.

Foreman, William Tyzzer. One third-class Silsby Steam Fire Engine, one supply wagon for coal, one four-wheeled hose carriage carrying 800 feet of hose. Thirteen men.

WASHINGTON HOOK AND LADDER CO., NO. 1.

Foreman, Henry Stoddard. One truck carrying 153 feet of ladders, one life saving net. Fifteen men.

C. WAKEFIELD CHEMICAL ENGINE CO., NO. 1.

Foreman, Thomas Gould. One chemical engine carrying 100 feet, one inch hose. Ten men.

Yale Hand Engine in charge of the Veteran Fireman's Association.

J. H. CARTER HOSE CO., NO. 1.

Foreman, Henry Fay. One two-wheeled hose carriage carrying 650 feet hose. Ten men.

The location of this Company has been changed to more convenient and suitable quarters on Mechanic street, without any additional expense in rent.

VOLUNTEER HOSE CO., NO. 2.

Foreman, William E. Cade. Have 600 feet of hose in their charge, and maintain their independent company.

They have the sincere thanks of the Engineers, for their valuable services during the year, and deserve honorable mention and the thanks of every citizen.

There is one two-wheeled hose carriage located at Greenwood, carrying 700 feet hose. There is no regular organized company there.

There is one four-wheeled hose carriage carrying 800 feet of hose, located at G. H. Hathaway's stable, belonging to the Lucius Beebe Company.

The total amount of hose now in use by the several companies is 3,500 feet.

One fire extinguisher and one Lowry hydrant head located at Town House.

The following alarms have been responded to during the past year :

April 3. Fire at upper depot, damage slight.

April 17. Alarm from box 35. Fire at C. A. Bowser's dry goods store. Damage \$11.

April 19. Alarm from box 35. Fire at C. F. Woodward's dwelling house, occupied by F. E. Noyes. Damage slight.

June 3. Alarm from box 35. Fire at I. A. Parsons' carpenter shop. Damage \$1,000.

July 4. Alarm from box 23. False alarm.

July 41. Alarm from box 41. Fire at Cushman estate, building owned by Dr. Davis, of Charlestown. Damage \$300.

July 4. Alarm from box 23. False alarm.

Sept. 7. Alarm from box 35. Dwelling house owned by Mrs. Schurman, Woodville. Damage to building and contents \$1,200.

Nov. 29. Alarm from box 23. Stable owned by Emma S. March, occupied by Frank H. March. Damage to building, \$190; to contents, \$428.97.

The reservoir located at the junction of Salem and Pleasant streets has received the attention of the Board, and the Road Commissioners were notified last fall to open said reservoir.

FIRE ALARM.

The Fire Alarm remains the same as last year and has given good satisfaction. There is need of more boxes, located as follows: one at the junction of Salem and Vernon streets; one at or near the Gas House; one on West Chestnut street near T. F. Smith's; one at Boyntonville; also one at or near the Town Farm.

In conclusion we desire to extend our thanks to the Selectmen, members of the department and to the citizens of the town for their support during the year.

Respectfully submitted,

HORACE W. DALRYMPLE, *Chief,*

ROGER HOWARD,

LEVI FLANDERS,

Board of Engineers.

ASSESSORS' REPORT.

Value of Buildings, exclusive of land, . . .	\$2,573,575 00

TRUSTEES' REPORT.

The Trustees herewith respectfully submit the Thirty-fifth Annual Report of the Beebe Town Library and Public Reading Room.

Perhaps the most important innovation to which the Trustees would call attention, is the opening of the Library to the public on every evening of the week. Directly after the last annual town meeting the project was brought up, and the Board gave it their undivided attention with the result that it was voted to open every evening for three months as an experiment, and see if the action would be appreciated by the citizens. At the end of this time we were pleased to note the general satisfaction over the change, and since then it has been open every evening and three afternoons. This change necessitated the raising of the Librarian's salary from \$450 to \$600, including the compensation of her assistant; but we are satisfied that the money could not have been better expended.

We all know how short a time has elapsed since free town libraries were almost unheard of. Many of us even remember when the library at home consisted of the Bible, Pilgrim's Progress, the Annual Almanac, the two or three gaudily bound books on the table, in the "best room," and our school books. If we wanted to read more, we had either to hoard our earnings and buy or go to our more fortunate friends and borrow, the exasperating story of the good boy in the Sunday-school Library book seldom satisfying our wants. What a change now, and at a cost of almost nothing to each citizen! This brings us to the all-important subject:

BOOKS.

Our purchases during the year have been almost the usual number, the amount expended being perhaps a little less than that of the previous year. In character we do not, in fact cannot, differ much from other town libraries. The demand in all public libraries is and always has been, first of all, for fiction. In our

selection of it we, however, have been particular to see that it is pure and wholesome. In addition to this we have tried to secure such novels as contain facts of history, discovery, invention science and general information, which, like unpalatable medicine, can readily be taken when hidden beneath a sugar coating. We are gratified that the criticisms upon our selections have been so charitable, for we are well aware that there have been, are, and we claim, must be, grounds for criticising the wisdom of some of them. The Board is composed of busy men, and the office of purchasing agent requires one of general education and liberal ideas, to which he must add a study of the catalogue, constant investigation of the Library's resources, an ever open ear to requests, and a diligent scanning of book reviews—all of which take time, and with most of us time is money, and this is a work of love. The difficulties attending the selection of books for our Library only become manifest when one is confronted at the book store with an interesting and valuable work, and the questions arise—have we got it? If not, what have we upon the subject, and are our works antiquated or do they contain the latest thought and information? Or again, how many are there among our readers who would take it from the shelves? Any one truly interested in books at once realizes that the days are not long enough to do judicious buying, let alone his own business. The remedy is as yet beyond our grasp, but it can easily be seen that if the library could afford to pay a person liberally educated and having the advantage of an extensive course of reading, for devoting the necessary time, books could be bought much more cheaply, and, more than all, systematically, with a thorough understanding of what the Library needs. Until such time arrives the Trustees will devote as much of their time as they can, and ask for charity in criticism.

ACCOMMODATIONS.

We very much need more room for our books. The important Government documents and reports are gradually being closeted to make room for new books more frequently called for, but there is no help for it until new quarters are provided. We doubt if there are many other town libraries the size of ours with accommodations so meagre.

It seems a pity that among the many schemes suggested, for the town to build engine houses and spacious quarters for other town institutions, no one of its citizens has the Library in view. It will not do to say we have books enough and must cease to buy until our people read what we already have. Novels are not the only books read; on the contrary, we have many diligent seekers for information among the Library's patrons, and they want the latest and best thoughts of the leading writers of the age, the results of the most recent discoveries, researches, and inventions, *Tempora mutantur*. Who, save from motives of curiosity, will call for a work on Literature, Science, Travel, Invention, or Art, published in 1790, when one of last year's issue can be had? The fact is, the old book had its mission, has served its purpose, and nine out of every ten, uncalled for, enjoys its honored old age on our shelves, well cared for, as every faithful public servant should be, in his declining years.

TRUSTEES' ROOM.

The Trustees have had tendered to them and gratefully accepted the use of a small room in the rear of the janitor's headquarters, where they can hold their meetings and those of their sub-committees.

VACANCIES IN OFFICE.

The terms of office for which Messrs. Beebe, Dunbar and Kernan were elected to serve, having expired, it will be necessary to elect three Trustees at the annual meeting, for the term of three years' service, as provided by law.

READING ROOM.

As heretofore, the attendance at the Public Reading Room tables has been large and orderly. The best use has been made of the appropriation, some of the previous year's periodicals and papers have been dropped and others more in demand, substituted.

Among the important and interesting books added to the Library during the year, we call attention to the following: On

ART AND INDUSTRY.

An Hour with Delsarte,	Morgan
Conversations in a Studio,	Story
Practical Decorative Upholstery,	Moreland
History of Painting,	Waltmann

BIOGRAPHY.

Benjamin Disraeli,	Brewster
Dorothea L. Dix,	Tiffany
Glimpses of Fifty Years,	Frances E. Willard

MISCELLANEOUS.

Over the Tea Cups,	Holmes
My Study Fire,	Mabie
Civil Government,	Fisk
Essays of an Americanist,	Brinton
Idle Thoughts of an Idle Fellow,	Jerome
Problems of Greater Britain,	Dilke

Our former fellow-townsmen, Geo. O. Carpenter, has presented the Library also with a set of the United States Pacific Coast Survey Reports published many years ago at a great expense, which the Trustees acknowledge with gratitude.

The foregoing list is merely suggestive, and does not comprise one third of the year's additions. We publish each spring a bulletin, uniform in style and character with the Catalogue, containing the entire list of books added during the town year. These are supplied at a cost of five cents each, and back numbers can be furnished, so that readers can always have a complete catalogue, and be thus enabled to prepare their request slips at home, thereby saving the annoyance of delay and crowding at the Library.

In conclusion, we recommend that the town appropriate for the Library \$400 and the proceeds of the dog-tax, and for the use of the Reading Room the sum of \$175.

For the Trustees.

WILLIAM E. ROGERS, *Secretary.*

TRUST FUNDS.

EZRA EATON BURIAL LOT FUND, \$100.

This fund was a gift to the town, March 2, 1857, the income of which, is used at the discretion of the Board of Selectmen, to keep in repair, the burial lot of the late Ezra Eaton.

The sum of \$3 has been expended by the Selectmen, the past year.

THE FLINT MEMORIAL FUND, \$1000.

This fund, from Mrs. Harriet N. Flint, is for the benefit of the Beebe Town Library, the interest thereon to be expended in the purchase of books.

The sum of \$60 as interest one year to Feb. 1, 1891, has been paid to the Trustees of the Library.

DR. F. P. HURD LIBRARY FUND, \$2500.

This fund is for the benefit of the Beebe Town Library and is invested in coupon notes of the town of Wakefield, bearing interest at the rate of four per centum per annum.

C. WAKEFIELD LIBRARY FUND, \$500.

This fund is also for the benefit of the Library, and is invested in the same manner as the Dr. Hurd fund.

JONATHAN NICHOLS TEMPERANCE FUND, \$1000.

This fund was a gift to the town, on certain conditions as described in the vote accepting the same. The conditions are such that any young man of Wakefield, who files his name with the Town Clerk, before he is sixteen years of age, and declares his intention not to drink intoxicating liquors and not chew or smoke tobacco until he shall become twenty-one years of age, and shall have kept his pledge until that time, shall receive from the income of the fund, ten dollars, together with a certificate of commendation from the Selectmen.

The Town Clerk has at the present time, the names of 231 young men who have thus pledged themselves, and the Treasurer has, up to the present time, paid the fee to 16 young men who have arrived

at the age of twenty-one years, and certified to the Selectmen that they have kept their pledge.

During the present year, a finely engraved Certificate, bearing an excellent portrait of the donor of the fund, has been executed, Mr. Nichols defraying the expense of the same.

STATEMENT OF INTEREST.

Balance available at last report,	\$225 28

C. SWEETSER BURIAL LOT FUND, \$1000,

The income from this fund is to be used in keeping in repair, and beautifying with flowers and shrubbery, the burial lot of the parents of the donor. The principal is on deposit with the Wakefield Savings Bank.

STATEMENT OF INTEREST.

Balance available at last report,	\$227 38
Interest on above to Feb. 1, 1891,	9 09
Interest 1 yr. from Savings Bank to Aug. 1, 1890,	40 20
	<hr/>
Total,	\$276 67
Expended as per Auditors' Report,	3 00
	<hr/>
Balance available,	\$273 67

C. SWEETSER LECTURE FUND.

Invested as follows :

Town of Attleboro, 4s due 1897, 5 Bonds, \$1000 each,	\$5000 00
Town of Brookline, 4s due 1893, 5 Notes, \$1000 each,	5000 00
	<hr/>
	\$10,000 00

Income from above one year, \$400, has been paid to Thomas J. Skinner, Treasurer of Sweetser Lectures.

This fund is for the purpose of providing such lectures as will tend to improve the public mind. A reasonable fee for admission is required, and the net proceeds of the Course are to be paid to such charitable organization in said Wakefield, as the municipal officers of the town may designate, to be distributed among the worthy poor of the town.

Last year the Treasurer was unable to render a report of the fourth course in the Annual Town Report, as the lectures were not completed in season to include it. Both the fourth and fifth Courses are therefore given in this report.

FOURTH COURSE. SEASON 1889-90.

In charge of Jacob C. Hartshorne, Curator.

The Treasurer would recommend that the town raise and appropriate the sum of \$3000 for interest upon the Town Debt.

Should the town vote to build a new School Building upon Academy Hill, as proposed, an additional sum for this purpose would be necessary.

It will be necessary also to provide for the payment of twenty-five hundred dollars of the principal of the town debt, for the same reason as stated in my last report, viz : the rescinding of certain votes relative to the raising of money for the payments of loans made for the Hamilton School Building (\$1500) and Park purposes (\$1000) and I would recommend that the sum of \$2500 be raised and appropriated for the payment of the Town Debt.

Respectfully submitted

THOMAS J. SKINNER,

Treasurer.

WAKEFIELD, MASS., FEB. 14th, 1891

CHAS. F. WOODWARD, *Collector.*

JAN. 31, 1891.

REPORT OF THE SELECTMEN.

To the Citizens of Wakefield:

At the close of the present municipal year, the common duty presents itself, of submitting for your inspection a general resume of the business transacted, and the work accomplished, and to offer such suggestions and recommendations as the experience of the past and our knowledge of existing affairs may be deemed to be for the interest of all. The year has been a prosperous one for Wakefield. The large increase of taxable property in various sections of the town, the guarantee of early spring developements of which initial action has already taken place, the changes and developements of business, mark the year as one of reasonable and satisfactory progress. Undertakings which a year ago seemed clouded with somewhat of uncertainty, have been accomplished with certainty of benefit to the town. That part of Wakefield known as Boyntonville has made commendable progress and has added to the material prosperity of the town in the erection of a number of substantial dwelling houses, and by the laying out and extending new streets. Greenwood Park, which was looked upon with a degree of distrust by some, has grown into prominence, and has added largely to the wealth and beauty of the town. In the West part of the town, the skill of the artist, the hand of the artisan and the sagacity of man has seized upon the superior natural advantages of that section, and without doubt the coming season will witness the beginning of what promises to be the most attractive locality within many miles of Boston, which the larger Boston may covet. Noticeable improvements appear on every side, and the town should be quick to welcome the advance, and heartily encourage the capital invested and energy exhibited by a liberal, well directed and comprehensive plan of co-operation in public measures calculated to promote, foster and advance the common weal.

DRAINAGE OF LAKE STREET DISTRICT.

By a vote of the town the matter of the drainage of the Lake street district so called, was referred to the Selectmen. A long delay occurred, caused by an inability to make satisfactory arrangements with the Boston and Maine Railroad concerning their part in the roadbed excavations and the course to follow. This delay carried the work along to late in the season, and the results obtained, although satisfactory in the main, hindered the completion of the work, and practically leaves it for the coming summer to make the conditions favorable to its further continuance. In connection and intimately associated with this matter is the petition of citizens in the Lake street district for the rebuilding of the bridge on Lake street, which is a part of the relief sought from the flooding of land in that locality, and in order that we may reap the full benefit of what has already been accomplished, we recommend that a reasonable appropriation be made to complete the work already undertaken.

Various articles referred to the Selectmen by vote of the town relative to the location of street lights have received attention, and such lights established as directed by the town.

Hydrants have been located, and contracts made with the Wakefield Water Company as the town have by vote ordered.

The suits of Rebecca C. Arrington and Frank McGlory against the town have not as yet been brought to trial.

The suit of Hattie D. M. Clark against the town has been settled by the payment of the award and costs of suit, as ordered by vote of the town.

Mr. H. Irving Eaton has presented to the Board a claim for injuries sustained on the highway, for which nominal damages are claimed, and which will be the subject of an article in the town warrant for the consideration of the town.

In view of the fact that no action has ever been taken to establish a uniform certificate of commendation as provided for in the Jonathan Nichols temperance and tobacco pledge, this Board, deeming the matter one of importance, prepared a certificate and submitted the same to Mr. Nichols, who heartily approved the plan of having a plate engraving executed, and voluntarily offered to bear the expense made necessary by its adoption. The certificate

has been carefully executed under the competent direction of Col. W. S. Greenough, and is now issued to persons entitled thereto.

The matter referred to the Selectmen relative to furnishing additional accommodations for prisoners has received attention and two new cells have been constructed, and a separate apartment for night lodgers built in the lockup. In this connection we recommend that an additional room or cell be constructed for the use of female prisoners. It is commonly asserted, and we believe with reason, that insanity obtains to a greater degree than at any time heretofore. Certain it is that in the past, women suffering with acute mania have been held for safe keeping until the necessary papers could be had for their commitment. It is probably certain that women will in the future from that cause or some other be required to occupy safe quarters. Whether of mania or criminal offence, no woman should be required to submit to confinement in the same quarters with men, especially if such confinement compels an indecent and disgusting association. We call attention to the report of the Chief of Police.

Various matters referred to this Board have been made the subject of reports to the town in town meeting.

During the year the perambulation of the town line between Wakefield and Lynnfield has been made, as has also the new line between Wakefield and Stoneham, and the necessary bounds on the last-named line established.

For a detailed account of the doings of the several departments, and the expenditures made, we refer the town to the several reports herewith submitted, and the financial exhibit therein made by the treasurer.

RAILROAD PROTECTION.

Upon the petition of citizens, the Board made request of the Boston and Maine Railroad Company to establish and maintain flagmen at the Bennett street and Richardson street crossings for the better protection of the travelling public, which request was complied with under the statute, and these two thoroughfares are now properly protected.

INSUFFICIENCY OF APPROPRIATION.

It is impossible always to foresee the needs which may arise, or the action which may be required to meet the demands of future

events, but when such issue presents itself, provision must be made for its adjustment and settlement. Expenditures unlooked for, but legitimate and necessary, have been made in several instances, and which will be more fully explained by the Auditors' itemized account herewith submitted, and which were not provided for by appropriation, causing a demand in excess of the ordinary sum appropriated.

INSURANCE.

The insurance on the Town Hall expires this year as follows: \$37,500, March 13, 1891; \$2,500, March 20, 1891; and \$5,000, Dec. 1, 1891; being a total of \$45,000. Other insurance expires as follows: North School House \$1000, May 9, 1891; Academy Building, \$1500, May 10, 1891; South Building, Academy Hill, \$2000, May 10, 1891; West School House, \$1000, May 10, 1891. Total \$6,500. Public Library, \$2000, May 1, 1891; Almshouse and Barn, \$3000, July 24, 1891. On the twelfth day of April, 1886, a committee appointed for that purpose recommended "that the Selectmen be instructed to insure as follows, when the existing policies expire:" Town Hall, \$10,000; school buildings and Almshouse the same as herein stated. That report was accepted and adopted, and the town will be called upon to take action as they may deem necessary in renewing such policies and making appropriations therefor.

ELECTRIC LIGHTS.

For a number of years the people of the town, in general terms, have desired the introduction of electricity for the purpose of lighting, both for commercial and public uses. It has several times been made the subject of town action. Committees have been appointed, and the report inexpedient, or delay for improvements, operated to hold in abeyance for a time, a matter which apparently held the attention of the people. So long as the desire was general, and no one appeared to actively strive for individual or special rights of control or direction, just so long dispassionate and conservative discussion prevailed; a feeling also very strongly prevailed in the later stages, that with the great and rapid improvements made in that line, hasty, or even carefully considered action, would not operate to the advantage of the town.

Finally, as will be seen by the report of the Selectmen for 1889 and 1890, the matter assumed definite shape by the application of several companies to the Selectmen for authority to engage in such lighting, and to erect poles and string wires for that purpose. Hearings were granted the various companies by the State Board of Gas Commissioners and the Selectmen, but no definite action was taken until Jan. 30, 1890, when a conditional right was granted the People's Company to engage in such business, and final action thereon deferred for one week; at the next meeting of the Board one of the members was absent sick, and it was considered unwise to take action upon so important a matter by the remaining members in his absence, and before final action could be had by the full Board, an injunction, restraining the Board from further action thereon, was served on each member. Upon the refusal of the Selectmen to grant the right to the Citizens' Gas Company to do electric light business, that company appealed to the State Board of Gas Commissioners, which left no opportunity for further action by the Selectmen. In the meantime no determination in definite form could be reached with either of the electric light companies to assume the responsibility of contesting the rights of parties in Court, and the Selectmen declined to assume the responsibility of contesting for such rights for a private corporation at the expense of the public. On the decision of the Board of Gas Commissioners being made public, granting the right to the Citizens' Gas Company to engage in such business, the Selectmen deemed it best to acquiesce in such decision. The matter has now been placed in the hands of a competent and painstaking committee, authorized to investigate and report to the town their conclusions.

POLICE.

Consequent upon the action of the Board of Selectmen two years ago, the present system of police supervision was established and the wisdom of such action has been fully demonstrated by increased efficiency and a more general attention to the needs and demands of the public in matters pertaining to police work. The enforcement of the laws relating to the sale of intoxicating liquor has resulted in closing up all known places of such traffic, while the many calls for police duty have been intelligently and

efficiently performed. The Court business is but a small fraction of police duty; careful investigation and action where the rights of the community are concerned, make or unmake the character of police efficiency; these duties are numerous and oftentimes exacting, and the present system meets the just and reasonable expectations of the Selectmen, and, we believe, the cordial approval of all law-abiding citizens; the amount appropriated last year for this service is insufficient for the payment of the officer and the ordinary expenses incident to the office, and we recommend a liberal and reasonable increase.

HENRY H. SAVAGE,
WILLIAM N. TYLER,
J. WALLACE GRACE,

Selectmen of Wakefield.

OVERSEERS' REPORT.

An extended review of the work of the past year, covering the giving of town aid to the poor and the management of the Town Farm is not needed, as the figures which have been carefully made up and furnished the Auditors will answer all inquiries in general and in detail. But there are some matters which deserve especial mention. The town voted an increased appropriation of \$500 for the use of this Board the past year. Bills of the previous year for more than this amount have been paid, and practically all bills up to the close of this year are paid, while we have kept within the limits of our appropriation. We have been able to close up the accounts of the year in this satisfactory manner, largely by reason of the vote of the town to purchase at wholesale prices and deliver from the Almshouse all goods for the relief of the outside poor. While this has thrown an increased burden of work upon this Board and especially upon the Superintendent at the Almshouse, it has been attended by the best results, and we heartily recommend the continuance of the system.

It has given the recipients an increased amount of aid for the money expended, and has given it to them in staple articles (not luxuries) of living, which has been no less a benefit to them, and in both respects is a boon to the taxpayers. These facts, coupled with our recommendations of an appropriation of \$5,000 for the coming year, sufficiently sum up this matter.

In accordance with our report of its absolute necessity last year, the town voted to appropriate \$500 for the painting and shingling of the Almshouse buildings. This money has, we believe, been well expended, we having bought the materials for painting, and contracting for all the work with the lowest bidders. The buildings

are now in thorough repair inside and out, and will need no further expenditure for a term of years. The chimneys were repaired, a new hard pine floor laid in the kitchen and hot-water tank and connections put in for the kitchens and bath room.

As will be seen by the inventory the weather conditions for the first time in some years have allowed the getting out of a quantity of meadow muck, which will reduce considerably the item of expense for purchasing manure the coming year. The usual amount of meadow land along Saugus River has been reclaimed, thus adding to the town farm an increased acreage of good mowing land. The condition of the farm steadily improves under the present management, and, we think, must be viewed by the citizens of the town with as much satisfaction as it is by ourselves. We have engaged Mr. Donald as Superintendent for the coming year.

Respectfully submitted,

SILAS W. FLINT,
HIRAM EATON,
THOMAS KERNAN,

Overseers of the Poor.

WAKEFIELD, Feb. 19, 1891.

“ Chas Ryder,	1 90
	<hr/>
	\$157 70
M.s. Susan Cavanagh (State),	8 70
“ Froton, “	4 27
“ Ann O'Connor, “	1 32
Geo. A. Roberts, Boston,	6 09
	<hr/>
Total,	\$178 08
Deduct potatoes and pork from farm, included,	25 46
	<hr/>
	\$152 62
Balance on hand,	74 85
	<hr/>
	\$227 47

The stock on hand in this department was valued Feb. 1, and found to amount to \$65.73, — a shortage of \$9.12, a portion of which has been used in the Almshouse and the remainder is accounted for by the goods delivered being figured on the orders a little below cost.

The amount (\$178.08) of aid furnished by this department having been included in the preceding statement of “ Outside Home Relief,” amounting to \$965.72, it has been deducted from that total, and the balance, \$787.64, is shown as the expense of that item in the opening financial statement; and at the same time in that statement the total purchases for this department (\$227.47) are included in the item “ Expense of Poor at Alms-

house." It was necessary to treat the matter in this manner in order that the statement of "Outside Home Relief" might show the total amount of aid furnished each person in that class.

The goods furnished by this department comprised the following twelve staple articles from which applicants for aid could select: Flour, tea, sugar, beans, pork, fish, potatoes, oat meal, meal, rice, peas, soap.

REPORT OF THE SCHOOL COMMITTEE.

The School Committee of the town of Wakefield would respectfully present the following report of the history and condition of the public schools during the year ending Dec. 31, 1890. That the report may be comprehensive, and at the same time as brief and convenient as possible, is the aim of the committee.

Three elements always enter into the school problem in any community: first, pupils; second, teachers; third, money.

PUPILS.

The public school system exists for the sake of the benefits that may be derived from it by the pupils. Unless those benefits are secured, then the money expended and the efforts of the teaching force are wasted. The success of the public school depends as much upon the home as upon the teachers or School Committee. If the earnest and honest efforts of the teachers to sustain the discipline of their schools and to impart knowledge are not supported by the home influence, comparatively little good can be accomplished. The School Committee desire here to express their appreciation of the earnest and hearty co-operation of the parents in securing the excellent results of the school year just closing. Comparatively few cases of discipline have come from the teachers to the School Committee, and this is as it should be. Only extreme cases have been so referred by the teachers. Almost uniformly the parents have sustained the committee in insisting that good discipline should be maintained in the schools, that the interests of the many should not be sacrificed to the disorder of a few.

The school census shows that there are in the town the following children of school age :

[illegible]

Attending,	1,010
Not attending,	162

SERIOUS INTERRUPTIONS.

There have been two serious interruptions in the school work of the year: one, affecting the schools in the High School building only; and the other, those especially on Academy Hill, and very largely all the schools of the town. The first cause of interruption was the delay in putting the new system of heating and ventilating into the High School. This interrupted the work in the First Grammar, Advanced Grammar, and High School. We are glad to report, however, that the work which was interrupted through this delay, has all been made up; and the course as laid down has been completed.

Another cause of interruption was the presence of Scarlet Fever in our town, which became a serious epidemic. A special committee from the School Committee was appointed to confer frequently with the Board of Health. The first cases of Scarlet Fever occurred in June, 1890, and the disease has continued more or less generally prevalent until the date at which this report closes. The disease has seemed to go in waves; that is, there will be a period of some days in which there are scarcely any cases, then they will multiply very rapidly for a few days. To illustrate: one school which had no cases when it closed for the holiday vacation, at the opening of the next term, out of an enrollment of forty-seven, had only nine present, thirty being absent on account of Scarlet Fever and Measles. It seemed best to close the Centre schools, and they were kept closed for four weeks during October. This seemed to have no perceptible effect upon the prevalence of the diseases, and by the advice of the Board of Health the schools were again opened, and have continued to the present time. No locality seems to be especially affected by the disease. In all cases the most rigid care is necessary in keeping the rules laid down by the Board of Health to prevent the spread of the disease. This care is not always exercised, and danger results from the neglect. We are happy to report that although the cases have been numerous, there have been but four deaths from the disease. Such an epidemic, of course, has seriously interfered with the best results of work,

even when the schools were not closed on account of it. The usual amount of work, however, has been substantially accomplished, notwithstanding this interruption, greatly to the credit of the faithful teachers.

TRUANCY.

The Committee are happy to report that there have been few cases of truancy during the year just closing. C. E. Niles, our Chief of Police, and Rufus Draper were appointed by the Committee, truant officers, and have been attentive and faithful in the discharge of their duties. In no case has it been deemed necessary by the Committee, to enforce the extreme penalty of the law. A visit from the truant officer, or an admonition from the School Committee, has generally corrected the tendency to truancy when it manifested itself in any pupil. There have been frequent absences from the schools, but these generally resulted from the illness which has been prevalent, or from fear, on the part of the parents, lest their children should be exposed to disease. As is usually true, a considerable number of older pupils have been absent a part of the year, to perform various kinds of labor. These pupils have uniformly made application to the proper authorities and received a legal permit for such absences. The Committee, however, would urge upon the parents the necessity of keeping their children in school the full year, when by any means it is possible. Pupils who are removed from the schools, although for satisfactory reasons, not only suffer serious interruption in the course of study, but lose heart in their work and are much less effective in the fragment of the year during which they attend school.

HIGH SCHOOL.

The course of study in the High School has been somewhat re-adjusted, and been made rather more comprehensive. Every year brings to this school an increasing number of those who are preparing for college. This fact necessitates an increase of expenditure, as a larger force of teachers is demanded. The classes, being smaller, are more numerous. Those who complete the full classical course in our High School are fitted for entrance examinations in our leading colleges.

GRADUATING CLASS.

The graduating exercises of the High School were held in the Wakefield Town Hall, June 25. These exercises were a credit to the town, and gave evidence of excellent work in the schools. The Programme was as follows:

PROGRAMME.

- GRAND MARCH. "W. S. H. Cadets." *Ripley.*
Mozart Orchestra.
- SONG. "To thee, O Country." *Eichberg.*
- SALUTATORY. "The Advance of Knowledge."
Margaret Annie Dillon.
- DECLAMATION. "Regulus to the Carthaginians." . . *Kellogg.*
Frank Henry Hackett.
- ESSAY. "Lessons Taught in the Public Schools, not
Learned in Books."
Alice Jayne Kernan.
- ORATION. "Concentration."
Alex Amerton Morton.
- SONG. "Summer now hath come among us." *G. F. Wilson.*
- CLASS HISTORY. "'86-'90"
Lillian Mary Derby.
- RECITATION. "One Niche the Highest." *Anon.*
Catherine Louise Kelley.
- DEBATE. "Resolved, that the Jury System should be Abolished."
Aff. Thomas O'Connell.
Neg. Lilley Eaton.
- RECITATION. "The Death of Charles IX." . . *Maud Moore.*
Catherine Florence Hollis.
- SOLO. "Speak to me." *Fabio Campana.*
Effie Alfreda Griffin.
- DECLAMATION. "Toussaint L'Ouverture." . *Wendell Phillips.*
John Edward Drugan.
- PRESENTATION. The Bust of Longfellow.
Grace Eleanor Aborn.
- ENGLISH HONOR ESSAY. "Footprints."
Lena Farmer Nickerson.

CLASS POEM. "Echoes from Lake Quannapowitt."

Edith Mabel Emerson.

SONG. "The Heavens are Telling."

ORATION. "First Oration of Cicero against Cataline."

Charles Bertrand Bowser.

CHEMISTRY EXERCISE WITH EXPERIMENTS.

William Osceola Abbott.

Essie Mabel Kingman.

RECITATION. "After Trouble,—Rest."

Effie Alfreda Griffin.

ESSAY. "The American Home."

Kate Marie O'Connell.

SONG. "Where are you going to?" *Caldicott.*

CLASS PROPHECY. "How it Happened."

Carrie Williams Clapp.

ORATION. "English Oppression."

James Patrick Kelley.

VALEDICTORY. "Exitus Acta Probat."

Mary Elizabeth O'Conner.

PRESENTATION OF DIPLOMAS.

Rev. C. J. Ryder, Chairman of School Committee.

CLASS ODE, Written by Alice Jayne Kernan.

BENEDICTION.

CLASS ODE.

WRITTEN BY ALICE JAYNE KERNAN.

To-night, amidst our happiness,
 The thought comes—we must part;
 And ties, which love has bound so fast,
 Be severed in each heart.
 Good Bye, Good Bye, O Wakefield High!
Long may your banner wave
 O'er teachers kind, we leave behind,
 O'er scholars true and brave.

CHORUS.—Farewell, farewell, to all, farewell!

Farewell, farewell, to all a fond farewell!

What, though our paths apart must run ;
 Long will our hearts recall
 The pleasures we've together shared
 Within the school-house wall ;
 And, where such joyous days we've spent,
 Fond memory oft will dwell.
 With saddened hearts and dewy eyes
 We bid to all, farewell.—CHORUS.

NAMES OF GRADUATES.

CLASSICAL COURSE.

William Osceola Abbott,	Catherine Florence Hollis,
Charles Bertrand Bowser,	James Patrick Kelley,
Margaret Annie Dillon,	Alice Jayne Kernan,
Lilley Eaton,	Katie Marie O'Connell,
Mary Elizabeth O'Conner.	

ENGLISH COURSE.

Grace Eleanor Aborn,	Frank Henry Hackett,
Carrie Williams Clapp,	Catherine Louise Kelley,
Lillian Mary Derby,	Essie Mabel Kingman,
John Edward Drugan,	Alex Amerton Morton,
Edith Mabel Emerson,	Lena Farmer Nickerson,
Effie Alfreda Griffin,	Thomas O'Connell.

CADETS.

The citizens have been justly proud of the fine appearance made by the High School Cadets. The young men who compose this company have given much time and study to the Manual of Arms and the evolutions of the company. The result has been very satisfactory. This company took the second prize on the First Annual Field Day, held in Wakefield, May 10, 1890, at which there were present companies from Gloucester, Lynn, Woburn, Brookline, Reading, Lowell, Malden and Medford. The School Committee appreciating the importance and value of this branch of training, took action this year by which the Cadets are brought more immediately into the line of school work. Promotions hereafter are to be based not simply upon military fitness,

but upon honesty and faithfulness in school work. The company is at liberty to elect its officers, but those elections must have the approval of the principal, and then the election is sanctioned by the School Committee. This improved method has been heartily endorsed by the Cadets and has proved very satisfactory.

A drill-master has been employed this year and the Cadets have spent considerable time in the evening in the study of military tactics. We are happy to commend the spirit which has prevailed among them this year, as well as the excellent results of their work.

FLAGS.

Through the generous kindness of various citizens, the United States flags have been placed over all the schools in town this year. The committee would publicly in this report express their thanks to the large-hearted citizens who have contributed these flags. The stars and stripes floating over every school are an object-lesson in patriotism, and must stir the hearts of the pupils who are to be our future citizens with enthusiasm for their country. The public school should teach patriotism if it fails in every other line. These beautiful flags are text-books in loyalty to country, written in red, white and blue.

TEACHERS.

Frequent changes in the teaching force in any school are disastrous to the best work. It has been the effort of the School Committee to retain the successful teachers as far as possible. There have been, however, the following changes in the teaching force: Miss Grace J. Barker resigned her position as assistant in the High School at the close of the Summer term. Miss Helen Folsom, who came well recommended, was appointed to this position and began teaching at the opening of the Fall term and has done excellent work. Miss H. J. Williams resigned the position of first assistant in the High School in the middle of the Fall term. The Committee were unable at once to fill this place satisfactorily. Miss Martha Sprague was appointed temporarily, and her services were very acceptable. On account of the interruption at the beginning of the term, it was found necessary to continue her services for the remainder of the year.

Miss Alice M. Merrill, a teacher of large experience, who held a position of responsibility in the public schools of a neighboring town, was finally secured and appointed to fill permanently the position of first assistant. The appointment has been thoroughly satisfactory.

The Centre Second Primary suffered the loss of teacher and assistant teacher, both of whom resigned. The Committee were especially fortunate in securing Miss Minnie Emerson, whose record as a former teacher in our public schools had been such as to insure her large success in this important position of teacher in the Second Primary. Miss Hattie A. Currier, who had filled the position of assistant in the West Ward School, was transferred to the position of assistant in the Centre Second Primary.

Miss Kernan, who graduated in the last class from the High School, was appointed as Assistant in the Hamilton Primary School. Miss Edith R. Marshall was appointed to the place made vacant by the transfer of Miss Currier.

It does not seem out of place here to commend the thorough and conscientious work, which has been performed by our faithful teachers in our public schools during the past year. The embarrassments and annoyances which teachers endure, none know except those who have been teachers themselves. The work has been especially perplexing this year, on account of the frequent absences and the excitement in the public mind, which affected the pupils, largely occasioned by the prevalence of sickness in our community. The school year has been very successful in the face of these serious interruptions, and the credit is due to the conscientious work of these faithful teachers.

MONEY.

The general fund voted by the town for the support of schools for the year just closing was \$17,800. The expenditures have been kept entirely within the appropriation. The salary of an additional teacher for the High School had to be provided for, beginning with the latter part of September. Miss H. S. Williams, the first assistant in the High School, resigned unexpectedly to the Committee, and the vacancy was filled by the appointment of a temporary teacher, until the Committee could secure one thoroughly capable of filling this important place.

The new system of heating and ventilating the High School was not completed until the 29th of September. This delay interrupted the school for about four weeks, and necessarily increased the amount of work to be done in the High School during the remainder of the school year. It was found necessary, on this account, to continue the temporary teacher during the year, a permanent teacher having been appointed as first assistant. The account stands at this date, Dec. 31st, 1890, as follows:

GENERAL FUND.

Appropriation,	-	-	-	-	-	-	\$17,800 00
Pay rolls, 9 months,	-	-	-	-	-	-	\$14,430 05

Balance,	-	-	-	-	-	-	\$611 04

CARE OF AND IMPROVEMENTS IN BUILDINGS.

The school-house at Greenwood has been thoroughly repainted outside, the desks varnished, and the inside generally repaired, and the North Ward school building has been painted inside and the walls and ceilings tinted. The buildings on Academy Hill have received only attention enough to render them fit to be used. Unnecessary expense has not been incurred, as it has been the hope of the Committee that the town would see its way to erect a suitable school-house on this beautiful site. The Committee painfully felt the need of it when they found it necessary to divide the Second Primary, permitting one-half the pupils to

attend one session, and the other half the other session. The enrollment of the school was eighty-six, and the seating capacity seventy; and not more than fifty pupils should ever be permitted to occupy any room. Slight expense has been necessary, as the financial report will show, to renew the stoves and keep the school in running order.

Somewhat extensive improvements have been made in the High School building.

Although these improvements were not committed to the School Committee as such, but to a special committee appointed by the town, it is proper that reference should be made to them here. At a town meeting held August 4th, the amount of \$4,547.00 was appropriated to meet the expense of putting into the High School the Fuller and Warren system of heating and ventilation. This sum was entirely sufficient to meet the expense of this change. Certain improvements were made, however, at the same time, which were necessary, and involved some expense beyond that provided for by this special appropriation.

RECOMMENDATIONS. — A NEW BUILDING.

First. The Committee would respectfully but earnestly urge the adoption of some plan by which the capacity of our schools may be enlarged. Any one who will take the pains to analyze the statistical tables will see that in many of the lower grades the seating capacity is not sufficient to accommodate the enrollment of the schools. A new building is imperatively needed. Nearly ninety pupils were enrolled in the Second Primary School, the seating capacity of which is only seventy. The teacher of this grade reports that there doubtless would have been one hundred present at the beginning of the winter term, had it not been for sickness among the children. It goes without saying, that the best work cannot be done under these conditions. The Committee is very hopeful that before the close of the present school year some substantial steps will have been taken toward the better accommodation of our school children.

Second.

SUPERINTENDENT.

Another recommendation which the Committee would urge upon the citizens is the employment of a Superintendent of Public Schools as soon as possible. In the admirable report presented in 1885, the Committee say: "It must be manifest to every citizen that the Committee cannot, in the very nature of things, give to the schools that care and constant supervision which the magnitude of the interests demands." Men who are extremely busy with their regular business, are generally the men elected upon the School Committee, and they are probably the men who are most useful on that Committee. In the very nature of the case, it is impossible for them to give enough time to the schools to superintend them thoroughly. As a result, there is less unity, thoroughness, and effectiveness in the work. It is the opinion of the present School Committee, that by certain re-adjustments of the teaching force, a Superintendent's salary could be mostly provided for, without increasing the appropriation. They earnestly recommend such an appointment, and in doing so are only reiterating the opinion of the able Committees that have gone before them, as the above quotation shows.

Third.

INDUSTRIAL TRAINING.

The Committee would modestly and tentatively suggest the introduction of some simple forms of industrial training into our schools. A considerable number of our public schools are introducing this department of training. This report is not the place for argument, nor is argument necessary, for every intelligent citizen will at once see the value of such a course of training. The object of our public school system is to train citizens for intelligent citizenship; men and women for their life work. To train the hand is as essential as to develop the mind. That this might be accomplished, a school of carpentering could be introduced with comparatively little expense. This would also be a step in preparation for the Institute of Technology to those who are fitting for that institution. The hand on the dial points in the direction of such training, and it would be greatly to the credit of our beautiful village to be in the van of those who move

along the lines of large and complete development of progressive school work.

With acknowledgement of the hearty support given to the public schools during this year by the citizens of the town, this report, with the statistical table, is respectfully submitted by,

CHAS. J. RYDER, *Chairman*,
 ASHTON H. THAYER, *Secretary*,
 W. E. ROGERS, *Treasurer*,
 E. A. UPTON, *Clerk*,

AUDITORS' FINAL STATEMENT.

From March 6, 1890, to Feb. 5, 1891, the Selectmen have drawn 1,071 orders on the Treasurer representing \$66,825.51, and a larger volume of business than in any previous year. We have examined the vouchers for these payments, and our report upon them will be found on pages 111 to 149, arranged in the departments to which they belong.

Our final balance sheet (page 149) shows a total expenditure of \$74,814.87, which includes \$7,989.36 disbursed directly by the Treasurer for town debt and interest, and Library and Reading Room payments. We have verified the receipts of such departments as pay money to the Treasurer; we have examined the books of the Collector of Taxes and of T. J. Skinner, treasurer of the Library and Reading Room, and find them correct (see pages 88, 89 and 102).

We have also examined the accounts of Mr. Skinner as Town Treasurer, and find them correct as exhibited on pages 86 and 87, with the proper vouchers for all receipts and payments, and that he has a cash balance of \$2,238.20 on deposit in the National Bank of South Reading. We also certify that he has the securities and deposits representing the C. Sweetser Lecture Fund and Burial Lot Fund and the Library Funds (see pages 90, 91 and 92). An examination of our final balance sheet on page 149 shows overdrafts in different appropriations, amounting to \$1,760.37. It seems proper to call the attention of the town to this matter as such overdrafts are prohibited by vote of the town, the only exception (Poor Department) having been put on the same footing as the other departments in 1878.

Respectfully submitted,

WALDO E. COWDREY,

WILLIS S. MASON,

EVERETT W. EATON,

Auditors.

WAKEFIELD, February 21, 1891.

REPORT

OF THE

Committee Chosen at a Town Meeting

HOLDEN JANUARY 6, 1891, TO TAKE INTO CONSIDERATION
THE SUBJECT OF A CONTRACT

WITH THE

CITIZENS' GASLIGHT COMPANY

TO FURNISH

ELECTRIC LIGHTS FOR THE STREETS OF THE TOWN,

AND ALSO

IN REGARD TO THE TOWN'S ESTABLISHING AN ELECTRIC-
LIGHT PLANT FOR LIGHTING THE STREETS
AND PUBLIC BUILDINGS.

BOSTON:

PRESS OF ROCKWELL AND CHURCHILL.

1891.

REPORT.

IN the warrant for the town meeting, holden on the 6th day of January, A.D. 1891, there were two articles, of which the following is a copy: —

“ARTICLE IV. To see if the town will contract with the Citizens' Gaslight Company for lighting its streets with electric lights and appropriate money therefor, or what they will do about it.

“ARTICLE VIII. To see what action the town will take in regard to establishing an electric-light plant for lighting its streets and public buildings.”

Acting upon the above articles, the undersigned were appointed a committee to take the subject-matter of said articles into consideration and report at the next Annual Town Meeting. By a subsequent vote the committee was instructed to report in print before the Annual Meeting.

Having attended to the duty assigned us as best we could considering the limited time at our disposal, we beg to present the result of our investigations to the town. To enable the town to act with greater intelligence, we give a brief *résumé* of the electric-light controversy in this town.

At the Annual Meeting in 1887 a committee of five was appointed to investigate the subject of electric lights for the town. That committee, at the November meeting of the same year, made an exhaustive and instructive report, the gist of which was, that electric light would cost nearly double the amount of gaslight, and that it was advisable to wait for the further development of the various systems of electric lighting before taking action. Near the beginning of the municipal year of 1888 and '89 three electric-light companies made application to the Selectmen for the right to erect

poles in the streets of the town for the purpose of supplying the town and its inhabitants with electric lights. One, the Wakefield Electric Light and Power Co., was composed entirely of citizens of our own town, and the other two of persons living beyond its limits. No franchise was granted to either of said companies by the Board of Selectmen for that year, and the two last named abandoned their applications.

Early in the summer of 1889 the People's Electric Light and Power Company made a similar application to the Board of Selectmen of that year, and the Wakefield Electric Light and Power Company renewed its application. A public hearing was given both these companies.

Up to October, 1889, the Citizens' Gaslight Company of Reading, South Reading, and Stoneham, a corporation which for many years had been furnishing these towns with gas, had taken no action to avail itself of the provisions of the law of 1887 authorizing gas companies to furnish electric light. In October, 1889, in accordance with the provisions of Chapter 385 of the Laws of 1887, the Gas Company voted to apply to the Gas Commissioners of the Commonwealth for authority to furnish electric light in the towns of Wakefield, Reading, and Stoneham; and in accordance with that vote, made application to said Commissioners; upon which application notice was ordered and a hearing had at the Town Hall in Wakefield. The law vests in the Gas Commissioners of the Commonwealth the right to grant gas companies power to furnish electric light, and among other sections of Chapter 385 of the Laws of 1887 are the two following, which are particularly applicable, and we quote the same: —

“SECTION 2. Said board shall at the time of granting said authority prescribe the time, not exceeding six months, within which said company shall erect and equip such a plant for generating electricity for light and power as may be required in the specified territory, and designate the minimum capacity of such plant; and if said company shall neglect to erect and complete said plant within the time prescribed,

said authority shall thereupon become void, and no such authority shall be again granted to said company within two years thereafter; *provided, however*, that said board may, for cause shown, extend the time first prescribed for erecting and equipping said plant not more than three months from the expiration of the time first prescribed.

“SECT. 3. At the expiration of the time and extension thereof, if any, given under the preceding section, said board shall, after such examination as they shall deem proper, make, in a book kept by them for that purpose, a record as to whether their orders with reference to the erection and completion of said plant have been complied with. Said record shall be conclusive evidence of the truth of the matters stated therein.”

On the 16th day of December, 1889, said Commissioners passed the following order: —

“*Ordered*, That said company is hereby authorized to engage in said business in the towns of Reading and Wakefield, and that said company within six months from this date procure a plant erected and equipped for generating electricity for light and power with a minimum capacity of sixty horse-power, and dynamo capacity sufficient to convert the same into light and to operate motors.”

On the 13th day of June, 1890, said Commissioners passed the following order: —

“*Ordered*, That the time prescribed in the order of the 13th day of December last, within which the company shall procure an electric-light plant, be extended three months from the expiration of the time heretofore fixed.”

In accordance with the law and the orders of the Gas Commissioners, it devolved upon the gas company to secure the consent of the Selectmen to erect poles and string wires in the streets of the town, and to erect and complete said plant, on or before the 16th day of September, A.D. 1890; and the law provides that in case of neglect to do this its authority will become void, and no further authority can be granted to it within two years thereafter.

After the receipt of this grant of power from the Gas Commissioners of the Commonwealth, the Gas Company made application to the Selectmen of the town for authority to set poles and string wires in the highways of the town for the purpose of distributing electricity for light and power. A public hearing was notified upon this petition, and had at the Town Hall. This placed the three companies upon equal legal footing. Their legal status before the Selectmen was exactly the same, and the law imposed upon the Selectmen, and on them only, the duty of determining which one, if either, of said companies should be granted the authority prayed for.

Pending a decision by the Selectmen between these three companies, a town meeting was called, the warrant for which contained the following article: —

“ARTICLE V. Whether they will vote to instruct the Selectmen to grant to the Citizens’ Gaslight Company of Reading, South Reading, and Stoncham, the privilege of erecting poles and wires in the streets and highways of the town to be used in carrying on the business of furnishing electricity for light and power, or what they will do in the premises.”

Under said article the following vote was passed almost unanimously: —

“*Voted*, To instruct the Selectmen not to grant this privilege to the Citizens’ Gaslight Company.”

During the pendency of these various applications each of the three companies made propositions to the Selectmen as follows: —

PROPOSITION OF THE PEOPLE’S ELECTRIC LIGHT AND POWER COMPANY.

“WAKEFIELD, MASS., Oct. 17, 1889.

“*To the Honorable Board of Selectmen of the Town of Wakefield*: —

“At a meeting of the Directors of the People’s Electric Light and Power Co., held on Monday evening, Oct. 14,

1889, it was voted to submit the following statement in answer to the request of the Board of Selectmen of the town of Wakefield, dated Oct. 11, 1889.

“We propose to put in a system of lighting both by the arc and incandescent method. All dynamos, engines, station apparatus, etc., we will guarantee shall be purchased from concerns of unquestioned reliability, and shall be first-class in every respect. The construction of the lines necessary shall be done by some reliable construction company under the supervision of the chairman of the Board of Selectmen, if your Honorable Board shall so decide.

“It is proposed to locate the plant for the present at the pumping-station of the Wakefield Water Company, if a contract satisfactory to our company can be made; if not, we shall hire or erect suitable buildings elsewhere.

“We will agree to furnish the town with ten arc lights, to be located by the Board of Selectmen at points near the centre of the town, for a period of three months free of expense on the completion of the plant, lights to be lit according to the moon schedule.

“We will guarantee that our rates to the town for lighting the streets and public buildings, and to the inhabitants of the town for commercial lighting, shall be as low as the rates anywhere, where the circumstances are similar to those in our town.

“And we will agree to begin the erection of our plant not later than thirty days from the official notification of the granting of our petition by your Honorable Board, and will complete it at the earliest possible moment.

“PEOPLE'S ELECTRIC LIGHT AND POWER CO.,

“BY EDWIN C. MILLER,

“*President.*”

PROPOSITION OF THE WAKEFIELD ELECTRIC LIGHT & POWER COMPANY.

“ To the Honorable the Selectmen of the Town of Wakefield:—

“ The Wakefield Electric Light & Power Company hereby propose that, if the privilege of erecting poles and wires in said town is granted to it, it will enter into an agreement with the town that the system to be employed shall be satisfactory to your Board; that one of your number shall be placed on the Board of Directors of the company to supervise the entire work of the company; that all bills for materials purchased and work done shall be audited by your Board or its representative; that said representation on said Board of Directors shall continue for one year; that at any time within one year the town, if it so desires, may purchase the entire property of the company by paying to it the actual cost thereof and six per cent. interest.

“ WAKEFIELD ELECTRIC LIGHT & POWER COMPANY,

“ BY GEO. H. TOWLE,

“ Its Attorney.”

The Gas Company did not submit any written proposition, but did orally offer to comply with all the conditions which any other company proposed, and furnish light for ten per cent. less than any other company then in existence would or could do.

The Selectmen considered their duty, at this time, to regard that vote of the town as binding upon them, whether it accorded with their own views or not.

Shortly after the town passed the above vote, an order from the Superior Court of Middlesex County was served upon the Selectmen to show cause why they should not be enjoined from granting the People's Electric Light & Power Company the franchise prayed for by them. This was a practical injunction, and is regarded by the courts of the Commonwealth as having the same effect, practically, as a

peremptory order. Of course this prevented the Selectmen from granting any franchise to the People's Company. On the first day of March, 1890, the Selectmen formally refused to grant the franchise prayed for by the Gas Company and the Wakefield Electric Light & Power Company. From this refusal both said companies appealed to the State Board of Gas and Electric Light Commissioners, as provided by law they might do. The Wakefield Company did not prosecute its appeal. The Gas Company did, and a hearing on that appeal was held at the Gas Commissioners' office; and on the 3d day of July, 1890, said Commissioners rendered their decision and reversed the action of the Selectmen, and granted to the company the right to erect poles and maintain wires in the streets of Wakefield for the purpose of furnishing electric light to the town and its inhabitants.

On the same day the Gas Company, acting under Section 4 of Chapter 385 of the Laws of 1887, filed the following petition: —

“ To the Selectmen of the Town of Wakefield: —

“ Respectfully represents the Citizens' Gaslight Company of Reading, South Reading, and Stoneham, that it is duly authorized and empowered to engage in the business of furnishing electricity for light and power in the town of Wakefield, and to erect poles and string wires in the streets and highways of said town.

“ It therefore prays that your Board will designate such streets and highways, and such points and places in said streets and highways, for the erection of poles and stringing of wires as may be necessary for the purpose of conducting said business.

“ CITIZENS' GASLIGHT COMPANY OF READING,
SOUTH READING, AND STONEHAM.

“ BY S. K. HAMILTON,

“ Its Attorney.

“ JULY 3d, A.D. 1890.”

As understood by us, this petition, taken in connection with the law under which it was drafted, asked the Selectmen to designate the particular places in the streets in the town at which poles should be erected, the company then having had the right to erect them in the streets granted to it by the Gas and Electric Light Commissioners.

This petition was filed on the day of its date, and no action has ever been taken upon it.

About the 7th day of August, 1890, the holders of a majority of stock of the Gas Company made a bargain to sell their stock, which bargain was subsequently carried out, and the management of the Gas Company passed into other hands. Under this new management Charles F. Woodward, of this town, was made president, and T. H. Buck, of the Woburn Electric Light Co., treasurer.

On the evening of the same 7th day of August, as the Selectmen of the town were about closing their public session at a regular meeting of the Board, Mr. Woodward called upon the Selectmen, and we are informed and believe that he made an oral application for some kind of a franchise to be granted to the Gas Company; and on that evening, without notice and without hearing, as the law plainly requires, the Selectmen passed the following vote: —

“ Voted, That the Citizens' Gaslight Company of Reading, South Reading, and Stoneham be and is hereby authorized and empowered to engage in the business of furnishing electricity for light and power in the town of Wakefield, and to erect poles and string wires in the streets and highways of said town, the location of said poles to be hereafter designated and subject to such restrictions as to quality and style as may be imposed by the Selectmen of said town of Wakefield, and subject also to such other provisions and conditions as may be required by said Board of Selectmen.”

This action was not made public either by the Gas Company or the Selectmen for nearly two weeks. Whether this was from design or accident it is not our province to determine.

We have caused the records of the Selectmen to be examined, and we fail to find any vote designating the location of poles, or imposing any restrictions whatsoever upon the Gas Company. Immediately after the change in the management of the Gas Company, it proceeded to erect an addition to the gas-house, and to erect a plant to furnish electric lights to the town of Wakefield; and on the 16th day of September, the time when its franchise would expire if it neglected to erect and complete the plant designated in the order of the Gas Commissioners, it had a building partially completed, an engine, and some electrical machinery therein, and some poles erected in the streets of the town, and did on the evening of that day light, as we are informed, six street-lights. Since that time the work of erecting poles and stringing wires has been pushed in a way and manner as well known to other citizens of the town as to the committee, and we are informed that the company has twenty-eight arc lights on the streets and a number of incandescent lights.

This we believe is a plain and truthful summary of this controversy up to the time of our appointment.

Since our appointment the Supreme Judicial Court of this Commonwealth has decided that towns cannot erect and maintain plants for generating electricity to be used in lighting their own streets and public buildings, without further legislative authority. Notwithstanding this, we have not felt at liberty to disregard the instructions of the town to us, in view of the facts that the Legislature is now in session, and that the matter of authorizing towns to furnish their own lights is being considered by that body, and also that there is an article in the warrant for our annual town meeting to see if the town will petition the Legislature to authorize it to engage in the business of electric lighting by a special act.

In approaching the consideration of the subject-matter referred to us for investigation and report, we have done so with an eye single to the welfare of the town, and have sought to present unvarnished facts, and our conclusions

based upon those facts, and we leave the town to adopt or reject them, as it may deem wise. At the outset, upon some of the questions involved in the matter referred to us the committee held decidedly divergent views, which, perhaps, have not all been harmonized; but our investigation has made them a unit upon the essentials, and this report is a unanimous one.

In performing our work we have held numerous meetings,—two with the representatives of the Gas Company,—obtained the opinions of practical and expert electrical engineers, visited the works of the Gas Company and the electric-light works in the town of Danvers, owned and operated by that town.

Immediately upon the organization of the committee, January 19, we applied to the Gas Company for its lowest proposition, in writing, for supplying the town with electric lights, and asking it to submit the same at our meeting the 21st of January. The company was unable to comply with this request on account of the short notice. The committee then invited it to comply with that request at “the earliest possible date.” On the evening of February 14th the president of the company, accompanied by one of the directors and its electrician, submitted an oral proposition, which was reduced to writing and submitted to us on February, 17th as follows:—

“The Citizens’ Gaslight Company makes the following proposition, namely: Arc lights, 1,200 candle-power, 20 nights each month from dusk till midnight, for \$80 per year. Incandescent lights, 25 candle-power, for same time as the arcs, \$18.00 per year. Or the company will agree to accept such prices as may be decided by a board of disinterested persons possessing a practical knowledge of electric lighting,—the town to choose one, the company one, and those two a third.

“CITIZENS’ GASLIGHT COMPANY,

“BY CHARLES F. WOODWARD, *President*.

“P.S.—The price of 16 candle-power incandescent lights in buildings is one cent an hour.”

It will be seen that this is the same proposition submitted to the town on the 6th of January, with the addition of the offer for arbitration. We were unable to get any lower offer or further concession from the company.

In compliance with what we understood to be the wish of the town, we sought to obtain a statement of the financial condition of the company, also the names of the board of directors, and some of the largest stockholders. This information was refused, on the ground that the inquiries related to matters with which the town had no concern. It appeared, incidentally, in our interviews, that a very large part of the stock of the company was owned by non-residents of the town; that Messrs. Charles F. Woodward, Ezra M. Southworth, R. P. Buzzell, and T. H. Buck are among the directors; that Mr. Woodward is president, and Mr. Buck treasurer, of the company; and that the plant is mortgaged for seventy thousand dollars. This was all the information upon these points which we could obtain from the representatives of the company who met with us.

Failing to ascertain the facts required from the company, we applied at the office of the Secretary of the Commonwealth for an inspection of the annual statement of the company, which should have been filed last November, according to law, and which would give the names of the stockholders and the amount of stock held by each, together with the names of the officers of the company, but were there informed that the company had failed to comply with the provisions of law. There being no other sources of information open to us, we are unable to give the town any further information upon these points.

The company having refused to furnish your committee or the town any information whatever upon its financial standing, except as above stated, we sought such information as we could obtain from other sources.

We find that the authorized capital stock of the company

is one hundred thousand dollars; that the par value of the stock is one hundred dollars per share; that nine hundred and fifty-three (953) shares of this stock have been issued, amounting to ninety-five thousand three hundred dollars (\$95,300); that the gas-works were constructed in 1859 and 1860; that the contractor was paid for his work in money and stock of the company in about equal proportions.

The Gas Commissioners of the Commonwealth, in their report for the year 1889, made to the Legislature of 1890, estimated the value of the plant at thirty-five thousand dollars (\$35,000), and that was the value placed upon it by some of its most judicious stockholders; and we are informed that a large portion of the stock changed hands in 1889 for less than that figure. At this time the company had no debts, and practically no surplus, so that thirty-five dollars (\$35.00) per share represented the true value of the stock based upon the value of the property. Since that time it has added to its plant the brick gas-holder and its electric-light plant.

We have no means of knowing the cost of these additions, but it is apparent that the company had to incur an indebtedness to make them.

In view of the fact that the company refused to furnish any information upon its financial standing, it is certainly fair to all to publish the statement circulated by the Suffolk Trust Co. of Boston, which is trustee for the holders of the bonds which the above-named mortgage was made to secure. It bears no signature, but presumably it is issued with the approval of the Gas Company, as it is in its interest and issued by the trustee chosen by itself. It is as follows: —

“We offer, subject to previous sale, \$70,000 of 6 per cent. Twenty Year Bonds, issued by the Citizens' Gaslight Company of Wakefield, Reading, and Stoneham. Denomination, \$500. Suffolk Trust Company, Boston, Mass., Trustee.

“Principal and interest payable and bonds registered at the office of the Trustee.

“Population of the three towns, 18,000.

“The company is organized under the laws of Massachusetts, with a paid-up capital of \$95,300, is a dividend-paying company, has no debts, has 20 miles of street mains, exclusive gas and electric franchises. The bonds are issued to extend gas plant and to add an electric-light plant. Cost of plant completed, \$175,000.

“First Mortgage Bonds, 6 per cent., \$70,000; dated Sept. 15, 1890, payable Sept. 15, 1910. Redeemable on or after Sept. 15, 1895, at 105 and interest.

“STATEMENT.

Earnings from gas sales, as per statement	. \$13,000 00
Estimated electric-light business	. . . 9,000 00
	<hr/> \$22,000 00
Expenses, operating expenses, taxes, and interest on bonds 13,000 00
	<hr/>
Surplus <u>\$9,000 00</u>

“As a home investment paying 6 per cent., and having for security a property amounting in value to more than double the amount of the bond issue, we can offer these bonds with the confidence that investors of trust-funds will find them satisfactory and reliable.”

We offer no comment upon this statement.

An inspection of the company's plant shows that it has a brick building used for electric-light purposes, in which are placed two 125 horse-power boilers and one 125 horse-power engine, and electrical machinery of the Thomson-Houston manufacture for generating electricity, all of which, so far as we are able to judge, is of a first-class character and in first-class condition. The poles and wires in the town are as open to the inspection of all the citizens as to ourselves, but we are advised that the same are of excellent quality.

Five of your committee visited and examined in person

the electric-light plant erected and operated by the town of Danvers for more than two years. Their plant consists of the following: Building, dynamo-room, 45×35 . This is a frame building, sheathed inside, hard-pine floor, and inside blinds; boiler-room is of brick with cement floor, 45×23 ; one 80 horse-power steel dome boiler; one 80 horse-power feed water-heater; one injector; one Spencer damper regulator; one 60-ft. iron smoke-stack; one steam-whistle; one 60 horse-power Ball engine; two 43-light dynamos; two ammeters; two current governors; one switch-board; one magneto; two lightning-arresters; seventy-five double arc lamps of 1,200 candle-power; twenty-one miles of wire; with line and lamp-poles. This plant was erected by the Brush Electric Company, of Cleveland, Ohio, and is what is called the "Brush system." It affords a light equal in brilliance and steadiness with any we have observed elsewhere of the same capacity, and we are informed by the officials and some of the leading citizens of the town that it is entirely satisfactory to the people. We found no one who expressed an opposite opinion. We copy the following letter from the superintendent of the works, indorsed by the Selectmen, as to the original cost of the plant and of operating the same: —

"DANVERS, Feb. 19, 1891.

"JAMES H. CARTER, ESQ., *Chairman of Electric Light Committee, Wakefield, Mass.*: —

"DEAR SIR, — In reply to your favor of the 16th inst. I have to say that I was Chairman of the Committee of our town having charge of the construction of the electric-light plant now in operation here. This was put in during the year of 1888, and the lamps were lighted January 2, 1889, and have been in constant use to the present time.

"We originally located and put in seventy-three (73) Brush arc lamps. On May 1, 1891, added two, and from that date we have been using seventy-five (75). We have run our lights on the moon schedule until midnight. From

Jan. 2, 1889, to Feb. 1, 1890 (the end of our fiscal year), our lamps were lighted 267 nights and 1,354 hours. From Feb. 1, 1890, to Feb. 1, 1891, our lamps were lighted and used 255 nights and twelve hundred and thirty-six (1,236) hours.

"The total cost of erecting, completing, and equipping our electric-light plant as it now stands, including everything, except land, was fifteen thousand five hundred and seventy-nine dollars $\frac{9}{100}$ (\$15,579.09).

"The total cost of operating seventy-three (73) electric lights in our town from Jan. 2, 1889, to Feb. 2, 1890, thirteen months, was \$3,928.47. Cost for same period, each arc light, \$53.81 $\frac{3}{4}$.

"The entire cost of our lights from Feb. 1, 1890, to Feb. 1, 1891, 12 months, was \$3,419.79. Cost for same period, each arc light, \$45.59.

"In the above is included every actual expense chargeable to the construction of the electric-light plant, maintenance and operation of same, except value of land and interest on same, and whatever may be charged to depreciation of the plant, which is entirely problematical, variously estimated from five to ten per cent. (5 to 10 %) on the original cost.

"We have no other street lights paid for by the town, and our lights are satisfactory to our people. I may add that I have been superintendent of the work since the committee were discharged.

"Very respectfully,

"T. J. LYNCH."

"DANVERS, Feb. 19, 1891.

"We, the undersigned, Selectmen of the Town of Danvers, hereby certify that the electric lights of our town are entirely satisfactory, and the expense account, as above stated by Mr. Lynch, is correct.

"DANIEL R. POPE,

"OTIS F. PUTNAM,

"C. S. RICHARDS.

"*Selectmen of Danvers.*"

[FROM REPRESENTATIVE SAWYER.]

" DANVERS, Feb. 24, 1891.

" JAMES H. CARTER, ESQ., *Wakefield, Mass.*: —

" DEAR SIR, — In answer to your inquiry, I would say that the people of Danvers are very much pleased with their electric-light plant, and I do not know of a taxpayer who would be willing to vote to have it taken out.

" Yours respectfully,

" S. L. SAWYER."

" DANVERS, MASS., Feb. 24, 1891.

" MR. JAMES H. CARTER, *Chairman Electrical Committee of Wakefield*: —

" DEAR SIR, — In reply to your inquiry regarding the electric-light system in use in Danvers, I have only to say, that to the best of my knowledge and belief it has given most complete satisfaction in every respect to the inhabitants of the town, and at a small expense. As a matter of fact, I have not heard a word of complaint from a single individual.

" Yours truly,

" IRA P. POPE."

" DANVERS, Feb. 25, 1891.

" Mr. JAMES H. CARTER, *Chairman of the Electric Light Committee*: —

" DEAR SIR, — In reply to your question I would say that the Danvers electric-light plant, during the two years that it has now run, has been eminently satisfactory to the town, whether in regard to its cost, running expenses, or the general efficiency of the plant. And all the people are satisfied and pleased.

" Yours truly,

" GEORGE TAPLEY."

The town of Danvers has about 50 miles of streets; substantially the same as Wakefield. It has an area of 7,420 acres; while Wakefield has an area of 3,745 acres.

The population of Danvers is centred in villages more than in Wakefield, and they are at greater distances apart; consequently there are more in number and longer stretches of wire where no lights are needed.

Upon the best calculation we can make, it will take about seventy-five (75) arc lights, of 1,200 candle-power each, to illuminate the town in a satisfactory manner. We are advised that the Danvers plant can be duplicated at about the same price, and we see no reason why it cannot be operated as cheaply in Wakefield as in Danvers, except a slight increase in the freight on coal.

COMPARISON OF COST.

The Gas Company offers to furnish the town	
arc lights of 1,200 candle-power each, for	
20 nights per month, for 1 year, or 240	
nights, per light	\$80 00
75 lights per year	\$6,000 00
Total cost of operating the Danvers light from	
Feb. 1, 1890, to Feb. 1, 1891, as officially	
reported, 255 nights, or an average of $21\frac{1}{4}$	
nights per month; 75 arc lights	\$3,419 79
Actual cost of each arc light for same period,	\$45 59
Actual cost of each arc light for same period,	
20 nights per month	\$42 91
If, for the purpose of making an approximate	
estimate of the cost of a plant for this town,	
we add the sum of \$1,000 for land not in-	
cluded in the Danvers plant, we shall have	
for the first cost of an electric-light plant	
sufficient to light our town satisfactorily the	
sum of	\$16,579 09

Basing our computation upon the experience of Danvers and their official figures, it would cost the town of Wakefield for 75 arc lights, to be lighted 240 nights per year, from dusk until midnight	\$3,459 79
Upon this basis each arc light would cost the sum of	\$43 42
If we add to the cost of operating the Danvers plant for the last fiscal year interest at 4 per cent. on the cost of the land, and 10 per cent. on the gross cost of the plant for annual depreciation in value,—which is the largest depreciation estimated by any engineer,—we shall have for the cost of operating our plant for 1 year, 255 nights, the sum of	\$5,017 50
For the same, for 1 year of 240 nights	\$4,722 00
The cost of each arc light for 1 year of 240 nights	\$62 96

In the computation made by the Danvers officials for operating their plant is reckoned the entire cost of repairs made during the time, and they claim that their plant is in substantially as good condition as when first erected, actual wear excepted.

In our computation of the cost of operation we have included the same sum, and also a sum for depreciation of value in use, which would allow the whole plant to become worthless in ten years,—a condition of things which no one supposes will take place.

REPORT OF CHARLES H. HERRICK, ELECTRICAL ENGINEER.

To aid us in our investigations we employed Mr. Charles H. Herrick, Manager of the Wright Electrical Engineering Company of Boston, to visit the town and make a personal

examination of the situation, and to advise and make a report as to the best manner and cost of lighting the town by electricity.

On account of unexpected delays we did not receive his report until our report, as we originally drew it, was in the hands of the printer. We insert it here without further explanation or comment, from lack of time.

“BOSTON, Feb. 26, 1891.

“HON. JAMES H. CARTER, *Chairman Electrical Committee, Wakefield, Mass.* : —

“DEAR SIR, — In accordance with your request, I submit herewith report of the cost and operating expenses of an electric-light plant for lighting the streets of your town. I have made a visit to Wakefield, going over the ground carefully, and find that the town can be well lighted with 87 arc lamps of 1,200 *nominal* candle-power. I make two estimates, — one for a plant to light the streets alone, and for a plant to light the streets, stores, hall, churches, schools, dwellings, etc., as the town may decide to furnish commercial lighting in connection with the street lighting, thereby reducing the cost of the latter by the income derived from the former. I have made estimates for a brick building, as I consider its extra cost over a wooden building money well expended. The line work will require about 650 poles and 26 miles of wire. Estimates have been made for chestnut poles and a good quality of weather-proof wire, — poles to be painted two coats of paint to preserve them and render them less unsightly. The lamps to be suspended over streets, where necessary, by means of mast-arms, and in other places to be placed directly on pole. These estimates can be relied on as correct, and the cost of the plant will not depart materially from them.

" ESTIMATE NO. I.

Plant for lighting streets alone, 87 lamps: —

Line work	\$9,500
Steam plant, 60 horse-power capacity	4,000
Building	3,000
Land	\$1,000
Electrical machinery for 87 1,200 nominal candle- power lamps	6,500
Mast arms and hoods	1,300
Station wiring and switch-board	250
	<hr/>
	\$25,550

Running expenses until midnight every night: —

Coal	\$1,000
Interest on plant at 4 per cent.	1,022
Depreciation on machinery	1,050
Salary, superintendent and engineer	1,000
Salary, fireman	750
Salary, trimmer and patrolman	600
Carbons	650
Oil, waste, and sundries	200
	<hr/>
	\$6,272

or \$72.09 for each lamp per year.

Running expenses until midnight, moonlight schedule, 24 nights each month: —

Coal	\$800
Interest on plant at 4 per cent.	1,022
Depreciation on machinery	1,050
Salary, superintendent and engineer	1,000
Salary of fireman	750
Salary of trimmer and patrolman	600
Carbons	525
Oil, waste, and sundries	175
	<hr/>
	\$5,922

or \$68.04 for each lamp per year.

"ESTIMATE NO. 2.

Plant for lighting streets and furnishing commercial lighting. I have estimated on a commercial capacity of 1,300 16 c. p. incandescent lamps, as this number, and possibly more, can undoubtedly be placed.

Line work	\$10,500
Steam plant, 200 h. p. capacity	12,000
Building	4,000
Land	1,000
Electrical machinery for 87 1,200 nominal c. p. arc lamps and 1,300 16 c. p. incandescent lamps	15,000
Mast-arms and hoods	1,300
Station wiring and switch-board	750
	<hr/>
	\$44,550

Running expenses until midnight every night: —

Coal	\$3,285
Interest on plant at 4 per cent.	1,782
Depreciation on machinery	2,700
Salary, superintendent and engineer	1,000
Salary, fireman	750
Salary, trimmer and patrolman	600
Carbons	650
Incandescent lamp renewals	260
Oil, waste, and sundries	250
	<hr/>
	\$11,277

Less income to town from 1,300 incandescent lamps

6,500

Total cost \$4,777

or \$54.80 for each lamp per year.

Running expenses until midnight, moonlight
schedule, 24 nights a month : —

Coal	\$3,000
Interest on plant at 4 per cent.	1,782
Depreciation on machinery	2,700
Salary, superintendent and engineer	1,000
Salary, fireman	750
Salary, trimmer and patrolman	600
Carbons	525
Incandescent lamp renewals	260
Oil, waste, and sundries	225
	<hr/>
	\$10,842
Less income to town from 1,300 incandescent lamps	6,500
	<hr/>
Total cost	\$4,342

or \$48.90 for each lamp per year.

“ It must be understood that these results will be only approximated until 1,300 lamps are installed. A further source of income to the town would be the letting of power by means of motors run from the idle arc machines during the daytime. No certain figures, however, can be made in this connection at present. An increase of commercial lighting over the figures given — and this would be probable in the near future — would decrease the cost of lighting streets, and if enough commercial lighting could be obtained, the plant would become self-sustaining.

“ SUMMARY.

Cost of plant to light streets alone	\$25,550 00
Operating expenses every night until midnight, per lamp, per year	\$72 09
Operating expenses, moonlight schedule, until midnight, 24 nights in the month, per lamp, per year	\$68 12

Operating expenses, moonlight schedule, until midnight, 20 nights in the month, per lamp, per year	\$65 19
Cost of plant for street and commercial lighting,	\$44,550 00
Operating expenses every night until midnight, per lamp, per year	\$54 80
Operating expenses, moonlight schedule, until midnight, 24 nights in the month, per lamp, per year	\$49 90
Operating expenses, moonlight schedule, until midnight, 20 nights in the month, per lamp, per year	\$39 85

“ All of which is respectfully submitted.

“ Very truly yours,

“ CHAS. H. HERRICK,

“ *Electrical Engineer.*”

PRESENT CONDITION.

If the Gas Company has the right at the present time to engage in the business of generating electricity for light in the town of Wakefield (which is questionable), it has the exclusive right. It has a monopoly. Practically, no other company can obtain a foothold here. If any board of selectmen should grant the right to any other corporation, the Gas Company would appeal from that decision to the Gas and Electric Light Commissioners of the Commonwealth, who would undoubtedly reverse the decision. The town in its corporate capacity has no legal right to engage in the business of generating electricity for lighting its own streets and public buildings without a general law or special act granting it this power.

There is now pending before the Legislature of this Commonwealth a proposition to grant this authority to the cities and towns of the Commonwealth, by a general law. There

is an article in the warrant for the Annual Meeting of this town, "To see if the town will vote to petition the Legislature for authority to build a gas or electric light plant, or both, with authority to manufacture light for public use, and also to sell light for private use, or what they will do about it." There is a general awakening throughout the Commonwealth in favor of larger municipal powers and privileges, and it is especially strong upon allowing municipalities to furnish their own light.

The House of Representatives will undoubtedly pass a bill granting this authority, and the Senate will concur unless it is animated by motives other than those which are for the public good. One great political party is committed to this action in the platform of its last convention; the leading and most progressive spirits of the other party are committed to the same course of action.

It is for the interest of this town that such a law should be enacted, for then competition may enter into the contract.

RECOMMENDATIONS.

In view of the foregoing facts, we recommend that the town do not enter into a contract with the Citizens' Gaslight Company to furnish electric light for our streets; and we further recommend that the town do not enter into arbitration upon the terms of such a contract, for we consider that it is wiser for the town to enter into a contract understanding all its conditions rather than to do so blindfolded.

The offer of the Gas Company necessarily leaves the choice of arbitrators to a class of men who are in the interest of electric-light companies; and the town might, under such an arbitration, find itself bound to take electric lights at a cost greater even than the offer of the Gas Company. In our opinion, it is perfectly safe to risk the intelligence of the town to make its own contract. We further recommend that

the town take no further action until the Legislature acts upon the question before it, which must be in a few weeks at the longest.

All of which is respectfully submitted.

RECORD OF TOWN MEETINGS

FOR THE YEAR ENDING JAN. 31ST, 1892.

ANNUAL TOWN MEETING, MARCH 2, 1891.

ARTICLE 1. To choose a moderator to preside at said meeting.

Edward A. Upton was elected moderator.

Prayer was offered by Rev. R. W. Wallace.

VOTED. To take up Article 69.

ART. 69. To see if the town will revoke its action taken in town meeting held Jan. 27, 1890, by which it accepted the provisions of Sections 74, 75, 76 and 77, of Chapter 27 of the Public Statutes, relating to the election of a Board of Road Commissioners.

VOTED. To indefinitely postpone action under this article.

The selectmen appointed Ezra M. Southworth and Dennis McCarty ballot clerks

The moderator appointed Wm. W. Bessey and Hoyt B.

Parker to superintend the ballot box. J. Wallace Grace, C. H. Davis, Henry H. Savage, Austin E. Perry and Wm. E. Arrington to check names on the voting lists.

ART. 2. To act upon the acceptance of the reports of town officers as printed.

VOTED. To accept reports as printed.

ART. 3. To bring in their votes on one ballot for Town Clerk, Town Treasurer, three Selectmen, three Assessors, three Overseers of the Poor, two Road Commissioners, one for a term of three years, one for a term of one year; a Collector of Taxes, three Park Commissioners, a Board of Health consisting of three members, three Trustees of the Town Library for a term of three years, two members of the School Committee for a term of three years, a Fish Committee consisting of three members, three Constables, three Fence Viewers, and three Auditors. Also, to bring in their votes in answer to the question "Shall licenses be granted for the sale of intoxicating liquors in this town?" the words "Yes" and "No" in answer to that question to constitute the form of such ballot.

Upon a separate ballot "for the use of women qualified, according to law, to vote for members of the School Committee," to bring in their votes for two members of the School Committee for a term of three years; these ballots will be received at the same time and in the same box.

The polls were then declared open for the reception of ballots for the various officers named in the warrant. The Australian system of voting for town officers was used for the first time.

VOTED. To keep the polls open until 5.30 o'clock, P. M.

VOTED. That when this meeting adjourns, it adjourn to Tuesday, March 3, 1891, at 7 o'clock, P. M., and that no business connected with town affairs be taken up until that time.

The moderator appointed the following counters: Frederic E. D. Robbins, Charles S. Emerson, Jr., A. H. Thayer, Frederic S. Hartshorne, George E. Hart, George W. Kimball, Thomas Kernan, Cornelius Donovan, Chas. E. Walton and Geo. K. Walton.

The ballots were counted and declaration was made in open town meeting, Tuesday A. M., at 3.20 o'clock of

THE RESULT OF THE BALLOT.

LICENSE.

Shall licenses be granted for the sale of intoxicating liquors in this town?

Yes,	395
No,	442

At 3.35 o'clock, A. M., March 3, the meeting adjourned to 7 o'clock, P. M., of same day.

ADJOURNED TOWN MEETING, MARCH 3, 1891.

The meeting was called to order by the moderator.

ART. 4. To choose all other town officers not required by law to be chosen by ballot.

VOTED. That the chair appoint a committee of five, who shall nominate a committee of thirteen to nominate a list of officers not chosen by ballot.

Chair appointed James F. Emerson, Thomas J. Skinner, Wm. F. Young, George W. Kimball and Dennis McCarty, who reported as follows:

Centre Ward—J. W. Grace, R. H. Mitchell and J. F. Woodward.

North Ward—Wm. F. Young, Geo. R. Morrison and Dennis Daly.

South Ward—H. H. Savage, W. H. Lee.

East " Geo. K. Walton, J. T. Burdett.

West " J. C. Hartshorne, Thomas Kernan.

Woodville—Geo. E. Donald.

And their report was accepted and adopted.

The committee of thirteen subsequently reported to the town the following list of officers not chosen by ballot:

WEIGHERS OF COAL AND MERCHANDISE.

*Nathaniel E. Cutler,	*G. P. Haley,	*Geo. K. Gilman.
*Denis Greany,	*A. A. Mansfield,	

MEASURERS OF WOOD.

*Geo. K. Walton,	*Arthur S. Aborn,	Geo. W. Killorin,
John G. Morrill,	*Charles Gorham,	Edward E. Lee,
A. A. Mansfield,	*Charles S. Merrill,	Denis Greany.

SURVEYORS OF LUMBER.

*Hoyt B. Parker,	Chas. F. Bickford,	Chas. S. Knowles,
*Richard P. Whitten,	Roger Howard,	E. E. Lee.
	E. I. Purrington,	

FIELD DRIVERS.

*Geo. K. Walton,	*Chas. S. Merrill,	Warren F. Shed,
*Alex. Glass,	Henry Oliver,	Byron A. Osgood.
*Edward Butler,	Winsor M. Ward,	

The report of the committee was accepted and the officers recommended by the committee were elected.

ART. 5. To see if the town will authorize its Treasurer to hire money to pay all demands in anticipation of taxes.

VOTED. That the Town Treasurer be authorized, with the approval of the Selectmen, to hire money in anticipation of the taxes of the current municipal year, and to issue notes of the town therefor, and all debts so incurred shall be paid from said taxes.

ART. 6. To raise and appropriate money for the payment of town debt and interest.

VOTED. That the sum of \$2,500 be raised and appropriated for the payment of the town debt, and the sum of \$3,000 be raised and appropriated for interest upon loans.†

ART. 7. To raise and appropriate money for school purposes.

VOTED. That the town raise and appropriate the following sums for school purposes :

For school general expenses,	\$19,000
“ contingent expenses,	‡1,400
“ school text-books and supplies,	1,300

* Qualified.

† See page 18.

‡ See page 19.

ART. 8. To raise and appropriate money for the support of the poor.

VOTED. That the town raise and appropriate for the support of the poor the sum of \$5,000 and the income of the farm for the year ensuing; and that all supplies for the Poor Department be purchased at wholesale prices, and that a stock of supplies be kept at the farm for distribution to the outside poor.

ART. 9. To raise and appropriate money for the repairs of highways and bridges, and determine how the same shall be expended.

VOTED. \$8,000, and all expense of hauling gravel and crushed stone be contracted out to the lowest responsible bidder, all carts to be measured by a sworn surveyor, and made to hold one cubic yard of gravel.

ART. 10. To raise and appropriate money for the Fire Department.

VOTED. \$2,500, — \$200 to be expended under direction of Forest Fire Wards.

ART. 11. To raise and appropriate money for the Public Library.

VOTED. \$400 and dog tax 1890.

ART. 12. To raise and appropriate money for the Public Reading Room.

VOTED. \$175.

ART. 13. To raise and appropriate money for the salaries of town officers.

VOTED. \$2,725. (See page 23.)

ART. 14. To raise and appropriate money for the care of street lamps and the lighting of streets.

VOTED. To lay on table.

ART. 15. To raise and appropriate money for Town House expenses.

VOTED. \$1,600.

ART. 16. To raise and appropriate money for Miscellaneous Expenses.

VOTED. \$4,400, — \$800 to be expended under direction of Park Commissioners.

ART. 17. To raise and appropriate money to pay the annual rental of hydrants.

VOTED. To lay on table.

ART. 18. To see what method the town will adopt for the collection of taxes for the year ensuing.

VOTED. Same method as last year.

ART. 19. To see if the town will authorize the Collector of Taxes for the year ensuing to use all means for the collection of taxes, which a town treasurer, when appointed collector, may use.

VOTED. To do so.

ART. 20. To see what sum the town will raise and appropriate for concrete work.

VOTED. \$1,000.

ART. 21. To see if the town will authorize the Selectmen to provide a night watch, and will raise and appropriate money to pay them.

VOTED. To do so, and \$1,800.

ART. 22. To determine the compensation of enginemen for the year ensuing.

VOTED. \$23 and a sum equal to a poll tax.

ART. 23. To see if the town will raise and appropriate two hundred dollars for the purposes of Memorial Day.

VOTED. \$200.

ART. 24. To see if the town will authorize its Treasurer to hire money on a term of years and to issue notes or bonds of the town therefor, for the purpose of renewing or paying such loans maturing during the current municipal year, as are not provided for by taxation.

VOTED. To indefinitely postpone.

ART. 25. To hear and act upon the report of the Committee to whom was referred articles 3 and 4 of the warrant for the town meeting held Aug. 4, 1890, relative to the purchase of land for a new burying ground, and appropriate money therefor, or what the town will do in relation thereto.

VOTED. To lay on table and that the committee have further time to report.

ART. 26. To hear and act on the report of a committee chosen by the town to consider the matter of building a new school building on Academy Hill and instructed to present plans and estimates for the same.

The report of the committee, subscribed by nine members was read by W. S. Greenough and it was

VOTED. To accept the report.

ART. 27. To see if the town will build a new school building on Academy Hill and raise and appropriate money therefor, or what action they will take in the matter.

VOTED. On motion of Geo. H. Maddock, that the chairman appoint this same committee as a Building Committee, with full power to make such contracts as they shall deem for the best interests of the town, for the construction and completion and furnishing of this school building according to the plans submitted.

VOTED. That the committee have the power to fill any vacancy which may occur.

VOTED. That the sum of \$50,000 be raised and appropriated for the erection of the school-house, as voted under this article and the Town Treasurer be authorized, with the approval of the Selectmen, to hire the sum of \$50,000, and to issue the notes or bonds of the town therefor, the same to be made payable in sums of \$5,000 each year, for the period of ten years, and that the said amount of \$5,000 shall be included in the tax levy of each year, beginning with the year 1892.

ART. 28. To see if the town will raise and appropriate the sum of five hundred dollars for edgestones where the abutters will pay one-half, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 29. To see if the town will raise and appropriate the sum of three hundred dollars to pay for the use of water for sprinkling the streets, or what action they will take in the matter.

VOTED. To indefinitely postpone.

ART. 30. To see if the town will raise and appropriate the sum of fifty dollars in settlement of a claim for damages made by H. Irving Eaton for injuries claimed to have been sustained by reason of defective highway, or what they will do about it.

VOTED. To indefinitely postpone.

VOTED. That when this meeting adjourns, it be adjourned to March 9, 1891, at 7 1-2 o'clock, P. M.

VOTED. To adjourn this meeting, this evening, at 10.30 o'clock.

ART. 31. To see if the town will accept Summit avenue as laid out by the Road Commissioners, according to a plan of survey by James A. Bancroft.

VOTED. To accept.

ART. 32. To see what action the town will take relative to renewing the insurance on its Public Buildings and contents.

VOTED. To refer to Selectmen, with power to act.

VOTED. That article 81 be taken up in connection with article 33.

ART. 33. To see if the town will choose a Committee to ascertain what the rights of the towns of Wakefield and Stoneham are with regard to the purchase of the plant of the Wakefield Water Company, as provided for in the contract made with the town of Stoneham, and such information as to the probable cost to the said towns to buy them as the committee may be able to learn, and report to the town as soon as convenient, or what they will do about it.

ART. 81. To see if the town will choose a committee of three to confer with the Wakefield Water Company in regard to making a new contract with said Company for supplying the town with water for public purposes after the expiration of the existing agreement between said parties, and to ascertain upon what terms the franchise and works of the company can be purchased by the town.

VOTED. That a committee of five be appointed to report at next annual meeting. Chair appointed as this committee, Wm. G. Strong, Wm. E. Rogers, Fred. B. Carpenter, Michael Low and Winsor M. Ward.

ART. 34. To see if the town will vote to change the time of closing the town accounts from the last day in February, in each year, as voted April 7, 1873, to the time of the last meeting of the Board of Selectmen in January, in each year, the closing of such accounts to be advertised in the local papers for two weeks previous thereto, or what they will do about it.

VOTED. To do so, and that the Town Report shall be issued seven days, at least, before the annual meeting.

ART. 35. To see if the town will authorize and instruct the Town Clerk to have the maps and plans of the public streets and places belonging to the town, paged and numbered in book form, and provided with an index, to secure them from loss, and for the convenience of citizens, the cost to be paid from the miscellaneous fund, or what they will do about it.

VOTED. To so authorize.

ART. 36. To see if the town will authorize the Collector of Taxes, and also the Town Treasurer, to contract with some incorporated company, legally authorized to act, to furnish sufficient sureties on their official bonds as such Collector and Treasurer, the cost of the same to be paid from the miscellaneous fund, or what they will do about it.

VOTED. That until otherwise ordered by the town, the Town Treasurer and Collector of Taxes be authorized to procure their official bonds in the manner indicated in this article, and that the amount of said bonds of the Treasurer be \$25,000; and of the Collector, \$15,000 as a maximum, and that the Collectors be instructed to never retain in their possession any sum in excess of their bonds.

VOTED. To take up article 63.

ART. 63. To see if the town will take any action with the view to preserve good fishing in Crystal lake to the interest of town residents, or what it will do about it.

The time having arrived, the meeting was adjourned to Monday, March 9, 1891 at 7.30, P. M.

ADJOURNED TOWN MEETING, MARCH 9, 1891.

The meeting was called to order by the Moderator and Article 63 was taken up.

VOTED. To refer this article to the Fish Committee.

VOTED. To take up Article 76.

ART. 76. To see if the town will vote to petition the Legislature for authority to build a gas or electric light plant, or both, with authority to manufacture light for public use, and also to sell light for private use, or what it will do about it.

VOTED. That the Selectmen be instructed to petition the Legislature as indicated in the article.

VOTED. To take up Article 83.

ART. 83. To see if the town will permit the Congregational Mishkan Israel Society to use for the purpose of burial, the land situated on Lakeside avenue, and purchased by said society, of Mr. Goodwin.

VOTED. That it is the deliberate sense of the town in annual meeting assembled, that the permission asked for in this article should be, and hereby is, refused.

VOTED. To take up Article 72.

ART. 72. To see if the town will raise and appropriate the sum of two hundred dollars to build and grade a sidewalk on the south side of Hart street, from Valley street to Melvin street, or what they will do about it.

VOTED. To refer to Road Commissioners.

ART. 37. To see if the town will raise and appropriate money for the purchase of six hundred feet of hose, the same to be used by the Volunteer Hose Company under direction of the Board of Engineers.

VOTED. To refer to committee of three, to investigate and report at adjournment of this meeting. Chair appointed Geo. H. Maddock, E. H. Walton and W. E. Cade.

VOTED. To take up Article 68.

ART. 68. To hear and act upon the report of the Committee appointed to take into consideration the subject matter of

articles 4 and 8 of the town warrant of Jan. 6, 1891, and report thereon at the annual town meeting.

VOTED. To accept report of Committee as printed.

VOTED. To adopt the report.

VOTED. To take up Article 14.

VOTED. \$2,000, and that the Selectmen be authorized to contract for lighting the streets for three months and to renew the contract if it is for the best interest of the town.

VOTED. To take up Article 76.

A motion to reconsider vote of the town on this article was rejected.

VOTED. To take up Article 44.

ART. 44. To see if the town will reimburse the Curator of the Sweetser Fund Lectures for money advanced by him to pay bills in excess of receipts for the season of 1890-'91, or what they will do about it.

VOTED. To authorize the Selectmen to reimburse Curator in the sum of \$24.75 out of miscellaneous expenses and pay bills in excess of receipts for season 1890-'91.

ART. 57. To see if the town will grant the free use of the Town Hall to the following organizations: to Post 12, G. A. R., for the evening of Memorial Day; to the Wakefield High School Cadets for the evening of their annual drill; to the Richardson Light Guards, for two evenings; to the Womans, Christian Temperance Union for six evenings.

VOTED. To do so.

VOTED. To adjourn to Monday, April 6, 1891, at 7.30 o'clock P.M.

ADJOURNED TOWN MEETING, APRIL 6, 1891.

The meeting was called to order by the Moderator.

VOTED. To take up Article 6.

VOTED. \$1,000 additional for interest on town debt.

ART. 38. To see if the town will extend the fire alarm system, and raise and appropriate money therefor, in conformity to Engineer's request.

A motion that \$500 be raised and appropriated was rejected ;
no other action taken.

ART. 39. To see if the town will discontinue the use of the Chemical Fire Engine, and substitute ten Johnson pumps to be distributed throughout the East Ward under the direction of the Forest Fire Wardens, and appropriate money for the purchase of said pumps, or what it will do about it.

VOTED. To indefinitely postpone action.

The Committee appointed under Article 37 at last meeting, made a verbal report and recommended the town to purchase 600 feet of new hose.

VOTED. To appoint a Committee of three by Chair, to purchase 600 feet, 2½-inch hose ; said hose to be warranted to stand a pressure of 500 pounds, and be guaranteed for not less than five years, and to raise and appropriate \$330 to pay for same when received and approved.

VOTED. To take up Article 7 again.

VOTED. To increase the appropriations for School Contingent Expenses \$625.

VOTED. To take up Article 74.

ART. 74. To see if the town will raise and appropriate money to grade and drain Vernon street, and repair the sidewalks thereon from Pleasant street to Salem street, or what it will do about it.

VOTED. \$700.

VOTED. To take up the remaining articles in the warrant in their order.

VOTED. To take up Article 44.

VOTED. To reconsider the vote previously passed, and the proper custodian of the fund be instructed to pay Curator \$24.75, the amount of deficiency, out of the surplus now on hand.

ART. 40. To see if the town will authorize and instruct the Engineers to purchase eight Johnson pumps, and place four of them with the Hook and Ladder Company and four with the Carter Hose Company, or what it will do about it.

VOTED. To indefinitely postpone.

ART. 41. To see if the town will request the Engineers of the Fire Department to accept and appoint as members of each fire company, persons who live and work in the district in which the Company is located, or what it will do about it.

VOTED. To refer to Board of Engineers.

ART. 42. To see if the town will instruct the Fire Engineers in regard to the loan of overcoats purchased by the town—to members of the Fire Department—to take a receipt and agreement for their proper care and return when demanded by the Engineers, or what it will do about it.

VOTED. To refer to the Board of Engineers with instructions to act in accordance with the tenor of the article.

ART. 43. To see if the town will authorize the Forest Fire Wardens to use the unexpended appropriation of last year for the purchase of seventeen Johnson pumps needed to properly supply districts wanting them, or what it will do about it.

As all unexpended appropriations are turned into the Town Treasury, no action was taken.

ART. 45. To see if the town will authorize and instruct the Fish Committee to invest the net proceeds of the income from fish permits in German Carp spawners, or some other species of edible fish not found in the waters of Wakefield, and deposit the said fish in Lake Quannapowitt, or what it will do about it.

VOTED. To so authorize.

ART. 46. To see if the town will appropriate the sum of fifteen hundred dollars, for the purpose of improving Main street, from near to Lawrence street to Cordis street, in accordance with the bounds established by the County Commissioners, which sum was voted last year and raised—but has not yet been expended, or what it will do about it.

VOTED. \$1,500.

ART. 47. To see if the town will authorize the Selectmen to hire counsel to defend the town in the matter of a temporary injunction on the Main street appropriation last year, that some decision may be reached, or what it will do about it.

VOTED. To indefinitely postpone.

ART. 48. To see if the town will raise and appropriate the sum of two hundred dollars for the purpose of repairing the bridge on Vinton street, so called, leading from Valley street easterly across Saugus river, to make the bridge twelve feet wide, and also the bed of the river twelve feet wide and two feet deeper than at present, from Vinton street bridge, so called, to Water street, or what it will do about it.

VOTED. \$200.

VOTED. To refer to Road Commissioners, and that they be instructed to let the work out by contract to lowest responsible bidder.

ART. 49. To see if the town will raise and appropriate the sum of three hundred dollars to build a sidewalk on either side of Traverse street, or what it will do about it.

VOTED. To refer to Road Commissioners.

ART. 50. To see if the town will raise and appropriate the sum of two hundred dollars to grade and repair Emerald street, or what it will do about it.

VOTED. To refer to Road Commissioners, and that they be instructed to expend the sum of \$200.

ART. 51. To see if the town will raise and appropriate the sum of five hundred dollars to complete repairs needed on Greenwood street, or what it will do about it.

VOTED. To lay on table.

VOTED. To adjourn for one week at 7 1-2 o'clock, P. M.

ADJOURNED TOWN MEETING, APRIL 13, 1891.

The meeting was called to order by the Moderator.

VOTED. To take Article 51 from the table.

A motion to raise and appropriate \$500 was rejected.

VOTED. To refer this article to the Road Commissioners.

VOTED. To take Article 25 from the the table.

The Committee to whom was referred Articles 3 and 4 of the warrant of town meeting held August 4, 1890, relative to

the purchase of land for a new burying ground, presented their report.

VOTED. To accept the report.

VOTED. To refer subject matter of these articles to a new committee, they to advertise for proposals for land, and report at a future town meeting, with recommendations. Chair appointed John A. Sanborn, Waldo E. Cowdrey and Daniel G. Walton.

ART. 52. To see if the town will grade the street and repair the sidewalk on Maple street, and appropriate the sum of one hundred and seventy-five dollars therefor, or what it will do about it.

VOTED. \$100, and that the Road Commissioners be instructed to do the work.

ART. 53. To see if the town will widen Water street, and build a sidewalk from Farm street to Brook avenue, and raise and appropriate money therefor, or what it will do about it.

VOTED. For purposes named in article, \$300.

ART. 54. To see if the town will raise and appropriate the sum of two hundred dollars to grade Highland street, or what it will do about it.

VOTED. \$200.

ART. 55. To see if the town will instruct the Road Commissioners to relay the drain between Elm street and Boston and Maine Railroad through land now or formerly of G. H. Smith, or what it will do about it.

VOTED. To refer to Road Commissioners.

VOTED. To take Article 17 from the table.

VOTED. That the whole matter of Article 17 be referred to a committee of five, they to examine what votes the town has passed, what action the Selectmen or any body of men have taken in regard to the contracts for hydrants with the Wakefield Water Company for the past eight years, and report to town at the adjournment of this meeting. Thomas Hickey, Wm. F. Young, O. V. Waterman, James H. Carter and Wm. B. Daniel were appointed on this committee.

VOTED. To take up Article 13.

VOTED. \$1000 additional for Police Department.

VOTED. To adjourn this meeting for one week at 7 1-2 o'clock,
P. M.

ADJOURNED TOWN MEETING, APRIL 20, 1891.

The meeting was called to order by the Moderator.

ART. 56. To see if the town will raise and appropriate money to locate and maintain a street lamp at the corner of Traverse street and Nahant street, and a street lamp at the corner of Foundry street and Maple street, and a street lamp on the northerly side of Otis street, midway between Crescent street and Pleasant street, or what it will do about it.

VOTED. On motion of Michael Goodwin that the Selectmen be authorized to cause lamps and posts to be erected, as asked for, and the sum of \$66. Said lamps to be maintained out of the regular appropriation for Street Lights.

ART. 58. To see if the town will appoint a Committee to revise the By-Laws of the town, or what it will do about it.

VOTED. That a committee of three be appointed and report at a future meeting. Chair appointed Wm. N. Tyler, Wm. E. Rogers and Chester W. Eaton.

ART. 59. To see if the town will choose an Appropriation Committee to consider the matter of appropriations for the year 1892, and report in the Town Report of that year.

VOTED. To choose an Appropriation Committee

ART. 60. To see if the town will place a hydrant near the junction of Elm street and Prospect street, or what it will do about it.

VOTED. To lay on table.

ART. 61. To see if the town will locate and maintain a hydrant on West Chestnut street, near the residence of Taylor F. Smith, or what it will do about it.

VOTED. To lay on table.

ART. 62. To see if the town will instruct the Park Commissioners to purchase thirty chairs for the band stand on the new Park, and a number of lanterns to sufficiently light the same, and appropriate money therefor, or what it will do about it.

VOTED. To refer to Park Commissioners with power to act.

ART. 64. To see if the town will accept the provisions of Chapter 264 of the Acts and Resolves of 1886, in regard to dividing the town into convenient voting precincts for the holding of all meetings for the choice of officers elective by the people, except town officers.

VOTED. To indefinitely postpone this article.

VOTED. To take up Article 39.

A motion by O. Corcoran that the town discontinue the use of the Chemical Engine and substitute ten Johnson pumps to be distributed throughout the East Ward under the direction of the Forest Fire Wards, and that the sum of \$50 be raised and appropriated for the purchase of said pumps, and that the Fire Engineers be instructed to employ one man as Steward, to care for all property stored in the Chemical Engine House.

VOTED. That the action taken April 6, indefinitely postponing Article 39, be reconsidered. The motion of O. Corcoran was then rejected and no other action taken.

VOTED. To take up Article 48.

Motion by W. N. Tyler that the action of the town be reconsidered while acting under Article 48, at the adjourned town meeting, April 6.

VOTED. That this motion to reconsider be indefinitely postponed.

ART. 65. To see if the town will accept, in regard to Selectmen — the provisions of Sections 64, 65, 66, 67 and 68 of Chapter 27 of the Public Statutes of Massachusetts.

VOTED. To indefinitely postpone.

ART. 66. To see if the town will vote to elect five, seven or nine Selectmen at its annual meeting in March, 1892, with terms of office expiring in the manner provided in Section 64, Chapter 27 of the Public Statutes.

VOTED. To indefinitely postpone.

ART. 67. To see if the town will contract with the Wakefield Water Company to supply the West Ward school house with water, and raise and appropriate money therefor, or what action it will take in the matter.

VOTED. To indefinitely postpone.

ART. 70. To see if the town will raise and appropriate six hundred dollars to repair Water street from the Boston & Maine railroad crossing near the Centre Depot, to the Saugus town line.

VOTED. To refer to Road Commissioners to do as they think best.

ART. 71. To see if the town will place a fire hydrant on Railroad street, at or near the Boston Ice Company's ice houses, or what they will do about it.

VOTED. To lay on table.

ART. 73. To see if the town will raise and appropriate the sum of eight hundred dollars for the purpose of building a suitable concrete sidewalk on the easterly side of Main street, from Charles street to Water street, the same to be done by and under the direction of the Highway Department, or what they will do about it.

VOTED. To lay on table.

ART. 75. To see if the town will authorize and direct the Selectmen or officers of the Police to take legal measures to protect Quannapowitt and Crystal lakes against the encroachments of those who throw into the lakes, ashes, garbage, dirt and other substances.

VOTED. That the Honorable Board of Selectmen be ordered and instructed to take legal measures as indicated in the article.

VOTED. To take up Article 73.

VOTED. That the Road Commissioners be instructed to build this sidewalk and to assess the abutters one-half.

Motion to dissolve the meeting was rejected.

ART. 77. To see if the town will authorize the Selectmen to wait on the Wakefield Water Company and have them remove the water pipe that stops the flow of waste water on Lake street.

VOTED. To pass over this article.

ART. 78. To see if the town will authorize the Road Commissioners to cut down trees that do not stand six feet from the fence.

VOTED. To indefinitely postpone.

ART. 79. To see if the town will authorize the sale of the marsh land owned by said town situated in Saugus, or what action the town will take in relation thereto.

VOTED. To refer this article to the Town Treasurer and the Board of Selectmen.

ART. 80. To see if the town will raise and appropriate two hundred and fifty dollars to pay for the services of the clerk to the School Committee, including the purchase and delivery of text books and supplies.

VOTED. \$200.

ART. 82. To see if the town will raise and appropriate two hundred dollars for the purpose of purchasing chemical and philosophical apparatus for the High School.

VOTED. \$200.

ART. 84. To see if the town will purchase suitable property centrally located for the purpose of the removal of the old engine-house thereon, and raise and appropriate money therefor, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 85. To see if the town will extend the fire alarm system to Boyntonville and appropriate money therefor, or what they will do about it.

VOTED. To refer to the Board of Fire Engineers with power to act.

VOTED. To take up Article 17.

Committee of five asked for further time. Granted.

ART. 59.

The Moderator appointed the following on appropriations, and they were accepted by the town:

Wm. F. Young, John Winship, Richard Britton, Silas W. Flint, W. S. Greenough, Thomas Hickey, Roger Howard,

Henry H. Savage, W. E. Cowdrey, Austin L. Mansfield, Otis V. Waterman, Michael Low, W. E. Rogers, S. O. Richardson and Wm. K. Perkins.

A vote of thanks was tendered the Moderator, and \$25 appropriated to pay for his services.

The meeting was then dissolved.

TOWN MEETING, MARCH 31, 1891.

ARTICLE 1. To choose a Moderator to preside at said meeting.

Edward A. Upton was elected Moderator.

ART. 2. To see if the town will raise and appropriate money to purchase a lot of land to which one of the school buildings on Academy Hill can be removed, and to repair and alter said building for use by the town for Fire Department purposes, and to take such further action in the matter as may be deemed best.

VOTED. On motion of Wm. S. Greenough, that the town choose a committee of seven to be appointed, of which a majority of the Board of Fire Engineers shall be members, with full power to purchase a lot of land, not to cost over \$2,500, and full power to remove one of the school buildings and alter it into a Fire Department Building.

VOTED. \$6,000 for the purposes enumerated above, and that the committee be authorized to use the brick in the old engine house, if deemed wise.

The chair appointed on this committee: W. S. Greenough, Roger Howard, Horace W. Dalrymple, Wm. B. Daniel, Wm. G. Strong, Joseph M. Skulley, Hoyt B. Parker, and they were accepted by the town.

VOTED. To adjourn without date.

TOWN MEETING JUNE 8, 1891.

ARTICLE 1. To choose a Moderator to preside at said meeting.

Edward A. Upton was chosen Moderator.

ART. 2. To see if the town will appropriate the sum of four thousand four hundred and eighty dollars for the rental of hydrants for the ensuing year, or what they will do about it.

VOTED. To lay on table until the committee chosen under Article 17 of the annual meeting present their report.

ART. 3. To see if the town will appropriate the sum of fifteen hundred dollars to grade Main street, and to remove the stone crusher to a more convenient location, for the purpose of preparing such grading, or what they will do in relation thereto.

VOTED. To indefinitely postpone.

VOTED. To take Article 2 from the table.

VOTED. That a committee of five be appointed to take the whole matter into consideration and report at an adjournment of this meeting. Chair appointed Thomas Hicky, Wm. F. Young, O. V. Waterman, James H. Carter and Wm. B. Daniel.

ART. 4. To see if the town will appropriate the sum of five hundred dollars for the repair of Prospect street, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 5. To see if the town will authorize the sale of the old Academy school building, so called, or what action they will take in the matter.

VOTED. To indefinitely postpone.

ART. 6. To see if the town will establish a street light at the easterly end of Crescent court, or near thereto, or what they will do about it.

VOTED. To refer to Selectmen.

ART. 7. To see if the town will instruct the Road Commissioners to remove the large elm tree in front of the high school building, or what action they will take in relation thereto.

VOTED. That the Road Commissioners be instructed *not* to remove the tree.

ART. 8. To see if the town will appropriate the sum of fifteen hundred dollars to pay the damage and cost of the suit of Rebecca C. Arrington, or what they will do in relation thereto.

VOTED. \$1,500.

ART. 9. To see if the town will place a fire hydrant on Railroad street, at or near the Boston Ice Company's ice houses, or what they will do about it.

VOTED. To pass this article over.

ART. 10. To hear and act upon the report of the Road Commissioners relative to laying out Cedar Hill avenue, so called, and Cross street and Curve street, so called, on plan of lands of the Wakefield Real Estate and Building Association, in accordance with the report of Road Commissioners, and appropriate money for grading said streets, or what action the town will take in relation thereto.

The report of the Road Commissioners was accepted. Said report recommended that \$600 be raised and appropriated for grading said streets.

VOTED. To change the name of Cedar Hill avenue, so called, to Fairmount avenue, and Cross street, so called, to Hillside avenue.

VOTED. To adopt the report as amended.

VOTED. That the Road Commissioners advertise for bids and the work let out to the lowest responsible bidder.

VOTED. That the Road Commissioners be instructed, if they have the power or legal authority, to assess the abutters for the expense.

VOTED. To adjourn to June 15, 1891, at 7.30 o'clock P. M.

ADJOURNED TOWN MEETING, JUNE 15, 1891.

The meeting was called to order by the Moderator.

ART. 11. To see if the town will employ a competent engineer to establish a proper grade of the streets of the town of Wakefield, and appropriate money for the same, or what they will do about it.

VOTED. To indefinitely postpone.

VOTED. To take up Article 2.

After hearing and accepting report of Committee it was

VOTED. To appropriate \$4,480 for the rental of hydrants for year ensuing.

VOTED. To adjourn this meeting without date.

TOWN MEETING, JULY 20, 1891.

ARTICLE 1. To choose a Moderator to preside at said meeting.

E. A. Upton was chosen Moderator.

ART. 2. To see if the town will appropriate an additional sum of three thousand dollars for miscellaneous expenses, or what action they will take.

VOTED. \$3,000.

ART. 3. To see if the town will appropriate the sum of five hundred dollars in addition to the sum already appropriated for concrete work, or what they will do about it.

VOTED. \$500.

ART. 4. To see if the town will appropriate a part of the money received from fines paid into court, for police service, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 5. To see if the town will appropriate the sum of five hundred dollars for the repair of Prospect street, or what action they will take in the matter.

VOTED. \$500, and that the work be done under direction of the Road Commissioners.

ART. 6. To see if the town will authorize the Selectmen to contract for electric lighting for the remainder of the year and appropriate money therefor, or what they will do about it.

VOTED. To indefinitely postpone.

VOTED. To take up Article 9.

ART. 9. To see if the town will vote that it is expedient for the town to exercise the authority conferred upon towns under the provisions of Chapter 370 of the Acts of the year 1891, in the relation to the construction, purchase, leasing or establishing and maintaining within its limits one or more plants for the manufacture or distribution of gas or electricity for furnishing light for municipal use, and for the use of such of its inhabitants as may require and pay for the same.

VOTED. That it is expedient.

RESULT OF BALLOT.

Whole number of votes cast,	242
Yes,	216
No,	26

Chair declared the question carried in the affirmative.

ART. 7. To hear and act upon the report of the Committee on the revision of the By-laws of the town.

ART. 8. To see if the town will vote to re-name Walnut avenue from its intersection with West Chestnut street to Hillside avenue, and name it Fairmount avenue, to correspond with that portion of the same street which has been named Fairmount avenue by the town, or what they will do about it.

ART. 10. To see if the town will appropriate the sum of two hundred dollars for repair of Summit avenue, or what they will do about it.

No action was taken on Articles 7, 8 and 10.

VOTED. To adjourn without date.

STATE ELECTION AND TOWN MEETING, NOV. 3, 1891.

Pursuant to a warrant duly drawn and served, the voters assembled at six o'clock in the forenoon, then and there to bring in their votes for Governor, Lieutenant-Governor, Secretary, Treasurer and Receiver General, Auditor and Attorney General of the Commonwealth; for Councillor for the Sixth Councillor District; for a Senator for the Sixth Middlesex Senatorial District; for a Representative to the General Court to represent the Thirteenth Middlesex Representative District; for one County Commissioner for the County of Middlesex; for County Treasurer; Clerk of the Courts; and Register of Deeds for the Southern Middlesex District, and also to bring in their votes upon the same ballot, on the following proposed Articles of Amendment to the Constitution, to wit:

ARTICLE OF AMENDMENT TO THE CONSTITUTION RELATIVE TO THE
QUALIFICATION OF VOTERS FOR GOVERNOR, LIEUTENANT-
GOVERNOR, SENATORS AND REPRESENTATIVES.

So much of article three of the Amendments of the Constitution of the Commonwealth as is contained in the following words, "and who shall have paid, by himself, or his parent, master or guardian, any state or county tax, which shall, within two years next preceding such election, have been assessed upon him in any town or district of this Commonwealth, and also every citizen who shall be by law exempted from taxation, and who shall be in all other respects qualified as above mentioned," is hereby annulled. The form of the ballot shall be as follows:

Shall the proposed Amendment to the Constitution relative to the qualification of voters for Governor, Lieutenant-Governor, Senators and Representatives be approved and ratified? Yes—No.

ARTICLE OF AMENDMENT TO THE CONSTITUTION FIXING THE NUM-
BER OF MEMBERS NECESSARY TO CONSTITUTE A QUORUM
IN EACH BRANCH OF THE GENERAL COURT.

A majority of the members of each branch of the General Court shall constitute a quorum for the transaction of business,

but a less number may adjourn from day to day, and compel the attendance of absent members. All the provisions of the existing constitution inconsistent with the provisions herein contained are hereby annulled.

The meeting was called to order and warrant read by W. N. Tyler, chairman of Board of Selectmen. Prayer was offered by Rev. N. R. Everts. The chair announced the following appointments :

Tellers, to count the votes : W. W. Taft, Peter B. Wiley, A. W. Flint, Geo. W. Kimball, Chas. E. Walton, Chas. S. Emerson, Jr., James Low, James Hickey.

To work the Ballot Box : W. W. Bessey, Geo. H. Teague, Hoyt B. Parker.

On Check List : L. E. Howlett, J. Wallace Grace, Dennis W. McCarty, Thomas Hickey.

Ballot Clerks : Ezra M. Southworth, Chas. A. Dean, J. Fred Parker, Cornelius Donovan.

All sworn by Town Clerk.

VOTED. That the polls be kept open until 4.30 P. M., and then closed.

At 6.15 A. M. polls were declared open for the reception of ballots.

When 500 ballots had been deposited in the Acme Ballot Box, furnished by the state, it was found that it would not register correctly, but would still cancel the ballots. Soon after it would not work at all, and the machinery was taken out and the box still used, the ballots being stamped "Wakefield" by the tellers in charge. At 4.30 P. M. the polls were closed and the ballots sorted and counted, and public declaration made in open town meeting, at 11.05 o'clock P. M., by the Chairman, of the

First Amendment to Constitution, qualification of voters.

Yes, 583; No, 185; Blank, 543.

Second Amendment to Constitution—as to quorum.

Yes, 610; No, 98; Blank, 603.

Whole number of ballots cast at this election was 1,311.

At 1 o'clock P. M. the Chairman read that part of the warrant relating to town business.

ARTICLE 1. To choose by ballot a Moderator to preside in said meeting.

S. K. Hamilton, Esq., was elected Moderator.

VOTED. To adjourn for one week from this evening, at 7.30 o'clock, as far as the town business is concerned.

ADJOURNED TOWN MEETING, NOV. 10, 1891.

Meeting called to order by S. K. Hamilton, Moderator.

Chair stated that owing to some doubt about the legality of the method of his election as Moderator at the last meeting, he thought it best to assign that office and decline to serve any longer.

NOTE, — At last meeting the Town Clerk was instructed to cast one vote for Moderator, and that vote was for S. K. Hamilton.

Proceeded to ballot for a Moderator. E. A. Upton had 1, J. C. Hartshorne, 1; S. K. Hamilton 30, and was declared elected.

VOTED. To take up the articles in order.

ART. 2. To see if the town will appropriate an additional sum of money for the support of the poor.

VOTED. \$500.

ART. 3. To see if the town will appropriate an additional sum of money for Town House expenses.

VOTED. \$500.

ART. 4. To see if the town will appropriate an additional sum of money for miscellaneous expenses.

VOTED. \$1,500.

ART. 5. To see if the town will appropriate the sum of three hundred dollars to raise the grade of Railroad street, between Chestnut street and Albion street, to conform to the changes now being made by the Railroad Company, or what they will do about it.

VOTED. \$300 and all the gravel necessary to do the grading be let out to lowest responsible bidder by the cubic yard, to be delivered on the spot.

ART. 6. To see if the town will transfer the sum of three hundred dollars from the appropriation made at the annual town meeting for improving Main street, from Lawrence street to Cordis street, to the general appropriation for highways, for the purpose of repairing the sidewalk on said street, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 7. To hear and act upon the report of the Committee on the revision of the By-Laws of the Town, and to see if the town will authorize said committee, or a new committee to codify and revise the By-Laws of the Town, including such provisions of the Statutes as have become in force in the town by special vote of the inhabitants or otherwise, and also to include the revision of the rules and regulations for the conduct and government of town meetings, and appropriate a sum of money for such service, or what action the town will take in relation thereto.

VOTED. To authorize the Committee appointed April 20, 1891, to carry out the provisions of the article, and \$100 for their services and their report was accepted.

ART. 8. To see if the town will vote to re-name Walnut avenue from its intersection with West Chestnut street to Hillside avenue, and name it Fairmount avenue, to correspond with that portion of the same street which has been named Fairmount avenue by the town, or what they will do about it.

VOTED. To do so.

ART. 9. To see if the town will appropriate money to place a fire alarm box on or near the Town Farm buildings, or what they will do about it.

VOTED. \$300.

ART. 10. To see if the town will accept the list of Jurors as prepared by the Selectmen, or what action they will take in relation thereto.

VOTED. To accept list of Jurors after it was modified. (See page 5 of this book.)

ART. 11. To see if the town will appropriate the sum of eighty dollars to erect and maintain certain street lights as follows: One at or near the residence of Mr. Crosby on Nahant street, one near the Town Farm, one near the corner of Oak street, one on Farm street near the school house, and two on Cedar street between Chestnut and Prospect streets.

VOTED. \$80.

ART. 12. To see if the town will authorize and instruct its Selectmen to petition the next Legislature to enact a special

law empowering the town of Wakefield to erect a plant for the purpose of generating electric light for municipal, commercial and individual purposes without purchasing any existing plant, and to take all measures necessary therefor, or what they will do about it.

VOTED. To do so. 118 Yeas, 15 Nos.

ART. 13. To see if the town will appoint a committee of three to confer and negotiate with the Citizens' Gaslight Company to ascertain for what amount and upon what terms said company will sell its gas and electric light plant, or any part thereof to the town, and what it will cost the town, and make report at some future time.

VOTED. To refer to Selectmen with power to act.

ART. 14. To hear and act on the report of the Road Commissioners relative to laying out Grove street, Green street and Pearl street in Greenwood; Avon court, leading northerly from West Chestnut street; Auburn street, Elm square, Water street to Wiley street, Shumway circle, and a street leading westerly from Summit avenue to Prospect street.

The Road Commissioners read reports on all of the above mentioned streets.

VOTED. To accept report on Avon Court, and after it was amended by striking out the proposed appropriation of \$100 it was adopted.

VOTED. To accept report on Grove, Green and Pearl streets, and after it was amended by striking out the word Pearl and inserting Hanson and blank to be filled by inserting the word Cooper, the report was adopted.

VOTED. To accept and adopt the report on Water street to Wiley street. In this report \$25 damages were awarded to Enos Wiley, or the legal owner.

VOTED. To accept and adopt the report on Elm square.

VOTED. To accept and adopt report on Shumway circle and a street from Summit avenue to Prospect street, to be called Morrison avenue.

This report recommended the sum of \$200 to build said streets.

VOTED. To adjourn one week from to-night at 7.30 o'clock, P.M.

ADJOURNED TOWN MEETING, NOV. 17, 1891.

Meeting was called to order by the Moderator.

VOTED. To adjourn until next Tuesday evening at 7.30 o'clock, on account of the small number of voters present.

ADJOURNED TOWN MEETING, NOV. 24, 1891.

Meeting called to order by the Moderator.

Acting under Article 14, the Road Commissioners presented report on Auburn street.

VOTED. To accept the report, and that its adoption by the town be indefinitely postponed.

VOTED. To take up Article 13.

VOTED. To accept the report of Selectmen. No further action taken.

ART. 15. To see if the town will consider the report of the committee on sewerage, made at the annual town meeting in April 1889, and take action thereon, or what they will do about it.

VOTED. To appoint a committee of five to consider the question of Sewerage for the town, and to ascertain the expense of connecting with the Metropolitan System of Sewerage, and recommend some method of raising the necessary amount to pay for one of these systems, and report at the annual meeting in March, said report to be printed in the next Town Report.

Chair appointed J. A. O'Leary, M. D., W. G. Strong, Dr. S. W. Abbott, T. J. Skinner and Geo. W. Harrington.

ART. 16. To see if the town will appropriate the sum of eight hundred dollars for the general school fund, or what they will do in the matter.

VOTED. \$800.

ART. 17. To see if the town will appropriate an additional sum of five hundred dollars for highways and bridges.

VOTED. \$500.

ART. 18. To see if the town will appropriate money to place a fire alarm box at or near the gas house, or what they will do about it.

VOTED. To let the Engineers use the balance left over from appropriation made under Article 9, and \$100 additional.

To see if the town will vote to sell the Yale fire engine to the Veteran Fireman's Association, or what they will do about it.

VOTED. To sell the Yale fire engine to the Veteran Fireman's Association for the sum of \$1, and the following conditions: The Veteran Fireman's Association to keep the engine in good condition for use at all fires in Wakefield, and shall be subject to duty whenever required by the Fire Engineers of Wakefield. Engine not to be sold to any person or company in or out of town, without consent of town. Veteran Fireman's Association to make all needed repairs on the engine, and in case the Veteran Fireman's Association shall disband, dissolve, or in anyway become extinct, the engine is to revert to and become the property of the town.

The above was voted unanimously.

VOTED. To dissolve this meeting.

TOWN MEETING, JANUARY 26, 1892.

ARTICLE 1. To choose a Moderator to preside at said meeting.

S. K. Hamilton, Esq., was elected Moderator by ballot.

ART. 2. To see if the town will take any action in relation to the petition of citizens of that part of Wakefield called Boyntonville, to be set off from said town of Wakefield, and to be annexed to Melrose, upon their petition to the Legislature, or what they will do in relation thereto.

VOTED. To oppose the petition, by a vote of 113 to 2.

VOTED. On motion of C. A. Dean, to appoint a committee of three to nominate a committee of twenty-four to appear before the legislature, and oppose the petition.

Chair appointed C. A. Dean, W. S. Greenough and Michael Low, who subsequently reported the following names, which list was accepted by the town :

Thomas Winship, S. O. Richardson, Richard Britton, A. S. Atherton, E. H. Walton, C. F. Woodward, Solon Walton, W. S. Greenough, Junius Beebe, Chas. A. Dean, Geo. H. Maddock, D. H. Darling, Michael Low, Henry H. Savage, A. H. Thayer, Lowell Drake, E. C. Miller, Wm. G. Strong, Jas. F. Emerson, Fred'k B. Carpenter, Thos. J. Skinner, Joseph Connell, Lyman H. Tasker and Chas. Jordan.

ART. 3. To see if the town will instruct the selectmen to employ counsel to oppose before the Legislature the setting off of that part of Wakefield called Boyntonville and the annexation of the same to the town of Melrose, or what action they will take in relation thereto.

VOTED. That the subject matter of this article be referred to the Selectmen, with power to employ counsel. Yes, 118; No, 4.

ART. 4. To see if the town will grant the free use of the Town Hall for one evening during the present year, to the Yale Veteran Firemen's Association, or what they will do about it.

VOTED. To grant free use for one evening during the present calendar year.

ART. 5. To see if the town will revoke its action of January 27, 1890, by which it accepted the provisions of sections 74, 75, 76 and 77 of chapter 27 of the Public Statutes relating to the election of Road Commissioners.

VOTED. To indefinitely postpone action under this article. Yes, 94; No, 48.

The meeting was then dissolved.

CHARLES F. HARTSHORNE,

Town Clerk.

REPORT OF THE SELECTMEN.

To the Inhabitants and Legal Voters of the Town of Wakefield:

The close of the present municipal year brings with it the opportunity and the duty of the various Boards of town officers to return to your hands the charge with which you have invested them, together with a report of such matters as may be deemed of importance or interest in the conduct of the business of the town. Such reports are herewith presented.

VACANCIES.

Shortly after the opening of the current municipal year, several vacancies from various causes took place in a number of municipal offices, necessitating appointment by the Selectmen.

Preston Sheldon, M. D., of the Board of Trustees of the Town Library, died, and Rev. Charles J. Ryder was elected by the Board of Trustees and the Selectmen to fill the vacancy for the remainder of the year.

AUDITORS.

John S. Eaton and Willis S. Mason, both on account of ill health, vacated their offices. Mr. Eaton by declining to qualify, and Mr. Mason by resignation. Mr. William W. Taft and Melvin W. Boardman were appointed to fill the vacancies. Mr. Taft was assigned to the responsible duty of examining and auditing the weekly accounts, and has proved to be a most efficient officer.

ROAD COMMISSIONERS.

Mr. Everett Nichols, of this Board, died soon after the annual election, and Maj. Winsor M. Ward was appointed to serve for the remainder of the year.

CONSTABLE.

By reason of the inability of Mr. Charles H. Davis to act, on account of serious illness, and of the failure of Israel A. Parsons

and Moses Staples to qualify, it became necessary to appoint a constable for the service of process, and Mr. Charles E. Niles was appointed for that service.

FENCE VIEWERS.

This important office has not been filled for the past five years, except as the several Boards of Selectmen have made appointments, or have themselves assumed the responsibilities of the office. This, we believe, is of so much importance we invite the serious consideration of the public, and urgently request that such action may be had by the town as will insure prompt and efficient adjustment of disputed rights in division lines between occupants and owners of adjoining estates, and settle, without cost to either party in controversy, the partition lines and maintainance of division fences. Under the present method, fence viewers are elected each year, and knowing the difficulties to be met and the intricacies of the law to be understood and applied in the drawing of forms of procedure to meet certain requirements and many uncertain exigencies, refuse to qualify; and the doubtful alternative presents itself of action under the law by the Selectmen, or refusing to petitioners the rights which the law presumes to give them. In either case manifest injustice may be done, as a clear analysis of the law and the application of important principles of the law must necessarily determine the qualifications of those who are called upon to act, and the refusal to act, however well intended, may subject the town to serious complications. For these and many other reasons involved in this misunderstood law, we urgently suggest the propriety of selecting at least one lawyer on the Board, and the appropriation of a reasonable sum for service.

OTHER OFFICES.

An inspection of the records for the past five years as to the qualification of other officers, but including Constables, shows that out of one hundred and eighty-one elected, but seventy-two qualified, leaving as a result of hasty or ill-considered action, one hundred and nine useless appointments. These include Weighers of Coal and Merchandise, Measurers of Wood and Bark, Surveyors of Lumber, Field Drivers, Constables and Fence Viewers.

CHIEF OF POLICE AND NIGHT WATCH.

Mr. Charles E. Niles, who had merited and received during a series of years the confidence of the town for the efficient administration of the Police department, resigned his office as Chief of Police to take effect Jan. 1, 1892, and Mr. Alvin L. Vannah, one of the very efficient night officers, was appointed to the vacancy, and Mr. Edwin F. Poland was appointed to succeed Mr. Vannah as night officer.

SWEETSER LECTURE COURSE.

CURATOR.

Mr. Jacob C. Hartshorne, popular and efficient in the management of this special feature of our social entertainment and instruction, was re-appointed by the Selectmen as trustees of this Course, to continue in its wise management, and we believe he has ably met the requirements of such supervision.

THE SWEETSER CHARITY.

In the early part of the year the Selectmen, acting upon information contained in former reports, and a desire to carry out to the full accomplishment the provisions of the will of Cornelius Sweetser relative to any surplus remaining from the proceeds of the Sweetseer Lecture Course, issued the following circular letter, which explains itself, calling for an organization of associated charities, for the purposes therein specified:—

To the Ladies herein mentioned:

In accordance with the provisions of the will of Cornelius Sweetser, certain funds now in the hands of the Town Treasurer await the disposition of the Selectmen, “to be paid to such charitable organization in said Wakefield as the municipal officers of the town may designate, to be distributed among the worthy poor of the town.”

The Grand Army of the Republic has been designated as such a charitable organization, and a part of the funds paid to them.

There remains now in the hands of the Town Treasurer the sum of \$76.33 to be awarded a similar charity.

It is believed that a great amount of good may be accomplished by such an organization, and that with the above sum as a nucleus, still larger sums may be added to it by the charitable people of the town, which, with its guarantee of an intelligent working force and general scope, would result in a permanent and helpful organized charity.

Experience has taught us that women are the greatest sufferers, as well as the most patient to bear suffering in adversity. We also believe that woman can best reach the heart that suffers in silence, and for this reason we invite the following named ladies to meet at the Selectmen's Room, in Town Hall Building, on Wednesday, May 27, 1892, at 7.30 o'clock P. M., to consider the matter, and to take such action as they may then determine, with the understanding, that upon the organization of such charitable association, by the election of officers and the adoption of rules of government, the amount of such surplus is to be awarded to such charitable association for the uses specified in said will.

WM. N. TYLER,
S. W. FLINT,
W. B. DANIEL,

Selectmen.

Under this call the ladies therein mentioned met and perfected an organization, as appears from the following letter :

WAKEFIELD, June 11, 1891.

WM. N. TYLER, *Chairman of the Board of Selectmen :*

DEAR SIR, —In response to the circular sent out by the Selectmen, the ladies invited met and perfected an organization under the name of "Sweetser Charity." The officers elected are Mrs. S. K. Hamilton, President; Mrs. I. Stowell, Vice President; Mrs. W. E. Rogers, Secretary and Treasurer. The Executive Committee is composed of the whole number of ladies. The By-laws, which were adopted at the last meeting, I enclose for your inspection.

Very truly yours,

MRS. W. E. ROGERS, *Sec.*

The By-laws were examined and approved by the Board of Selectmen, and the Town Treasurer was notified that the Selectmen had designated the "Sweetser Charity," as such charitable organization provided for in said will, and requesting him to pay

over to such charity the balance of funds in his hands awaiting such disposition.

The report of the organization is herewith presented :

FINANCIAL STATEMENT OF SWEETSER CHARITY.

					\$101 33
					\$101 33

ELLEN S. ROGERS,

Treasurer.

INSURANCE.

As stated in the report for 1890-91, the insurance on the Town Hall building expired during the year, and under the vote of the Town of April 12, 1886, reinsurance was effected in the sum of \$40,000. Other insurance expiring during the year has been renewed, including \$5,000 upon the High School building, not mentioned in the last report, which expired Jan. 9, 1892. The insurance on the two school buildings on Academy Hill expired in May, and it was deemed advisable to continue such insurance during the uncertain time of occupancy, and the original insurance was continued to Aug. 1, 1892. Upon the suggestion of the Committee in charge of the erection of the New School building on Academy Hill, and upon representations that no fund was available for such insurance, it was deemed prudent to insure to an amount sufficient to cover the payments made by the town, and that building is now insured for the sum of \$20,000.

Insurance on other town property expires during the current municipal year as follows: Two old buildings on Academy Hill, insured respectively for \$2,000 and \$1,500, expires Aug. 1, 1892. High School building \$5,000, expires Nov. 5, 1892. Montrose School-house, \$1,000, and Greenwood School-house, \$1,000, ex-

pires Nov. 18, 1892. Woodville School-house and fixtures, \$2,000, expires Jan. 21, 1893. High School building, \$5,000, expires Feb. 9, 1893.

RULES AND REGULATIONS.

In consequence of numerous complaints made to the Board on account of the passage of carriages and bicycles on the sidewalks of the town the following rules and regulations were adopted :

TOWN OF WAKEFIELD

RULES FOR THE REGULATION OF CARRIAGES AND OTHER VEHICLES, IN THE STREETS AND PUBLIC WAYS OF THE TOWN OF WAKEFIELD, MASS., AS PASSED BY THE BOARD OF SELECTMEN, SEPT. 8, 1891.

By authority of Chapter 197 of the Acts of 1885 and of the Public Statutes, Chapter 28, Section 25, and of Chapter 53, Section 15, and of Chapter 113, Section 27, the following rules and regulations for the passage of carriages, wagons, carts, trucks, sleds, sleighs, and other vehicles in and through the streets and public ways of the town of Wakefield, are this 8th day of September, A. D. 1891, made by the Board of Selectmen of Wakefield, with penalties for the violation thereof not exceeding twenty dollars for one offence.

SEC. 1. No person shall drive, wheel or draw upon a sidewalk or foot path, a coach, cart, hand cart, hand barrow, bicycle, tricycle or other carriage of burden or pleasure, except children's carriages, or carriages containing children or invalids only, and drawn by hand.

SEC. 2. No vehicle without a horse harnessed thereto shall remain in a street during the night or on a Sunday; and any vehicle so left shall be removed by the Chief of Police at the expense of the owner or custodian.

SEC. 3. Whoever violates any of the provisions of the preceding sections shall be liable to a penalty not exceeding twenty dollars for each offence.

SEC. 4. The Chief of Police is hereby required to take such action as may be necessary to enforce the provisions of the Rules and Regulations of the Board of Selectmen for carriages and all other vehicles in the streets and public ways of the town of Wakefield, in conformity therewith.

These Rules and Regulations shall take effect Sept. 12, A. D. 1891.

WILLIAM N. TYLER,
SILAS W. FLINT,
WILLIAM B. DANIEL,
Selectmen of Wakefield.

PERAMBULATION OF TOWN LINE.

Upon the notification of the Selectmen of the town of Stoneham, the Selectmen of the two towns perambulated the town line between the town of Stoneham and Wakefield, as provided by law. We found the stone bound at the southerly end of Crystal lake thrown down, and have had the same re-set. We also found a cedar post marking the line 36 rods southerly from the last bound in a state of decay, and partially overthrown, and replaced the same with a stone bound which formerly marked the old line on the westerly side of Crystal lake. The bound stones upon the several streets over which the new line runs are now in position, and all the bound stones are now in good condition and properly inscribed with the letters S. and W.

R. L. G. ARMORY.

It will be necessary for the town to take some action in relation to providing armory accommodations for Co. A, Sixth Reg't, the rent of the present quarters having been advanced from \$400 to \$600 per year, and the owners of the property desiring to occupy the entire building.

NUMBERING STREETS.

In consequence of the incomplete numbering of houses on the various streets in town, supplemented by the suggestion of Postmaster Bowman, of the advantages likely to be gained by the citizens upon the completion of such numbering, arrangements were made with J. S. Mason & Co., of Boston, to systematically rearrange and complete the work. The active co-operation of Postmaster Bowman added largely to the permanency of the system, and the work has been accomplished in a manner reflecting great credit upon the firm employed, and doubtless will be thoroughly appreciated by the public.

CLAIMS.

The suit of Rebecca C. Arrington against the town has been settled by the payment of the award and costs of suit, as ordered and provided by vote of the town.

CLAIM OF FRANK MCGLORY.

The suit for damages alleged to have been sustained by the claimant on Railroad street, and which has been pending since 1890, was tried at the Superior Court during the month of January, 1892, and a verdict was rendered in favor of the town.

POLICE AND NIGHT WATCH.

The present system of Police Organization, we believe, meets the cordial approval of the citizens, and heartily commends itself for its efficiency in administration. Attention is called to the report of the Chief, and his recommendations, approved by former Boards, in view of future requirements, are renewed and reaffirmed. The officers are careful and painstaking, and have well earned the confidence of the people. The constant calls for service, which the town cannot overlook or refuse, call for an increase in appropriation to meet ordinary expenses.

TOWN HOUSE BUILDING.

An inspection of this building discloses the necessity of repairs upon certain portions, and the following facts are herewith stated: The coving on the tower is in a state of decay, and may require an expenditure of fifty dollars. The window sashes all over the hall need to be drawn and recovered with oil or shellac to prevent further decay. Some of these windows have been, and are now, so constructed that no repairs could be made without removing parts of attaching obstructions, and many of the windows need to be properly hung. These repairs may require an expenditure of \$150. The return pipes to the boiler are now too small. At the time they were placed in position, they performed the work for which they were intended, but the large and constantly increasing extension of radiating surface, for heating, renders them unsafe, and the three-fourths inch pipes now in use should be replaced with, at least, two inch pipes. The cost of this work will probably not exceed the sum of \$200.

STREET LIGHTS.

As directed by the town, at the last annual town meeting, the contract for furnishing gas for street lights was continued for three months. We were afterward informed that the town was consuming more gas than they were paying for, the company

claiming that the burners used consumed from six to eight feet per hour, instead of four feet, upon which basis the contract was made, and the Gas Company declined to contract further upon that basis, or for the price heretofore received; and, if such lights are used, it will be necessary to make a new contract for future needs.

BOYNTONVILLE.

The petition of citizens of that part of Wakefield called Boyntonville, to be set off from Wakefield and annexed to Melrose, has been made the subject of town action. That the citizens of that locality should desire increased facilities and accommodations, is not exceptional. We all desire a larger measure of the good things of this life. Our time for the enjoyment of such benefits is limited, and we are constantly striving for the attainment of the best. But the inevitable friction hinders, and we force or bide the time of its accomplishment, as the temper of the times may demand. The nearness of the building encroachments from Melrose chafes the restive neighboring residents of Wakefield, and emphasizes the intensity of the contrast. But we believe the citizens of Wakefield are willing to grant to one section of the town the same benefits we all enjoy, and we certainly ought to expect that equal burdens would also follow.

INJUNCTION.

The order of the court enjoining the town from carrying out the orders of the County Commissioners, relative to the widening of Main street, has been dissolved, and the town will be called upon to meet the needed improvements contemplated by the Commissioners' order.

ACKNOWLEDGMENTS.

Our thanks are due to the Volunteer Hose Company for a very important service rendered at the Town House, in connection with what appeared to be an obstruction in the sewer main leading from said building, and in flushing the pipes leading to the same; and our sincere acknowledgments are herewith extended.

WILLIAM N. TYLER,
 SILAS W. FLINT,
 WILLIAM B. DANIEL,

Selectmen of Wakefield.

WAKEFIELD, Feb. 1, 1892.

REPORT OF THE DEPARTMENT OF POLICE.

To the Honorable Board of Selectmen:

GENTLEMEN,—The following report of the doings of the Department of Police for the year ending January 31, 1892, is respectfully submitted, together with the roster of the department, as now organized.

ROSTER.

Charles E. Niles, Chief, resigned Dec. 31, 1891.

Alvin L. Vannah, Chief, and day officer, appointed, Jan. 1, 1892.

James A. McFadden, Edwin F. Poland, Night Officers.

John H. Buckley,

Chas. S. Merrill,

R. F. Draper,

Chas. E. Horton,

B. B. Burbank,

John F. Alexander,

Edwin Sanderson,

John A. Meloney,

William H. Gould,

Edgar A. Hallett,

John L. Orr,

A. D. Oxley,

John Day,

H. W. Eustis,

Special Officers, liable for duty when detailed.

WORK DONE BY THE DEPARTMENT.

Defendants defaulted,	6
Put under bonds to keep the peace,	5
Amount of fines imposed in the District Court,	\$729 00
Amount of fines paid in District Court,	379 00

The duties of Day Officer are so well understood by your Honorable Board, and by the citizens generally, as to need but little explanation here; but the activities of effort and the numerous calls for police investigation, the time consumed and the distance and direction traversed, which go to make up the complement of daily duty, may not be so fully understood as appreciated. These matters are real, and as the population increases here and elsewhere, so the necessity increases for more diligent and more extended activity and effort. The constantly increasing number of calls for police protection and investigation from outlying districts necessitates an increase in time consumed and expenses incurred. The records of this and former years show that the appropriations for the necessary performance of the duties of officers called upon and expenses that must necessarily be incurred in the performance of such duties, are not sufficient. It is a rule in many cities and towns to have at least one officer to every one thousand inhabitants. We have about seven thousand inhabitants and but three officers on duty regularly; but I think that perfect satisfaction can be given by having in addition to the regular officers, one or two officers detailed for duty in certain sections of the outlying districts on holidays, Saturday nights and Sundays. I would therefore recommend an increase in the appropriation so that all parts of the town may receive a share of police protection.

The timely precaution taken by the department and suggested in the report of one year ago by Mr. Niles, in regard to the building of bonfires in the public streets on July 4th, and the prompt action of the department, together with the satisfactory results obtained, make it desirable that the suggestion then made should continue to be the policy of the department, and the co-operation of the people should be sought.

Assuming the duties of the office of Chief of Police at a time when the municipal year was near its close, and as some of the details of the department were in a measure unfamiliar to me, I cheerfully take this opportunity of expressing my sincere thanks for the assistance and advice voluntarily rendered by Mr. Charles E. Niles, who kindly gave me the benefit of his many years experience as Chief of Police.

In closing, I desire to thank each member of the Board of

Selectmen for their kindly advise and co-operation with the department. To Night Officer James A. McFadden, with whom I have been so long and pleasantly associated, I extend my most sincere acknowledgments; also to Night Officer Edwin F. Poland, and the whole department for the willing, faithful and efficient manner in which their duties have been performed.

ALVIN L. VANNAH,
Chief of Police.

REPORT OF ROAD COMMISSIONERS.

The Road Commissioners of the Town of Wakefield herewith respectfully present their report for the year ending February 1st, 1892 :

At the last annual meeting, the sum of \$8,000 was appropriated by the Town for general purposes.

At a special meeting, the sum of \$500 more was appropriated for general purposes.

Received from individuals for extra labor and sale of material, as follows :

Appropriations,	\$8,500 00
Henry Davis, extra labor,	15 00
Water Company,	10 00
J. F. Emerson,	6 00
Three (3) chopping blocks,	3 00
1538 loads street scrapings,	322 20
Grand Total,							\$8,856 20

All the work on the highways has been done under the supervision of the Road Commissioners, who received for their service while on duty \$2.50 per day until Sept. 11; since that time \$2.25 per day.

Laborers were paid \$2.00 per day until Sept. 11; since that time \$1.75, and the same was allowed for horse and cart. The pay roll is as follows :

LABOR ON HIGHWAY AS PER PAY ROLLS.

Henry Davis,	\$386 64	Howard Hart,	\$289 34
Windsor M. Ward,	315 96	Arthur Greenough,	113 25

S. H. Nickerson,	1 00	Fred Neiss,	3 50
J. H. Emerson,	3 00	Frank A. Heath,	3 51
Patrick Kalaher,	4 00	A. L. Mansfield,	39 00

The streets receiving the largest expenditures are as follows: Main, Gould, Green, Albion, Cedar, Emerson, Murray, Dell ave. and Spring.

Owing to running several sections at the same time, we are unable to give the exact amount of expenditure on each street..

Other streets have received attention, and smaller amounts expended thereon.

The road scraper has been run the past season fifty-seven days on the streets, and most of them have been scraped.

Four sand catchers have been built, this last season, at a cost of \$100.

A special appropriation of \$200 was made for cleaning out brook from Water street to Vinton street and repairing bridge over Vinton street.

The sum expended was as follows:—

As per pay rolls,	\$102 88
Lumber,	14 86
Printing,	1 40
Hardware,	56
								<hr/>
								\$119 70

A special appropriation of \$700 was made for repairing Vernon street.

The amount expended was as follows :

As per pay rolls,	\$629 73
Gravel,	70 36
	<hr/>
	\$700 09

A special appropriation of \$200 was made for repairing Highland street.

The sum expended was as follows :

As per pay rolls,	\$164 25
Gravel,	10 60
Sharpening tools,	88
	<hr/>
	\$192 38

A special appropriation of \$100 was made for repairing Maple street.

The sum expended was as follows :

As per pay rolls,	\$92 50
Gravel,	7 50
	<hr/>
	\$100 00

A special appropriation of \$500 was made for repairing Prospect street, as per order of County Commissioners.

The sum expended was as follows :

As per pay rolls,	\$274 46
Concrete (gutters),	225 54
	<hr/>
	\$500 00

A special appropriation of \$300 was made for the building a sidewalk on Water street.

The sum expended was follows :

As per pay rolls,	\$256 93
Gravel,	42 48
	<hr/>
	\$299 41

A special appropriation of \$200 was made for repairing Morrison avenue.

The sum expended was as follows :

As per pay rolls,	\$192 58
Powder and sharpening tools,	7 42
	<hr/>
	\$200 00

A special appropriation of \$300 was made for repairing Railroad street. As per vote of the town it was let out to the lowest bidder. The delivering of the gravel on said street was awarded to N. H. Dow, he being the lowest bidder.

The sum expended was as follows :

Gravel (by contract),	\$213 50
As per pay rolls,	145 31
	<hr/>
	\$358 81

A special appropriation of \$600 was made for building new streets on Cedar Hill avenue.

As per vote of the town it was let out to the lowest bidder. The building of said streets was awarded to Henry Davis and Windsor M. Ward, they being the lowest bidders.

The sum expended was as follows :

Contract,	\$590 00
Labor (on fence),	1 94
Lumber (for fence),	1 92
	<hr/>
	\$593 86

A contract for building a stone bridge across Foundry street was awarded to George W. Killorin by the Board of Road Commissioners of 1890, for the sum of \$150.

The acceptance of the said became our duty to perform.

Upon examination of said bridge, we found it short in length and narrow in width, according to contract. We informed the contractor that he must comply with said contract or make a suitable deduction. The deduction was made and the bridge was accepted by the Board.

A contract for building a stone bridge across Nahant street was awarded to N. H. Dow, for the sum of \$150. It was built satisfactorily to the Road Commissioners, was accepted and bill approved by the Board.

The improvements on Main street near the Junction necessitated the cutting down of eight large trees.

The sum expended was as follows :

Labor and tools,	\$103 75
Credit by three chopping-blocks,	3 00
	<hr/>
Total cost,	\$100 75

The stone crusher has not been run this last season, for the following reasons :

That in our judgment it would not be safe to run it where it now sits.

And it is our opinion that crushed stone can be delivered in the central part of the town for less expense than the town can crush it, unless the crusher can be removed down onto the street, and run in the winter season, when the cost of labor would be very much less than in the summer season.

There has been \$1,000 expended by contract for macadamizing part of Main street.

CONCRETE.

At the annual meeting \$1,000 was appropriated for concrete work. At a special meeting \$500 more was appropriated, making a total of \$1500.

The contract for concreting was awarded to T. Bert Pratt, for 54 cents per yard for sidewalks, and 60 cents per yard for gutters and crossings.

The sum of \$2,151.23 was expended for concrete, as per contract. \$488.29 has been received from abutters. Amount due the town, \$226.63.

CASH RECEIVED FOR CONCRETE.

J. A. Sederquest,	\$13 77	James A. Gatez,	\$24 21

GUIDE BOARDS.

The guide boards are in good condition at the present time. Having found quite a number down, and a large number of streets without them, we have had 37 made and put up.

The list of town property remaining in our hands is as follows :

1 road scraper, 1 road roller, 1 battery and lead wires, 8 snow plows, 3 triangle snow plows, 12 picks, 2 shovels, 3 rakes, 2 grub hoes, 1 iron bar, 10 drills, 2 potatoe diggers, 1 striking hammer, 1 ledge hammer, 2 axes, 1 hoe, 4 forks, 1 spirit level, 1 chopping block (town house cellar), 2 lanterns, 1 covering stone for sand catcher.

For further details we respectfully refer you to the financial reports.

The Board has had five special and thirty-four regular meetings since it was organized.

Respectfully submitted,

HENRY DAVIS,

WINDSOR M. WARD,

Road Commissioners.

BOARD OF HEALTH REPORT.

The citizens, at the annual election, saw fit to continue in office the same Health Officers who served last year, and the organization of the Board has remained the same, so that this year's work has been a continuance of the line laid out for last year. Our results have been as satisfactory as the composition of the Board would lead us to expect, but it has not at all times been as complete as we would like, because it was impossible for the members to give the time to the needed work, without neglecting to a large extent, their own private business. We have failed to undertake a number of improvements that are needed, and that would be for the sanitary benefit of the town, because the time could not be spared to carry them out properly.

Chap. 80, Sec. 6, of the Public Statutes gives the Board authority to establish the pay of all persons who are employed by it to enforce its regulations, and this leads us to make this

SUGGESTION.

That future Boards of Health employ a health officer or inspector, whose business it shall be to patrol the town, especially during the summer months, and inspect the sanitary condition of cesspools, privies, etc., and to rigidly enforce the regulations, and, if necessary, prosecute all persons neglecting or refusing to comply with the rules of the Board.

This suggestion is the result of our experience in endeavoring to enforce the laws of the health department, and is the only practical means by which the town can be kept in a proper sanitary state. Human nature is the same in sanitary matters as in other things, and people will backslide if they get a chance, and unless they are compelled to do a thing it is pretty sure to remain undone. Now, it is the business of the town to protect its citizens against sanitary backsliders, just as it would against legal

offenders, and by the present system this has not been done. It is not that people are malicious in their breaches of sanitary laws, but it is the fatal indifference that saps the strength of the best regulations. We think if we had an effective inspector who would enforce the law, prosecute a few delinquents, and show the people that he meant business, for a year or two, that we would create a sanitary conscience that would take care of those things without much further watching.

DEATHS.

The number of deaths in town this year has been the largest ever recorded, there being 143 persons in all who died in Wakefield, beside 8 others who died in hospitals out of town. The average death rate for many years has been about 110, and there is no apparent cause for the large increase this year. Consumption has a larger percentage than usual to its credit, there being usually about 15 deaths annually from this cause. Seven persons died of typhoid fever, the result of the endemic last fall, whereas there are usually no deaths from this cause. The variety of causes is only slightly increased and presents no remarkable feature.

Below is given the list of causes and number of deaths from each :

Consumption,	21	Apoplexy,	4
Heart Disease,	10	Diphtheria,	3
Pneumonia,	8	Marasmus,	3
Meningitis,	8	Peritonitis,	3
Typhoid Fever,	7	Convulsions,	3
Scarlet Fever,	6	Congestion of Lungs,	2
Diseases of Brain,	5	Old Age,	2
Still Birth,	5	Accident,	2
La Grippe,	5	Membranous Croup,	2
Paralysis,	4	Inanition,	2
Immaturity,	4	Entero-Colitis,	2
Bronchitis,	4	Diarrhœa,	2
Burns,	3	Bright's Disease,	2
Septicæma, Gastric Cancer, Gangrene, Congenital Syphilis, Liver Disease, Rickets, Erysipelas, Cancer, Tetanus, Ovarian Tumor,			

Tabes Mesenterica, Unknown, Cholera Infantum, Congestion of Brain, Tuberculosis, Colitis, Hydrocephalus, Enteritis, Aneurism, Hemorrhage, Cystitis, 1 each.

CONTAGIOUS DISEASES.

During the spring an epidemic of measles occurred, but was harmless in its results, there being no deaths from it, as it took on a mild form. The cases of scarlet fever in this year's report formed the close of the severe run that started in the fall of last year. There has been very little diphtheria we are glad to say, and hope the town may always be as free from this unwelcome visitor. But if it is n't one thing, it is another; and this year we have to report an unusual number of cases of typhoid fever, which is regarded as a contagious disease, and which kept the Board very busy while it was with us. It is a good many years since so many cases of this disease occurred in Wakefield, and it amounted to an epidemic, or rather an endemic, as it was confined to one locality. Why we should have it now more than before was a question that puzzled the Board, and we gave a good deal of time to its solution, but with no satisfactory results.

The first case occurred in April, on Nahant street, and the next on Railroad street near the gas works, and then one on Lafayette street. These, however, were unimportant, as they seemed to have no connection with the others that followed.

The endemic really commenced about the 20th of August on Melvin street, where a case was reported the 25th. This was followed by three cases in one family on Bateman court, a short street leading off Melvin street. Next came a case on Richardson street, only a short distance away; and, until Sept. 7, every case reported, fourteen in all, were in this same district, within a stone's throw of each other. After that it seemed to have left for new fields, the next case being reported from Valley street, followed by others from Wiley place, and one each from Pearl and Salem streets; and then it returned to Melvin street and vicinity the last of September, where it stayed until the first of November.

It is usual to have from one to five cases of typhoid in different parts of the town through the year; but why it should prevail this

year in one district, as it has, is a question the Board cannot answer, notwithstanding a careful inquiry into the matter. Many theories have been brought forward, but they are only theories, and nothing has been found that could satisfactorily explain the visitation of this dread disease.

The sanitary condition of the locality has been blamed for it, but we think unjustly, as it is no worse to-day than it has been for years, and, as a whole, is not in an uncleanly condition. To be sure there are places where the privy and sink drains are not kept in proper condition, but all these places did not have typhoid fever, while others that were apparently clean did have it. There are places in the Centre and other parts of the town that in summer are as bad or even worse than the "hill" district; and yet they had no typhoid.

The pollution of the water-supply was another supposed cause, and of them all this seems the most probable; but yet, after a careful chemical and microscopical analysis of the contents of different wells supplying water to people living in houses where the disease occurred, no germs of the disease were found, and it could not be positively said that patients were infected by drinking well water. Pollution of drinking water usually results from the contents of privy vaults, cesspools, etc., flowing into it, carrying bacteria and disease germs which are transferred to the human system by drinking the water. In this case the origin of the disease in the district by water pollution is eliminated, as the Melvin-street district is supplied with town water from Crystal Lake, and by analysis this has been shown to be comparatively pure. But in Wiley place there is no water-supply except from wells; and here we might expect to find the origin of the fever and would look for the largest number of cases; but in the whole of Wiley place there were only two houses in which the disease occurred, while every house is supplied with water from a well. And those wells which furnished drinking water for the persons who had the fever also supplied others who did not contract the disease.

In seeking the source of the trouble, the Board was impressed with the fact that nearly every one who was taken sick with typhoid fever at this time was employed in the factory of the Wakefield Rattan Company, and our attention was directed to

this place as possibly furnishing a solution of the question. Of thirty-three cases reported between August 27 and November 1, sixteen patients were employed in the factory, and ten other cases occurring in the same families resulted by infection, no doubt; so that twenty-six cases may be said to have been more or less intimately connected with the factory. To determine, if possible, whether the unsanitary state of the rattan works was to blame, the Board together with Mr. Fales, agent of the State Board of Health visited the grounds, and samples of water from both the wells from which operatives are accustomed to drink in summer were taken, and also from the taps supplying wash water for washing the cane. The wash water is water that flows from the Centre Pond to a reservoir on the grounds, where it is dammed up; and, after being used, flows off by the brook running down Water street. The water in this reservoir on the day of examination was so filthy that a strong odor arose from it, and the surface was nearly covered with a thick green scum, showing to the naked eye that it must be a fertile field for the growth of bacteria. The analysis of this water as given below shows it to abound in bacteria, 7,820 being found in one cubic centimeter. This water is not used for drinking purposes, of course. Well A is the upper well near the stable, just within the Water street gate, and was used a great deal during the summer by the operatives. The water here was found to be quite pure on examination, and not open to suspicion. Well B is situated at the lower part of the yard and is several feet lower than well A. This well was not used so much as the other one, as complaint was made that the water did not taste so good; and, on analysis, it proves to compare unfavorably with the upper well. In no one of the samples examined were typhoid germs found; and as typhoid fever is recognized as a disease due to a specific poison, the typhoid bacillus, which is probably never generated *de novo*, the examinations made have failed to show any water contaminated by the poison, and so have failed to locate the origin of the disease. However, as its development is favored by decomposing animal matter, such as is found in foul drains, stagnant water, etc., we can readily understand how it should develop near those sources of water supply which have been shown to be polluted.

The only conclusion we could reach after our investigation, was that a mild, and therefore unrecognized, case occurred during the early fall in this district; and, favored by water pollution or otherwise, the disease spread by infection among those whose systems were open to the fever at that time.

The report of the State Board of Health on the analysis of water taken from various wells and from the town supply is given below. It will be noticed that the faucet water of which so much complaint has been made at different times is shown to rank very high in purity.

COMMONWEALTH OF MASSACHUSETTS.

STATE BOARD OF HEALTH.—EXPERIMENT STATION.

LAWRENCE, MASS., Oct. 1, 1891.

J. A. O'LEARY, M.D.,

Secretary of Board of Health, Wakefield, Mass.

DEAR SIR,—I enclose analyses of waters obtained from Wakefield on Sept. 14 and 19.

All of the wells, except A and B and that used by McGlynn, are so evidently polluted by sewage as to be dangerous, when there are diseases in their drainage areas, communicable by sewage-polluted waters.

None of the typhoid bacillus were found in the samples examined.

Respectfully,

HIRAM F. MILLS,

Chairman of Committee of State Board of Health.

COMMONWEALTH OF MASSACHUSETTS.

None of the Typhoid Bacillus were found in any of these waters.

EXPENSE ACCOUNT.

As will be seen by the Auditors' Report, the expenses of the Board of Health for this year have been far greater than usual, and this needs some explanation.

One of the largest items is the bill for services of the Health Officer from March 26, 1890, to February, 1891, which is \$232.10. This is largely for work performed during the epidemics of scarlet fever and measles in the fall, winter and spring of 1890-91, during which time, there were over three hundred cases of those diseases. The Health Officer is the only member of the Board who receives any remuneration for extra services, besides the due portion of the \$50, which forms the salary of the whole Board. As he is the executive officer, all the heavy work falls upon him, and he must investigate nuisances, placard houses, and attend to the various duties of the health department.

But the greatest part of the extra expenditure was money paid for assistance to poor families, during the run of typhoid fever last fall. Occurring, as it did, among people who could ill afford the burden of sickness of any kind, it found some families wholly unprepared for the long siege and heavy expense that accompanies this fever, and in need of immediate assistance. Appeals were made to the town for aid and were referred to the Board of Health, as the matter came under the head of contagious diseases.

Chap. 80, Sec. 40, of the Public Statutes provides that

“When a person coming from abroad or residing in a town in this state is infected, or lately has been infected, with the plague, or other sickness dangerous to the public health, except as is otherwise provided in this chapter, the board shall make effectual provision in the manner which it judges best for the safety of the inhabitants, by removing such person to a separate house, or otherwise, and by providing nurses and other assistance and necessaries, which shall be at the charge of the person himself, his parents, or master, if able, otherwise at the charge of the town to which he belongs; or, if he is not an inhabitant of any town, at the charge of the Commonwealth.”

Acting under this authority, we answered all reasonable calls for aid, furnished physicians, supplied medicines, blankets, fuel,

in short, all things necessary, for the well being of the patients, and kept watch of the cases until recovery was established.

As the average duration of this disease is about thirty days, it will be readily understood why the expense was so great for the number of persons assisted. In some cases only one member of the family was sick, while in others there were two or more. Some families asked assistance in part only, as for a nurse, or medicine, while others were in need of everything, which we supplied.

We were obliged to send to Boston for nurses as the local nurses were unavailable for this disease.

Some of the money spent in this way will be refunded to the town, we have no doubt, as soon as the persons assisted have an opportunity to get on their feet again.

Below is a tabulated list of expenses :

No. of families assisted,	10	No. of persons assisted,	23
Physicians' fees,	\$213 75	Nurses' fees,	\$439 89
Medicines, etc.,	118 70	Food and supplies,	55 08

Besides the above there are about \$125 more in bills that will have to go on to next year's account, because of delay in sending them in before the last appropriation was exhausted.

Respectfully submitted,

J. B. WILEY,
J. A. O'LEARY, M. D.,
C. E. NILES,
Board of Health.

WAKEFIELD, Feb. 1, 1892.

REPORT OF FOREST FIREWARDS.

During the twelve months ending Dec. 31, 1891, there have been sixty-two fires, viz. :

January,	1	July,	4
February,	1	August,	5
March,	3	September,	5
April,	13	October,	3
May,	11	November,	4
June,	2	December,	10

NUMBER OF FIRES IN EACH DISTRICT, AND COST.

DISTRICT.	FIRES.	COST	BUILDING FIRES.
Centre,	11	\$17 00	6
Junction,	2	1 75	0
North,	7	13 00	5
South,	13	63 50	2
East,	11	42 00	0
West,	16	23 00	7
Woodville,	2	5 00	1
	<hr/> 62	<hr/> \$165 25	<hr/> 21

Average expense of each fire, \$2 70
 Number of people working on these fires, 290
 Average expense of each person, about \$0 57

The above includes the expense of a team for carting water to nine fires.

Of these fires thirteen were set by sparks from engines on the B. & M. R. R., the balance being set by children, gunners, accidents and incendiaries. At fifty-eight of these fires the only apparatus used was Johnson pumps, buckets and fire cans, or other small appliances, and the fires were stopped by early work

from still alarms, and most of these were out in ten minutes after the first still alarm was given; at the other four fires the property first fired was a total loss.

Number of town and private pumps and buckets used, over one hundred each.

Only one building fire was above the first story.

Town fire appliances in charge of the Forest Firewards: 70 Johnson pumps, 60 balloon valves for pumps, 6 top valves, 6 discharge pipes, 6 tips, 5 dozen sprinkler nozzles, 100 2-gallon cans, 50 buckets and 6 water scoops.

This has been the worst year, for fires, in this town since the introduction of Johnson pumps as a fire protection, but the fires have all been comparatively small.

FOREST FIREWARDS' BILLS.

Appropriation,	\$200 00
Expense of 62 fires,	\$165 25
Two Johnson Pumps, eight bbl. Water Holes, Repairs on Johnson Pumps, Water Cans and Buckets and other appliances used by this system,	34 70
	<hr/> \$199 95
Balance unexpended,	\$0 05

The above report is respectfully submitted, by

R. KENDRICK,
S. T. PARKER,
B. W. OLIVER,
Forest Firewards.

JOHNSON PUMPS.

In compliance with the vote of the town at its annual meeting, the Forest Firewards herewith furnish a list of the present locations of the town's Johnson Pumps, now numbering seventy, as follows :

 RUFUS KENDRICK,
Forest Firewards.

OVERSEERS' REPORT.

The duties of the Overseers have been very much the same this year as usual. We found we were coming short of funds, some extraordinary expenses being incurred by reason of the epidemic of typhoid fever, we having to provide nurses, etc., and we had to call upon the town for an extra appropriation of \$500, which has been nearly all expended.

The work of the Board increases from year to year, as our town grows and the calls for assistance come oftener, so that we shall soon have to increase our annual appropriations.

The Danforth children, who were in the house at the beginning of the year, were placed in the New England Home for Little Wanderers and have found good homes; we have also placed James Barry in a good home. The health of the inmates has been good the past year, with the exception of such trouble as is incident upon old age.

The farm has produced large crops the past year, but prices for farm products have ruled very low so that the farm does not make so good a showing as it otherwise would.

The work of reclaiming the meadow land along the Saugus River has been continued with good results.

The farm is in excellent condition and reflects honor upon the town and credit upon its Superintendent and his wife, whom we have engaged for another year.

It is the desire of the Board and also of the Superintendent that the townspeople might, by personal inspection, see the farm and its workings, and to that end Mr. Donald and his wife extend to all the citizens of Wakefield a hearty invitation to visit them at anytime, when they will be cordially welcomed and shown about the farm.

Our experiment of delivering goods from the Almshouse store has proved a success, and ought to be continued.

Respectfully submitted,

HIRAM EATON,
DEXTER C. WRIGHT,
JOHN G. MORRILL,

Overseers of Poor.

WAKEFIELD, Feb. 8, 1892.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen:

GENTLEMEN,—The Engineers of the Fire Department herewith present their annual report, with a statement of its force and apparatus, together with a complete record of all alarms of fire.

The force of the Department consists of three (3) Fire Engineers, one (1) Engineer, one (1) Assistant Engineer, one (1) Steward, thirty (30) Hosemen, fifteen (15) Hook and Ladder men and one (1) Volunteer Hose Co.

The apparatus remains the same as last year, with the addition of 100 ft. of hose for the Chemical Engine at Montrose.

The Engineers have caused six iron reservoir covers to be placed as follows: one on reservoir at the North Ward, one at junction of Salem and Pleasant streets, one on Park street, one on Elm street, one on Richardson street and one at Greenwood.

During the year the location of the Steamer has been changed to the intended engine house, corner of Crescent and Mechanic streets, and is now located in the basement of the building, and during the coming year it is the intention to remove the Carter Hose and Washington Hook and Ladder companies to this building, which is more central than past locations, and must necessarily tend to make the Department more efficient, by being able to respond more quickly to the alarms.

During the year the Department lost by death one of its members, David Graham, who has served faithfully as Steward of Steamer Lucius Beebe Co. since its organization.

The accident to P. J. Flanders, Jan. 7th, is the only one which has occurred during the year, to any member of the Department, while on duty.

During the year the Fire Alarm has been extended, and boxes located and numbered as follows: Box 6, located near the Alms-house; Box 26, at the junction of Church and Railroad streets; making in all a total of ten boxes. And your Board would recommend that the system be still further extended, and a box

located near Wakefield Highlands; also that a box be located at the junction of Salem and Vernon streets, as recommended last year.

During the year the Volunteer Hose Company have responded to all alarms and done efficient service, and your Board would recommend that the town pay said company a suitable compensation for their services the ensuing year; they deserve the thanks and praise of the community they endeavor to so faithfully serve.

ALARMS.

Feb. 18, Box 35, house corner Melvin and Cottage streets.

Apr. 24, Box 35, Enos Wiley's Barn.

Apr. 27, Box 41, Dr. Davis' house.

May 4, Box 41, woods on Lowell street.

May 8, Box 35, woods on Wiley street.

May 16, Box 23, Maria E. Butts' bake-house, Stoneham.

June 13, Box 35, Wakefield Block.

Sept. 3, Box 23, Eustis Estate, Elm street.

Sept. 8, Box 41, Dr. Davis' house, corner Lowell and Vernon streets.

Sept. 21, Box 31, Wakefield Estate, house near Rattan Factory.

Dec. 3, Box 23, old depot, Railroad street.

Jan. 7, Box 35, John Johnson's house.

In closing this report, we desire to tender our thanks to the Selectmen and other town officials, for the interest shown by them in the welfare of the department, and their uniform courtesy at all times.

To the officers and members of the department, we are under obligations for the good will shown, and for the promptness with which you have responded to all alarms, and the cheerful manner in which you have performed all duties.

The expense of the department has not exceeded the appropriation. See report of Auditors.

Respectfully submitted,

HORACE W. DALRYMPLE,

LEVI FLANDERS,

ROGER HOWARD, *Sec.*,

Engineers.

TREASURER'S REPORT.

To the Citizens of Wakefield:

I herewith present my report of matters connected with the Treasurer's department for the fiscal year closing February 1, 1892.

TRUST FUNDS.

EZRA EATON BURIAL-LOT FUND, \$100.

This fund was a gift to the town, March 2, 1857, the income of which is used at the discretion of the Board of Selectmen to keep in repair the burial lot of the late Ezra Eaton.

The sum of \$3 has been expended by the selectmen the past year.

THE FLINT MEMORIAL FUND, \$1000.

This fund, from Mrs. Harriet N. Flint, is for the benefit of the Beebe Town Library, the interest thereon to be expended in the purchase of books.

The sum of \$60 as interest one year to Feb. 1, 1892, has been paid to the Trustees of the Library.

DR. F. P. HURD LIBRARY FUND, \$2500.

This fund is for the benefit of the Beebe Town Library, and is invested in coupon notes of the town of Wakefield, bearing interest at the rate of four per centum per annum.

C. WAKEFIELD LIBRARY FUND, \$500.

This fund is also for the benefit of the Library, and is invested in the same manner as the Dr. Hurd Fund.

JONATHAN NICHOLS TEMPERANCE FUND, \$1000.

This fund was a gift to the town on certain conditions as described in the vote accepting the same. The conditions are such that any young man of Wakefield, who files his name with the

Town Clerk, before he is sixteen years of age and declares his intention not to drink intoxicating liquors, and not to chew or smoke tobacco, until he shall become twenty-one years of age, and shall have kept his pledge until that time, shall receive from the income of the fund ten dollars, together with a certificate of commendation from the Selectmen.

The Town Clerk has enrolled up to the present time, the names of 280 young men who have thus pledged themselves, and the Treasurer has paid the fee to five young men during the past year, who have arrived at the age of twenty-one years, and certified that they have kept their pledge, making a total of twenty-one, since the fund became operative.

STATEMENT OF INTEREST.

Balance available at last report,	\$184 29
Interest on fund and balance to Feb. 1, 1892,	47 37
	<hr/>
Total,	\$231 66
Paid Feb. 27, 1891, Chas. H. Morley,	\$10 00
April 23, 1891, Albert J. Madden,	10 00
May 14, 1891, Jos. B. Burdett,	10 00
Oct. 16, 1891, Lent U. Emerson,	10 00
Jan. 5, 1892, Arthur G. Flagg,	10 00
	<hr/>
	\$50 00
	<hr/>
Balance available,	\$181 66

C. SWEETSER BURIAL-LOT FUND, \$1,000.

The income from this fund is to be used in keeping in repair and beautifying with flowers and shrubbery, the burial lot of the parents of the donor. The principal is on deposit with the Wakefield Savings Bank.

STATEMENT OF INTEREST.

Balance available at last report,	\$273 67
Interest on above to Feb. 1, 1892,	10 95
Interest from Wakefield Savings Bank to Aug. 1, '91,	40 00
	<hr/>
Total,	\$324 62
Expended as per Auditors' report,	\$3 00
	<hr/>
Balance available,	\$321 62

C. SWEETSER LECTURE FUND, \$10,000.

This fund is now invested as follows :

Town of Attleboro 4s, due 1897, 5 Bonds \$1,000 each,	\$5,000 00
Town of Brookline 4s, due 1893, 5 Notes \$1,000 each,	5,000 00
	<hr/>
	\$10,000 00

The income from this fund for one year, \$400, has been paid to Thomas J. Skinner, Treasurer of Sweetser Lectures.

This fund is for the purpose of providing such lectures as will tend to improve the public mind. A reasonable fee for admission is required, and the net proceeds of the Course are to be paid to such charitable organization in said Wakefield, as the municipal officers of the town may designate, to be distributed among the worthy poor of the town.

The last report showed a balance of \$126.33 as "net proceeds" of previous years, held by the Treasurer, awaiting the action of the Selectmen for its disposal, in accordance with the terms of the bequest. The course last year showed a deficit of \$24.75, which was paid by the Curator, Mr. J. C. Hartshorne, who asked the town at its annual meeting to re-imburse him. This request was readily voted, and the money was duly paid him by the Selectmen from the Miscellaneous Fund. At an adjourned meeting held April 6, this action was reconsidered, and the town voted "that the proper custodians of the fund be instructed to pay the Curator \$24.75, the amount of the deficiency, out of the surplus now on hand."

The Treasurer, believing that the action of the town was not according to the terms of the bequest, asked permission of the the Selectmen to obtain from S. K. Hamilton, Esq., his opinion upon the legality of the vote. This request was granted, and the following correspondence in relation to the matter took place, and is here inserted in my report, both as a matter of information, and record.

WAKEFIELD, Mass., April 7, 1891.

S. K. HAMILTON, *Esq.* :

DEAR SIR,—The town at its meeting last evening reconsidered its former action whereby it voted to re-imburse the curator of the Sweetser Fund Lectures, for money advanced by him to pay bills

in excess of receipts, for the season of 1890-91, and the following vote was then passed.

“That the proper custodians of the fund be instructed to pay Mr. Hartshorne \$24.75, the amount of the deficit, out of the surplus now on hand.”

The said surplus consists of “net proceeds” from former yearly courses which I am holding, *in trust*, to be distributed in accordance with the terms of the will, and the vote of the town accepting the same, passed April 6th, 1885.

The Selectmen have authorized me to obtain from you, as Town Counsel, an opinion whether I can legally pay the amount referred to from the said “net proceeds.”

Will you please give me your opinion upon the matter, in writing, at your convenience.

Yours respectfully,

THOMAS J. SKINNER,

Treasurer.

REPLY.

BOSTON, MASS., April 16th, 1891.

THOMAS J. SKINNER, ESQ., *Treasurer of the Town of Wakefield:*

DEAR SIR,—Your favor of the 7th inst., asking for my opinion upon the legality of the vote of the town on April 6th, in relation to the payment to Mr. Hartshorne of \$24.75, the amount of the deficit occurring in the management of the Sweetser Lecture Course for the year 1890-91, out of the surplus now on hand, and inclosing a copy of that vote, and a copy of Items 22 and 33 in Mr. Sweetser's will, and also a copy of vote accepting the same, passed April 6th, 1885, was duly received, and I have given the matter careful consideration, not so much on account of the amount involved, as from the fact that a principle is at stake.

The bequests in Mr. Sweetser's will from which the town receives the fund, the income of which is expended for the support of lectures, are contained in the two Items numbered above, of which the following is a copy:—

Item 22. I direct my said Trustees to pay over to the said Town of Wakefield, the sum of five thousand dollars to be received and held by said town, in trust, for the following use, viz.: To safely invest the same and expend the income yearly in providing such lectures as will tend to improve and elevate the public mind, and to impose a reasonable fee for admission to such lectures, and pay over the net proceeds of the same to such charitable organization in said Wakefield as the municipal officers may designate, to be distributed among the worthy poor of said town.

Item 33. I direct my Trustees to pay over to said Town of

Wakefield the sum of five thousand dollars, in trust, for the same uses as set forth in Item 22.

On the sixth day of April, 1885, the town passed the following vote :—

Voted, unanimously, that the bequest of Cornelius Sweetser, late of Saco, Maine, as named in Item 22 of his will, be and hereby is accepted by the Town of Wakefield, the principal to be held in trust, and income to be used as directed in said will, and that the Town Treasurer be authorized to receive and receipt for the same, and to invest the same in such securities as shall meet with the approval of himself and the Board of Selectmen; that the Selectmen be authorized to take charge of the expenditure of the income, or appoint a committee to act in the matter for the town, and that the distribution of the net proceeds shall be under the direction of the Selectmen.

Similar action was taken at the same meeting upon Item 33.

It will thus be seen that the town accepted the trusts according to the provisions of the will, and prior to the receipt of the money voted that the distribution of the net proceeds should be under the direction of the Selectmen, and the money was paid over to the town upon the faith of that acceptance and vote. It is certainly parliamentarily incorrect to pass the vote of April 6th, 1891, depriving the Selectmen of the power to make distribution of the net proceeds granted by the vote of April 6th, 1885, until that vote has been rescinded. Indeed, it would be somewhat difficult to determine what your duty would be as custodian of said fund, in case it were necessary to do so, solely upon the question of the failure of the town to rescind its former vote; but, fortunately, the question whether you can legally pay the amount referred to from the "surplus now on hand" does not depend on any question of parliamentary law or upon any nice distinctions of the legal effect of the vote of April 6th, 1891, upon the vote of April 6th, 1885.

The town accepted the trust upon the terms contained in Item 22, above quoted, and the legality of the vote of April 6, '91, can be properly determined by the construction of said Item, which is couched in reasonably plain language, and as free from ambiguity as such bequests are usually made.

It must be borne in mind that this Item is contained in a will, which belongs to a class of written instruments in which there are found few, if any, so well defined and precise expressions as in deeds of real estate or other contracts, in writing, between two or more living parties, which are usually subject to the criticisms of parties having diverse interests, and as wills are usually the expression of one man's wish, a greater looseness of expression has always been tolerated; and in the construction of all testamentary

instruments there are no such exact and iron-clad rules as are found in the law relating to deeds and other written contracts. The fundamental and cardinal rule to be invoked, in the construction of a will or any part thereof, is, to ascertain the testators intention. What the testator intended at the time he executed his will the Courts will strain to discover. It may be laid down as a safe rule that if the Courts can discover from the will itself, from the testator's surroundings, or almost any other extrinsic evidence, what his purpose and intention was, they will execute that intention unless it contravenes the law or some sound governmental policy.

It is hardly necessary to go outside of Item 22 of Mr. Sweetser's will, to discover what lay in his mind at the time he wrote it. It is apparent that his purpose was twofold: first, to make provision for a course of lectures, which should tend to improve and elevate the public mind; and second, to make some provision to aid the worthy poor of the town.

To do this, he bequeathed to the town two sums of money amounting to ten thousand dollars. He directed that the income thereof should be expended yearly. He directed that a reasonable admission fee to such lectures should be charged. The income of the fund and the receipt from the sale of tickets, would constitute the fund placed at the disposal of the managers of the lectures, and make one side of the account. The expenses incurred in providing for the lectures would make the other side of the account, and the excess of the sum placed at the disposal of the management over their expenses would constitute the net proceeds referred to in said Item. These net proceeds constitute the fund, which is to be used for the second purpose named. The account must be balanced annually, in order to make it certain that the income is expended yearly, and that the worthy poor of the town receive the aid that the testator intended they should. If the account is not to be balanced each year and the net proceeds distributed, it may very properly be asked, when shall it be done and who shall determine the time? when shall the net proceeds referred to in the will be determined? Shall the account be balanced once in five years, once in ten years, or once in a hundred years? Shall the excess of receipts over expenses be allowed to accumulate for generations, and then be distributed to the worthy poor living in the town, on a single day? Certainly no one will maintain that such was the intention of the testator, or that such is a reasonable construction of his language; and yet, it follows logically and inevitably, unless the account is balanced and the net proceeds ascertained each year. The only claim that can be made to any other construction is the fact that the word "yearly," or some synonymous word, is not used in connection

with the distribution of the net proceeds; but it must be remembered that the whole Item is to be considered in determining what any part of the same means, and that no clause or sentence can be selected and construed by itself.

If we seek any evidence outside of the will to aid in ascertaining the intention of the testator, we may very properly recall the fact that Mr. Sweetser was born and lived in New England, where lectures and courses of lectures have been held for a great many years, and that he was familiar with the usual custom of having such lectures in courses, during the autumn and winter months of each year, and that the profit or losses of such courses have been usually computed at the close of the season; and it may be well inferred that this fact was in his mind when his will was drafted.

If I am right in the conclusion to which I have arrived, that the balance must be struck and the "net proceeds" ascertained annually, it follows that when this is done such balance, or net proceeds, becomes instantly a trust fund, in the hands of the holder, to be paid over "to such charitable organization in said Wakefield as the municipal officers may designate, to be distributed among the worthy poor of the town," and cannot be diverted to any other purpose; and when it once partakes of that nature it cannot be changed; and any accumulation of profits in any year, or series of years, cannot be used for the purpose of paying any deficiency accruing in any subsequent year.

I therefore answer your question, that the town had no legal right to pass the vote of April 6th, 1891, and that the same is not binding, and that you cannot, as Town Treasurer and custodian of the funds, pay the amount referred to in said vote, for the purposes therein specified, from the accumulation of profits or net proceeds of former years.

Yours respectfully,

(signed)

S. K. HAMILTON.

The position of the Treasurer having been sustained, the Board of Selectmen ordered the distribution of the net proceeds referred to in my last report, and the same has been disbursed as follows:

May 14, 1891, paid G. A. R. Post 12, Relief Com.,	\$50 00
June 12, 1891, paid the Sweetser Charity, Mrs. W.	
E. Rogers, Treas.,	76 33
Total,	<hr/> \$126 33

NOTE. For particulars regarding "The Sweetser Charity" see the report of the Selectmen.

The sixth course of lectures, season of 1891-2, has consisted of ten lectures. The course tickets were placed at 75 cents each, and the evening tickets at 15 cents, a slight advance upon the fees for the previous two years. There were 227 season tickets sold, as against 365 in the previous course, and at time of writing this report (at the close of the sixth lecture) the total evening admissions were about the same as the preceding course. On account of the closing lecture not being delivered until Feb. 15, it is not feasible to print the financial exhibit in this report.

It would be advisable, if the Trustees would arrange future courses to conclude previous to Feb. 1, at which date the town accounts close, so as to be able to render full accounts with other annual reports.

					861 09	
Total,	2,586 34	
Balance unexpended,	\$1,413 66	

The Treasurer would recommend that the sum of \$4,500 be raised and appropriated for the payment of interest upon the Town Debt and for Temporary Loans.

It will be necessary also to provide for the payment of \$2,500 of the principal of the debt maturing during the coming year. This amount was left unprovided for by the rescinding of votes (July 22, 1889,) relative to the Hamilton School House Loan and the Park Loan.

I recommend, therefore, the raising of \$2,500 for the payment of the town debt.

Other loans maturing during the year are provided for by previous votes of the town, as follows :

\$4,000, Funded Loan, as voted April 2, 1888.

1,500, Renewal of loan, as voted July 22, 1889.

5,000, New Schoolhouse, as voted March 2, 1891.

These will be included in the tax levy of 1892, without further action by the town.

In the last annual report the Auditors note the following persons indebted to the town for concrete and highway bills for previous years :

Estate of Lilley Eaton,	.	.	.	\$30 89
Freeman Emmons,	.	.	.	7 27
Peter McCullough,	.	.	.	5 07
Edmund Sweetser,	.	.	.	2 83
Philip J. Flanders,	.	.	.	7 00
Wakefield Water Co.,	.	.	.	5 00

The Treasurer has twice reminded these parties of their indebtedness, and requested payment.

The Estate of Lilley Eaton claim that the charge is not justly due, because the estate was damaged much more than it was benefited, and they have a contra claim against the town.

The Water Co. signify their willingness to pay the bill whenever the Supt. of Streets (Mr. Ricker) will show where the work was performed.

Mr. Flanders denies that he owes the amount named. Messrs. McCullough and Sweetser have admitted the debt, and promise to pay. Mr. Emmons does not reply.

Respectfully submitted,
(signed) THOMAS J. SKINNER,
Treasurer.

WAKEFIELD, MASS., Feb. 11, 1892.

RECOMMENDATIONS.

The Board of Assessors is of the opinion, and would respectfully recommend, that action be taken to secure plans of the real estate in Wakefield, especially in the central portion of the town, for the purpose of securing a more complete and equal assessment; also that an allowance be made for the necessary clerical services of the Board, thereby allowing the members more time for the important work of *assessing*, believing that the return to the town would be tenfold.

LIBRARIAN.

Harriet A. Shepard.

TRUSTEES' REPORT.

Churches, schools and libraries are the potent forces which have given New England her pre-eminence in education and morals, and stamped hers as the highest type of civilization.

To these her people are largely indebted for the influence they exercise in every department of human thought and industry. Without their christianizing and educating control, anarchy would prevail and barbarism become universal. Powerful of themselves as these agencies are, their power is multiplied by the accessories which comfort and convenience demand.

Churches, without meeting houses, "live at a poor dying rate." Schools, without good schoolrooms, lose much of their worth, and libraries, whose books are not accessible to the public, soon become piles of rubbish.

It is not enough that libraries should be established, books purchased and catalogues printed, but opportunities and facilities for examination and use should be provided. This is especially true of that class of books ordinarily not allowed to be taken from the library room known as reference books, of which so many are now published and which are in constant demand. Those patrons of libraries who seek information upon particular subjects, usually desire to examine and study all accessible authorities upon those subjects, and every one, even he who reads the lightest literature is aided by a hasty glance over books before taking them home.

The cramped and poorly ventilated quarters in which our library is located, and the utter lack of conveniences for examination and study of the books which it contains, have led us to these reflections and to the determination to place the situation before the people of the town in its true light so far as we are able.

The Beebe Town Library contains to-day nearly eleven thousand (11,000) volumes. Every inch of available space in the

library room is occupied by shelves, and nearly every shelf is filled with books. The ordinary purchases of another year will completely exhaust its capacity. Not only is there no further room for books, but there is not even a place for a table or chair at which one can with comfort examine a dictionary, a volume of the encyclopædia, a map or other work. The only facilities which the library offers its patrons for study are a shelter from the storm and the privilege of standing at a counter under a blazing gas jet.

Thus are our people largely deprived of the use of their own property and of the learning and culture which naturally follow the use of that particular kind of property.

This is not right. Larger and more spacious quarters, with the necessary adjunct of study rooms supplied with the furnishings and accessories which a well-ordered study requires must be furnished, or further acquisitions to the library be abandoned.

Nearly twenty thousand volumes, or over sixty-five per day, were delivered from the Library during the past year, which demonstrates the fact that ours is a reading community and the latter alternative will not be considered.

What form these larger quarters shall take, how and when they shall be obtained, are serious questions which call for a speedy answer. It is difficult to see how any portion of the Town Hall with its present occupants can be utilized to advantage; it is possible, but barely probable, that suitable rooms could be obtained elsewhere at a rate which the town would be warranted in paying, but rented quarters for this purpose are for manifest reasons undesirable, and there remains the only other alternative, of erecting a Library building adequate in size to the present and future needs of the town, and which shall contain rooms for reading and studying, furnished with all the essentials to develop its highest usefulness. Viewed in all its aspects, this is the wise, the true and the economical solution of the problem presented. However chary of large indebtedness, however economical in municipal expenditure, and however conservative in thought and feeling we may be, the march of events crowds us to-day, where yesterday we dared not tread; and we must keep step to the music of progress about us.

Within the last decade we have seen Malden and Woburn make

wonderful strides in population and wealth. Who can say to what extent these cities have been aided by their excellent libraries and beautiful library buildings? Who can count the numbers who have been drawn to those places by the air of culture and refinement which the possession of such structures and their contents affords? It may be answered that these cities owe their possessions to the munificence of some one of its citizens, and that Wakefield has no one on whom it can lean for largesses of this character. And it is true; but she has a population who are "neither rich nor poor," who have learned the value of a dollar by earning it, and who the better can appreciate either the necessity or the luxury which its expenditure brings.

The book which costs us the greatest effort is the most highly prized and the most thoroughly digested.

To the erection of a new library building we invite the thoughtful attention of the town.

READING ROOM.

The Reading Room continues to be a useful adjunct to the Library, and during the past year has well filled the place for which it was designed. On its tables may be found the best literary and scientific publications of the day while "Judge" and "Puck" are not excluded. The advantages of the Reading Room are appreciated by a large number of our people as shown by the patronage it receives.

A few additions to its current literature should be made the coming year.

In our opinion it should be open on Sunday, and we recommend an additional appropriation therefor. We append a list of the publications upon its table.

STATISTICS AND FINANCES.

For interesting statistics we refer to the report of the Librarian hereto appended, and for a statement of the finances of the Library to the Treasurer's Report.

During the year the Board has lost an active member, and the town a valued and valuable citizen by the death of Dr. Preston Sheldon. As a man and public official his integrity and ability were recognized. In his profession he had entered upon a career

which promised wide usefulness and eminent success. His culture, knowledge of books and literary tastes peculiarly fitted him for the discharge of any duty in connection with the Library, and made him a delightful social companion.

The Selectmen and the Trustees in joint convention, elected Rev. Charles J. Ryder to fill its vacancy until the next annual meeting. The term of office of Messrs. Winship, Richardson and Hamilton will expire at the end of the present municipal year, and the town will be called upon to elect four Trustees, one for two years and three for three years each.

BOOKS.

The annual library bulletin will be issued as soon as practicable, showing the additions to the library during the current year.

In the meantime we call attention to a few of the valuable works in the various departments, which have been purchased. Mr. Rogers has been for several years the selecting and purchasing agent for the Trustees, and it is only just to him that the town should know that to his learning, judgment and fidelity, it is indebted for the excellent selection of books placed upon its library shelves. It is a great pleasure to the other Trustees to convey this information to the town and incorporate it in their report, which is done without his knowledge. The following is a list of some of the most valuable books added to the library during the year.

AUDITORS' FINAL STATEMENT.

From March 5, 1891, to Jan. 28, 1892, the Selectmen have drawn 1,149 orders on the Treasurer, representing \$118,521.06, being the largest volume of business in the town's history. We have examined the vouchers for these payments, and our report upon them will be found on pages 135 to 175, arranged in the departments to which they belong.

Our final balance sheet (page 176) shows a total expenditure of \$125,072.05, which includes \$6,550.99 disbursed directly by the Treasurer for town debt and interest, and Library and Reading Room payments. We have verified the receipts of such departments as pay money to the Treasurer; we have examined the books of the Collector of Taxes, and of T. J. Skinner, Treasurer of the Library and Reading Room, and find them correct (see pages 118 and 119).

We have also examined the accounts of Mr. Skinner as Town Treasurer, and find them correct, as shown on pages 116 and 117, with the proper vouchers for all receipts and payments; and that he has a cash balance of \$16,468.10 on deposit in the National Bank of South Reading. We also certify that he has securities and deposits representing the C. Sweetser Lecture Fund, Burial Lot Fund and Library Funds (see pages 103 to 105).

Respectfully submitted,

WILLIAM W. TAFT,
EVERETT W. EATON,
M. W. BOARDMAN,

Auditors.

WAKEFIELD, February 15, 1892.

SCHOOL COMMITTEE'S REPORT.

To the Town of Wakefield: —

In accordance with the public Statute requiring annually a report of the School Committee regarding the condition and needs of the schools, we herewith submit the following report: —

The duties of School Boards are little understood by the public except in a general way, and the following from the *American School Board Journal* by Henry S. Boltwood, gives a concise and interesting description of the “True Function of School Boards:”

“The School Board is the business representative of the community in school affairs. It is a standing committee of ways and means to provide for economical, harmonious and efficient administration of the schools. It possesses more absolute authority than any other body known to a free government. It is legislative, executive and judicial, all in one. It is to watch over and protect the rights of all; to hold each party to its obligation to the rest. It protects the child against incompetent, unreasonable and tyrannical teachers, and teachers against selfish, violent and unreasonable parents.

“To teachers they are the power behind the throne in support of lawful authority: privileged advisors and counsellors. They judge school work from without, — from a layman’s stand-point. Teachers sometimes stand too near their work to judge its results as well as those who may know less of the details of it, but who are very probably better judges of the actual wants and educational possibilities of the community. The most important duty of a school board is the selection of suitable teachers. Carelessness, neglect and favoritism in this are unpardonable sins. Having made wise selections, they are to retain the competent, pay them honest wages, give them moral support, and assure

them their places during good service. If incompetent, they owe it to the public to remove them, without fear or favor; in spite of the clamor of friends or the pleadings of poverty. Common-sense, grit and grace are the prime qualities of a good school director. Unpaid, often unappreciated, often between hammer and anvil, he needs all three."

The above reference to unpaid School Boards refers to towns employing a Superintendent, in which case no compensation is allowed the School Committee. Called upon, as School Boards are, to settle troubles which often arise between teachers and pupils and parents, their decision sometimes seems to one or the other, unjust and arbitrary, when if both sides of the trouble could be seen by those directly interested, the decision might not seem so unjust. Parents do not take that personal interest in the schools that they should. It is to be regretted that they do not visit the schools more. A more intimate knowledge on the part of parents of the arduous duties of teachers, would lighten the teacher's burdens by the more charitable judgment which would be rendered.

Teachers as well as parents are human, and children, at least a large portion of them, are far from angelic in school, whatever they may be in their homes. Sometimes parents hardly know what to do with *two* children; still they expect teachers to know just what to do in each individual case with forty or more. Children are great reflectors of their parents' feelings, and if parents are so indiscreet as to discuss unpleasant school matters before their children, criticising and condemning some action of the teacher, the result is anything but conducive to good behavior in school.

Many times what seems to parents to be a serious matter as reported to them, suddenly dissolves and vanishes upon a personal interview with the teacher and hearing her side of the story.

SCHOOL ACCOMMODATIONS.

For a number of years past our school accommodations have been insufficient in the Centre and West Districts and the Franklin-street District. The Committee repeatedly brought the matter before the town, and their efforts finally resulted in the action of

the town at its annual meeting last March, in voting to erect a commodious brick building to replace the two wooden buildings on Academy Hill; and in April ground was broken for the new building, the old buildings having been moved to the west end of the lot.

This building is a substantial brick structure with ten school rooms, two good recitation rooms, a teachers' room and several minor rooms. It is to be heated by steam by indirect radiation, either hot or cold air, as desired, being forced into the rooms by a Sturtevant blower. The building, though plain, presents an imposing appearance, being well proportioned and finely situated. It will be a credit to the town as well as to the architects, Messrs. Wait & Cutter.

The erection of this building will relieve the schools of the Centre, and for the present the West District; but better accommodations are still needed at the Franklin-street School. The two lower rooms of this building are small and crowded, with no satisfactory way of relief, except by erecting a new building or remodeling and enlarging the present one. By the latter plan an attractive, substantial four-roomed building can be made at about one half the cost of a new building of the same size. With the above changes, the accommodations for the present in other districts are ample, but in the near future increased accommodations will be needed at Greenwood. The West District is also growing rapidly and another building will soon be needed in that section.

OUR SCHOOLS.

We believe that we are justified in saying that our schools are as efficient in their work as those of neighboring towns, but still the Committee feel that they can and should be improved. We realize the fact that a board of business men with their time fully occupied by their business, cannot do full justice to the schools, they cannot give the time which they feel should be given to school work. To obtain the best results the schools should be in charge of a good Superintendent, one who can give a large portion of his time to personal supervision of the schools. It would make the school work much more systematic and effective. Under this system, good teachers would lose none of their person-

ality or efficiency, while all weak points would be more readily noticed and corrected.

While all our schools are not strictly graded schools, only three have more than three grades: the North Ward, Montrose and Woodville schools. These have six grades each, the schools not being large enough to warrant a change. It is obvious that a teacher having but one grade, or but one class to each study, can do much better work than one having six.

TEACHERS.

A teacher's life is anything but easy; the compensation of the average teacher is small and the work hard. Much is expected of them, and rightly so, for they fill a responsible position and should be well fitted for their work, mentally and physically, in addition to having a natural aptitude for teaching.

The present good standing of our schools is owing largely to the fact that we have, as a whole, an efficient, conscientious corps of teachers. Of course all are not equally efficient; this can hardly be expected. No doubt each is aware of some deficiency, some weak point in his or her work as a teacher; perhaps it is in government, or a lack of thoroughness, or an inability to transmit one's own knowledge to the pupils. Some are wanting in tact, others in patience. Tact, patience and control of one's tongue are three prime factors in an efficient teacher.

Our teachers are appointed for one year unless otherwise stated, and it is but just that they should consider themselves bound for that length of time, provided they do their work satisfactorily. But we have learned by experience that all do not consider themselves so bound. We have several times been put to much inconvenience and trouble by the sudden resignation of a teacher in the middle of the year, or perhaps in mid-term. Sometimes our first intimation of a teacher's leaving is an application for her position by some out-of-town resident. Committees are not inclined to be unreasonable or to stand in the way of a teacher's bettering her condition, but it seems hardly just that teachers should withhold their resignation until the last moment, without even a previous request or suggestion that they would like to be relieved. We are glad to say that there have been some exceptions. The blame

does not always rest wholly with the teacher. Committees or superintendents of other towns, desiring a good teacher, visit some school in a neighboring town, and, if they like the teacher's work, offer her a position at an advanced salary.

It is hard to replace a good teacher at any time, and especially so upon short notice; consequently in such cases teachers are retained if possible. Formerly we were greatly troubled in this way with primary teachers, and the only remedy was to increase their pay to correspond with neighboring towns. The same course should be pursued in some other grades, especially in the High School. It is often said that there are plenty of teachers to take the places of those who leave. This is a fact, but it is neither pleasant nor profitable for our town to be a training school for untrained teachers, and then lose them because neighboring towns will pay more than we can.

Good teachers are plenty, but the demand for such is larger than the supply. In all kinds of business inefficient workmen find it hard to obtain work, fair workmen obtain fair average wages, while those ranging from good to excellent are seldom in want of work at wages corresponding to their abilities, and the profession of teaching is no exception to the above.

It is thought by many that school boards in appointing teachers should give the preference to graduates of their own schools. Our endeavor is always to get the best, irrespective of their place of residence, but, other things being equal, residents of our own town are given the preference.

THE HIGH SCHOOL.

Whoever originated the above title evidently had in mind a high ideal, and the Committee have endeavored to keep the school at least above the average, and, with the assistance of an efficient corps of teachers, we feel that we have not entirely failed. Our school increases in numbers from year to year, and the graduating classes are proportionately large. Though the teachers are doing good work they are laboring at a disadvantage. Under the present conditions, classes are limited to a minimum amount of time for recitations, and even with this arrangement it has been

found necessary to omit rhetorical from the course of study. The size of the school and the work requires another assistant.

During the summer vacation one of the class rooms on the third floor was enlarged and fitted up for a physical laboratory, and with the money which the town generously appropriated for the purpose, the room has been supplied with much needed new and modern apparatus, and is now one of the best equipped physical laboratories in the county if not the state. The former laboratory, on the first floor, has been arranged for the use of the committee, while the room vacated by them on the second floor is now used as a class room. This gives the entire second, and a part of the third floor of the building to the use of the High School.

The distribution of tickets for the graduating exercises has been a disagreeable and perplexing duty, and the methods of former years proving unsatisfactory alike to the committee and the public, it was decided last year to adopt another method, and, after reserving seats for those most directly interested, the balance of the tickets were sold at ten cents each, the proceeds being used to defray the expenses.

It is a serious question with the Committee whether it is not best to omit these graduation exhibitions. They are expensive in every way, both to the town and to graduates. It takes valuable time from the school work; time which, especially to those preparing for college, is a decided loss. In fact, the good, if there be any, resulting from these exhibitions, does not in any degree balance the time, labor and expense necessarily spent in preparation. In neighboring towns they are doing away with these exercises.

Parents or those interested can get a much better idea of the real merit of the school and its work by visiting the school and hearing the recitations of different classes, and such visits would be a great encouragement to teachers and pupils, and would be gladly welcomed by all.

The graduating exercises occurred in the Town Hall on Wednesday evening, June 24. The exercises were interesting, the various parts being well rendered and creditable alike to teachers and scholars.

PROGRAMME.

CLASS MOTTO,—"Doe Ye Nexte Thynges."

- OVERTURE. March from "Suite." . . . *Franz Lachner.*
Wakefield Orchestral Club.
- MUSIC. "Damascus Triumphal March." . . . *Costa.*
- SALUTATORY. Words of Welcome in Greek.
Grace Belle Day.
- ORATION. "The Mission of America."
John Jay Round.
- DECLAMATION. "Jacques Dufour." . . . *Wm. W. Howe.*
Flora Louise Bradford.
- SEMI-CHORUS. "Old German Shepherd Song." *Wilhelm Kienzel.*
- ESSAY. "A Study of the Heavens."
Dora Adelaide Laybolt.
- ENGLISH HONOR ORATION. "Climbing and Sliding."
James Edward McMahan.
- CLASS HISTORY. "Looking Backward."
Ada Estelle McAllister.
- MUSIC. "Beneath the Shade." . . . *Meyerbeer.*
- ORATION. "A Roman Triumph."
Eden Kirk Bowser.
- ESSAY. "Libraries and their Relation to Schools."
Alice Boutelle Whiting.
- DECLAMATION. "A Famous War Lyric." *John G. Whittier.*
Rosetta Hollis.
- MUSIC. "Awake! Awake! The Flowers Unfold." *Henry Leslie.*
- ESSAY. "The Uses of the Electric Light."
Edward Barker.
- ESSAY. "Flowers, Old and New."
Jennie Whittemore Potter.
- DECLAMATION. "Personal Responsibility."
William Everett Kernan.
- TRIO. The Miller. . . . *G. A. Veazie.*
- ESSAY. "The Ocean and its Life."
Lizzie Mabelle Wyman.
- DECLAMATION. "Daddy Worthless." *Lizzie W. Champney.*
Ada Mana Phipps.

CLASS PROPHECY. "Our Destiny."

Fred Bertram Cutter.

MUSIC. "The Vesper Bells."

DECLAMATION. "The Rajah's Clock."

Annie Helena Burnham.

VALEDICTORY. "Doe Ye Nexte Thynges."

Annie Gertrude Balch.

PRESENTATION OF DIPLOMAS.

By Chairman of Committee.

CLASS ODE, Written by Annie Rebecca Abbott.

BENEDICTION. Rev. N. R. Everts.

CLASS ODE.

WRITTEN BY ANNIE R. ABBOTT.

The time has come for leaving
 The school, where Ninety-one
 Has spent so many happy hours
 In study and in fun.
 O, happy High School days,
 To thee, "Good bye," we sing:
 May we ever heed our motto,
 And each "Doe ye nexte Thynges."

The life that lies before us
 Has work for all to do.
 May each be ready for it,
 And never prove untrue.
 Good bye, dear High School days;
 Farewell, to teachers, kind;
 Farewell, to old companions;
 And the life we've left behind.

NAMES OF GRADUATES.

CLASSICAL COURSE.

Annie Rebecca Abbott,
 Annie Gertrude Balch,
 Eden Kirk Bowser,

Flora Louise Bradford,
 Grace Belle Day,
 Ada Estelle McAllister.

ENGLISH COURSE.

Edward Barker,

 Lizzie Mabelle Wyman.

HIGH SCHOOL PRINCIPAL'S REPORT.

MR. A. H. THAYER, *Chairman of School Committee:*

MY DEAR SIR,—In accordance with your request for a “report of the condition of the school, the work being done, and its general needs,” I have the honor of submitting the following facts and suggestions.

The record of the High School during the past year certainly compares favorably with that of any similar period since the engagement of the present Principal. Not only can it be said that more work and better work has been done, but also a number of important improvements have been made, which have aided materially in accomplishing this result.

What is true in the business and the political worlds is equally true and ought to be true in the educational world. Activity and progress is the watchword. New ideas, greater helps, better methods, and higher aims are supplanting those of the past, and while it is the part of wisdom to exercise a due conservatism before adopting the new for the old, changes must certainly be made from time to time, if schools are to reach and maintain the high standards the public expect.

For a year or two it has been seen that the High School course of study needed revision. After carefully examining the work which was being done in some of the most advanced schools of the state, a new course of study was prepared and adopted at the beginning of the present school year. This cannot fail to be a positive benefit to the school.

A more systematic arrangement has been made of the studies in each course. Equal consideration has been given to the English Course with the Classical. Heretofore three years were given to the former and four to the latter. At present both courses continue four years. A thorough review of general history is now required of all pupils, instead of those of any particular course; and English history, which, in a certain sense, is American history up to the time of the Revolution, becomes a regular study for the first time in the school.

But perhaps the most important change in the whole curriculum is the requirement for all pupils to take a thorough study of the English language and its literature throughout the entire course. Too much attention can hardly be paid in teaching scholars to speak properly and write correctly their own language, while at the same time acquiring a knowledge of its history and a love for its classics.

The rapidly increasing demand for college preparatory work made it imperative that a systematic course be prepared in these branches, not alone that more satisfactory work might be done, but that it might be simplified, each institution requiring preparatory work peculiar to itself. The number of pupils seeking this work has increased nearly fourfold during the past three years. Twenty per cent of the whole school is now engaged in college preparatory studies. The course is definitely arranged for entrance into Harvard College, such a preparation being sufficient to meet the demands of any college or technology school. It really ought to be a source of gratification to the citizens of Wakefield that so many of its young people are seeking higher education, and that the graduates of its High School can pass without further expense or study to their collegiate and professional schools.

The teaching of science has undergone a radical change during the past few years. The old method of memorizing dry facts and principles has given place to the reasonable and natural method of studying by experiment. The Chemistry Laboratory was fitted up three years ago, and has proved a most valuable aid in the work of the school. A study which had been the most unin-

teresting, suddenly became the most popular. In accordance with the same policy, a room on the third floor, little used, was remodelled and enlarged into a commodious and well-arranged Physical Laboratory. A wise use has been made of the appropriation of two hundred dollars voted by the town at its last annual meeting for the purchase of apparatus. Much of the old apparatus was either worthless or required extensive repairs, while many modern machines and instruments were needed that had never been owned by the school.

Especially was this need true in the department of electricity, a study of which comparatively little was known a few years ago, but which to-day has grown to so great practical importance and interest. Other sciences, as Geology, Astronomy, Botany, and Physiology, are taught, as far as possible, by natural methods, thereby ingrafting in the minds of the pupils the invaluable lessons of observation and investigation. While the most noticeable advance has been made in science teaching, still the departments of History, Language, and Mathematics have not been neglected, the keynote of the instruction being to lead the pupil to think and investigate for himself,—in short, to obtain an education, not merely knowledge.

Another improvement, and a great convenience, is the change of the committee room from the second to the first floor, thereby furnishing three recitation rooms on the same floor with the main room of the school and doing away with the use of one flight of stairs.

The general attendance of the school is not as high, in my opinion, as a school of its character ought to have. The excuses for absence, tardiness, and dismissal are in many instances trivial. No student can be away from his studies one day without loss, and no school can take a high standard of scholarship or deportment when its per cent of attendance is low. No parent should allow his son or daughter to be absent from school, except upon the most urgent necessity, and then an adequate excuse should always accompany the return of the scholar.

The deportment of the pupils is as a whole very satisfactory. The placing of the military organization directly under the control of the School Committee, and the advance of each cadet being

dependent strictly upon his record of scholarship, deportment, and military proficiency has been a great aid to discipline. The system of government in the school, that of considering the pupils young men and young women, has certainly raised the tone of the school. There are individual cases where an appeal to honor has little avail, but proper warning and frequent encouragement seldom fail to have the desired effect.

Such in general is the condition of the High School at present. The one hundred and twenty scholars are in most cases doing work with credit to themselves and satisfaction to their instructors. I consider the school in good condition, but more teaching force is needed for its improvement and the best interests of the town. Last year an extra teacher was employed on account of the delay in opening the school in the fall. This year with four teachers it is impossible to do all the work assigned. In consequence, the important exercise of Rhetoricals, with its drill in speaking and practice in writing, has been dropped, and recitation periods have been shortened. The need of another assistant is urgent. Other schools, doing similar work with the same number of pupils, have five and six teachers, and oftentimes one of them is a sub-master. I am sure that the extra expense of an additional teacher would be more than met by better results in the school.

The school needs a number of first-class reference books. A new encyclopædia has not been added for years. The facilities of the school in this regard have not kept pace with other improvements. It would be a grand idea, if a separate appropriation of fifty or seventy-five dollars were made each year for this purpose. Reference books are costly, and such an amount would not be unreasonable. The purchase of the Century Dictionary by the School Committee during the past year was a splendid service for the school.

It is unfortunate that the public library is not in a building in which ample facilities could be furnished for the direct use of the books by the pupils of the High School. Every courtesy and aid that can be granted is given at the library at present, but it might be made a most valuable auxiliary to our schools if some means, as a separate room, were provided, where students could consult books of history, science, and literature, previously as-

signed for study or reference by the teachers. When a pupil takes a book away from the library, its use is destroyed for the rest of the class.

In conclusion, an urgent need of our High School to-day, which would have as marked an effect upon the scholars and the teachers as any I could mention, and one, too, which would require no appropriation and very little effort, is the personal interest in the school of parents and citizens, manifested by their visits, while the school is doing its regular work.

Very respectfully yours,

C. T. C. WHITCOMB, *Principal*.

CADETS.

Under their able instructor, Lieut. Philip J. Flanders, the cadets still maintain a high rank in the Second Mass. School Regiment, and made a very creditable showing at the Second Annual Field Day at Lynn, May 9, 1891, standing third in the list of competitors.

While under some conditions military drill in the schools may prove objectionable and harmful, under proper restriction and control it proves a benefit. There are very few young men who do not take a lively interest in military matters. The method adopted last year of making promotions conditional upon general good character as well as faithfulness in school work and military fitness, is a strong incentive to be deserving of promotion. The cadets are to be commended for the good work already accomplished and we hope and expect that they will maintain the high position which they have attained.

CHANGES.

In September Miss I. H. Howe resigned her position as assistant in the High School to accept a position in one of the Cambridge schools, and Miss M. Sprague, a temporary teacher, was elected to fill the vacancy.

At the beginning of the fall term Miss Whitman was transferred from the Greenwood Intermediate school to the Centre First Intermediate in place of Miss Charles, who was granted leave of absence owing to ill health. Miss Theodora Teague, who had been acting as assistant in the Centre Third Grammar was appointed to the vacancy at Greenwood, but had hardly commenced her labors when she was offered a higher salary at Melrose, and the committee reluctantly accepted her resignation, and appointed Miss L. P. McCormick, a teacher of experience, and with excellent recommendations, to fill the vacancy.

Soon after the opening of the fall term Miss Marion Fish, assistant in the Advanced Grammar school, received an offer from the committee of Quincy, of a position in the High school of that town, and the committee were obliged to lose an efficient assistant, but were very fortunate in securing Miss A. L. Batt, of Concord, Mass.

In January, just before the beginning of the winter term, Miss E. R. Sanborn, who had taught successfully for the past seven years, resigned, to accept a life position as assistant in a more agreeable line of duty. To fill the vacancy, Miss Nellie F. Emerson was transferred from the East Ward school, where she had taught for the past four years, and Miss Whitman was appointed to that school, Miss Charles resuming her former position as teacher of the First Intermediate school.

Soon after the beginning of this term, Miss Marshall, whose parents had removed to Antrim, N. H., resigned her position, as assistant in the West Ward Primary school, and Miss H. J. Ardill, a High School graduate of the class of '88, also a pupil of the Normal school at Salem, was appointed assistant in that school.

We would again call attention to the disagreeable fact of the liability of losing efficient teachers, especially in the higher grades, because of our inability to pay such salaries as will retain the class of instructors, which the committee desire should have charge of our schools.

PRUDENTIAL.

The West Ward school-house has been repaired and painted, and lake water put into the building. This was necessitated by the poor quality of the well water, which was offensive both in

taste and odor, notwithstanding the fact that the well had been thoroughly cleaned and the old pump replaced by a new one. The Water Company's mains are not laid along this section of the street; consequently, as the Water Company gave no encouragement of laying their pipes any nearer, the committee, after deferring action for a year, were obliged to lay a long line of service pipe to the building at an expense of about \$90.00.

Lake water has also been put into the North Ward school-house, water for this building having been supplied for several years by the neighbors. The well at the Woodville school has been cleaned out, and the pump was removed from the West Ward to this well.

The Hamilton school yard has been graded with soil taken from the cellar of the new school-house on Academy Hill. This grading was much needed, as the street sidewalks had been raised, causing the water to settle in the school yard. Owing to the expense, where filling must be bought, the committee had postponed the work from year to year; but having this opportunity to obtain the soil for the cost of carting, arrangements were made with Mr. Dow, and over one hundred loads of filling were spread around the yard.

The school buildings at the North Ward, East Ward, Woodville, and Franklin street need painting; and the Greenwood school-house needs shingling; and the walls and ceilings of this and the East Ward building need painting and tinting. This is also the case at the High School building in the Advanced Grammar school room and in all halls and class-rooms, very little having been done to these rooms, since the building was first erected.

The heating and ventilating of the Franklin street building has been greatly improved by the committee appointed by the town to have charge of warming and ventilating the High and Franklin street buildings. A contract was made with C. M. Drennan & Co., of Boston, who put in an arrangement for warming and ventilating the entire building by one of Gold's Hygeian heaters, which is working satisfactorily and has been approved by Mr. J. T. White, State Inspector.

The heater and flues are so arranged that, in case the building is enlarged at any time, the apparatus would need only to be dupli-

cated without disturbing the present arrangement. The condition of the air in rooms which are well ventilated is in strong contrast to those not so ventilated, the air in these latter being so close and disagreeable as to be almost unbearable to those who are accustomed to fresh air.

EXPENSES.

The Committee each year make an estimate as closely approximate as possible to the amount needed for the different departments. It seems to be the opinion of some, that the Committee frequently ask for considerably more than is actually required, but such is not the fact; they are more inclined to ask for less, rather than more, than they believe is needed. For instance, four school buildings need painting outside; three need renovating inside; the halls and class rooms of the High School building need repairing; another building needs shingling; now which of these much needed improvements shall be done this coming year, and which shall be left undone? And so in other departments. The Committee see changes and improvements which might be made with advantage to the schools, but they are deterred because of the expense, and make only such improvements as are felt to be absolutely necessary.

Each year the Committee determine to keep the expenses within the appropriations, if possible, but frequently find at the close of the year that this or that department has over run. Parties having accounts with the school department of the town are largely to blame for this, as bills are not sent in promptly, or with any regularity, and near the close of the year bills are sent in, which, in some cases are unexpectedly large, while others come too late for settlement, even though there is a balance to our credit. It is often the case that if, at the end of the financial year, the Committee were allowed to transfer the balance from one department to make up the deficiency of another, that the appropriations, as a whole, would not be exceeded. Practically, the town debt is benefitted or reduced at the expense of the schools, by the amount unexpended at the close of the year.

INDUSTRIAL TRAINING.

Undoubtedly there is room for improvement in our public schools, but in no line is there so great a chance for making them of practical use to every day life as in the introduction of industrial training. In any new venture or undertaking, the first step is the hardest. Several towns have taken this step and still others are following. We have no definite plan to present at this time, possibly the town is not quite ready to make any decided move, but we believe it would be a step in the right direction, and the time is not far distant when the town will probably take some action, and, as suggested in last year's report, introduce into our schools some simple forms of industrial training.

RECOMMENDATIONS.

For many years past the various school boards have periodically recommended the employment of a Superintendent of Schools. All persons interested in educational matters appreciate the benefit of a systematic supervision of the schools by one competent person. The employment of such a person, one who would give his whole time to the schools of our town, would be quite an additional expense, though one which would be most satisfactory and yield the best results.

The following plans, though not so desirable as the first, would, however, be a decided improvement over the present arrangement, and at a comparatively small increase in expense :

First:—By uniting with one or more towns in the employment of a Superintendent; or,

Second:—By appointing the High School Principal to act as Superintendent in addition to his other duties. We would respectfully recommend that the town authorize the committee to appoint a Superintendent of Schools under one of these two latter plans.

Upon the completion of the new school house, the old High School building will be practically useless for school purposes, and we would recommend that, when it is no longer required for school purposes, that the building be disposed of at auction,

or in such manner as will insure its early removal from its present location.

Owing to the crowded condition of the Franklin Street school house, of which we have already spoken, we would recommend that this building be enlarged to a four-roomed building, according to the general plans procured by the committee two years since. By these plans the required accommodations can be obtained at about half the expense of a new building.

For the maintenance of the schools for the ensuing year we would respectfully recommend the following appropriations :

For general expenses, including teachers, janitors	
and fuel,	\$21,180 00
For text books and supplies,	2,000 00
For contingent or incidentals,	1,716 00
	<hr/>
Total,	\$24,896 00

This amount includes the outstanding bills amounting to \$693.83.

The appropriations and expenditures for the year passed were as follows :

General,	\$19,000 00
Additional appropriation,	800 00
	<hr/>
	\$19,800 00
Paid teachers,	\$16,936 73
“ janitors,	1,108 25
“ for fuel,	1,157 26
	<hr/>
	19,202 24
	<hr/>
Balance,	\$597 76 .
Outstanding bills,	\$217 38

Text books and supplies,	\$1,300 00
Overdrawn,	84
						<hr/>
Expended,	\$1,300 84
Outstanding bills,		\$260 51
Contingent,	\$1,400 00
Received for tuitions,	78 00
						<hr/>
						\$1,478 00
Overdrawn,	58 71
						<hr/>
Expended,	\$1,536 71
Outstanding bills,		\$215 94

RECAPITULATION.

Receipts :

Appropriation for General Expenses,	\$19,800 00
“ Text books and Supplies,	1,300 00
“ Incidentals,	1,400 00
Received for tuitions,	78 00
Overdrawn,	59 11
						<hr/>
Total,	\$22,637 11

Expenditures :

General,	\$19,202 24
Outstanding bills,	217 38
Text books and Supplies,	1,299 69
Outstanding bills,	260 51
Contingent,	1,537 11
Outstanding bills,	215 94
						<hr/>
						\$22,732 87

We wish to publicly thank Mr. Arthur H. Kingman for his generous gift to the High School, of a cabinet of mineralogical specimens of fossils, corals etc., including a collection of birds and bird's eggs. The collection includes about one thousand specimens, and was secured, with few exceptions, by Mr. Kingman personally, in his travels through the various states, during the past twenty years.

The terms of office of Messrs. Rogers and Thayer expire with the present year, leaving two vacancies to be filled for a term of three years each.

Heartily appreciating the general support given the schools by the citizens of the town, and hoping for the continued prosperity of these, the foundations of our country, the above report is respectfully submitted.

A. H. THAYER, *Chairman,*

S. S. WHITE, *Secretary,*

W. E. ROGERS, *Treasurer,*

WAKEFIELD, Feb. 1, 1892.

STATISTICAL REPORT

The following-mentioned text books and supplies have been delivered to the several schools during the year :

HIGH SCHOOL

Text Books.

Elem. Algebra, Wentworth,	6	Voyage. de Monsieur Perichan,	12
Physiology, Walker, . . .	11	Codas,	165
Chemistry, Williams, . . .	4	Alhambra,	12
Chem. Note Books, Williams,	16	Anderson's England, . . .	3
Book-keeping, Meservey, . .	25	Apgar's Plant Analogy, . .	12
Book-keeping Blanks, . . .	50 sets	Hellenica,	6
Geology, Le Conte,	12	French Dictionaries, . . .	12
Collar & Daniel Latin Prose		Virgils,	7

REPORT OF APPROPRIATION COMMITTEE.

The committee on appropriations, chosen at the last annual town meeting, after due consideration of the various matters brought before them, would respectfully recommend the following appropriations for the next financial year :

Support of schools,	\$21,200 00
School contingent fund,	1,700 00
School text books and supplies, including \$250 for unpaid bills and \$450 for new maps,	2,000 00
Fire Department, including \$200 for Forest Fire- wards, and \$75 for Superintendent of Fire Alarm,	2,575 00
Poor Department, the income from town farm and, Highways and Bridges,	5,000 00
Concrete Sidewalks (abutters paying one-half), Crossings, etc.,	8,000 00
Repairs of Concrete Sidewalks, Crossings, etc.,	500 00
Common and Park Expenses,	500 00
Street Lights,	2,400 00
Town House Expenses,	2,000 00
Miscellaneous Expenses,	5,000 00
Police Department,	1,000 00
Beebe Town Library, dog tax and	400 00
Public Reading Room,	175 00
Night Watch,	1,800 00
Salaries of Town Officers,	2,775 00
Total,	<hr/> \$57,525 00

The appropriation for salaries of town officers is made upon the following basis of division which we also recommend:

Town Treasurer,	\$200 00
Town Clerk,	150 00
Board of Selectmen,	400 00
“ Assessors,	400 00
“ Overseers of the Poor,	250 00
“ School Committee,	250 00
“ Road Commissioners,	200 00
“ Auditors,	115 00
“ Registrars,	110 00
“ Fire Engineers,	75 00
“ Forest Firewards,	75 00
Board of Health,	50 00
Tax Collector,	500 00
<hr/>	
Total,	\$2,775 00

After consultation with the Town Treasurer, we endorse the recommendation as to the appropriation for the payment of the town debt and interest, which he makes in his report.

Messrs. W. F. Young and John Winship, members of the Committee, not having been present at either of the meetings of the Committee, do not join in the report.

Respectfully submitted,

W. S. GREENOUGH, *Chairman*.

REPORT OF THE COMMITTEE ON SEWERAGE.

At the November Town Meeting a Committee was appointed consisting of Messrs. W. G. Strong, J. A. O'Leary, S. W. Abbott, G. W. Harrington and T. J. Skinner. This Committee was instructed "to consider the question of Sewerage for the town, and to ascertain the expense of connecting with the Metropolitan System of Sewerage, and recommend some method of raising the necessary amount to pay for one of these systems, and report at the annual meeting in March; the Committee to have their report printed in the next Town Report.

The Committee organized by the choice of W. G. Strong as Chairman and Dr. J. A. O'Leary as Secretary. As the sewerage and sewage disposal of Wakefield admits of several alternative methods, of which it is desirable to choose that which is the most practicable and the most economical, considering the interests of the town, the Committee at first applied, by letter, to the Metropolitan Sewerage Commission, for a reply to the inquiry which the town had instructed them to make, as to the "expense of connecting Wakefield with the Metropolitan System of Sewerage" now being constructed to relieve the large district lying north and west of Boston, and comprising fourteen cities and towns, and having its general outlet into deep water at Deer Island.

To this inquiry the Commission replied as follows:

BOARD OF METROPOLITAN SEWERAGE COMMISSIONERS OF
MASSACHUSETTS.

93 LINCOLN STREET, BOSTON, Dec. 30, 1891.

COMMITTEE ON SEWERAGE, *Wakefield, Mass.*:

DEAR SIR,—Your communication of Dec. 24, 1891, asking "the expense of connecting Wakefield with the Metropolitan system of Sewerage" was duly received and laid before this

Board. There seems to be doubt, if, under existing statutes, this Board has any power to take any "land, rights of way or easements" necessary to extend the sewer to your town. Section 3 of the act [Chap. 439, Acts 1889,] gives this Board power to contract with cities and towns outside of the metropolitan district "for the extension thereto of either of said systems of sewage disposal, and for the reception and disposal of sewage therefrom," while the succeeding section gives the right to take lands, etc., by eminent domain, *only* for "carrying out" *** "the recommendations and plans of said State Board of Health contained in said report." [Senate Doc. No. 2, 1889.] Wakefield, as you are well aware, was not included in the Metropolitan District, and it therefore seems as though this Board were powerless to secure the necessary land for laying the sewer to your town unless additional legislation be obtained.

For the Board.

EDWARD P. FISKE,
Clerk.

With reference to the feasibility of connecting Wakefield with the Metropolitan System, Mr. Brooks states in his report to the town in 1889, that "a depth of about twenty feet for a distance of about half a mile would be required." This fact would render it necessary to pump the sewage of the town to a considerable height in order to reach the upper end of the Metropolitan sewer at Melrose.

Under the provisions of the general act relating to the introduction of systems of Water Supply and Sewerage (Chapter 375 of the Acts of 1889), it is required that all towns intending to introduce systems of Sewerage shall first submit their plans to the State Board of Health for its advice and approval.

Under the provisions of the act referred to, the Committee made a definite application to the State Board of Health, dated Dec. 30, 1891, at the same time submitting four alternative methods of sewage-disposal, believing that the State Board would indicate which method it deemed the most practicable and best for the town to adopt. The Committee has therefore had the advantage of such examinations of the question as the Engineer of the State Board has made in his visits to Wakefield. These methods were as follows:

1. That which was devised by F. Brooks, C. E. and was

printed in the Town Report for the year ending Feb. 28, 1889. This plan provides for taking the sewage of the thickly settled part of the town, and carrying it by means of a separate system, by gravity, to about fifteen acres of porous land situated in the south-easterly part of the town upon Farm street, upon the west side of the street. This land may be supplemented by taking more upon the east side of the same street. It all lies directly upon the immediate water-shed of the Saugus river, the natural drainage outlet of the town.

As alternatives to this plan the following were presented:—

2. Disposal upon land in the northerly part of the town situated east of the Danvers branch railroad and near the outlet of Lake Quannapowitt, a tributary of the Saugus river. This might require pumping for a portion of the town.

3. Disposal into the Saugus river below Howlett's dam in North Saugus.

4. Disposal into the Metropolitan sewer, by pumping to Melrose.

The actual necessity of an efficient system of sewerage for a thriving and populous community like that of Wakefield is a question which no longer admits of reasonable doubt. No town which has once established a thorough system of sewerage has had reason to regret the act. A good system of sewerage is second only in importance to a pure and wholesome water-supply. In fact the introduction of a water-supply makes the establishment of a sewerage system a matter of necessity. Since the greatly increased flow of water, fouled with the sewage of many households, pollutes the ground in all parts of the town. The cesspool is a very poor makeshift for a good system of sewers. In 1889 there were 100 water closets in the town, and that number is now considerably increased. Nearly all of these are connected with cesspools. Mr. Brooks estimated that there were about 600 cesspools supplying the 5,000 inhabitants in 1889. The annual cost of cleaning these cesspools was estimated at about \$2,500 per year. This sum is the interest at 5 per cent on \$50,000, which would pay for a large share of constructing a good sewerage system. Added to this is the advantage of getting rid of the noxious sewage and making the whole town cleaner, more healthy and less

liable to epidemics of typhoid fever and other infectious diseases. Many cities and towns in Massachusetts are already provided with good sewerage systems. Some of these towns are smaller than Wakefield, and there is not one of these places which has not been greatly improved by their introduction.

Among these towns are Framingham, Marlborough, Westborough, Nahant, Medfield, Gardner, Lenox, Amherst and Pittsfield.

But the question of providing an efficient system of sewerage for the town of Wakefield is by no means an easy task. The town is not situated upon the sea-coast, like Boston, or Nahant, or Gloucester, where it might dispose of its sewage into the sea, in which it would soon disappear in the ebb and flow of the tides. Nor is it placed upon a broad and rapid river, where the sewage would be immediately carried down the stream, as is the case with the cities and towns upon the Merrimac and the Connecticut. The town is shut in by elevations upon all sides except the valley of the Saugus river, which constitutes the natural drainage outlet of the town.

The sewage may therefore be disposed of in different ways, either by pumping over the elevations into the Metropolitan system, by disposing of it upon land within the limits of the town, or by turning it directly into the Saugus river at some point below the town.

These points being understood the committee submitted the question to the State Board of Health, for their advice, as is required by the provisions of Chapter 375 of the Acts of the year 1888, which requires the State Board to advise the authorities of towns "already having or intending to introduce systems of sewerage, as to the most practicable method of disposing of their sewage, having regard to the prospective needs and interests of other cities and towns which may be affected thereby."

To this application the State Board, after submitting the question to its expert engineers, and carefully considering the subject, made the following reply:—

OFFICE OF STATE BOARD OF HEALTH,
13 BEACON ST., BOSTON, FEB. 20, 1892.

To the Committee on Sewerage of the Town of Wakefield:

GENTLEMEN,—Your application, dated January 4, 1892, asks for the advice of the Board with regard to a plan (1) for the disposal of the sewage of Wakefield, which is that reported to the town by a sewerage committee in 1889, and provides for the disposal of the sewage upon land situated upon the west side of Farm street in Wakefield. Advice is also asked upon alternative plans as follows:

2. Disposal upon a tract of land in the northerly part of the town, situated east of the Danvers Branch Railroad, and near the Saugus River.

3. Disposal into the Saugus River, below Howlett's dam, in North Saugus.

4. Disposal into the North Metropolitan Sewer at its nearest practicable point in Melrose.

These four plans include but three general methods of disposal, which may be considered in the following order:

1. Disposal by discharging crude sewage into the Saugus river.

2. Disposal into the North Metropolitan System.

3. Disposal by filtration through land, permitting the purified effluent to flow into Saugus River, or some of its tributaries.

The quantity of sewage produced in Wakefield is so great that if it were discharged into the Saugus River without purification, it would before long, if not in the beginning, pollute the stream to such an extent that it would become offensive to those living near it. This method of disposing of the sewage, therefore, cannot be advised.

The plan for the disposal of the sewage into the North Metropolitan System is particularly well adapted for the village of Greenwood, from which it would be difficult to dispose of the sewage by any independent system, or in connection with the sewage of other parts of the town. For the main village of Wakefield a connection with the North Metropolitan System could not probably be made without pumping the sewage, and the cost of pumping, together with the annual charge which would be made for a connection with the Metropolitan System, even if permission can be obtained to connect with it, would probably make this method of disposal cost more than an independent system for purifying the sewage upon land, provided a suitable filtration area can be found not too far from the town. There may be reasons, however, which will warrant a connection with the Metropolitan System, such as, for instance, the inability to find an

area of sufficient size for the disposal of the sewage in the future, which will not interfere with the growth of the town or pollute future sources of water supply.

By filtering the sewage intermittently through porous land in limited quantities per acre, where the surface of the land stands five feet or more above the ground water, the sewage can be so thoroughly purified that its discharge into even a small stream will not be objectionable, and where a sufficient area of land is available and proper care is taken to distribute the sewage evenly, and otherwise to maintain the works in good condition, a sewage field will not be offensive to those living in its neighborhood.

The plan reported by the sewerage committee of the town in 1889, which is the main plan submitted, has the advantage that it brings the sewage to the filtration area by gravity, but it is defective in that it does not provide for the disposal of the sewage of about one fifth of the buildings shown upon the plan, nor for the sewage of the rattan factory, and the main features of the plan are such that it would be necessary to reconstruct the main lines of the system in order to include the buildings omitted. In addition to these principal objections to the plan, there are still others, occasioned by the high levels of the outlet, such as the great length of sewer in private property and the insufficient depth of the sewers in some of the low lands, principally in the flat land north of Crystal Lake. All of these objections would be met to a large extent if the upper ten feet of the gravelly land near Farm street should be excavated and spread upon the adjacent meadow, and the main sewer lowered a corresponding amount.

If the modified gravity plan here suggested does not prove on investigation to be the best one to adopt, it will probably be necessary to pump all the sewage, in which case the main sewer can be placed in the lowest land and sewage can be taken from all buildings in this portion of the town. If the sewage is to be pumped, the best place for purifying it is by no means evident from the information now before the Board. The land near Farm street, which it was proposed to use in connection with the gravity plan as submitted, is of excellent quality but rather limited in extent. It contains two small houses and a schoolhouse, and is not very far from settled portions of the town. It has the advantage of being more accessible than any other disposal area, and if the modified gravity plan above suggested should be adopted, the available area could be increased to thirty or forty acres, which would be sufficient for all requirements for many years in the future.

The disposal area in the northerly part of the town, mentioned as an alternative, is more uneven than the area near Farm street, and the material is not as porous, although it has sufficient porosity

to permit the disposal of sewage in a satisfactory manner. This area has the advantage that it is further from settled portions of the town than the one near Farm street.

The Board advises the town to have the whole subject of its sewerage and sewage disposal reinvestigated with a view either to purifying its sewage by filtration at some place where sufficient land can be obtained to meet the requirements for the next thirty or forty years, or to pumping it into the Metropolitan System. These examinations should also include a system for the village of Greenwood, which can probably be taken care of better by the Metropolitan System than in any other way.

There are a few points in this reply which it is desirable to consider a little more fully. It is stated in the reply that, under proper management, a sewage-field within the limits of a town need not become offensive to those who live near it. Your committee found this to be the fact at Framingham, where, on visiting the sewage-field, they found the sewage rapidly disappearing beneath the surface of the ground, even in midwinter. The same is true in midsummer; and one member of your committee, after visiting many such fields both in Massachusetts and in other countries, reports that wherever the sewage-fields are well cared for, there need be no grounds for fearing that they may prove to be offensive.

During the course of this investigation by your committee, an approximate estimate has been made with reference to the probable share which Wakefield would have to pay of the cost of maintenance, interest, and sinking fund, provided the town were granted the right to enter the Metropolitan system of sewerage. The estimate made is \$3,900 per year as the probable share of Wakefield. This has reference only to the share of the town in the running expenses of the general system, outside the limits of the town.

The cost of constructing the sewer from Wakefield to Melrose, together with the cost of the necessary pumping station and storage-tanks are entirely unknown, and cannot be determined without a survey which your committee was not authorized to make.

In concluding your committee would recommend that the town should authorize a careful investigation of each of these questions referred to in the advice of the State Board of Health, in order

that the best and most practicable system of sewerage may be adopted for the town; and appropriate a sufficient amount for further and more complete investigation of the subject.

REPORT

OF THE

COMMITTEE ON SEWERAGE

OF THE

TOWN OF WAKEFIELD, MASS.,

INCLUDING REPORT OF THE

ENGINEER,

AND THE LETTER OF APPROVAL OF THE

STATE BOARD OF HEALTH.

OCTOBER, 1892.

A. W. BROWNELL, PRINTER, WAKEFIELD, MASS.

REPORT OF THE COMMITTEE ON SEWERAGE.

WAKEFIELD, MASS., Oct. 19, 1892.

TO THE CITIZENS OF WAKEFIELD:—

At the town meeting held in November, 1891, a committee was appointed for the purpose of considering the general question of sewerage for the town, and to report upon the same in the following March. The committee appointed at that time attended to the duties prescribed, and submitted the question to the State Board of Health, indicating at the same time certain alternative methods of sewage disposal, and asking the Board to state which method the Board would advise the town to adopt as the best, the most economical and the most practicable. The reply of the Board is printed in the Town Report for the financial year ending January 31, 1892.

In this reply the State Board advised the town “to have the whole subject of its sewerage and sewage disposal re-investigated with a view either to purifying its sewage by filtration, at some place where sufficient land can be obtained to meet the requirements for the next thirty or forty years, or to pumping it into the Metropolitan System.”

At the town meeting in March this question having been submitted to the town, a new committee was appointed with authority to employ an engineer at an expense not exceeding \$400, to carry out the advice of the State Board and have a careful survey made.

This committee, consisting of Messrs. W. G. Strong, Dr. J. A. O’Leary, G. W. Harrington, W. E. Cowdrey and Dr. S. W. Abbott, organized by choosing W. G. Strong as

Chairman and Dr. J. A. O'Leary as Secretary, and herewith presents its report.

The preliminary report of Fred Brooks, C. E., which was made in 1889 upon the same subject, has afforded valuable aid in the investigation of the question.

The question of the sewage disposal of the town is not easy of solution, as was stated in the report of last March. The sewerage of the streets, including the adjustment of the size of pipes, the fixing of their grades, the location of cuttings and embankments, underdrains, manholes, etc., involve no very difficult problems, but the more important question of the final disposal of the sewage, or contents of the sewers, in such a manner that it shall cause the least annoyance to the people, either of this town or to those of other towns lying below us, is one of considerable difficulty.

For the performance of this important duty the committee secured the services of Louis Hawes, C. E., who has given to the work very careful attention and whom the committee desires to commend for the faithful manner in which he has performed this difficult task.

The committee has also had the advantage, under the provisions of the recent General Statute of 1888, of receiving the advice and counsel of the State Board of Health, whose engineer has made repeated visits to the town, examined the different points involving difficulties of execution, and given much time and assistance in examination of the proposed plan.

The final reply of the State Board of Health, endorsing and approving the system, as required by law, has been received and is published with this report.

The advantages to be secured by the adoption of a system of sewerage in a town are as follows:—

1. The removal from the inhabited parts of the town of the excremental filth of privies, water-closets, bathrooms and kitchen sinks, which always constitutes a source

of danger when stored in the soil, in cesspools and vaults, underneath or near inhabited dwellings.

2. The drying of the soil. This point is too often overlooked. A good system of sewerage not only removes filth, but dries the soil of all regions which are provided with sewers. This is proven by the experience of all sewered towns, since the quantity of water discharged from the final outlet is much greater than the mere household sewage which is admitted to the system. A well-planned system provides for this additional flow by means of small under-drains, which carry the comparatively pure water of the soil from those sewered districts which are in unusually damp regions.

The town has now a plan which is extremely valuable, and your committee would urgently recommend its adoption as an aid to the prosperity, growth, and more than all to the healthfulness of the town. Fortunately most of the necessary land for the final disposal of the sewage is already the town's property and if more is needed it can be purchased or taken for the purpose under the provisions of a general act of 1890. Your committee has examined the operation of sewerage systems in other towns of the size of Wakefield and is entirely satisfied of the possibility of a successful solution of the sewage problem of Wakefield. We present herewith the report of the Engineer, which has been submitted, in compliance with the Statute of 1888, to the State Board of Health, and received the approval of that Board, and their endorsement and approval follows the Engineer's Report.

G. W. HARRINGTON,
S. W. ABBOTT,
J. A. O'LEARY,
W. E. COWDREY,

Committee.

ENGINEER'S REPORT.

To MESSRS. W. G. STRONG, DR. J. A. O'LEARY, G. W. HARRINGTON, DR. S. W. ABBOTT and W. E. COWDREY,
Committee on Sewerage, Wakefield, Mass.

GENTLEMEN :—In pursuance of your directions I have investigated the subject of sewerage for Wakefield, considered the possibilities of sewage disposal by discharging into the Metropolitan system, also by filtration at some point on the banks of the Saugus River; made surveys covering the entire town; prepared a plan of the most feasible and economical system, and have the following results and recommendations to offer:

The town is divided topographically by a ridge whose summit is Hart's Hill, into two distinct drainage areas, one lying to the north, the other to the south, and there is no line from one to the other over which a gravity sewer could be carried so as to serve a district that would be large enough to warrant the outlay.

GREENWOOD AND BOYNTON.

The area to the south comprises the villages of Greenwood and Boynton and properly belongs within the limits of the Metropolitan system. As disposal of the sewage of those two villages into that system would be more economical than to pump it over the ridge into a system at Wakefield Centre, and as the Metropolitan system can easily care for so small an additional population, and as no local filtration area can be utilized that is advisable, outlet into that system is recommended as the most feasible for adoption when those villages shall require a sewerage system. The plan shows a system of sewers designed to cover the territory mentioned and including the locality to the south of Crystal Lake and west of the Boston and

Maine Railroad. The main sewer passes down Main street in Greenwood to Hanson street, receiving the sewage of the eastern district at the intersection of Greenwood avenue; then crosses via Hanson street and private land to Greenwood street in Boynton, where sewage from that district would be intercepted; then by Greenwood street into Melrose and connect with their principal main in this part of the town, at the intersection of Franklin and Tremont streets, the Melrose main from the Metropolitan sewer to this point being large enough, as provided in the preliminary plans of the State Board of Health, to admit it. An enlargement would be required from there to the Wakefield line.

WAKEFIELD CENTRE AND THE METROPOLITAN SYSTEM.

Connecting the area north of Hart's Hill, comprising Wakefield Centre and the outlying districts with the Metropolitan system involves pumping the sewage and disposing of it by discharging into the nearest available sewer of that system. The main sewers provided for Melrose come nearer to Wakefield than those for Stoneham, and connection with them offers a special inducement in that the sewage of Greenwood and Boynton could be intercepted by the main line from Wakefield. By this method the sewage of Wakefield Centre would be collected by gravity at a low point, where the receiving basin and pumping station would be established,—the valley east of the factory of the Wakefield Rattan company being the best locality; favorable points being situated either north or south of Water street and within 500 feet of the intersection of Water and Melvin streets. From there the best route for forcing the sewage over the ridge that lies between Wakefield Centre and Greenwood would be by Water street to the Salem branch of the B. & M. R. R., then parallel to and east of the railroad to Main street, and by the latter to the summit between Charles and Green streets. The main would be laid to grade, and to this point would be of 12-inch cast-iron pipe, made necessary by the pressure it would have to sustain, the maximum head being 65 feet. Beyond the summit the main would be of vitrified pipe and assume the functions of a gravity sewer, 12 inches in diameter to the foot of the hill, 15 inches from there down Main street, through Greenwood to Hanson

street; thence via Hanson street and private property to Linden street in Boynton, where it would be increased to 18 inches in diameter and continuing via Linden and Greenwood streets to the Melrose line: thence in that town as a part of the Melrose system via Greenwood, Franklin and Tremont streets, and beyond, increasing in size, as required by the Melrose sewage, and continuing to Wyoming avenue, where the intercepting sewer of the Metropolitan system receives the greater part of the sewage of Melrose, and to which point the main sewer in Melrose from the Wakefield town line over the route mentioned would have to be enlarged sufficiently to accommodate the flow from Wakefield in addition to the flow from Melrose.

The principal advantage of this outlet for the sewage of Wakefield is that it is carried far away from the town and ultimately out to sea.

The disadvantages arise largely from the expense of the long main in Wakefield, the cost of increasing the size of the main sewer for a mile and a half through Melrose, provided an arrangement could be made with the Melrose authorities for making such enlargements; the expensive pumping machinery that would be required for a lift of 65 feet as compared with that for a lift of one fifth the height by another method; and the annual payment towards the cost of construction and maintenance of the entire North Metropolitan system in addition to a similar expense on the local system. Following is an estimate of cost of the above method of disposal and the annual expense incurred by the same:

Estimate of cost of System for Wakefield Centre, if connected with the Metropolitan System.

Street sewers as proposed,	\$41,282 70
Pumping plant and basins,	25,633 00
Force main and outfall sewer to the Melrose line, .	21,868 50
Enlarging the main sewer in Melrose,	4,908 15
Engineering, superintendence and contingencies, 8 per ct.,	7,495 39
Total,	\$101,187 74

Estimate of annual expense of System for Wakefield Centre, if connected with the Metropolitan System (for 1895).

For interest and sinking fund, Wakefield's proportional part for the Metropolitan System by valuation, as estimated, 1.42 per ct. of \$180,000.00,	\$2,556 00
For maintenance and operating expenses, Wakefield's proportional part for the Metropolitan system by population, as estimated, 1.54 per ct. of \$89,000 00,	1,370 60
For interest and sinking fund, local system, 20 year bonds at 3½ per ct.,	8,600 96
For maintenance and operating expenses, local system,	1,500 00
Total,	\$14,027 56

As construction of the Metropolitan system and the issuing of bonds began in 1890, the responsibility for interest and sinking fund would doubtless also begin at that time, so that if a first payment were made in 1895, when the Metropolitan system is expected to be in operation, the amount for back dues would be in the vicinity of \$10,000, which added to the expenses for the current year would make the total expenditure for that year not far from \$24,027.56, on the basis that the local system had been constructed the year before at an estimated cost of \$101,187.74. Aside from the heavy expense, there should be considered the fact that the Metropolitan system was not designed to care for the sewage of Wakefield; bearing upon which the chief engineer of the Metropolitan Commissioners, in a communication dated May 16, 1892, says "sewage from Wakefield might be taken into the Metropolitan sewer near Wyoming avenue in Melrose, and taken care of by the Metropolitan system until say 1904, but not later. The Commissioners do not feel that they have any authority to build a sewer from the point above alluded to, to the Wakefield line; but you could, perhaps, arrange, if it was worth while, with the Melrose town authorities to do that."

In view of the facts presented, sewage disposal for Wakefield Centre by discharging into the Metropolitan system is not recommended.

METHOD OF DISPOSAL BY FILTRATION.

Provided a filtration area can be found having sufficient

filtering material of the proper quality that can be utilized at moderate expense and that is located within reasonable distance of the principal collecting point, this method of disposal is unquestionably better and more economical for Wakefield Centre than by chemical precipitation, and in considering the matter very careful search has been made for such an area.

Within the limits of the town but two localities present favorable features; one situated within the east ward, north of Lowell street and just east of the Newburyport railroad, on what is termed Foster's Lane.

The other is on property owned by the town, comprising meadow and upland lying west of Farm street and north of Nahant street, and is within a thousand feet of the town farm buildings.

In utilizing the former, or Foster's Lane area, it would be necessary to establish receiving basins and a pumping plant at a low point and pump the sewage up to the filtration beds. As before mentioned the best place to collect all the sewage would be within 500 feet of the intersection of Water and Melvin streets. From there it would be forced through a 12-inch cast-iron main laid to grade up the valley of the brook; the best line being parallel with and just east of the Newburyport branch of the B. & M. R. R., until the filtration beds were reached, where the sewage would be properly distributed.

As the land belongs to private parties it would be necessary for the town to purchase the required area and also acquire a right of way for the force main.

In utilizing the latter, or town property area, the main outfall at the intersection of Water and Melvin streets would be continued down Valley street to a point opposite the location of the stone crusher and thence across the meadow parallel with the course of the brook to the nearest point of the high land on the town property. Here the filtration beds would be prepared by cutting down the bank and spreading it over the meadow for the whole or a part of the area, the receiving basins and pumping stations being located at the beds. With this arrangement a road would have to be built across the meadow on the line of the sewer. There would probably be little or no expense for land, and while

the cost of preparing the filter beds would perhaps be a little more than at the Foster's Lane area, they would be of a higher efficiency, as the material is of a better quality and can be selected; consequently a smaller area would be required.

In order to compare the cost of utilizing the two filtration areas above mentioned, estimates of the expense for an area of twenty acres, and of the distinctive features in each case have been made as follows, the cost of the pipe sewers above the intersection of Water and Melvin streets remaining the same in both cases :

Comparative Cost of Utilizing Filtration Areas Available.

FOSTER'S LANE AREA.		
12-inch force main, laid to grade, 8,310 feet		
at \$2.18,	\$18,115 80	
Railroad and brook crossings,	500 00	
Filtration land and right of way,	1,830 00	
Road from Nahant St. district, 2,962 cu. yds.		
at 35 cents.	1,036 70	
10-inch sewer, 1000 feet at 95 cents,	950 00	
Manholes, 3 at \$40,	120 00	
Land at pumping station,	300 00	\$22,852 50
TOWN PROPERTY AREA.		
Roads across meadow, 12,147 cu. yds. at		
35 cents,	\$4,251 45	
18-inch sewer, 2,600 feet at \$1.25,	3,250 00	
Manholes, 6 at \$40,	240 00	
Land and rights of way,	720 00	\$8,461 45
Difference in favor of town property location,		\$14,391 05

Another advantage gained in the town property location is that the receiving basins and pumping station would be located near the filter beds, so that one man could care for both with only occasional help, whereas if they were separated, additional help would be required constantly.

Outside of the town limits and within reasonable distance, but one locality was found that looked favorable for filtration purposes. That was land near the continuation of Vernon street into Lynnfield, just beyond the Saugus river. As this would require half a mile more of force main than the Foster's Lane area it would be still more expensive.

There would doubtless also be some difficulty in obtaining the land, as it is not unreasonable to suppose that Lynnfield or Reading might desire it for a similar purpose. Its proximity to a main highway might create some objection also; however, there will doubtless be some objection on the score of proximity whatever place is selected, but any thinking person will agree that it is better to have the sewage of a large community carried rapidly away to a point where it can be properly cared for, and that is comparatively remote from any dwellings, rather than have it deposited in the ground in their midst, day after day and year after year, until the soil and atmosphere are loaded with its effluvia. As shown in the experience of places where filtration areas are in operation, grounds for objection are more imaginary than real.

Surveys were made in the vicinity of Salem street to ascertain if a small filtration area could not be prepared between Salem and New Salem streets, that would care for the sewage of the north ward and east side. There is plenty of excellent material in the sand bank near by, and the outfall sewer could be brought from Vernon street at Aborn avenue, across private land and under Salem street and the railroad to the filter beds by gravity. As this arrangement would still leave many low places not provided for; and as an objectionable inverted siphon would be required in order to pass the railroad and Salem street; and as the sand is a source of revenue for building purposes, the project was considered unadvisable.

Surveys and calculations were made to ascertain if it were not possible and advisable to carry sewage from the larger part of the town by gravity to filter beds at the town property location, and pump the rest into the outfall sewer at the nearest and most convenient point. When the outfall sewer in Water street nears Melvin street, a possible route to the lower filtration area is suggested by way of Valley, Hart, Melvin and Nahant streets, or by Water street, but the irregular course, deep cuts, and large amount of rock excavation in both routes, render them more expensive and less practicable than to go from Valley street directly across the meadow. Bringing a high level sewer then from the filter beds to the intersection of Water and Melvin streets at as

flat an inclination as admissible would require a fill across the meadow of 12.5 feet, and in Valley and Water streets of from 4 to 9 feet. This would necessitate filling also portions of Melvin street and raising seven houses on Valley street.

As this sewer in Water street would be too high to receive the sewage from the rattan works, which is considerable, and judging from the offensive odor it imparts to the brook below, requires immediate attention, it would have to be pumped, together with the sewage from the north ward, east side and low districts in the valley.

A line was run for an east side intercepting sewer from the intersection of Water and Melvin streets up the valley, passing under the Salem branch of the B. & M. R. R., and to the east of the Newburyport Branch, then under the latter track near Salem street to a low point on Vernon street at the foot of Aborn avenue. To carry sewage from the east side over this line without pumping would require the sewer to be elevated in an embankment above the natural surface almost the entire distance. Salem and New Salem streets would have to be filled at the points of crossing, or inverted siphons resorted to, and sewage from Salem street, Fitch court, Vernon street at the bridge, the rattan factory and other low lying districts would be excluded. In view of the expense and the partial efficiency of this grade for that line the grade was lowered to a point that would cause the sewer to be in moderate excavation and low enough to include all territory desired, necessitating pumping of this portion of the sewage into the main outfall at the most convenient point as before mentioned. Comparing then this combined method of discharging a portion by gravity and a portion by pumping, with the method whereby sewage from all districts is carried by low sewers clear to the base of the filter beds at the town property location, and then elevated about thirteen feet to their surface; it is found that as there would be a pumping plant and receiving basins in either case it is better to have them at the filter beds where one man can do the work most of the time, than distant from them and possibly nearer the town than desirable. In the former case the pumping plant and basins would be smaller and less expensive, as less sewage would be handled, but as it would care for the

sewage of the rattan works which is considerable, the difference in cost would not be great and is more than offset by the heavy expense for filling and for damages that would be incurred on the line of the high level sewer.

The expense for pumping would be comparatively small in either case as the lift is light and centrifugal pumping machinery could be used to advantage. Comparing the relative expense of the distinctive features in each case, there follows :

Comparative Cost of Different Methods of Discharging Sewage on to Filtration Area at Town Property Location.

PART PUMPING, PART GRAVITY, STATION NEAR WATER AND MELVIN STREETS.		
Filling streets and across meadow, 47,536 cu. yds. at 35 cents,	\$16,637 60	
Retaining walls,	1,500 00	
Land, rights of way and damages,	2,520 00	
Receiving basins, pumping station and machinery,	11,600 00	
Suction and discharge pipes,	680 00	\$32,937 60
PUMPING ALL SEWAGE, STATION AT FILTER BEDS.		
Roads across meadow, 12,147 cu. yds. at 35 cents,	\$4,251 45	
Land and rights of way,	500 00	
Receiving basins, pumping station and machinery,	19,300 00	
Suction and discharge pipes,	368 00	\$24,419 45
Difference in favor of latter method,		\$8,518 15

If the filter beds should be prepared at a higher level than the above estimates are based upon, the possibility of which is suggested, the difference in costs shown above would be greatly increased.

SUMMARY.

After careful consideration of the various methods and projects presented, it is found that to carry all the sewage by low sewers that will best serve all districts, to the town property location, and there elevate it to filter beds prepared to receive it, is the most satisfactory and economical method of sewage disposal

for the portion of Wakefield lying north of Hart's Hill ridge, and is therefore recommended, as shown on the plan submitted with this report and as outlined below.

SYSTEM PROPOSED.

The system of street sewers is designed to carry house wastes only; no storm or ground water is to be admitted. The outfall is to be eighteen inches in diameter and starts at the receiving basins, located at the foot or east end of the meadow at the town property location, where the filter beds will be prepared. From there it crosses the meadow through a road built for the purpose that will be fifteen feet wide on top and about five feet high, and ending at Valley street, opposite land owned by the town, which will furnish material free for filling. When excavating this material it could be done so as to uncover ledge for the stonecrusher. The main sewer continues in Valley street to the intersection of Water and Melvin streets, where it receives the discharge of the 12-inch east side intercepting sewer and the 12-inch main in Water street; thence the main passes up Water and West Water streets to Railroad street; thence by Railroad street to Albion street, and by Albion to Gould street, at which point it divides into two 10-inch sewers, one continuing in Albion to Byron street, the other in Gould street to Cedar street. A 10-inch sewer starts from Albion street and passes through Railroad street to Church street. A 10-inch sewer also starts from Water street, just east of the Salem branch of the B. & M. R. R., and runs parallel with the railroad to Main street. An 8-inch sewer starts from Water street, just west of Crescent street, and passes up the valley containing the Centre brook to Crescent street. This sewer and the sub-drain that is designed to go with it will do away with the filthy brook that is now there, and whose present condition is a source of deep annoyance to near residents and an open menace to the entire community. This uncovered and irregular brook has for a long time discharged into the stagnant waters of the Centre pond, where deposits have collected in the shallow water and the pond has become little better than an open cesspool. A decided benefit would result from filling the entire pond excepting a course for the brook on the east side.

As a further sanitary measure, but not as a part of the sewerage system, there should be a 12-inch pipe drain laid from the main brook in Water street up the same valley in the centre to the upper end, to carry off storm water from the entire district and do away with the possibility of a surface brook at any time.

Radiating from the main arteries, sewers eight and six inches in diameter have been provided for most of the streets, whether built upon or not, so that as extensions are made to the system they will form a proper part of the whole; those most needed to be built at first, and then extended as the growth of the town requires it.

Lowering the ground water by the sub-drainage that is provided, will prove a great boon in many localities. The drain will discharge into the brook at Melvin street, will pass up Water, Railroad and Albion streets, will extend to Richardson and Bennett streets, will pass up the centre valley into Crescent street and extend up Main street to Salem street and up Park street, and extensions can be made as desired.

It is stated that the results from the sub-drainage in connection with the Newton sewerage system is commended in certain localities more than the sewers themselves, for the reason that the ground water is lowered to such a beneficial extent. In another place land was known to double in value in consequence of the land being drained by construction of the sewers alone.

Both lakes will be protected from sewage contamination by sewers that are provided in the streets bordering them, this being especially necessary in the case of Crystal Lake from which the public water supply is taken. Private drains that now discharge directly into Lake Quannapowitt and pollute its waters could be done away with.

The receiving basins and pumping plant will be located at the filter beds. The basins will be large enough to accommodate the night flow, and thus avoid the necessity for continuous pumping, will be built in the ground and covered, and have a capacity of 400,000 gallons.

The pumping station will be of brick and will accommodate two pumps and two boilers. The machinery will consist of two boilers and at first one pump, of the centrifugal pattern, having

a capacity of 1250 gallons a minute or 750,000 gallons in ten hours.

The filter beds will be prepared by cutting down the bank to the proper elevation and spreading the sand on the meadow, or by cutting down the bank for a portion and preparing others at a higher level or on the natural surface, as a detail study in the preparation of working plans shows to be most desirable; an economical use of the filtration material at first being advisable. The material is of excellent quality as shown by test pits, one being dug sixteen feet deep near the middle of the bank; only one third of the material now owned by the town being required for some time. The surface of the filter beds will average about thirteen feet above the water in the basins. Six acres of area being sufficient at first. Following is an estimate of cost:

Estimated Cost of System Proposed.

Street Sewers.

6-inch vitrified pipe laid, 12,740 ft. at \$0.55	\$7,007 00
“ “ “ “ 1,200 ft. at .80	960 00
8-inch “ “ “ “ 12,200 ft. at .61	7,442 00
“ “ “ “ 5,920 ft. at .86	5,091 20
“ “ “ “ 1,730 ft. at 1.00	1,730 00
10-inch “ “ “ “ 500 ft. at .95	475 00
“ “ “ “ 3,270 ft. at 1.08	3,531 60
“ “ “ “ 860 ft. at 1.48	1,272 80
12-inch “ “ “ “ 1,070 ft. at 1.00	1,070 00
“ “ “ “ 1,520 ft. at 1.85	2,812 00
“ “ “ “ 1,330 ft. at 2.35	3,125 50
18-inch “ “ “ “ 3,100 ft. at 1.25	3,875 00
Pipe chimneys, . . . 62 at 6.00	372 00
Manholes. . . . 88 at 45.00	3,960 00
Subdrains, . . . 9,680 ft. at .17	1,645 60
Rock excavation, . 100 cu. yds. at 4.00	400 00
	<hr/> \$44,769 70
Road across meadow, 10,666 cu. yds. at .35	3,733 10
Land and right of way,	400 00
Receiving basins,	13,000 00
Pumping station, chimney and foundations,	3,800 00
Centrifugal pumping machinery,	2,500 00
Preparing filter beds, 42,102 cu. yds. at \$0.25 . . .	10,525 50
Suction and discharge pipes, subdrains, etc., at filter beds, .	1,723 00
Engineering, superintendence and contingencies, 8 per ct., .	6,436 10
	<hr/> \$86,887 40

Estimated Annual Expense Involved by the System Proposed.

For interest and sinking fund, 20 year bonds at $3\frac{1}{2}$ per ct.,	\$7,885 43
For maintenance and operating expenses,	1,500 00
Total	<u>\$8,885 43</u>

The above estimate of annual expense is for comparison with a similar one for a system discharging into the Metropolitan sewers, but the town will doubtless adopt a method of apportioning the cost whereby the abutters share the expense, as is customary, say each side of the street paying a third and the town the remaining third, or some other equable arrangement; then the annual expense, as far as the town is concerned, would be lessened to that extent, making by the arrangement suggested the annual appropriation amount to \$3,961.81.

Submitted with this report is a plan of the system proposed, including profiles of the outfall and east side intercepting sewers.

Very respectfully,

LOUIS HAWES,

Civil Engineer.

75 STATE ST., BOSTON, Sept. 6, 1892.

OFFICIAL ENDORSEMENT OF STATE BOARD OF HEALTH.

OFFICE OF STATE BOARD OF HEALTH.

13 BEACON ST., BOSTON, Oct. 7, 1892.

To the Committee on Sewerage of the Town of Wakefield,

GENTLEMEN:—In response to your application of August 29, 1892, accompanied by a plan for the sewerage of your town and asking the advice of the State Board of Health in regard thereto, the Board has caused investigations to be made, has carefully considered the plan submitted and herewith presents its reply.

It is proposed by this plan to collect the sewage of all parts of the town by means of a system of pipe sewers from which storm water is to be excluded, and these sewers are arranged in two independent systems, one for the southerly part of the town, including the villages of Greenwood and Boynton, and the other for the main village. The one for the southerly part of the town is planned to connect with the Melrose sewers and through them with the Metropolitan System. The other provides for the disposal of the sewage by intermittent filtration upon sandy land in the vicinity of the town almshouse.

The disposal of the sewage of the southerly part of the town into the Metropolitan System is the best method that can be adopted for this district, provided the consent of the proper authorities can be obtained.

The disposal of sewage of the main village by intermittent filtration through a sufficient area of porous land is also the best available method of disposing of the sewage of this portion of the town.

With regard to the best place for filtering the sewage, your engineer has shown in his report that the proposed disposal area has a decided advantage in regard both to the cost of reaching it with the sewage and to the cost of maintenance, over any other available area. The character of the land at this place is also of excellent quality for filtration, so that on the whole these advantages may be said to outweigh the disadvantages that the tract contains two small houses and a schoolhouse and is not very far from settled portions of the town.

With regard to the amount of land required in the beginning for purifying the sewage, much will depend upon the extent to which ground water is excluded from the sewers. In several instances towns have had a much larger amount of sewage to pump or purify than was expected, owing to the entrance of ground water, notwithstanding all precautions taken to make the joints of the pipe sewers water tight. The only practicable remedy for this trouble, so far as now known, is to provide underdrains of suitable size to take away the ground water of those districts where the sewers are below the water level and discharge this water into such streams as are most available. Even if the amount of

ground water is restricted as far as practicable the Board is of opinion that not less than six acres should be prepared for filtering the sewage in the beginning, with provision for increase in a few years.

The best method of preparing the filtration area can hardly be determined without a careful detailed study. If beds are prepared by filling upon the adjacent swamp their surface should be raised not less than six feet above the present water level in the brook, and the underdrains should be placed near enough together so that when the sewage is applied to the beds the water in the ground will always remain drained down to at least five feet below the surface. Beds prepared by excavating the higher land should have their surface left eight or preferably ten feet higher than the present level of the brook and would not need as much underdrainage as beds prepared by filling upon the swamp, and would more efficiently purify the sewage. If the town should acquire a sufficient amount of land a portion or the whole of the filter beds might be prepared at a smaller cost upon the top of the flat land than by the plan of excavating and filling, as proposed by the plan submitted. As before stated, however, the best method to adopt will require a detailed study, which should precede actual construction, and the Board will give further advice as to the preparation of the disposal area at such time, if so desired.

The present plan for collecting the sewage and bringing it to the filtration area appears to have been carefully designed and to be comprehensive and well adapted to the wants of the town.

By order of the Board,

H. P. WALCOTT, *Chairman.*

RECORD OF TOWN MEETINGS

FOR THE YEAR ENDING JAN. 31ST, 1893.

ANNUAL TOWN MEETING, MARCH 7, 1892.

ARTICLE 1. To choose a moderator to preside at said meeting.

Samuel K. Hamilton was elected moderator.

The selectmen appointed Cornelius Donovan and P. Brown Wiley ballot clerks.

The moderator appointed W. W. Bessey and A. J. Hutchinson to superintend the ballot box; J. Wallace Grace, Michael Low, Richard J. Cuff and Mark M. Sherman to check names on the voting lists; and Geo. W. Kimball, A. H. Thayer, Charles S. Emerson, Jr., Charles E. Walton, James F. Garraty, J. C. Oxley, Thomas Hickey, Alfred H. Goodwin and John H. McMahon to count votes.

ART. 2. To act upon the acceptance of the reports of town officers as printed.

VOTED. To accept reports as printed.

ART. 3. To bring in their votes on one ballot for Town Clerk, Town Treasurer, three Selectmen, three Assessors, three Overseers of the Poor, two Road Commissioners, one for a term of three years, one for a term of one year; a Collector of Taxes, three Park Commissioners, a Board of Health, consisting of three members, three Trustees of the Town Library for a term of three years, and one for a term of two years; two members of the School Committee for a term of three years, a Fish Committee consisting of three members, three Constables, three Fence Viewers, and three Auditors. Also to bring in their votes in answer to the question "Shall licenses be granted for the sale of intoxicating liquors in this town?" the words Yes and No in answer to that question to constitute the form of such ballot.

Upon a separate ballot "for the use of women qualified according to law to vote for members of the School Committee," to bring in their votes for two members of the School Committee for a term of three years; these ballots will be received at the same time and in the same box. The polls will be kept open four hours at least and for such longer time as the voters may by vote direct.

The chair declared the polls open for the reception of ballots for town officers, the register on the patent ballot box showing 0000.

ART. 4. To choose all other town officers not required by law to be chosen by ballot.

VOTED. That the chair appoint a committee of five to nominate a list of officers not chosen by ballot. The chair appointed C. H. Stearns, J. T. Burditt, E. E. Emerson, Dennis Dailey and J. H. Carter. The committee reported as follows:

WEIGHERS OF COAL AND MERCHANDISE.

*Nathaniel E. Cutler,	*G. P. Haley,	*Denis Greany,
*J. C. W. Walton,	*Benjamin F. Earle,	*A. A. Mansfield.

MEASURERS OF WOOD.

*G. P. Haley,	*Austin L. Mansfield,	*Denis Greany,
*B. F. Earle,	*George K. Walton,	George W. Killorin,
*A. A. Mansfield,	J. G. Morrill,	

SURVEYORS OF LUMBER.

*C. H. Spencer,	Chas. F. Bickford,	Roger Howard.
*Hoyt B. Parker,	*E. I. Purrington,	

FIELD DRIVERS.

Oliver G. Sanborn,	Arthur S. Aborn,	*Alexander Glass.
*Geo. K. Walton,	*O. Warren Shedd,	

The report of the committee was accepted and the above list of officers not chosen by ballot were elected by the town.

VOTED. That all town business except the election of town officers be adjourned until next Monday evening at 7.30 o'clock. Motion to reconsider was rejected.

VOTED. That the polls be kept open until 5.30 P. M., and at that time they be closed.

At 5.30 P. M., the polls were declared closed, the register showing 918 ballots cast. The ballot box failed to register correctly as the list of voters showed 931 names checked on the list, and there were 931 ballots cast.

The ballots were sorted and counted, and public declaration of the result of the ballots made in open town meeting as follows :

THE RESULT OF THE BALLOT.

TOWN CLERK.

LICENSE.

Shall licenses be granted for the sale of intoxicating liquors in this town?

Yes,	325
No,	498

The ballots and check lists were sealed up and delivered to the Town Clerk according to law. Voted at 10.37 P. M., to adjourn to Monday, March 14, at 7 o'clock, P. M.

ADJOURNED TOWN MEETING, MARCH 14, 1892.

The meeting was called to order by the Moderator, S. K. Hamilton, Esq.

ART. 5. To see if the town will authorize its Treasurer to hire money to pay all demands in anticipation of taxes.

VOTED. That the Town Treasurer be authorized with the approval of the Selectmen to hire money in anticipation of the taxes of the current municipal year, and to issue notes of the town therefor, and all debts so incurred shall be paid from said taxes.

ART. 6. To raise and appropriate money for the following purposes to wit: For the payment of town debt and interest; for school purposes; support of the poor; repairs of highways and bridges, and determine how the same shall be expended; fire department; public library, and reading room; salaries of town officers; care of street lamps, and the lighting of streets; town house expenses; miscellaneous expenses; annual rental of hydrants, and all other necessary town charges.

VOTED. That the sum of \$2,500 be raised and appropriated for the payment of the town debt, and that the sum of \$4,500 be raised and appropriated for interest on loans.

The following amounts were raised and appropriated:

For school general fund, \$21,200.

For school contingent fund, \$1,700.

For school text-books and supplies, \$2,000, including unpaid bills, \$250, and new maps, \$400.

For support of the poor, \$5,000, and income from town farm.

VOTED. To refer the matter of purchasing a horse to the Board of Overseers.

For Highways and Bridges:

VOTED. To lay this subject on the table until other matters relating to the highways have been acted upon.*

For Fire Department, \$2,625, including \$250 for Forest Fire Wards, and \$75 for salary of Fire Alarm Superintendent.

For Public Library, \$400; (also the dog tax.)

For Public Reading Room, \$250.

For salaries of Town Officers, \$2,775, divided in accordance with recommendations of the Appropriation Committee, as follows:

Town Treasurer.....	\$200
Town Clerk.....	150
Tax Collector.....	500
Board of Selectmen.....	400

*See Page 14.

Board of Assessors.....	\$400
Overseers of the Poor.....	250
School Committee.....	250
Road Commissioners.....	200
Board of Auditors.....	115
Board of Registrars.....	110
Fire Engineers.....	75
Board of Health.....	50
Forest Fire Wards.....	75

For care of street lamps and cost of lighting.

VOTED. That a committee of five be appointed by the Moderator who shall take this matter into consideration and report at an adjournment of this meeting. Chair appointed Michael Low, Richard Britton, E. W. Eaton, W. S. Greenough and T. E. Balch as committee. (See page 18.)

For Town House expenses, \$2,000.

For Miscellaneous expenses, \$5,000.

VOTED. That the Selectmen be instructed to keep the old cemetery in repair, the expense to be taken from this sum.

For Rental of Hydrants.

VOTED. To lay this matter on the table. (See page 19.)

For Common and Park expenses: \$500, and \$5 of this sum to repair the basin on Main street at the Rockery. (See page.)

For Police Department, \$1,000.

VOTED. That the remaining articles in the warrant be acted upon as they are printed.

For Miscellaneous expenses \$500 additional, to be used by the Park Commissioners.

VOTED. To take from the table that part of Article 6, relating to Highways and Bridges, and \$8,000 was raised and appropriated. Motion of W. G. Strong that the Road Commissioners be instructed to advertise in the local papers, and to contract for the hauling of all gravel and crushed stone, and to let out the contract to the lowest responsible bidders in our town; and that all crushed stone be produced by our own stone crusher. Pending this motion.

VOTED. To adjourn this meeting until to-morrow night at 7.30 o'clock.

ADJOURNED TOWN MEETING, MARCH 15, 1892.

The meeting was called to order by the Moderator.

ART. 6. The motion of Mr. Strong was acted upon, and was rejected by a vote of 43 Yes ; 110 No.

VOTED. That all crushed stone for the highways be furnished by our own stone crusher.

VOTED. That all debate be limited to five minutes and no person be allowed to speak more than twice upon any one article. Yes, 143 ; No, 33. Motion to reconsider the vote whereby we voted to pay the Road Commissioners \$200. Lost.

VOTED. That no new article in the warrant be taken up after 10.15 this evening.

VOTED. That \$1,000 be raised and appropriated for the Police Department, for the year ensuing.

ART. 7. To see what method the town will adopt for the collection of taxes for the year ensuing.

VOTED. Same method as last year.

ART. 8. To see if the town will authorize the Collector of Taxes for the year ensuing, to use all means for the collection of taxes, which a Town Treasurer when appointed Collector may use.

VOTED. To do so.

ART. 9. To see what sum the town will raise and appropriate for concrete work.

VOTED. \$500. Abutters to pay one-half the expense.
\$500 for repairs.

ART. 10. To see if the town will authorize the Selectmen to provide a Night Watch, and will raise and appropriate money to pay them.

VOTED. To do so and \$1800.

ART. 11. To determine the compensation of engine-men for the year ensuing.

VOTED. \$23 and a sum equal to a poll tax.

ART. 12. To see if the town will raise and appropriate two hundred dollars for the purposes of Memorial Day.

VOTED. \$200.

ART. 13. To see if the town will authorize its Treasurer to hire money on a term of years and to issue notes or bonds of the town therefor, for the purpose of renewing or paying such loans maturing during the current municipal year, as are not provided for by taxation.

VOTED. To indefinitely postpone.

ART. 14. To see if the town will raise and appropriate money to carry out the orders of the county commissioners relative to widening Main street, from Salem street, north by Lakeside, or what they will do about it.

Motion of James F. Emerson, "That the sum of \$1500 be raised and appropriated for widening and grading Main street from near Lawrence street to Cordis street, and also for building a sidewalk, within the same limits and on the west side of Main street, on the line as located by the County Commissioners."

VOTED. To lay this article on the table.

ART. 15. To see if the town will raise and appropriate money for the repairs needed on the town house building, or what they will do about it.

VOTED. \$400, to be expended under the direction of the Selectmen.

ART. 16. To see what action the town will take, in relation to procuring or furnishing armory accommodations for Co. A, 6th regiment, and raise and appropriate money therefor.

VOTED. That a committee of five be appointed by the chair to act with the Selectmen to take this matter into consideration and report at the adjournment of this meeting or at the next meeting. Chair appointed Col. Charles F. Woodward, Maj. George H. Taylor, Capt. C. F. Stearns, M. Low and A. W. Brownell.

ART. 17. To see if the town will authorize the selectmen to sell the old academy building, or what they will do about it.

VOTED. To instruct the Selectmen to sell the old academy building to H. M. Warren Grand Army association for the sum of \$1, a bill of sale of the same to be given with a permit to move to their lot on Albion street whenever the school committee shall decide that it is no longer needed in its present location for school purposes.

ART. 18. To see if the town will take any action in relation to

removing obstructions existing in a covered drain leading from Bennett street to Water street, preventing the natural and usual drainage of land in connection therewith, and raise and appropriate money therefor, or what they will do about it.

VOTED. To refer to the Selectmen and Board of Health with instructions to report on same.

VOTED. To adjourn to Thursday evening at 7.30 o'clock, March 17, 1892.

ADJOURNED TOWN MEETING, MARCH 17, 1892.

Meeting called to order by the Moderator.

ART. 19. To see if the town will authorize the Park Commissioners to enclose and improve for public park purposes, the common land on Prospect street, between said Prospect street and Hopkins street, and raise and appropriate money therefor, or what they will do in relation thereto.

VOTED. To refer to Park Commissioners with instructions to report on same.

ART. 20. To see if the town will raise and appropriate money to complete the new school building on Academy hill ready for occupancy, including furnishing, and to grade, fence and improve the grounds and sidewalks, or what they will do about it.

VOTED. \$8,000. To complete same, including furnishing, grading and improving the grounds and sidewalks, around same, to be expended under the direction of the building committee. (See Page.

RESOLVED. That the new school building on Academy Hill be named the "Lincoln School."

ART. 21. To see if the town will grant the free use of the Town Hall to the following organizations: To Post 12, G. A. R., for the evening of Memorial Day and one other evening; to the Veteran Firemen's Association one evening; to the Wakefield High School Cadets for the evening of their annual drill; to the Richardson Light Guard, for two evenings; to the Woman's Christian Temperance Union for six evenings and to the Wakefield Brass Band for one evening.

VOTED. To do so.

ART. 22. To raise and appropriate money for enlarging the Franklin street school house.

VOTED. That a committee of five be appointed by the moderator to investigate as to the necessity of enlarging the Franklin street school house, and report on same. Moderator appointed A. H. Thayer, Edward Barker, James Hickey, Wm. K. Perkins, T. E. Balch.

ART. 23. To see if the town will accept the provisions of Chapter 431 of the acts of the year 1888 relating to the employment of a superintendent of schools, and raise and appropriate money therefor, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 24. To see if the town will raise and appropriate the sum of two hundred dollars to build and grade a sidewalk on the south side of Hart street, from Valley street to Melvin street, or what they will do about it.

VOTED. \$200. To be expended under the direction of the Road Commissioners.

ART. 25. To see if the town will authorize the Selectmen to establish and maintain one or more public urinals, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 26. To see if the town will raise and appropriate money to carry out the orders of the County Commissioners relative to the widening of Gould street.

VOTED. That a committee of three be appointed to make an estimate of the expense of widening Gould street and report on same.

Wm. G. Strong, Henry Davis, I. F. Eaton were appointed.

ART. 27. To hear and act upon the report of the Road Commissioners relative to the laying out of Park avenue.

VOTED. To indefinitely postpone.

ARTICLE 6. Voted to take up this article.

The committee to whom was referred the subject of Street Lights presented the following report :

REPORT.

The committee to whom was referred so much of Article 6 of the warrant for this meeting as bears upon the matter of street lights, would respectfully present the following facts and conclusions as the result of their investigations :

1ST. To light the streets with the same number of gas and oil lights as are now in use, and to provide for the deficiency of last year, will require an appropriation of \$2,500.

2ND. To accept the proposition of the Citizens' Gas Light Co., for the use of 29 arc and 10 incandescent electric lights (which proposition is appended to this report) would require, after deducting a fair proportionate amount for the gas and oil lights replaced by the electric lights, an appropriation of \$4,300. (This amount includes provision for the deficiency.)

3RD. To contract with the Globe Gas Light Co. for furnishing 100 of their naphtha-gas lights, the same to replace the 65 gas and say 20 of the oil lights now in use, and thus giving an addition of 15 to the number of lights now in use, would require an appropriation of \$2,500. This also includes provision for the deficiency. Your committee would recommend that the town raise and appropriate the sum of \$2,500 for street lights for the ensuing year, and that the Selectmen be instructed to contract with the Globe Gas Light Co. for furnishing not less than 100 lights, and for a term not exceeding one year.

(signed) MICHAEL LOW,
RICHARD BRITTON,
THEODORE E. BALCH,
W. S. GREENOUGH,

Committee.

Mr. E. W. Eaton was unable to meet with the Committee.

VOTED. To accept the report.

VOTED. That its recommendations be adopted and the Selectmen be instructed to contract with the Globe Gas Light Co., in accordance with the report of the committee.

VOTED. \$2,500 to carry out the same.

ARTICLE 6. Voted \$4,400 for annual rental of Hydrants.

ART. 28. To see if the town will instruct the Road Commissioners.

not to sell or give away any stone, gravel, loam or street scrapings, and to do all work on the highways in accordance with plans, if such exist, or what they will do about it.

VOTED. To so instruct them.

ART. 29. To see if the town will vote to pay Joseph Cartwright for land which he claims to have been taken by the Road Commissioners to widen Park street, or what they will do about it.

VOTED. To refer to Selectmen and Road Commissioners with instructions to pay a suitable compensation if any land has been taken.

ART. 30. To see if the town will raise and appropriate the sum of five hundred dollars for the purpose of cleaning out Saugus river from Saugus line to Water street, or what they will do about it.

John Moran offered the following motion: "That the sum of \$500 be raised and appropriated for the purpose of cleaning out the bed of the Saugus river from Saugus line to Water street, in manner as follows: From Saugus line to Vinton street, the bed to be made twelve feet wide and two feet deeper, and from Vinton street to Water street one foot deeper than it now is, the same to be in charge of the Road Commissioners." Chair ruled the motion out of order and no other action was taken.

ART. 31. To see if the town will raise and appropriate the sum of thirty dollars in settlement of a claim for damages made by A. L. Oliver, or what they will do about it.

VOTED. To refer to the Selectmen with power to settle if convinced of the justice of said claim.

ART. 32. To see if the town will raise and appropriate the sum of six hundred dollars to rebuild and repair the culverts and sidewalks on Greenwood street, Main street and Myrtle avenue in Greenwood, or what they will do about it.

VOTED. \$600. To be expended under the direction of the Road Commissioners.

ART. 33. To see if the town will raise and appropriate the sum of fifty dollars for additional Johnson pumps, or what they will do about it.

VOTED. \$50. To be expended under the direction of the Forest Fire Wards.

ART. 34. To see if the town will raise and appropriate the sum of six hundred dollars to repair Vernon street, from Cordis street to the Lynnfield town line, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 35. To see if the town will raise and appropriate the sum of two hundred dollars as a part of the cost of watering Main street, from Water street to the Park, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 36. To see if the town will raise and appropriate money for new street lights, and authorize the selectmen to locate them as follows: one on the corner of Hart street and Valley street; two on Pleasant street extension, between Salem street and Sweetser street; one on Greenwood street opposite Pine street; three on Forrest street between the railroad and the house of Herbert Green; one on the corner of Francis street and Pine street; one on Myrtle avenue, near Samuel Kimball's; one on Avon court; one on the corner of Spring street and Summit avenue; one on the corner of Spring street and Dell avenue; one on the corner of Summit avenue and Morrison avenue; two on Converse street, and one on the corner of Lowell and Vernon streets.

VOTED. To be referred to the Selectmen with power to act. \$50 appropriated for same.

ART. 37. To see if the town will raise and appropriate money for procuring plans of the real estate in Wakefield for the use of the Assessors, and also to pay for the clerical services of said board, or what they will do about it.

VOTED. \$250. For plans and clerical services. Plans to be made by street and not by alphabet.

ART. 38. To see if the town will instruct the Fire Engineers to appoint the Volunteer Hose company as enginemen for the current municipal year, or what they will do about it.

VOTED. To so instruct the Fire Engineers.

ARTICLE 6. Voted to take up Article 6.

VOTED. To appropriate \$250 additional for the Fire Department.
Yes, 99. No, 10.

ART. 39. To see if the town will raise and appropriate two hundred and fifty dollars to pay for the services of the clerk to the School Committee, including the purchase and delivery of text books and supplies.

VOTED. \$250.

ART. 40. To see if the town will raise and appropriate the sum of two hundred dollars to grade and repair Emerald street, or what it will do about it.

VOTED. \$200. To be expended under the direction of the Road Commissioners.

ART. 41. To see if the town will authorize and instruct the Fish Committee to invest the net proceeds of the income from fish permits in German carp spawners, or some other species of edible fish not found in the waters of Wakefield, and deposit the said fish in Lake Quannapowitt, or what it will do about it.

VOTED. To refer to Fish Committee with power to act.

ART. 42. To see if the town will choose an Appropriation Committee to consider the matter of appropriations for the year 1893 and report in the Town Report of that year.

VOTED. That the chair appoint an Appropriation Committee of fifteen, and the chair appointed Wm. G. Strong, Wm. S. Greenough, Richard Britton, W. E. Cowdrey, S. O. Richardson, Roger Howard, W. E. Rogers, S. W. Flint, Michael Low, A. L. Mansfield, Wm. K. Perkins, H. H. Savage, Thomas Hickey, Everett Hart and John Winship.

ART. 43. To hear and act upon the report of the Committee upon Sewerage, and to see if the town will raise and appropriate money therefor.

The committee reported verbally on progress made, and also in the Town Report of 1892, p. 212, and their report was accepted.

On motion of Dr. O'Leary it was

VOTED. "That the sum of \$400 be raised and appropriated for the purpose of preparing the best and most practicable plan for the sewerage and sewerage disposal of the town of Wakefield, the same to be expended under the direction of a committee of five, who shall report at the November town meeting."

Wm. G. Strong, J. A. O'Leary, Geo. W. Harrington, S. W. Abbott and W. E. Cowdrey were chosen on that committee.

ART. 44. To hear and act upon the report of the committee appointed at the last annual town meeting to confer with the Wakefield Water Company.

The committee presented their report which was accepted.

VOTED. That this report be lodged in the archives of the town, as it deserves a high place. No other action taken.

ART. 45. To see if the town will raise and appropriate additional money to complete the new Fire Engine house, or what they will do about it.

VOTED. \$3,000. To be expended under the direction of the same committee as was chosen to take charge of moving and changing the school house into an engine house.

W. S. Greenough, Roger Howard, H. W. Dalrymple, W. B. Daniel, W. G. Strong, J. M. Skully, H. B. Parker, committee.

ART. 46. To see if the town will disapprove of the order of the County Commissioners as to the widening of Main street, from Salem street to the Reading line, or what they will do about it.

VOTED. To lay on table until Article 50 has been acted upon.

ART. 47. To see if the town will petition or request the present board of County Commissioners to discontinue the changes of Main street, as proposed by the order of July 30, 1889, or what they will do about it.

VOTED. To lay on table until Article 50 has been acted upon.

ART. 48. To see if the town will appropriate the sum of three thousand dollars for the building of a concrete sidewalk on Main street, water side, to Lowell street, under the direction of the Park Commissioners, or what they will do about it.

VOTED. To lay on table until Article 50 has been acted upon.

ART. 49. To see if the town will raise and appropriate money to carry out the order of the County Commissioners in relation to widening and building Church street, or what they will do about it.

VOTED. \$1,500.

ART. 50. To see if the town will instruct its Selectmen to petition the County Commissioners to rescind their order in relation to widening and building Main street, between Salem street and the Reading town line, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 14. See page 16.

VOTED. To take up this article.

VOTED. That the Board of Selectmen be instructed to petition the Board of County Commissioners to rescind their order of July 30, 1889, in relation to changes of Main street, between Salem street and the Reading line, and that the Board of Selectmen and the Board of Road Commissioners be appointed to carefully prepare a new plan for changes of the main street, from Salem street to the Reading line, and estimate the cost of changing the street according to the new plan, and present a report at the next meeting.

A vote of thanks was extended to the Moderator for the very able manner in which he has conducted the business of this meeting.

VOTED. To adjourn without date.

TOWN MEETING, APRIL 11, 1892.

ARTICLE. 1. To choose a Moderator to preside at said meeting.

Samuel K. Hamilton was elected Moderator.

ART. 2. To see if the town will increase and fix the compensation of the Road Commissioners, or what they will do about it.

VOTED. That the Road Commissioners in addition to the sum voted, as salary to the Board, receive \$2.50 per day each, for labor performed by them upon the highways, in discharge of their duties.

ART. 3. To hear and act upon the report of the committee upon by-laws and ordinances.

Wm. E. Rogers, in behalf of the committee on by-laws, presented their report.

VOTED. To dispense with reading the report.

VOTED. That the report be accepted.

VOTED. That the report be printed in pamphlet form, and distributed.

Motion to adopt the report was lost.

VOTED. That the further consideration of this report be postponed until an adjourned town meeting two weeks from this night, or at a future town meeting. (See page 29, Art. 14.)

VOTED. That when we adjourn, we adjourn for two weeks from this evening at 7.30 o'clock.

ART. 4. To see if the town will locate a fire alarm box at Boyntonville and raise and appropriate money therefor, or what they will do about it.

VOTED. \$200, and the matter was referred to the Selectmen with power to act at their discretion.

Art. 5. To see if the town will raise and appropriate money to complete Prospect street in accordance with the order of the County Commissioners.

VOTED. \$500.

ART. 6. To hear and act upon the report of the committee appointed at the annual town meeting under Article 26, of the town warrant, to see if the town will raise and appropriate money to carry out the order of the County Commissioners relative to the widening of Gould street.

W. G. Strong presented the following report :

REPORT.

"Acting under Article 26 of the last annual town warrant, the town chose a committee consisting of W. G. Strong, Henry Davis and I. F. Eaton, to consider the subject matter of said article, which was : 'To see if the town would raise and appropriate money to carry out the orders of the County Commissioners relative to the widening of Gould street.'

Your committee have attended to their duty, and beg leave to report. The committee organized by the choice of W. G. Strong, chairman, and have viewed the new bounds of said street, as located by the County Commissioners, and have carefully considered the whole matter of widening and straightening said street, to conform to the orders of the County Commissioners. The committee found the street in a very bad condition, hardly safe for public travel. The County Commission has ordered a very expensive change, in the widening and straightening of Gould street, which order must be complied with before the close of 1893. Your committee does not think it advisable for the town to comply with the orders fully this year, as our appropriations for highways are already very large ; but would

recommend that the town do part of the work this year, and a part next year, commencing at the east end of the proposed change of lines, and working westward to completion as far as Converse street, and as much farther as the appropriation will allow; and taking care that the whole street be made safe for public travel, and for the payment of said work, your committee would recommend that the town appropriate \$1,000, to be expended under the direction of the Road Commissioners."

W. G. STRONG,

HENRY DAVIS,

I. F. EATON,

Committee.

VOTED. To accept the report, and its recommendations were adopted.

VOTED. \$1,000. To pay for same.

ART. 7. To see if the town will vote that the sum of five hundred dollars be raised and appropriated for the purpose of cleaning out the bed of the Saugus river, from Saugus line to Water street, in manner as follows:—From Saugus line to Vinton street bridge; the bed to be made twelve feet wide and two feet deeper, and from Vinton street bridge to Water street one foot deeper than it now is. The same to be in charge of the Road Commissioners.

VOTED. To refer to the Board of Health and the Board of Selectmen,

ART. 8. To see if the town will instruct its Board of Road Commissioners to let the work on Main street, beside the lake, from Lawrence street to Cordis street, to the lowest responsible bidder.

VOTED. To indefinitely postpone.

ART. 9. To see if the town will grant the free use of the town hall for one evening to the St. Joseph's Total Abstinence society.

VOTED. To do so.

ART. 10. To see if the town will choose a committee to investigate the doings of the Road Commissioners of eighteen hundred and ninety-one, or what they will do about it.

No action taken.

VOTED. To dissolve the meeting.

TOWN MEETING, JUNE 29, 1892.

ARTICLE 1. To choose a Moderator to preside at said meeting.

Samuel K. Hamilton was elected Moderator.

ART. 2. To see if the town will rescind the vote passed at the last annual meeting under Article 20 of the warrant, therefor, whereby it was voted to raise and appropriate \$8,000 for the purpose of completing the new school house on Academy hill.

VOTED. To rescind same.

ART. 3. To see if the town will rescind the vote passed at the last annual meeting under Article 45 of the warrant therefor, whereby it was voted to raise and appropriate the sum of \$3,000 for the completion of the new fire engine house.

VOTED. To rescind same.

ART. 4. To see if the town will appropriate the sum of \$8,000 for the purpose of completing the new school house on Academy hill, ready for occupancy, including furnishing and to grade, fence and improve the grounds and sidewalks surrounding the same.

VOTED. \$8,000.

ART. 5. To see if the town will appropriate the sum of \$3,000 additional money to complete the new fire engine house.

VOTED. \$3,000.

ART. 6. To see if the town will authorize its Treasurer to hire money on a term of years and to issue notes or bonds of the town therefor, for the purpose of providing the money appropriated under Articles 4 and 5 of this warrant for completing the new school building on Academy hill and the new fire engine house.

VOTED. That the Town Treasurer be authorized, with the approval of the Selectmen, to hire the sum of \$11,000 and to issue the notes or bonds of the town therefor:—\$3,000 to be made payable in the year 1895, and \$8,000 to be made payable in the year 1902, the said amounts to be raised by taxation in the years above named. Yes, 165. No, 3.

ART. 7. To see if the town will vote to purchase a hook and ladder truck and equipments, and to appropriate money therefor.

VOTED. That a committee of six, consisting of the present Boards of Selectmen and Fire Engineers, be authorized to purchase a

new Ladder Truck and such appliances as they may consider necessary for the same, the whole to cost not over \$1,500, and that the sum of \$1,500 be appropriated therefor, and the Treasurer be empowered to hire the same for the term of one year, and that this sum be raised in the tax levy of 1893.

ART. 8. To see if the town will appropriate \$300 additional for concrete sidewalks, or what they will do about it.

VOTED. \$300.

ART. 9. To see if the town will appropriate \$500 to grade and repair Spring street, or what they will do about it.

VOTED. \$500.

ART. 10. To hear and act on the report of the Road Commissioners on laying out a way from Pleasant street to Vernon street, as an extension of Wave avenue.

The Road Commissioners presented their report on laying out a new town way from Pleasant street to Vernon street.

VOTED. To accept the report.

VOTED. That the report be adopted.

VOTED. \$100. To carry out recommendations of Road Commissioners.

ART. 11. To hear and act on the report of the committee appointed under Article 18 of the warrant of the last annual meeting relating to the removal of obstructions in covered drain leading from Bennett to Water street.

Dr. J. A. O'Leary reported in behalf of the committee that the water course from Nahant street to Water street be thoroughly cleaned out.

VOTED. To accept the report.

VOTED. To lay the report on the table until some one complains of it.

Report (unsigned) placed on file.

ART. 12. To see if the town will place four street lights on Main street, between the Beebe estate and the head of the lake; also one on the corner of Summer street and Orchard street, and one on the corner of Birch Hill avenue and Summer street, and appropriate money therefor.

VOTED. To do so. \$50 appropriated for same.

ART. 13. To see what action the town will take in relation to claims on account of injuries received from defective highways.

VOTED. To refer to Selectmen with power to act. Damages claimed on Broadway, Prospect street and on Church street near the Congregational church were each and all referred to Selectmen with power to act.

ART. 14. To act on the report of the committee appointed April 20, 1891, to revise the by-laws of the town of Wakefield.

The committee presented their report on revising the town by-laws, the same having been printed and distributed.

VOTED. That the report be accepted.

VOTED. To amend the report by striking out the word "handbarrow" in Article 6, Sec. 12, and inserting the word "wheelbarrow." It was then voted to lay the report on the table until the next meeting.

ART. 15. To see if the town by their vote will allow tax-payers in town to have the privilege, if they so desire, of working on the highways, either by manual labor or by the labor of horse and cart, under the direction of the Road Commissioners of the town of Wakefield, or what they will do about it.

VOTED. To refer the subject matter of this article to the Road Commissioners.

ART. 16. To see if the town will vote to recommend that nine (9) hours constitute a day's work on the highway and fix the compensation therefor, or what they will do about it.

VOTED. That nine (9) hours constitute a day's work on the highway, and that \$2.00 be the compensation per diem., and that citizens of the town only be employed on the highway.

A. H. Thayer was given permission to make the following report :

REPORT.

The committee appointed March 17, 1892 "To investigate as to the necessity of enlarging the Franklin street school house," have attended to the duties assigned them, and beg leave to report as follows :

Your committee believes the town should furnish suitable accommodations for all children of school age. It is evident

to us that in the near future one or more new school houses will be needed in localities now rapidly filling up. It seems to us possible that district limits may be changed so as to relieve for the present, the over-crowded condition of the Franklin street schools. Should the future growth of the district be as great as the recent past, the proposed addition would, in our opinion, prove inadequate and too expensive for the advantage gained. We therefor think it inexpedient to enlarge the present building.

(signed) A. H. THAYER,
J. A. HICKEY,
W. K. PERKINS,
T. E. BALCH.

Committee.

VOTED. To accept the report. No other action taken.

VOTED. To dissolve the meeting.

TOWN MEETING, AUGUST 15, 1892.

ARTICLE 1. To choose a Moderator to preside at said meeting.

William N. Tyler was elected Moderator.

ART. 2. To see if the town will vote that it is expedient for the town to exercise the authority conferred upon towns under the provisions of Chapter 370 of the Acts of the year 1891, in the relation to the construction, purchase, leasing or establishing and maintaining within its limits one or more plants for the manufacture or distribution of gas or electricity for furnishing light for municipal use, and for the use of such of its inhabitants as may require and pay for the same.

VOTED. To proceed to ballot on the question, and that the vote be taken with printed or written ballots.

RESULT OF THE BALLOT.

Whole number of ballots cast,	224
Necessary two-thirds vote,	149
Yes, 179; No, 45.	

The chair declared the question carried by the necessary two-thirds vote in the affirmative.

ART. 3. To see if the town will appropriate an additional sum of money for miscellaneous expenses.

VOTED. \$3,000.

ART. 4. To hear and act upon the report of the road commissioners on the laying out of Brook avenue.

VOTED. To accept the same.

VOTED. To adopt the same.

ART. 5. To hear and act upon the report of the road commissioners on the laying out of Spring avenue.

VOTED. To accept.

VOTED. To lay on the table the adoption of the report, until next town meeting, the street being only thirty feet in width.

VOTED. To dissolve the meeting.

TOWN MEETING, OCTOBER 3, 1892.

ARTICLE 1. To choose a Moderator to preside at said meeting.

Jacob C. Hartshorne was elected Moderator.

ART. 2. To see if the town will agree with the Citizens' Gas Light company of Reading, South Reading and Stoneham upon the question of what property said company shall sell the town of Wakefield, under the provisions of Chapter 370 of the Public Laws of 1891, also on the price and terms of sale and delivery thereof in accordance with the provisions of said Act, or what action it will take to determine said questions; also what action the town will take in reference to the communication and statement of said company filed in the office of the Town Clerk of said town, September 12, A. D. 1892.

1st. VOTED. On motion of S. K. Hamilton "That the town do not agree with the Citizens' Gas Light company of Reading, South Reading and Stoneham, to purchase the property set forth in the paper by them filed with the Town Clerk, dated September 12, 1892, and purporting to be a schedule of the property which they desire to sell to the town at the price or upon the terms set forth in their offer of that date."

2nd. VOTED. On motion of S. K. Hamilton "That all matters between the town and the Citizens' Gas Light company of Reading, South Reading and Stoneham, arising under the election of said company to sell its property and plant to the town, be referred to a committee of fifteen, including the Selectmen, with full power to act and do all things necessary as their judgment in connection therewith."

3rd. VOTED. Unanimously on motion of S. K. Hamilton "That the legal voters of the town of Wakefield hereby assert and declare that the statement and schedule filed in the Town Clerk's office of said town, September 12, 1892, by the Citizens' Gas Light company of Reading, South Reading and Stoneham, purporting to be the schedule required under Chapter 370 of the Public Laws of 1891, is not a sufficient schedule to comply with said laws, and that the town is not bound to purchase the property of said company, under the provisions of said act."

VOTED. That a committee of five be appointed by the chair to retire and nominate a committee of fifteen mentioned in the second vote. Chair appointed W. G. Strong, J. G. Aborn, J. H. Carter, William N. Tyler and William K. Perkins. This committee reported as follows for the committee of fifteen.

COMMITTEE.

S. K. Hamilton, Wm. B. Daniel, Silas W. Flint, Geo. H. Towle, Peter S. Roberts, Wm. F. Young, Wm. K. Perkins, E. A. Rich, James H. Carter, Thomas Hickey, Edward H. Walton, T. J. Skinner, Wm. S. Greenough, S. O. Richardson, J. C. Hartshorne.

VOTED. To accept the report and elect the fifteen gentlemen reported as the committee of fifteen.

ART. 3. To see whether the town will vote to instruct its Selectmen to oppose by all proper proceedings any attempt by the Citizens' Gas Light company of Reading, South Reading and Stoneham, to sell its gas and electric light plant to the town.

VOTED. On motion of Geo. H. Towle "That the Selectmen are hereby instructed to oppose by all proper proceedings,

legal or otherwise, any attempt by the Citizens' Gas Light company of Reading, South Reading and Stoneham, to sell its gas and electric light plant to the town."

ART. 4. To see whether the town will vote to instruct the proper officers of the town to remove all poles and wires which are illegally within the limits of the public highways.

VOTED. On motion of Geo. H. Towle "That the Road Commissioners are hereby instructed to remove all poles and wires which are illegally within the limits of the public highways."

ART. 5. To see if the town will rescind the vote whereby it voted that all streets should be laid out not less than forty feet in width.

Motion to rescind was rejected.

ART. 6. To act upon the report of the road commissioners in relation to the laying out of Spring avenue.

VOTED. To lay on the table.

ART. 7. To see if the town will discharge the committee to whom the subject matter of cleaning out the bed of Saugus river was referred to while acting under Article 7 of warrant for the town meeting held April 11, 1892, and choose another committee with power to hire an engineer to ascertain the levels and the expense to do the work and report on the subject at the next annual town meeting, or what they will do about it.

VOTED. To adopt the article, that a new committee be appointed, and that John Moran be given the privilege of naming one member of the committee. James F. Emerson was named by Mr. Moran and the chair appointed James F. Emerson, James H. Carter and Henry W. Eustis on the committee.

VOTED. To dissolve the meeting.

NATIONAL AND STATE ELECTION AND TOWN MEETING, NOVEMBER 8, 1892.

Pursuant to a warrant duly drawn and served, the voters assembled at seven o'clock in the forenoon to bring in their votes for electors of

President and Vice President of the United States, and a Representative to the fifty-third congress of the United States ; for Governor, Lieutenant Governor, Secretary, Treasurer and Receiver General, Auditor, and Attorney General of the Commonwealth ; for Councillor for the sixth Councillor District ; for a Senator for the sixth Middlesex Senatorial District ; for a Representative to the General Court to represent the Thirteenth Middlesex Representative District ; for County Commissioner ; for two special commissioners ; for a Register of Probate and Insolvency to fill a vacancy and for the remainder of the term of five years from the first Wednesday in January, in the year of our Lord one thousand eight hundred and eighty-nine ; for District Attorney, for Sheriff and for three Commissioners of Insolvency for Middlesex County ; and also to bring in their votes, upon the same ballot, on the following proposed articles of amendment to the Constitution, to wit : Article of Amendment to the Constitution, abolishing the property qualification for the office of Governor. So much of article two of section one of chapter two, of part the second of the Constitution of the Commonwealth as is contained in the following words : "And unless he shall at the same time, be seized in his own right, of a freehold within the Commonwealth of the value of one thousand pounds," is hereby annulled ; the form of the ballot shall be as follows : "Shall the proposed amendment to the Constitution abolishing the property qualification for the office of Governor be approved and ratified? Yes—No."

The votes for all the above named officers, and for the article of amendment to the constitution shall be upon one ballot, and received according to the provisions of Chapter 423, of the Acts of 1890, entitled "The Election Act of Eighteen Hundred and Ninety," or any amendments thereto. The polls will be opened for the choice of the above officers at 7.15 o'clock in the forenoon, and will remain open for four hours at least, and for such longer time as the majority of the voters present shall by vote direct, not later than the hour of sunset.

The meeting was called to order by S. K. Hamilton, Esq., Chairman of the Board of Selectmen. Prayer was offered by Rev. R. W. Wallace. The chair announced the following appointments :

Tellers, to count the votes : William W. Taft, Ashton H. Thayer, Albert W. Flint, George W. Kimball, E. E. Emerson, Chas. E. Walton, Chas. S. Emerson, Jr., J. Clarence Oxley, James A. Hickey and Thomas Hickey.

On Check List: L. E. Howlett, J. Wallace Grace, Chas. W. Locklin and Richard J. Cuff.

Ballot Clerks: Ezra M. Southworth, J. Fred Parker, Chas. A. Dean and Cornelius Donovan.

To work the Ballot Box: W. W. Bessey and Hoyt B. Parker.

All of above sworn in by S. K. Hamilton, Esq.

At 7.15 o'clock the chair declared the polls open for reception of ballots.

It was voted to close the polls at 4.20 P. M.

The tellers began to count ballots at 8.30 A. M. At 4.20 P. M. the polls were closed, and the Chairman at 11.40 P. M. announced the

Shall the proposed amendment to the constitution abolishing the property qualification for the office of governor be approved and ratified? Yes, 566 ; No, 211 ; Blank, 695.

The total number of votes cast in this election was 1472.

At 7 o'clock of the same evening the Chairman read that portion of the Warrant relating to town business.

ARTICLE 1. To choose a Moderator to preside at said meeting.

S. K. Hamilton, Esq., was elected Moderator.

VOTED. That this meeting, so far as relates to town business, be adjourned to Monday evening, Nov. 14, 1892, at 7.30 o'clock.

ADJOURNED TOWN MEETING, NOV. 14, 1892.

The meeting was called to order by the Moderator.

ART. 2. To see if the town will appropriate the sum of fifteen hundred dollars for the purchase of land and the erection thereon of a hose house, in that part of Wakefield called Greenwood, the appropriation to be expended under the direction of the Selectmen, Engineers of the Fire Department and President of the Greenwood Improvement Association, or what they will do about it.

VOTED. \$1,500, as called for, to be expended as above indicated.

A motion to reconsider the vote was lost.

ART. 3. To hear and act upon the report of the committee appointed April 13, 1891, under Article 25 of the annual town warrant, relative to the obtaining of land for a new burying ground, appropriating money therefor, or what they will do in relation thereto.

The committee reported as follows :

The committee to whom was referred at the annual Town Meeting held April 13, 1891, Articles 3 and 4 in the Warrant for the Town Meeting, held August 4, 1890, with instructions to advertise for proposals for land for a new burial ground, herewith submit their report as follows ;

“The articles referred to the Committee are as follows : Article 3 : To see if the town will vote to prohibit the further use of the old Burial Ground for burial purposes, except the use of the Town tomb for temporary deposit, or what they will do in relation thereto. Article 4 : To see if the town will choose a committee to investigate and report upon the best location for new burial grounds, or what they will do in the premises.

The committee find that on April 4, 1887, the town voted that the westerly portion of the Old Burying Ground be not used hereafter for burial purposes. We also find the easterly portion of the said burying ground has no vacant lots, so that the town is now without a burial ground and needs to take action to provide one in accordance with the law of Section 9, Chapter 82 of the Public Statutes, which is as follows :

Each town and city shall provide one or more suitable places for the interment of persons dying within its limits.

Therefore, in regard to Article 3, your committee recommend that the town prohibit further burials in the Old Burial Ground on Church street, with the exception of the use of the tomb, as a temporary deposit, and also those who have tombs and vacant lots which have already been granted to them.

In regard to Article 4, as to a location for the establishment of a new burial ground, your committee advertised, as instructed, for proposals for land for a new burial ground and received only proposals for three lots—one suitable lot of 4 acres on Salem street for \$900, which has since been sold ; one of some 10 acres of back land in rear of New Salem street, and belonging to the Salem branch of the B. & M. R. R., for \$2,000, which has also since been sold, and a lot of 5 or 6 acres on the easterly side of Wiley street, for \$1,200.

But the committee would recommend that the town make use of land that they now own on Nahant street, now used only as a pasture. There are about 17 or 18 acres in the whole pasture, about one-half of which, the easterly side, 8 or 9 acres, is more suitable for the pur-

pose than any lot offered, and would recommend that the same be laid out in lots for burial purposes, as provided in Chapter 264 of the Legislative Acts of the year 1890; to be sold to the citizens of this town at a price that shall cover their proportional cost of land and expenses attending the laying out of lots, grading and other necessary expenses."

Respectfully submitted,

(signed) JOHN A. SANBORN,
WALDO E. COWDREY,
JACOB C. HARTSHORNE,

Committee.

VOTED. To accept the report.

VOTED. To refer back to committee, with instructions to look for another piece of land and report at the next annual town meeting.

ART. 4. To hear and act upon the report of the committee on sewerage, appointed at the annual town meeting in March, 1892.

The Committee reported in print, the same having been distributed about town.

VOTED. To accept the report as printed.

VOTED. To lay this article on the table.

ART. 5. To see if the town will petition the next Legislature for authority to issue sewerage bonds, notes or script to an amount not exceeding \$90,000, and appoint a committee to present the same and report at or before the next March meeting, or what the town will do about the same.

ART. 6. To see if the town will adopt the plan for a system of sewerage recommended by the Committee on Sewerage in their printed report, dated Oct. 19, 1892, as outlined in the report of their engineer, or what they will do about it.

VOTED. That subject matter of these articles be laid on the table.

ART. 7. To see if the town will grant the free use of the town hall for two evenings, in aid of the Wakefield Home for Aged Women.

VOTED. On motion of J. F. Emerson, that the free use of the Town Hall be granted two evenings as requested.

ART. 8. To see if the town will appropriate the sum of one hundred and fifty dollars to erect a substantial fence between the dwell-

ings of the Russell Seaver estate and between the houses of Mr. R. Kendrick and Mr. Wm. Darling, on the east side of Main street, Greenwood, and on the west side of same street between the railroad bridge and the Isaac Green estate, or what they will do about it.

VOTED. To refer to the Road Commissioners and that \$150 be appropriated.

VOTED. To take Article 4 from the table and to recommit to same committee with instructions to print an additional number of reports to supply every voter with a copy in portions of town where the original edition was not distributed.

VOTED. That when this meeting adjourns, it be for three weeks from date at 7.30 o'clock P. M.

ART. 9. To see if the town will change the name of Morrison avenue to Morrison road, or what they will do about it.

VOTED. To lay on table.

ART. 10. To act upon the report of the Committee on By-laws.

This report was amended by W. F. Young as follows :

No street constructed through private lands shall be accepted by the town as a public highway until it is well graded and made safe and convenient for travel. The condition to be determined by careful and thorough inspection by the proper authorities.

This amendment was carried.

A further amendment was made by the same gentleman as follows :

No action of the town, as expressed by vote at any regularly called and lawfully organized meeting, shall be set aside, or made void, unless overruled by some court of competent jurisdiction ; and any officer of the town refusing, or neglecting to execute the will of the town thus expressed and duly recorded, shall be deemed guilty of misdemeanor, and subject to penalties therefor.

After some discussion it was voted to lay the subject matter of By-laws on the table.

ART. 11. To see if the town will locate and erect a fire alarm box at the corner of Summit avenue and Adams street.

VOTED. That the Board of Engineers be instructed to locate a box as desired.

ART. 12. To see if the town will appropriate an additional sum of money for fire department expenses.

VOTED. \$525 additional.

ART. 13. To see if the town will appropriate one thousand dollars additional for the support of the poor.

VOTED. \$1,000 additional.

ART. 14. To see what action the town will take in relation to the claims of the trustees of the estate of Burrage Yale for land taken to widen Church street.

VOTED. To lay on the table.

ART. 15. To see what action the town will take in relation to celebrating the two hundred and fiftieth anniversary of the settlement of the town.

Chester W. Eaton, Esq., made the following motion, which was carried :

“Whereas the 250th anniversary of the incorporation of ancient Reading, including the territory in these the present limits of Wakefield, Reading and North Reading, will occur in the year 1894.

And whereas the first settlement of this territory was in what is now the centre of Wakefield, and for that reason it would seem appropriate for this town to suggest to the towns of Reading and North Reading the propriety of a joint recognition and celebration of such anniversary. It is

VOTED. That it is deemed proper and desirable that the notable historical anniversary be suitably observed and celebrated ; and that the Selectmen be instructed to confer with the Selectmen or any accredited representatives of Reading and North Reading in relation to such observance and report to the town at a subsequent meeting.

VOTED. To adjourn for three weeks, at 7.30 P. M.

ADJOURNED TOWN MEETING, DEC. 5, 1892.

The meeting was called to order by the Moderator.

ART. 16. To see if the town will petition the next General Court for authority to purchase and operate that part of the property

of the Citizens' Gas Light company of Reading, South Reading and Stoneham in the towns of Reading and Stoneham and also to manufacture gas and electric light for said towns, and the inhabitants thereof, and also for authority to supply electricity for power, or what they will do about it.

VOTED. That the Selectmen be authorized to petition the next General Court, etc., as asked for in the article.

ART. 17. To see if the town will instruct the Selectmen to let the collecting of swill within the central part of the town to the lowest responsible bidder, or what they will do about it.

VOTED. That the Board of Health be instructed to let the collecting of swill etc., as asked for in the article.

VOTED. To take up Article 11.

VOTED. To reconsider the action taken at previous meeting. No further action taken.

ART. 18. To see if the town will pay Joseph Connell one hundred and twenty-five dollars for land taken in defining the bounds on Vernon street, by order of the County Commissioners, Oct. 18, 1887, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 19. To see if the town will appropriate \$100 to build a sidewalk on the easterly end of Lawrence street.

VOTED. To indefinitely postpone.

ART. 20. To see if the town will place a light on Lowell street, opposite the residence of Mr. Charles Gorham, or what they will do about it.

VOTED. To indefinitely postpone.

ART. 21. To hear and act on reports of the Road Commissioners on laying out various town ways, as follows: (1) from Chestnut street to Summit avenue, Stoneham town line and Prospect street, in three sections, to be called Park avenue; (2) from Chestnut street running southerly and westerly to Summit avenue to be named Stedman street; (3) from Stedman street, so called, running northerly, northwesterly and westerly across Park avenue to Dell avenue, so called, to be named Clarina street; (4) from Park avenue running northwesterly to Morrison avenue to be named Morrison road; (5) from Morrison avenue

and running westerly to Stoneham town line to be named Shumway avenue ; (6) from the westerly end of Shumway circle at Stoneham town line, and running northwesterly to Park avenue, so called, to be named Argyle street.

The Road Commissioners presented their report which was accepted.

C. W. Eaton, Esq., then made the following motion which was not carried :

That the report of the Road Commissioners relative to a new town way from Chestnut street to Summit avenue, Stoneham town line and Prospect street and recommendations therein contained be adopted and that said town way be accepted and allowed as Park avenue, and the sum of \$700 be appropriated for its proper grading and completion.

A motion that the subject matter of this Article be referred to a committee of seven to investigate these streets and report at the next March meeting, was not carried.

A motion to indefinitely postpone action on the subject matter of this article was carried.

VOTED. To take up Article 14.

VOTED. That the Selectmen be instructed to investigate the matter and report at the next annual meeting.

A motion to take up Article 5 was lost. 47 yes ; 78 no.

VOTED. To take up Article 27.

ART. 27. To revise and accept the list of jurors prepared and posted by the Selectmen.

VOTED. Voted to accept the list of jurors. (See page 6 of this report.

A motion to dissolve this meeting was then carried. Yes, 80 ; No, 69.

The following Articles of the warrant not being acted upon :

ART. 22. To see if the town will change the name of certain sections of Summit avenue to the names of Park avenue and Dell avenue, respectively ; and change the name of certain sections of Morrison avenue to Morrison road and Shumway avenue, respectively ; and change the name of Shumway circle to Argyle street.

- ART. 23. To hear and act on the report of the Road Commissioners on the alteration or widening of Chestnut street on its northerly side by land of Eva D. S. Clark.
- ART. 24. To hear and act upon the reports of the Road Commissioners relative to laying out Emerson street extension, Cedar avenue, Richardson avenue, Foster street, and Crystal street, and appropriate money therefor.
- ART. 25. To see if the town will appropriate money to widen Water street in accordance with the order of the County Commissioners, or what they will do about it.
- ART. 26. To see if the town will appoint a committee to investigate the advisability of the town owning its own horses for the fire and highway department, and report at the next annual town meeting.
-

TOWN MEETING, JANUARY 23, 1893.

- ART. 1. To choose a Moderator to preside at said meeting.

S. K. Hamilton, Esq., was chosen Moderator.

- ART. 2. To see what action the town will take in relation to the petition to the Legislature of N. L. Drake and others, that a portion of the town of Wakefield may be set off and annexed to the town of Melrose.

VOTED. That the town oppose the petition, and that a committee of 5 be appointed, to include the Selectmen, to appear before the Committee of the Legislature on towns and oppose the petition. W. G. Strong and W. F. Young were appointed on the committee.

- ART. 3. To see if the town will make an additional appropriation for the Police Department.

VOTED. \$175 additional.

- ART. 4. To see if the town will make an additional appropriation for care of the Town Hall.

VOTED. \$200 additional.

The meeting was then dissolved.

TOWN MEETING, JANUARY 30, 1893.

ART. 1. To choose a Moderator to preside at said meeting.

S. K. Hamilton, Esq., was chosen moderator.

ART. 2. To see what action the town will take to protect its interests in the Saugus river and its tributaries as a source of water supply for the town. Upon request of Samuel W. Abbott, William S. Greenough and others.

Dr. S. W. Abbott made the following motion, which was carried unanimously:

“That a committee of seven be appointed by the moderator to represent the town of Wakefield at the hearing asked for by the city of Lynn with reference to the taking of the Saugus river and its tributaries ;

That this committee be instructed to present the needs of the town with reference to the question of water supply, with the view of preventing, so far as possible, any encroachment upon the natural rights of the town of Wakefield in the watershed of the Saugus river, and that the committee be authorized to employ counsel at an expense of not more than \$200.”

The chair appointed the following committee : Dr. S. W. Abbott, W. S. Greenough, S. O. Richardson, Thomas Winship, Richard Britton, T. J. Skinner and Freeman Emmons.

Freeman Emmons, Esq., offered the following resolution, which was carried :

“Resolved, that the editors of the two local papers be requested, if they will without expense to the town, publish a copy of all acts of the Legislature in relation to the Quannapowitt and Wakefield Water Company, and also of the contracts made by said company with the towns of Wakefield and Stoneham.”

The meeting was then dissolved.

STATISTICS

CHARLES F. HARTSHORNE,

Town Clerk.

SELECTMEN'S REPORT.

To the Citizens of Wakefield:

The Selectmen beg to submit their annual report and for a detailed statement of the financial and ordinary affairs of the town respectfully refer to the reports of the Treasurer, Auditor, and other officers of the town.

BOYNTONVILLE.

At the time of submitting the last annual report a petition was pending before the Legislature of the Commonwealth vitally affecting the autonomy of the town. Some of the citizens living in the southern part of the town, believing it to be for their interest to become annexed to Melrose, had presented their petition to the General Court asking that they might be set off from Wakefield and annexed to that town. This petition contemplated depriving this town of some three hundred acres of its territory and of many families. Upon a protracted hearing, at which one of the endeavors was to ascertain the cause of their dissatisfaction, and after a view of the premises by the Committee of the Legislature, their petition was referred to the next Legislature, which is at the present time in session. After the decision was rendered, the Selectmen invited the citizens of Boyntonville and vicinity to meet the officers of the town and see if any grievances which they had could be remedied. Accordingly, a large number of the citizens of Boyntonville met the Selectmen and other officers of the town at the Selectmen's room, where a lengthy and pleasant interview was had. They stated such matters as they thought the town should attend to in their section, the most important of which were acceded to on the part of the officers of the town

and subsequently carried out, and as we were told, to their entire satisfaction.

This winter another petition has been presented to the Legislature by others in that part of the town for a like purpose, which does not contemplate taking so large a strip of territory nor so many families.

At the time of writing this report, no hearing has been had upon this petition. A committee of the town has the matter in charge.

STREET LIGHTS.

Under the instruction of the town a contract was entered into with the Globe Gas Light Company to light a certain number of lamps during the year. For a short time these lights gave good satisfaction, being evidently an improvement upon the gas lights furnished the year before. Soon, however, the lighting power of these lamps apparently diminished and they failed to burn in some instances the contracted number of hours. The attention of the company was called to these facts by notice and refusal to pay their bills. Later in the season these defects were largely remedied.

It will be for the town to determine whether this method of street lighting shall be continued or not another year.

STREET RAILWAY.

Early in the season the Wakefield and Stoneham Street Railway Company presented its petition to the Selectmen for leave to lay its tracks on Main street from the postoffice to the Melrose line and on Water street from Main street to the Saugus line. Notice of a public hearing was given and a hearing had, at which a large number of the leading citizens of the towns were present. The company explained their plans and described the kind of plant (including tracks) which it proposed to operate. There was no opposition. The Selectmen took the matter under advisement and finally granted the prayer of the petitioner as follows :

July 11, 1892.

Town of Wakefield, in Board of Selectmen:

In the matter of the petition of the Wakefield and Stoneham Street Railroad Company for leave to extend its tracks on Main street from Albion street, Wakefield, to the line of the town of Melrose, and from said Main street to the line of the town of Saugus on Water street,

Upon the foregoing petition after proof of notice as ordered, and a hearing thereon had, this 11th day of July, A. D. 1892, it was voted by the Selectmen as follows:

That said Railroad company be and hereby are granted the privilege of extending its tracks on Main street, in said Wakefield, from Albion street to the line of the town of Melrose, and on Water street in said Wakefield from said Main street to the line of the town of Saugus, and of erecting poles and running wires in connection therewith for the purpose of constructing and operating an electric railroad as prayed for. The said privilege is granted subject to the laws of the Commonwealth of Massachusetts now in force, or which may be hereafter enacted relative thereto and subject to any use to which the town of Wakefield, as a municipality, may wish to put said streets, and also subject to the rights of the Wakefield Water Company, and the Citizens' Gas Light Company of Reading, South Reading and Stoneham in said streets.

Said company shall run its tracks in the middle of Main street from Albion to Water street, and on the easterly side of Main street from Water to Green street, and on the westerly side of said Main street from Green street to the line of the town of Melrose, and on the northerly side of Water street from Lincoln street to the line of the town of Saugus.

Said company shall complete its road to Melrose line and have the same in operation on or before Jan. 1, 1893, and to Saugus line on or before Jan. 1, 1894. In case of failure to complete said road and operate the same within the time named this grant shall become void and of no effect.

Said company shall pave with square blocks of granite the line of their tracks at a proper width from the westerly line of Main street to a point opposite the westerly side of the Miller Piano Factory, and down Main street to a point opposite the northerly side of Cutler Bros.' store, and also the crossing of Main street, near Green street, and all streets or parts of streets which have been or may hereafter be macadamized. The width of sidewalk and gutters and the exact location of said tracks, shall be determined by the Road Commissioners of the town of Wakefield.

Said company shall construct, maintain and keep that portion of said highway used by it, reasonably safe for travel, and at all times in such condition as the authorities of Wakefield having charge of the highways, shall direct.

Said company shall also, at its own expense, defend all suits brought against said town for, or on account of any injury to persons or property, on account of any alleged defect in said highway caused by said company, and hold said town harmless therefor, and shall also hold the town harmless from any injury occasioned to the fire alarm system of the town by said company.

In witness thereof the Selectmen of said town have hereto set their hands this 11th day of July, A. D. 1892.

S. K. HAMILTON,
WILLIAM B. DANIEL,
SILAS W. FLINT,

Selectmen of Wakefield.

Town Clerk's Office, Wakefield, July 25, 1892.

Acceptance of the above named location received and placed on file in this office at 8 o'clock and five minutes A. M.

CHARLES F. HARTSHORNE, Town Clerk.

This road has been completed and cars are running nearly to the Melrose line, and we have assurance that early in the present year the tracks will be laid to connect with the East Middlesex road at Melrose and with the road running to

Lynn. The operation of this road will prove a comfort and convenience to a large portion of our people.

TELEPHONE SERVICE.

During the year the New England Telephone Company have been granted slight additional rights in our streets with a view of extending and improving the telephone service in the town, which has become seriously interfered with by the railway and electric light service.

NEW BUILDINGS.

The year has witnessed the completion and occupation of the Lincoln School Building on Academy Hill. It fills a much needed place in the work of the schools, and its use demonstrates the wisdom of its plan and construction.

An ornament to the town, it reflects great credit upon the committee in charge of its construction, the architects, and the builders.

The Engine House has been substantially completed and partially occupied. The Hose House at Greenwood authorized by the town has been completed and is now in use.

CLAIMS AGAINST THE TOWN.

At the time of the last annual report the suit of Catherine Kelleher was pending against the town to recover for injuries received on account of a defective way. The alleged defect consisted in an improper accumulation of ice and snow on Main street in front of the factory of Messrs. Thomas Emerson's Sons. The case was prepared for trial and about to be presented to the jury when negotiations for a settlement were commenced, which resulted in the settlement of the case upon the payment of one hundred and twenty-five dollars.

The case of Wiley vs. Niles and Merrill, which was a suit against the Chief of Police and one of the police officers for an assault and false imprisonment was also pending. The acts constituting the alleged assault and false imprisonment

were committed by these officers in the discharge of their duty and under the express direction of the former chairman of the Selectmen. The Selectmen of last year very properly assumed the defense of the action.

This case was also prepared and reached for trial when it was disposed of by an entry of "neither party." The expense to the town was the payment of its own attorney.

The claim of Dr. Chase of Woburn for injuries received to himself and property by reason of a defect in Prospect street was referred to the Selectmen with power to act, and was settled by the payment of two hundred dollars.

There are now pending in court two cases against the town; one the claim of Mr. Albert W. Merrow of Stoneham for injuries received on account of a lack of suitable railing on the bridge on Broadway. The other is the claim of the trustees of the estate of Burrage Yale for compensation for land taken to widen Church street. The County Commissioners made no award in their decree and the trustees made application to the town for compensation. The town referred this matter to the Selectmen, who, after making a personal examination of the premises and obtaining the opinion of citizens of the town well versed in the value of real property, offered the trustees the sum of six hundred and fifty dollars to cover the damages occasioned by taking their land for the highway and also for a very small strip of land lying between the land so taken and other land belonging to the town. This offer was refused and a petition has been filed in the Superior Court for a jury to assess the damages.

PERAMBULATION OF TOWN LINE.

Upon notice from the Selectmen of Reading the line between that town and Wakefield has been perambulated and the boundary marks found to be in good condition, except the one at the junction of Summer avenue and Brook street, at which point a new monument has been placed. A new monument has also been placed on the line between

this town and Lynnfield, in place of the one which had been de-troyed.

NICHOLS FUND.

From this fund in accordance with its terms there has been paid the sum of forty dollars, as follows :

Ernest F. Hill,	\$10 00
Thomas M. S. Reynolds,	10 00
Ernest Albert Tyler,	10 00
E. S. Mansfield,	10 00

DEATH OF ALFRED H. GOODWIN.

At the last annual meeting Alfred H. Goodwin was elected one of the Town Auditors, and by arrangement with the other two at once assumed the active duties of that position, which he discharged with conspicuous fidelity and ability to the time when he was stricken with the disease which shortly proved fatal. Mr. Goodwin possessed a rare grasp of municipal affairs for one of his years, and quickly comprehended the duties of his position in general and detail. By his business methods, courteous bearing and warm heart he readily won the respect and affection of those with whom he was brought in contact. His death was a distinct loss to the town.

Mr. W. W. Taft, one of the Auditors of last year, consented to complete Mr. Goodwin's unfinished work, and was appointed Auditor in his stead by the Selectmen.

SWEETSER LECTURES.

The Selectmen invited Mr. J. C. Hartshorne to again take charge of these lectures, feeling that no one in town could so satisfactorily discharge this duty as he, with his many years' experience. But he declined and the Selectmen undertook the work themselves. The public have heard the lectures and the Treasurer's report shows the financial result.

SWEETSER CHARITY.

The Treasurer of this charity makes the following report :

Balance on hand as per last report, . . .	\$62 79
Received from interest on deposit, . . .	1 78
Received from 6th Reg. Field Day Com., . .	13 62
<hr/>	
Total, . . .	\$78 19
Distributed during the year, . . .	42 00
<hr/>	
Balance on hand, . . .	\$36 19

ELLEN S. ROGERS,

Treasurer.

The method of and the persons to whom this distribution has been made are in a measure known to us, and we heartily commend the work.

THE FUTURE.

The tax rate has reached a point which demands immediate consideration and reduction. No town can have that measure of growth and prosperity to which it is entitled with a tax rate higher than that of towns in its immediate vicinity similarly situated. A tax of \$18.50 on every \$1000 of taxable property in town is too high for this latitude. We present the following table as an object lesson to the intelligent voters of the town, with the hope that this and the following tables and statements will awaken the people to the condition of affairs and lead them to seek and apply the remedy.

The above shows the rate of taxation for the last ten years in thirty-seven cities and towns in close proximity to us and that we stand second highest in the list the past year.

Whether the town is grossly reckless in its appropriations, or grossly careless in expending the money when appropriated, or the assessors fail to find all the taxable property, this showing surely is not creditable to the town especially in the absence of any unusual or extraordinary condition of affairs.

It challenges at once the criticism of every inhabitant and

of every person proposing to become a resident or an investor here. The following table shows the assessed valuation of the town for the same years :

Year.	Personal.	Real Estate.	Total.
1883,	\$407,906	\$3,052,000	\$3,459,706
1884,	449,777	3,091,995	3,541,772
1885,	479,700	3,247,100	3,726,800
1886,	528,425	3,378,080	3,906,505
1887,	549,555	3,563,270	4,112,825
1888,	591,330	3,708,335	4,229,665
1889,	659,145	3,823,400	4,482,545
1890,	628,330	3,995,035	4,623,365
1891,	654,215	4,069,570	4,723,785
1892,	679,945	4,322,550	5,002,495

Comparing the two tables they show an increase of five dollars on every thousand of assessed valuation in the face of an increased valuation during the same time of nearly fifty per cent.

To account for this startling state of affairs in detail involves an amount of labor which we are unable to give at the present time ; but a comparison of the expenses in some of the leading departments for the last few years affords data which is useful in further inquiry. We do not make this comparison for the purpose of criticising any department, or any person who has held any official position. We do it only to afford information to guide the town in further action. The support of the poor has increased over one thousand dollars in eight years, as the following figures show :

SUPPORT OF THE POOR.

1885-6,	\$6,832 93	1889-90,	\$7,115 28
1886-7,	6,424 60	1890-1,	7,153 84
1887-8,	6,769 77	1891-2,	7,260 68
1888-9,	7,294 98	1892-3,	7,843 24

The regular appropriation for schools has increased nearly five thousand dollars in the same time :

1885-6,	\$16,160 94	1889-90,	\$16,317 15
1886-7,	16,264 66	1890-1,	18,336 45
1887-8,	16,886 00	1891-2,	19,202 24
1888-9,	17,240 38	1892- ,	21,092 34

The amount expended for highways and bridges has risen from five thousand and fifty dollars and sixty cents in 1885 to eight thousand two hundred and ninety-eight dollars and ninety-seven cents in 1892, while the expenditures from the special appropriations have jumped from \$747.97 in 1885 to \$5,903.01 in 1892.

1885.	Regular, .	\$5,050 60.	Special, . .	\$747 97
1886.	“ .	5,054 16.	“ . .	1,636 08
1887.	“ .	9,346 60.	“ . .	*9,990 93

*Includes land damage on Pleasant street.

The expense of the Fire Department not including buildings or apparatus has increased from \$1,797.64 to \$2,964.32 in the same years ; while we have made an increase of \$1400 in hydrant service during the same time.

1885,	\$1,797 64	1889,	\$3,025 94
1886,	1,875 08	1890,	2,316 15
1887,	1,695 38	1891,	2,291 86
1888,	2,035 45	1892,	2,964 32

The Wakefield Water Company is bound by its contract with the town to furnish the water and sufficient power to give adequate fire protection on the line of its pipes and with that contract carried out the town ought not to be put to further expense for power.

The above are examples which show how expenditures

have gradually crept up to the present amount and they are but examples of the expenditures in other departments.

Unquestionably these can be reduced in some instances materially, but we are firmly of the opinion that any reasonable reduction will not cure the evil of which we now complain and bring our tax rate where it legitimately belongs.

The root of the difficulty in our judgment is in the assessment. Too much of the taxable property in the town escapes the burden which the law puts upon it, and which in justice to the remainder it ought to bear. Too many people are willing that others should pay for the blessings of government which they enjoy. A most thorough and complete overhauling of our valuation lists is demanded by every consideration of justice and policy. There is no more important office in the town government than that of Assessor; none where the temptation to partiality or liability to error is greater, or of which criticism is more common or unjust; and no Board of Assessors can or will do their full duty under the law unless they have some adequate compensation and are supported by a determined public opinion. Even then all their ingenuity will be taxed and they will be compelled to avail themselves of the entire machinery of the law.

The first necessary step to be taken after the election of men of the right mettle and fixing suitable compensation, is to make provisions for a complete and perfect survey of the town to the end that every foot of the territory within our borders should be assessed, and that every parcel of land should be examined and approved by experts who are familiar with land values and who are able to fix the fair market value upon every parcel.

This work cannot be done in a single year, but in a few years it could be completed, and, judging by results in some other towns in the state, would prove a wonderfully paying investment.

TAXES UPON PERSONAL ESTATES.

It is apparent that a very large amount of personal property escapes taxation. The valuation of the personal property in town for the year 1892 was \$679,945, an absurdity upon the face of it. Death in a single instance recently uncovered over \$50,000 of personal property which for years had escaped taxation; and we are entirely confident that there are many similar cases in town and we fear nothing but the process of dooming will reveal them.

With an aroused public sentiment it will not be long before Wakefield can have a respectable tax rate.

NEW STREETS.

With the tide of growth which is fast reaching Wakefield a definite and distinct policy ought to be established in relation to the location and acceptance of new streets. It is for our own safety and in the interest of those who come to our town to improve its waste places that some policy which all may understand should be adopted. It is a matter too important to be left to be passed upon by a changing and changeable board of town officers whose interest or sympathy may be directed in favor of or against any one enterprise, or over whom the influence of friends or the solicitations of interested parties may have weight.

Ways are to be laid where public convenience and necessity require, and when there is no public there should be no way; but when there is a small public to be accommodated and prospectively a larger one, the convenience of accepted streets should be furnished at such time as the circumstances would fairly warrant, always remembering that every addition to the taxable property of the town is beneficial, and on the other hand that unoccupied lands are not purchased, laid out into lots, and buildings erected thereon purely as a matter of philanthropy. It should be the policy of the town to welcome every improvement and give it such municipal aid as a sense of justice and fairness would sanction.

Perhaps a large committee of the enterprising citizens of the town might be appointed, who would consider this important question in a sensible and business like way, and aid the town in establishing such a policy as is here outlined.

WATER.

The contract with the Wakefield Water Company for water for fire purposes will expire on the first day of December, 1893, and it will be necessary for the town to take some action looking toward a new contract.

SEWERAGE.

The plan for disposing of our sewerage presented by the committee failed to meet the approbation of the town when presented for consideration. In fact, the indications of fierce opposition were numerous and apparent. The whole question is full of difficulty.

The valley of the Saugus river is our natural course of drainage, the ocean is the natural receptacle, and to a certain extent the Saugus river its natural vehicle of transportation.

Whatever natural rights we ever had to this means of transportation have been taken from us by the city of Lynn upon her cry that she needed water more than we needed sewerage transportation—and every consideration for health demands that her water supply should not be contaminated by our sewerage. But if she deprives us in any sense of our natural rights, are we not entitled to corresponding compensation? In other words, is not the true solution of our sewerage question the organization of a sewerage district similar to the Metropolitan Sewerage District, comprising those towns and cities within this and contiguous water sheds and thus draining this section of the state? Of this expense Lynn should bear a large portion. She is reaching out today and asking the Legislature to give her all the water of Saugus river and its tributaries thus coming into our territory and asking to be allowed to take that

which by every consideration of justice and humanity belongs to us. We feel that Lynn and other cities and towns will be willing to consider this matter in a broad and comprehensive manner.

Respectfully submitted,

S. K. HAMILTON,
WILLIAM B. DANIEL,
SILAS W. FLINT,

Selectmen of Wakefield.

WAKEFIELD, Feb. 3, 1893.

Report of Forest Firewards.

During the twelve months ending Dec. 31, 1892, there have been sixty-five fires in all. Sixty have been attended by the Forest Firewards, fifty-five have been stopped by their system alone, and five assisted by the fire department, viz. :

January,	3	July,	2
February,	2	August,	3
March,	5	September,	0
April,	34	October,	3
May,	3	November,	3
June,	1	December,	1

There have been ten building fires stopped by the Forest Firewards system alone ; two in south district, two in north district, two in west district and four in centre district ; five under still and five under general alarms.

NUMBER OF FIRES IN EACH DISTRICT.

DISTRICT.	FIRES.	BUILDING FIRES.
Centre,	14	9
North,	4	3
South,	15	3
East,	7	0
West,	13	5
Woodville,	12	1
	<hr/>	<hr/>
	65	21

Total cost of sixty fires attended by forest firewards,	.	\$242 60
Average cost of each,	4 04
Average cost per man,	52
Average number of men at fires,	7
Whole number of persons working at these fires,	465

The above includes the expense of horse and wagon with loads of water to fifteen fires.

The causes of these fires are divided about equally between sparks from railroad engines, children, gunners, accidents, incendiarism and reckless setting of fires by people on their own land, which was allowed to run upon the land of others.

As an instance of the above, the cost of fires set upon the land of one man, was over fifty dollars.

The number of fires the past year exceeds those of any year since the introduction of this system of protection against fire.

Town fire appliances in charge of the Forest Firewards: 84 Johnson pumps, 60 balloon valves for pumps, 6 top valves, 6 discharge pipes, 6 tips, 5 dozen sprinkler nozzles, 125 2-gallon cans, 50 buckets and 5 water scoops.

FOREST FIREWARDS' BILLS.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen :

GENTLEMEN,—The Board of Engineers herewith present the following as their annual report of the Fire Department for the year ending Jan. 31, giving in detail the total number of alarms and fires, with their loss and insurance paid as near as can be ascertained, together with such other information as in our judgment at this time seems appropriate.

FORCE OF THE DEPARTMENT.

By vote of the Town at the last annual town meeting the Volunteer Hose Co. was made a part of the regular Department, so that the force of the Department consists, at this time, of a total of 56 men, divided as follows: One chief and two assistant engineers, one Steam Fire Engine Co., twelve men, one Hook and Ladder Co., fifteen men, one Chemical Co., six men, two Hose companies, ten men each.

There is also one Volunteer Hose Co. at Greenwood.

We have the past year reduced the number of the Chemical Co. from ten to six men, also the Steamer Co. from thirteen to twelve men, without any apparent disadvantage to either company.

HOSE.

There is in the service 4100 feet of cotton hose in good condition, 2950 feet on the several carriages and 1150 feet in reserve.

APPARATUS.

The apparatus remains the same as last year. The new Ladder truck voted for by the town during the past year has been contracted for and is ready for delivery, and when the new engine house is completed will be put in service and will be a valuable addition to the town's service.

The Hose carriage attached to the Steamer Co. is in a very unreliable and dangerous condition. It is completely worn out and in our opinion not worth repairing. It is liable to break down at any time and perhaps at just the time when most needed. We would

earnestly recommend a new Hose wagon, as this piece of apparatus is too important to be in its present condition.

FIRES AND ALARMS.

We have had during the past year on several occasions what at first threatened to be serious conflagrations, but by their early discovery, prompt arrival and hard work by our Department, they were fortunately checked before making much headway.

Tuesday, Feb. 2, 1892, 6.30 a. m., Box 12. Stable owned by J. R. Pow, Pine street, Greenwood. Loss on building, \$950, on contents, \$500. Insurance paid on contents, \$300, on building, \$750. Cause, upsetting of a lamp.

Thursday, April 7, 1 p. m., Box 12. Wood fire in Boyntonville.

Saturday, April 9, 5.50 a. m., Box 23. Slight fire in the house owned by Mr. Butler on Lake street. No damage.

Saturday April 9, 9.25 p. m., Box 41. House and barn owned by the Wakefield Building Association on Vernon street. Loss on house, \$350, on barn, \$350. Insurance on house, \$350, on barn, \$250. Cause, incendiary.

Sunday, April 10, 6 p. m., Box 15. Old Upper Depot, Railroad street. Loss about \$25. No insurance. Cause, spark from a locomotive.

Monday, April 11. No alarm given. Fire in the storehouse on the Lucius Beebe estate. Loss on building, \$700, on contents, \$600. Insurance on building, \$700, on contents, \$306. Cause, unknown.

Saturday, April 16, 4.10 p. m., Box 6. Wood fire on Nahant street.

Sunday, April 17, 8.30 p. m., Box 54. Wood fire in Montrose.

Wednesday, April 20, 4.30 p. m., Box 26. Wood fire on Elm street.

Saturday, May 7, 3.15 p. m., Box 35. Connell and Curley's block on Main street. Damage on building, \$1458, on contents, \$1245. Insurance paid on building, \$1458, on contents, \$977. Damage to Aaron Butler's block, \$65. Insurance paid, \$65. Cause, unknown.

Tuesday, June 21, 12.55 a. m., Box 35. Connell and Curley's block, Main street. Fire in the rooms occupied by Mr. John Corish as barber shop and by Miss M. E. Walsh, dressmaker. Loss on building \$155, on contents, \$105. Covered by insurance. Cause, unknown.

Thursday, Aug. 18, 5.50 p. m., Box 35. Slight fire on roof of

house owned by L. D. Bragg estate, Vernon street. Damage about \$15. Covered by insurance. Cause, sparks from chimney.

Friday, Aug. 26, 11.15 a. m., Box 31. Slight fire in the house No. 6 Melvin street owned by John Creagh. Damage small. Cause, children playing with matches.

Friday, Oct. 7, 12.20 p. m., Box 23. Old Upper Depot, Railroad street. Loss, \$175. Cause, spark from a locomotive.

Tuesday, Oct. 25, 12.45 p. m., Box 35. Slight fire on the roof of Thos. Emerson's Sons' shoe shop. No damage. Cause, spark from chimney.

Tuesday, Nov. 8, 2.15 a. m., Box 35. House corner of Water and Crescent streets, owned by Mrs. Christina Anderson. Loss, \$1118. Insurance paid, \$1118. Cause, incendiary.

Tuesday, Nov. 8, 4.55 a. m., Box 35. Centre Hotel, Water street, owned by the Wakefield heirs. Loss on building, \$1040. Insurance paid on building, \$1040. Cause, incendiary.

Monday, Nov. 14, 3.40 a. m., Box 13. Out building on estate of Mrs. Sarah Morse, Boyntonville. Loss, about \$40. Cause, unknown.

Tuesday, Dec. 20, 5.40 p. m., Box 23. Barn owned by Mr. Wm. Greany on Lake street. Loss, \$200. Cause, upsetting of a lamp.

Wednesday, Jan. 11, 1893, 8.10 a. m., Box 15. House owned by Mr. Donnelly, at the corner of Traverse and Bennett streets. Loss on building, \$300, on contents, \$100. Covered by insurance. Cause, thawing out water pipes.

FIRE ALARM.

The fire alarm was during the past year extended to the west part of the town and a box located on West Chestnut street, near the entrance of Wakefield park. We renew the recommendation of former Boards to locate a box at the corner of Vernon and Salem streets, also one at the corner of Traverse and Bennett streets. The following is the location of boxes :—

- 6, Woodville, opposite Poor Farm.
- 12, Greenwood.
- 13, Boyntonville.
- 15, Junction, near Block & Cate's.
- 23, Hamilton School.
- 26, West Chestnut street, near entrance to Wakefield Park.
- 27, Railroad street, corner Church.
- 31, Rattan Company's Office.

- 35, Post Office.
- 37, Corner Main and Salem streets.
- 41, North Ward.
- 54, East Ward.

RECOMMENDATIONS.

We desire at this time to call your attention to that part of the town west of the Boston & Maine Road, that is without any fire protection in its immediate locality. It is a section which is rapidly being built up, more so, perhaps, than any other part of the town. We would recommend the transferring of one of the Hose companies now in the centre of the town, to that locality.

By reference to the expenditures of the Department it will be seen that the expense for horse hire is getting to be quite an item. As there are several towns in the state of about our size, who own their own horses for fire and road departments to advantage, we see no reason why we could not do the same. As this question is getting to be a serious one, we are in hopes the town will, in the near future, give it their serious consideration.

CONCLUSION.

We sincerely return our thanks to the Honorable Board of Selectmen for their hearty co-operation at all times, to Chief of Police Vannah and the officers under his command for the assistance they have rendered us, to each officer and member of the Department, for their prompt and efficient manner in discharging the duty belonging to them, we are especially indebted, and to all others who have rendered us assistance we return our heart-felt thanks.

LEVI FLANDERS, *Chief*,
 . HORACE W. DALRYMPLE,
 WILLIAM E. CADE, *Sec'y*.

For expenditures see Auditors' Report.

Board of Health Report.

The Health Department of the town for the past year has been carefully managed and we are happy to say that there is nothing disagreeable to report. The health of the community has been up to its average and the death rate is much lower than last year.

CONTAGIOUS DISEASES.

There has been no severe run of contagious disease and those that have occurred have been of a mild character. The list of contagious diseases from Feb. 1, 1892, to Feb. 1, 1893, is as follows:—

Diphtheria, 5 ; Scarlet Fever, 46 ; Measles, 37 ; Typhoid Fever, 14. Many of the cases of Scarlet Fever have been reported during January of this year, there being 25 reported for that month. We do not anticipate a continuance of it, and have no reason to fear an epidemic. The usual number of cases of Typhoid Fever is 5 or 6 for the whole year, and to have 14 reported indicates that the cause of the epidemic of 1891 still exists.

The appearance of contagious disease in a community fills the souls of parents with fear and trembling and the anxiety that attends its presence causes many a sleepless night among householders. There is good cause for alarm too, for sad experience has taught that no epidemic comes without the black mark of mourning being left on some house and a vacancy made that can never be filled.

The history of contagious disease is the history of sorrow, inconvenience and expense. This is all known and understood by the people and yet we have year after year a run of some kind of disease that is unnecessary and preventable. It will seem to most people a bold statement to say that epidemics of Scarlet Fever, Measles, etc., are as avoidable and uncalled for as a run of Asiatic Cholera, but it is nevertheless true. Were the same precautions taken to prevent contagion in the former as are taken in the latter, we would be subject to it just as unfrequently. The diminution in the number and severity of cases at present compared with those in the past will prove this, and it will be seen more clearly in the future when the

public are educated to a more active knowledge of contagion. The principal reason for the spread of these diseases is the carelessness and indifference of those who have charge of the sick person, and often the neglect to use even ordinary means to prevent conveying the disease germs to the well.

Where a case of contagious disease occurs the attending physician is always careful to give instructions as to isolation, disinfection, etc., the health authorities placard the house to warn the public of the danger, and then it is expected that the family of the patient will simply follow the instructions given and use ordinary care and judgment, consulting the medical attendant or health officials when in doubt.

The physician cannot be with his patient all the time neither should the health officer have to be present continually to see that the regulations are carried out; so the responsibility for the spread of the disease must and does fall upon those who have charge of the sick person.

DEATHS.

The causes and number of deaths from each for 1892 are as follows:—

Consumption,	12	Bronchitis,	3
Heart disease,	11	Chronic Gastritis,	3
Apoplexy,	9	Old Age,	3
Still Birth,	8	Congestion of Lungs,	2
Meningitis,	7	Acute Nephritis,	2
Pneumonia,	6	Dysentery,	2
Cholera Infantum,	5	Typhoid Fever,	2
Bright's Disease,	4	Marasmus,	2
Bronchial Pneumonia,	3	Croup,	2
Cancer,	3	Softening of Brain,	2
		Inanition,	2

Tumor of Bowels, Entero-Colitis, Pertusis, Peritonitis, Duodenal Ulcer, Alcoholism, Gastro-Enteritis, Surgical Exhaustion, Abscess, Anaemia, Asthma, Aortic Aneurism, Paralysis Agitans, Rupture of Blood-vessel, La Grippe, Hematemesis, 1 each.

HEALTH INSPECTOR.

During the summer it was thought best to determine the exact sanitary condition of the town, so as to see how much voluntary attention was paid by the people to our health regulations.

Accordingly, in August we appointed Mr. O. G. Sanborn to make a tour of the town, to visit and inspect dwellings and premises, to determine all sources of nuisances, keep a record of the same, and report daily to the health officer.

This was in addition to the regular work performed by Mr. Vannah and the inspection was made during the hottest time of the year, when there was most danger from nuisances.

After our experience with Typhoid Fever last year we desired if possible to prevent a return of the disease during the fall months of the year, and ordered the Inspector to be very strict and thorough in his work, and to see that every nuisance or possible cause of sickness was immediately abated. The results showed the value of the work done and we would recommend that it be repeated next year. The town as a whole was found to be in a very fair condition and it was evident that an effort was being made to comply with our rules and to keep premises in a proper sanitary state. Still there were places that were no credit to the owners and many of them in the heart of the town. One of the worst places visited was in the rear of a business block on Main street. The Inspector's report shows that 850 places were visited, 12 written notices to abate served, besides numerous verbal ones, and four new cesspools ordered built. The work as done by Mr. Sanborn was faithfully attended to and the regulations strictly enforced.

THE GAS COMPLAINT.

In October a petition signed by six reputable citizens was presented to the Board complaining that "the exercise of the trade or employment of manufacturing and selling gas as carried on by the Citizens' Gas Light Company of Reading, South Reading and Stoneham is a nuisance," etc., and that it put in jeopardy the lives of the inhabitants, and praying that it be forbidden within the limits of the town.

This complaint was of such a serious nature that we decided to inspect the works of the Gas company, and also give a public hearing so that both complainants and representatives of the company might be heard on the matter. An inspection of the works showed no nuisance and as far as we were able to judge the manufacture of gas was properly conducted. At the hearing nothing was brought out to substantiate the complaint and accordingly it was dismissed.

SEWERAGE.

This Board has no new suggestions to make on the sewerage ques-

tion as it is practically settled and awaits only a vote of the town to commence construction. The whole matter has been carefully gone into on two separate occasions, plans have been drawn after a careful survey of the town, and all the preliminary work done. There seems to be but one plan of disposal suitable to the conditions found in the town, and that is advised by the best sanitary authority in the state, the State Board of Health, and by all the engineers who have considered the matter. There is no question about obtaining the consent of the Legislature to raise money to put in the plant, and it now rests with the citizens themselves as to when they will have the town properly sewered.

COLLECTION OF SWILL.

At the fall town meeting a vote was passed instructing the Board of Health to let the collection of swill within the limits of the town to the lowest responsible bidder. Bids were advertised for and we received six, varying in amount from \$495 to \$800. The bids were considered and the award made, but no further action was taken as we found the town had made no appropriation for this purpose, and there was no regular appropriation that it could be drawn from. We decided to let the matter rest until the annual town meeting when we will ask the town to make an appropriation to cover the amount named by the successful bidder.

Respectfully submitted,

J. C. OXLEY, *Chairman*,
J. A. O'LEARY, M. D., *Secretary*,
A. L. VANNAH, *Health Officer*.

February 1, 1893.

REPORT OF APPROPRIATION COMMITTEE.

The committee after due consideration of the various matters brought before them would respectfully recommend the following appropriations for the next financial year :

Support of Schools,	\$21,750 00
School Contingent Fund,	1,000 00
School Text Books and Supplies,	1,250 00
Poor Department, income from Farm,	5,000 00
Fire Department,	2,900 00
Street Lamps,	3,000 00
Town House Expenses,	2,000 00
Highways and Bridges,	5,000 00
Concrete Sidewalks and Crossings,	500 00
Repair Concrete Sidewalks and Crossings,	500 00
Salaries of Town Officers,	2,775 00
Police Department,	1,000 00
Night Watch,	1,800 00
Miscellaneous Expenses,	6,500 00
Beebe Town Library, the dog tax,	300 00
Public Reading Room,	175 00
Common and Park Expenses,	500 00
Special Appropriation to Macadamize Main street,	2,000 00
Total,	<hr/> \$57,950 00

The recommendation of salaries for town officers is made upon the following basis of division :

Town Treasurer,	\$200 00
Town Clerk,	150 00
Board of Selectmen,	400 00
“ Assessors,	400 00
“ Overseers of the Poor,	250 00
“ School Committee,	250 00
“ Road Commissioners,	200 00
“ Auditors,	115 00
“ Registrars,	110 00
“ Fire Engineers,	75 00
“ Forest Firewards,	75 00
“ Board of Health,	50 00
“ Tax Collector,	500 00
<hr/>	
Total,	\$2,775 00

The Committee recommend after fully considering the needs of the Fire Department that there should be but one paid Engineer on the steamer Lucius Beebe, thereby making a saving of one hundred dollars to the town.

The Committee has held four meetings and conferred with the different town officers and beg to submit this report.

TREASURER'S REPORT.

To the Citizens of Wakefield :

I herewith present my report of matters connected with the Treasurer's department for the fiscal year closing Feb. 1, 1893.

TRUST FUNDS.

EZRA EATON BURIAL LOT FUND, \$100.

This fund was a gift to the town March 2, 1857, the income of which is used at the discretion of the Board of Selectmen to keep in repair the burial lot of the late Ezra Eaton.

The sum of \$3 has been expended in the care of the lot during the past year.

THE FLINT MEMORIAL FUND, \$1,000.

This fund, from Mrs. Harriet N. Flint, is for the benefit of the Beebe Town Library, the interest thereon to be expended in the purchase of books.

The sum of \$60 as interest one year to Feb. 1, 1893, has been credited to the Library Account.

DR. F. P. HURD LIBRARY FUND, \$2500.

This fund is for the benefit of the Beebe Town Library, and is invested in coupon notes of the town of Wakefield, bearing interest at the rate of four per centum per annum.

C. WAKEFIELD LIBRARY FUND, \$500.

This fund is also for the benefit of the Library, and is invested in the same manner as the Dr. Hurd Fund.

JONATHAN NICHOLS TEMPERANCE FUND, \$1,000.

This fund was a gift to the town on certain conditions as described in the vote accepting the same. The conditions are such that any young man of our town, who files his name with the Town Clerk, before he is sixteen years of age, and declares his intention not to drink intoxicating liquors, and not to smoke or chew tobacco, until he shall become twenty-one years of age, and shall have kept his

pledge until that time, shall receive from the income of the fund the sum of ten dollars, together with a certificate of commendation from the Selectmen.

The records of the Town Clerk show that 338 young men have thus pledged themselves and the Treasurer has paid the fee to four young men the past year who have arrived at the age of twenty-one years, and certified that they have kept their pledge, making a total of twenty-five since the fund became operative.

STATEMENT OF INTEREST.

Balance available at last report,		\$181 66
Interest on fund and balance to Feb. 1, 1893,		47 25
Total,		<u>\$228 91</u>
Paid Edward S. Mansfield,	\$10 00	
Ernest F. Hill,	10 00	
Thomas M. Reynolds,	10 00	
Ernest A. Tyler,	10 00	
	<u>40 00</u>	
Balance available,		<u>\$188 91</u>

C. SWEETSER BURIAL LOT FUND, \$1,000.

The income from this fund is to be used in keeping in repair and beautifying with flowers and shrubbery the burial lot of the parents of the donor. The principal is on deposit with the Wakefield Savings Bank.

STATEMENT OF INTEREST.

Balance available at last report,		\$321 62
Interest on above to Feb. 1, 1893,		12 86
Interest from Wakefield Savings Bank to Aug. 1, 1892,		40 20
Total,		<u>\$374 68</u>
Expended as per Auditor's report,		<u>3 00</u>
Balance available,		<u>\$371 68</u>

C. SWEETSER LECTURE FUND, \$10,000.

This fund is now invested as follows :

Town of Attleboro 4s, due 1897, 5 Bonds \$1,000 each,	\$5,000 00
Town of Wakefield note Feb. 1, '93, on demand,	5,000 00
	<u>\$10,000 00</u>

The income from this fund for one year, \$400, has been paid to Thomas J. Skinner, Treasurer of Sweetser Lectures.

This fund is for the purpose of providing such lectures as will tend to improve the public mind. A reasonable fee for admission is required, and the net proceeds of the course are to be paid to such charitable organization in said Wakefield as the municipal officers of the town may designate, to be distributed among the worthy poor of the town.

Last year the Treasurer was unable to render a report of the sixth annual course as the lectures were not completed in season to include it. Both the sixth and seventh courses are therefore given in this report.

SIXTH COURSE, SEASON OF 1891-2.

In charge of Jacob C. Hartshorne, Curator.

LECTURES.

- Nov. 9, 1891. H. C. Hovey. "Lovely Caverns of Luray."

The Treasurer would recommend that the sum of \$4,500 be raised and appropriated for the payment of interest upon the Town Debt and for temporary loans.

It will be necessary also to provide for the payment of \$2,500 of the principal of the debt maturing during the coming year. This amount was left unprovided for by the rescinding of votes (July 22, 1889) relative to the Hamilton School House Loan and the Park Loan.

I recommend, therefore, the raising of \$2,500 for the payment of the town debt.

Other loans maturing during the year are provided for by previous votes of the town as follows :

\$4,000 Funded Loan, as voted April 2, 1888.

\$1,000 Renewal of Loan, as voted July 22, 1889.

\$5,000 New School House, as voted March 2, 1891.

These will be included in the tax levy of 1893 without further action by the town.

Of the parties named in my last report as delinquent in the pay-

ment of concrete and highway bills for the year 1890, Messrs. Peter McCulloch and Freeman Emmons have settled with the Treasurer. To this list is to be added the following names who were reported in the last Auditor's report as indebted to the town for concrete bills of 1891, and who have not yet made settlement :

William Batchelder,	\$29 43
Edward N. Sweetser,	58 16
Albert G. Sweetser,	26 66
Joseph Cartwright,	26 79

I have caused an article to be placed in the Annual Warrant to see what action the town will take in relation to these unpaid claims.

Respectfully submitted,

THOMAS J. SKINNER,

Treasurer.

JAN. 31, 1893.

OVERSEERS' REPORT.

Again has the year rolled round when it becomes the duty of the Overseers to make their annual report.

Under the efficient management of the Superintendent and his wife the farm has maintained the excellent standard which has characterized it for the past ten years.

We have built along Farm street fifty rods of substantial wire fence ; we have also put upon the house a fire escape, which became necessary as we were ordered to do so by the Inspector of the District Police.

On account of wet weather no work has been done this year toward reclaiming the meadow land along the Saugus river and therefore no muck has been obtained.

There has been one birth and one death at the house this year and there has been more sickness this year than usual owing to the advanced age of many of the inmates.

The crops have been fair and better prices have been obtained. We have received over one thousand dollars from the sale of milk. We have changed our policy somewhat on cows from former years and this year have pastured them at a small expense, rather than sell them when they dried up and buy new ones, and we are well satisfied with the result of the experiment.

In the outside department we have had more calls than usual the past year. The insane account is getting to be a formidable affair, and we have very recently had several more persons placed on our hands whose names do not appear in the itemized accounts, as the bills came to hand after closing our accounts.

The Board have engaged the services of Mr. and Mrs. Donald for another year, and they again extend to all citizens of Wakefield a hearty invitation to visit them at any time and inspect the premises.

Respectfully submitted,

HIRAM EATON,
JOHN G. MORRILL,
W. A. CUTTER,

TRUSTEES' REPORT.

The Trustees of the Town Library are again called upon by the compilers of our *quasi* town history to fill a new page of its contents, and, as usual, are expected to set forth a new and startling record of achievements in its line of usefulness.

To those of our readers whose quizzical glance scans our report only to find out how much more money we would like to squander than was accorded us last year, we cheerfully say, "pass on, friend critic; reserve your thunder for some other board of public robbers; turn the page, lest you waste your time."

To the honest critic, however, who looks not with envious eye at the *amount* we spend but *how* we expend it, we extend a friendly hand. You tell us we have 11000 books now and not more than half of them go out once a year. That may be very nearly the truth. What of that? Some of us save our newspapers and file them away after we have read them. How often do we go back to them save to ascertain if this thing was so, or that was not? Just so with the book. It was new and contained news to us once; it is so no longer.

An article of food is pleasant to the taste and nourishing to the body, live on it from day to day and it will soon become worse than a drug. A new coat is comfortable but time will wear it threadbare and it outlives its usefulness. Just so with a thousand books on our shelves, their leaves and covers battered and torn by the hand of man, like their theories and alleged facts within, buffeted and controverted by the ever-progressing mind of man, have both served their purpose and are alike discarded.

You tell us, brother critic, we buy too many novels—too much fiction. Well, we are buying for the town, for the public, for Jack and for Jill, for the student and for the boy who will not touch a book that has a yawn in it. You may spend an evening of delightful profit over Prof. Theo Rist's last essay, but you could not hire your neighbor on the one side of you nor the daughter of the one on the other to read the first chapter of it. This is an intensely busy and

hard work-a-day life of ours and four-fifths of us, when we get the time of an evening to read, haven't got the moral courage to set our minds and brains to work on something solid. We envy the other fifth but we ourselves want relaxation, and we get it in reading what other people do and think and say and how they live. Many novels of today are pictures of actual life, thought, action. We must buy what people want and call for, and we can't compel you to read what you don't fancy.

But you say, "You are not buying us books that will last and which will contain the truth for all time, like the valuable histories, works of art, books of technics, although we call for them. Why not leave out the novels and save up some of these before they get out of print and doubly valuable?" Actual questions. We reply that such books for obvious reasons cannot go into circulation, and as we have no fit accommodations for those who would consult such books we do not believe in locking up the town's money until we can see it bearing income, i. e. until the books can be conveniently consulted—when we can have quarters spacious enough to do without ladders and have consultation tables within the inspection of the librarian, then we will devote much of our money to filling this long felt and often acknowledged want. And so it goes ; we admit there is much to criticise, but come and tell us what better we can do, and we will try.

For some time past all teachers in our public schools have been allowed to take such books from the library as may help them in their work and keep them out so long as they may have need of them. Books from families in which an infectious disease has been existing are not allowed to be returned until all danger is past and they have been thoroughly disinfected. We are having our public documents, reports and the like bound and unbound, put into such shape and condition that they can be found when wanted and consulted when called for. The work involves much time and no little manual as well as mental labor together with some expense, but it is fairly under way and under the inspection of one of the most interested and painstaking of our board.

You will note that we have bought fewer books than in previous years, and that we ask for a smaller appropriation than for some time past. The reason is that we have hardly room for them on our shelves and we have no place in which to erect new ones. In the course of two or three years we shall not need an appropriation for the purchase of books.

What the town ought to have *now* for its Library is a large, well-lighted room, sufficiently spacious for its book-shelves, (no ladders) librarian's desk, tables for the papers, periodicals and magazines now in the Reading Room, as well as separate tables for the exclusive use of those wishing to consult our books of reference; all of which should be within sight of the librarian, who with an able assistant could then make our Library and Reading Room what it ought to be. Give us this and we will wait years for the palatial quarters of Woburn and Malden with only an occasional outburst of longing instead of an annual wail at being squeezed.

But to our report of the Beebe Town Library. Well, it is full—full of books, full of people, full of catalogues for sale to those who want to know what is in it.

The Public Reading Room is fairly well provided with the current literature of the day, it is well lighted and heated, poorly ventilated, the patronizers are numerous and the small boy is kept as quiet as the pay and patience of the janitor and the human nature of the boy himself can lead us to expect. Here are a few of the books we call your attention to among the year's purchases. On

Stray horses picked up and returned to owners,	5
Street obstructions removed,	17
Street lights reported out,	271
Unlicensed dogs caused to be licensed,	23

THE DEPARTMENT.

The department, as now organized, consists of a chief who also acts as day officer, two night officers and a number of special officers who draw no salaries but are paid by the hour for their services when detailed.

ROSTER.

Chief and day officer, Alvin L. Vannah.

Night Officers, James A. McFadden and Edwin F. Poland.

SPECIAL OFFICERS.

William H. Gould,	John H. Buckley,
Chas. S. Merrill,	Rufus F. Draper,
John A. Meloney,	Edgar A. Hallett,
Chas. E. Horton,	Henry L. Haskell,
Walter F. Severance.	

DUTIES OF POLICE OFFICERS.

While the public in general have an understanding of the duties of police officers, it is very probable that many citizens do not fully realize the extent of the duties required of them. It would be a difficult undertaking, however, to explain the duties in every particular, but I wish to say a few words to the townspeople on this subject with the hope that citizens may appreciate more fully the amount of work entrusted to the department. First of all an officer is expected to be at his post of duty, disre-

garding the weather or other circumstances, and there are many things on his mind of which those whom he serves are not aware. His duties are not only varied, but they are often complicated, and frequently necessitate much personal risk, yet no matter how able or faithful an officer may be, there appears to be many who fail to recognize or realize this fact. As an instance of the duties performed by officers, I desire to call attention to the miscellaneous account in which the statement appears that 116 places of business were found open and secured. This may seem a small item, but it is of great significance, as nearly all the places were stores, and all of the cases occurred in the night, therefore many larcenies may have been prevented.

ILLEGAL LIQUOR TRAFFIC.

There have been the same number of search warrants issued and served and the same number of seizures as in the previous year, but I think I can safely say that the amount of traffic in the kitchen bar rooms (so called) has been less this year than any time in the past few years. I am willing to allow the respectable citizens who live in the vicinity of such places to decide. The fact that three fourths of the persons arrested for drunkenness during the past year obtained their liquor out of town will bear me out in this statement. Sixth class licenses for the sale of intoxicating liquors have been issued to Wakefield druggists as in past years. I am aware of the criticism on the part of a few in regard to alleged illegal liquor selling in drug stores in no-license towns. I will venture to say that nine-tenths of those who criticise are unfamiliar with the law governing sales under sixth class licenses, or if they did have positive evidence of illegal sales, they would not go into court and testify. I have done all in my power to have the requirements of the existing law fulfilled. I have frequently examined the books kept for the purpose at the various stores, and in many instances have prohibited the selling of liquor to certain individuals, and I have reasons for believing that my requests are being complied with. I agree with law abiding citizens who desire to prohibit the sale of intoxicating liquor in town, but it should be borne in mind that it is no easy task to secure positive proof of illegal sales when the purchaser (and neighbors of the kitchen places) are in sympathy with the offender. Evi-

dence which to an ordinary citizen would appear sufficient to convict is often found to be of little importance in court, and for the above reasons it is hard to obtain the desired effect. As an instance of the above, a seizure was made in Wakefield the past year when nine quarts of whiskey were seized from one place at one time, and the case was lost in court, not on account of poor handling but for want of sufficient evidence that it was kept with intent to sell.

RECOMMENDATIONS.

The department has been run as economically as possible the past year. There has been an increase in the demand for police service within the past few years, which has necessitated a corresponding increase in the expenditures of the department. The appropriations for the department have been small in comparison with those of other towns of the size of Wakefield, and I would recommend a larger appropriation for the ensuing year. An appropriation of \$1,500 is needed in order to enable the department to give the attention that the public call for and expect.

CONCLUSION.

To the Honorable Board of Selectmen I extend my thanks for courtesies, and hereby acknowledge the interest which the members manifested in the department. To the night officers, each of whom have sought to promote the success of the department and have been of valued assistance to me, I extend my acknowledgements. My thanks are also due to the special officers for the willing and faithful performance of their disagreeable duties. To his Honor Judge John W. Pettengill I express my indebtedness for kindly advice and assistance, and to Clerk William N. Tyler and his assistant, Wilfred B. Tyler, I am under obligations for many favors. I have endeavored to fulfill the duties required of me and trust that I have been impartial in the performance of the same.

Respectfully submitted,

ALVIN L. VANNAH,

Chief of Police.

WAKEFIELD, February 1, 1893.

REPORT OF ROAD COMMISSIONERS.

The Road Commissioners of the town of Wakefield herewith respectfully present their report for the year ending February 1st, 1893.

At the last annual meeting the sum of \$8,000 was appropriated by the town for general purposes. Received from individuals for extra labor, etc.:

Appropriation,	\$8,000 00
Arthur Greenough, drain pipe,	7 43
Selectmen's Dept., setting lamp posts,	27 00
Engineers' Dept., setting electric pole,	1 00
Henry Davis, error in pay roll,	4 00
Grand total,	\$8,039 43

All the work on the highways has been done under the supervision of the Road Commissioners, who have received for their services while on duty, \$2.50 per day. Laborers were paid \$1.75 to \$2.00 per day, until June 29th; since that time \$2.00 per day (by vote of the town) for nine hours labor. The same was allowed for horse and cart, and \$3.00 for cart with two horses.

Pay roll is as follows:

LABOR ON HIGHWAY AS PER PAY ROLL.

Wm. Atherton,	\$2 00	N. H. Dow,	\$12 44
Dennis Brennan,	318 50	Thomas Dunn,	129 77

Arthur Greenough,	209 50	John Toomey,	117 30
Frank P. Hoyt,	198 34	W. M. Ward,	299 04
J. G. Hunt,	8 00	D. C. Wright,	57 19
George H. Hathaway,	13 00	Andrew Young,	354 69
Charles Keene,	2 00		

The streets receiving the largest expenditure are as follows :

Main Sreet,	\$2,792 62
Railroad Street,	1,727 26
Main Street, (Greenwood)	743 63
Spring Street, (Boyntonville)	482 32
Greenwood Street, (Boyntonville)	1,091 21
Church Street,	1,385 60
Gould Street,	968 11
Nahant Street,	389 33
Prospect Street,	467 00
Albion Street,	221 58
Elm Street,	195 00
Centre Street,	196 95
Yale Avenue,	357 64
Mechanic Street,	160 95
Emerald Street,	145 00
Wave Avenue,	99 75
Hart Street,	127 98
Bryant Street,	53 40
Francis Street and Greenwood Avenue, (Greenwood)	127 25
Avon Street,	57 14
Emerson Street,	25 26
Crescent Street,	83 75
Water and Vernon Streets,	45 00
Franklin Street,	21 82

Other streets have received attention and smaller amounts expended thereon.

The road scraper has been used in parts of the town where most needed.

Cost of bank wall on Broadway, built in 1891 :

Pay roll,	\$26 25
Contract for stone work by N. H. Dow,	107 50
Contract for gravel and labor by John Toomey,	26 25
	<hr/>
	\$160 00

The above was paid from 1892 appropriation.

SPECIAL APPROPRIATIONS.

March 14. \$1500 was made for Main street. Received from sale of wood, \$17.55. Total, \$1,517.55. The sum expended was \$1,508.65.

March 14. \$1,500 was made for Church street. The sum of \$1,385.60 was expended.

March 14. \$600 was made for culverts and sidewalks (Greenwood). The sum of \$589.45 was expended.

March 14. \$200 was made for sidewalk on Hart street. The sum of \$127.98 was expended.

March 14. \$200 was made for Emerald street. The sum expended was \$145.

April 11. \$1000 was made for Gould street. The sum of \$968.11 was expended.

April 11. \$500 was made for Prospect street. The sum of \$467 was expended.

June 26. \$500 was made for Spring street. The amount expended was \$482.32.

June 29. \$100 was made for Wave avenue. The sum expended was \$99.75

Nov. 8. \$150 was made for fencing a part of Main street (Greenwood). The sum of \$129.50 was expended.

The town made no special appropriation for working the ledge for the use of the crusher, so that money had to be taken from the general fund which was needed on the streets.

CONCRETE.

At the annual meeting \$1000 was appropriated for concrete work. June 29, \$300 more was appropriated, making \$1,300.

The contract for concreting was awarded to T. Burt Pratt of Wakefield, for 54 cents per yard, and 60 cents per yard for crossings and gutters.

The sum of \$1,583.31 was expended for concrete, as per contract.

List of town property remaining in our hands is as follows :

1 road scraper, 1 road roller, 1 battery and lead wires, 11 snow

plows, 17 picks, 8 shovels, 3 rakes, 2 grub hoes, 3 crow bars, 13 drills, 3 potato diggers, 1 striking hammer, 2 sledge hammers, 1 axe, 1 hoe, 3 forks, 1 spirit level, 3 lanterns, 1 hammer, 1 saw, 1 hatchet, 2 wheelbarrows.

For further details we respectfully refer you to the Auditors' Report.

Respectfully submitted,

HENRY DAVIS,

WINDSOR M. WARD,

SOLON WALTON,

Road Commissioners.

Report of Superintendent of Stone Crusher.

To the Honorable Board of Road Commissioners:

GENTLEMEN,—Having been appointed by the board to take charge of the stone crusher, ledge, etc., April 1st, 1892, and with instructions to keep a correct account of the cost of crushed stone, I submit the following report :

My first object after taking charge of the stone crusher was to obtain a first class engineer and a man to run the steam drill. I had no trouble in securing the services of an engineer, but was unable to obtain the services of a competent man to run the steam drill. After writing several letters and waiting ten days, or more, and not obtaining one, I decided to put the engineer on to the steam drill, and placed myself in his position (while he was running the drill). Of course there was a great deal for us to learn, but I was determined to start the works running, and they ran all right until the foundation of the crusher began to give away. We at once made an examination and found as the frost came out of the ground the crusher began to shake. The examination proved that the foundation had been placed on top of the soil and very near the surface, and the crusher had settled four and three-quarters ($4\frac{3}{4}$) inches. We then built a new foundation by digging out about three feet of earth and made one of good stone.

I am satisfied the crusher is located in the wrong place to crush stone the most profitable way for the town.

As now located, the crushed stone has to be handled three times before it reaches the street to be macadamized, which has cost thirty (30) cents per ton to handle, that should not with the crusher in the proper place.

The amount of stone crushed, 1,068 1-2 tons

Used as follows :

Railroad Street,	566	tons
Yale Avenue,	33	"
Main Street,	454	1-2 "
Water Street, and on hand,	15	"
	<hr/>	
	1,068	1-2 tons

COST OF STONE CRUSHED.

Pay roll,	\$1,353	28
Coal,	77	59
Dynamite, fuse, caps, wire, etc.,	57	82
Lumber,	105	74
Sharpening drills, tools, etc.,	101	28
Hardware, tools and oil,	23	32
New set of jaws and screen,	24	71
Repairs on engine,	8	60
Repairs on chutes for crushed stone,	5	26
Twenty-five railroad sleepers,	1	50
Weighing crushed stone,	33	33
Expressing,	3	23
	<hr/>	
	\$1,795	66

Total cost, \$1,795.66, or about one dollar and sixty-eight (\$1.68) cents per ton.

In my opinion there should be deducted from the above cost the following items :

One-half of the lumber bill (as the lumber is on hand and ought to be worth one-half it cost),	\$57	87
The cost of <i>new</i> foundation for crusher,	15	50
The bill for new set of jaws and screen for crusher,	21	00
Cost building bins for crushed stone,	24	71
	<hr/>	
	\$119	08

With this amount deducted the cost of crushed stone would be reduced to about one dollar and fifty-seven (\$1.57) cents per ton. And with the saving of handling, (thirty cents per ton) it would make the cost about one dollar and twenty-seven (\$1.27) cents per ton.

RECOMMENDATIONS.

I would recommend that the crusher and all of the machinery connected with it be removed down on a level with the street, for the following reasons :

First, (and above all other reasons)—That a thirty (30) feet more face can be added to the ledge, which means less cost of getting out and hundreds of tons of stone saved, which is lost by the crusher being on the hill.

Second—That there be elevators connected with the crusher so as to take the crushed stone, as fast as crushed, carry and drop it into bins built so that a cart can be placed under them and loaded with little or no expense, saving thirty (30) cents per ton, which it now costs for moving from crusher chutes to storing bins.

Third—If the crusher was down near the street all of the small boulders from gravel pits and taken from the streets, could be carted to the crusher and crushed, thereby saving the cost of quarrying, which is quite an item.

WINDSOR M. WARD,

Superintendent.

NOTE.—In the recapitulation on page 145, the items of Janitors' Services and Fuel Account should read: \$1,514.50 and \$2,469.74, respectively.

NOTE.—The sum of \$525 was voted Nov. 8, 1892, for the Fire Department, instead of \$500, as stated in the Auditors' report.

AUDITORS' FINAL STATEMENT.

From March 17, 1892, to Jan. 26, 1893, the Selectmen have drawn 1,309 orders on the Treasurer, representing \$98,963.21. We have examined the vouchers for these payments, and our report upon them will be found on pages 142 to 184, arranged in the departments to which they belong.

Our final balance sheet (page 185), shows a total expenditure of \$107,203.81, which includes \$8,164.63 disbursed directly by the Treasurer for town debt and interest, and Library and Reading Room payments; and also \$75.97 disbursed by the Fish Committee. We have verified the receipts of such departments as pay money to the Treasurer; we have examined the books of the Collector of Taxes and of T. J. Skinner, Treasurer of the Library and Reading Room, and find them correct. See pages 112 and 113.

We have also examined the accounts of Mr. Skinner as Town Treasurer and find them correct, as shown on pages 110 and 111; with the proper vouchers for all receipts and payments; and that he has a cash balance of \$757.71 on deposit in the National Bank of South Reading. We also certify that he has securities and deposits representing the C. Sweetser Lecture Fund, Burial Lot Funds and Library Funds. (See pages 99 to 104.)

The Board is called upon to record the death of one of its members, Alfred H. Goodwin, which occurred on the 12th day of January, 1893. In his death the town loses an efficient officer; and each member of the board feels an individual loss. He had proved himself earnest and proficient in his work; and was a young man of more than ordinary capacity and ability. Our sympathy is extended to his family.

Respectfully submitted,

EVERETT W. EATON,
CHARLES E. WALTON,
*WILLIAM W. TAFT,

Auditors.

WAKEFIELD, Feb. 14, 1893.

*Appointed by Selectmen Jan. 12, 1893.

Report of the School Committee.

The Public Statutes of Massachusetts require the School Committee annually to “make a report of the conditions of the public schools, which report shall contain such statements and suggestions in relation to the schools as they (the committee) deem necessary or proper to promote the interests thereof.”

Believing that a more general knowledge on the part of parents regarding some of the laws of our state relating to matters which frequently come before the committee for settlement, may be of interest and result beneficially to all concerned, we herewith give a few extracts from the last annual report of the State Board of Education.

“Section 1 of chapter 44 of the Public Statutes imposes upon the teachers of the public schools the duty of instructing their pupils in good behavior. The Constitution of the State makes it the duty of all institutions of learning to train those committed to them in the practice of every virtue. To attain these ends it is necessary that a wise government over the pupils shall be uniformly and persistently maintained. The teacher is therefore vested with the authority of the parent in the control of the children in their relations as pupils of his school.

1. In the school room he has exclusive control of his pupils, subject only to the direction of the school committee.

2. He may rightfully exercise the same full control over his pupils at any time while they are on any part of the school premises.

3. While the pupils are on their way to and from school, the authority of the teacher may be considered as concurrent with that of the parent or guardian. If the pupils in coming to school or in going from it to their homes, commit an offence against the civil laws, it will be well to leave the offenders in the hands of judicial or parental authority. But if the children quarrel on their way, or are willfully tardy, or use indecent and profane language,

or in any way by their conduct injure the good order and discipline of the school, the teacher may take notice of such conduct by subjecting the offender to such wise and judicious treatment as will have a tendency to prevent a repetition of the offence. In such cases the teacher should exercise great caution not to use any doubtful authority, or any questionable modes of correction."

SCHOOL HOUSES.

Sec. 46 of Chapter 43. Every town not divided into school districts shall provide and maintain a sufficient number of school houses, properly furnished and conveniently located for the accommodation of all the children therein entitled to attend the public schools; and the school committee, unless the town otherwise directs, shall keep such houses in good order, and shall procure a suitable place for the schools, where there is no school house, and provide fuel and all other things necessary for the comfort of the scholars therein, at the expense of the town. A town which for one year refuses or neglects to comply with the requirements of this section shall forfeit not less than five hundred nor more than five thousand dollars, to be paid, apportioned and appropriated, as provided in sections nineteen and twenty.

CENSUS OF SCHOOL CHILDREN.

Chap. 46, Sec. 4. Whoever having under his control a child between the ages of eight and fourteen years, withholds information in his possession, sought by a school committee or its agents for the purposes of the preceding section, or falsifies in regard to the same, shall be punished by fine not exceeding twenty dollars, or by imprisonment not exceeding thirty days.

CHILDREN BETWEEN 8 AND 14 YEARS OF AGE MUST ATTEND SCHOOL.

"Every child *must* be in school for at least twenty weeks of the year, from the time he is eight until he reaches the age of fourteen years. It is not to be assumed, however, that the legal rights of children are limited by the Statutes in regard to the time of attendance. The school committees have authority vested in them of admitting pupils to the schools before they are eight and after they are fourteen years of age. But it is the imperative

duty of the truant officers of a town, acting under instructions from the school committees, to secure the attendance of all children between the ages of eight and fourteen years upon some approved school for at least twenty weeks in every year."

WHEN CHILDREN MAY ATTEND IN ADJOINING TOWN.

Sec. 6. "Children living remote from any public school in the town in which they reside may be allowed to attend the public schools in an adjoining town, under such regulations and on such terms as the school committees of said towns agree upon and prescribe; and the school committee of the town in which such children reside shall pay the sum agreed upon out of the appropriation of money raised in said town for the support of schools."

CONVEYANCE OF PUPILS.

Chap. 132 of the Acts of 1869 provides "that any town in the Commonwealth may raise by taxation or otherwise, and appropriate money to be expended by the school committee in their discretion, in providing for the conveyance of pupils to and from the public schools."

PUPILS MUST BE VACCINATED.

Sec. 9. "The School Committee shall not allow a child who has not been vaccinated to be admitted to or connected with the public schools.

CONTAGIOUS DISEASES.

Chap. 198 of the Acts of 1885, provides "that the School Committees shall not allow any pupil to attend the public schools while any member of the household to which such pupil belongs is sick of small pox, diphtheria, or scarlet fever, or during a period of two weeks after the death, recovery or removal of such sick person, and any pupil coming from such household shall be required to present to the teacher of the school the pupil desires to attend, a certificate from the attending physician or board of health, of the facts necessary to entitle him to admission in accordance with the above regulations."

In addition to the above the local Board of Health prescribe the following regulations:

Reg. 26. "No teacher or scholar who has been sick with small pox, diphtheria or scarlet fever, shall return to school within thirty days from the beginning of the disease, and not then till said teacher or scholar presents a certificate from the physician in charge that thirty days have passed and the disease is no longer contagious. This rule will apply to all children living in the same house and using a common passageway. Children who have been sick with measles, shall not return to school within fifteen days from the appearance of the eruption."

Reg. 27. "No scholar shall attend school while suffering from whooping cough."

PENALTY FOR DISTURBING SCHOOLS.

Sec. 23, Chap. 207, Public Statutes. "Whoever willfully interrupts or disturbs a school or other assembly of people, met for a lawful purpose, shall be punished by imprisonment in the jail not exceeding thirty days, or by fine not exceeding fifty dollars."

MALICIOUS INJURY TO BUILDINGS.

Sec. 78, Chap. 203. "Whoever willfully and maliciously or wantonly and without cause destroys, defaces, mars or injures a school house, church or other building erected or used for purposes of education or religious instruction, or for the general diffusion of knowledge, or an outbuilding, fence, well or appurtenance of such school house, church or other building or furniture, apparatus or other property belonging to or connected with such school house, church or other building, shall be punished by fine not exceeding five hundred dollars or by imprisonment in the jail not exceeding one year." By the foregoing we see

1. That teachers do have jurisdiction over pupils to and from school.

2. Towns must provide and maintain a sufficient number of school houses for the accommodation of all children therein entitled to attend the public schools.

3. A census of school children must be taken yearly, and any person withholding information, or who falsifies to the committee or their agent in regard to the same, is punishable by fine or imprisonment, or both.

4. School committees may permit pupils to attend school before they are eight and after they are fourteen, but all children from the time they are eight until they reach the age of fourteen years *must* attend school for at least twenty weeks of the year.

5. Children living remote from schools may attend in adjoining towns under such regulations as may be agreed upon by the committees of said towns.

6. Towns may raise money by taxation or otherwise to pay for the conveyance of pupils.

7. Children *must* be vaccinated before they will be allowed to attend school.

8. Children living in a house where there is any contagious disease cannot attend school for a specified time, and then only by permit from the Board of Health.

9. A penalty either by fine or imprisonment is imposed for disturbing schools, or for defacing, marring or injuring a school house or other public building.

SCHOOLS AND CHANGES.

At the beginning of the school year in September, the Lincoln school building being ready for occupancy, several changes were made in the Centre schools. The Centre First Grammar school was transferred from the third story of the High School building and the Hamilton First Grammar from the Hamilton building to the Lincoln school house. The first change was made because the Committee did not consider the third story of the High School building a suitable place for a school, especially of young children. The second change was made for the purpose of relieving the crowded condition of the West Ward. The Centre Second Primary school being much too large for one room, was divided, making two schools of this grade. Owing to the crowded condition of three other rooms it became necessary to fit up the two recitation rooms for the overflow from these schools and to provide assistants. These changes filled all the rooms of the Lincoln building.

A new school was established in the Hamilton building, consisting of the Third Grammar grades of the West Ward and Franklin street districts, both of these schools being much crowded and Miss B. I. Cooper was placed in charge of the new school.

Miss Kalaher was transferred from Woodville to the West Ward and Miss Emma Bateman was appointed to the vacancy at Woodville. There being a vacancy at the North Ward, Miss C. H. Monroe of North Reading was appointed to this position. During the summer Miss C. S. Russell resigned as teacher of the Franklin Street Grammar school and Miss F. C. Burnham of Boston was appointed, but before the opening of school in September she was obliged to resign owing to sickness in her family, and Miss E. A. Scanlan, another experienced teacher, was appointed and did very acceptable work until November when she was practically stolen from us by a neighboring town, and for the third time within a few weeks, and on very short notice, it became necessary to procure a teacher for this school. Mrs. I. T. Cornell, who came well recommended, has since had charge of the school.

This stealing of teachers by one town from another is a most unjust method of obtaining good teachers. Teachers' agencies are largely to blame, and school boards and superintendents as well as teachers themselves are not free from criticism. Teachers cannot be discharged without just cause, but they can leave when they please and the Committee must make the best of it. It is surprising that so many teachers, after having accepted a year's appointment, have no conscientious scruples, apparently, in breaking their contract. As we stated in a previous report school boards are not inclined to stand in the way of a teacher's advancement, and would seldom refuse to release them when so requested and upon proper notice, but instead of such request to have presented a peremptory resignation, is anything but agreeable to say the least.

As we have heard the same complaint from other towns the trouble must be quite general and we believe a law should be passed to remedy the evil.

We have several other cases in addition to the above, two of which particularly we wish to mention. Miss Martha Sprague an efficient teacher in the High School and Miss E. K. Nott, a very capable primary teacher were both stolen from us, not, however, by any School Committee or Superintendent, but in each case the theft was committed by a young man, each of whom previously had borne a good reputation for honesty. As in the

other cases mentioned we know of no law to prevent such thefts but while we deplore the loss of two good teachers, we can but congratulate the young men in their selection of such worthy companions for their life's journey.

Miss C. E. Emerson was granted a year's leave of absence in September and Miss C. L. Burrill, assistant in the Advanced Grammar school, was appointed as substitute for the year, and Miss L. Wilkins of Lynnfield, a graduate of our High School, and later a graduate of the Boston University, was appointed as assistant in the Advanced Grammar school.

There have been but few changes in the High School. Miss Grace Weston was appointed in March as temporary assistant to fill the vacancy caused by the resignation of Miss H. J. Folsom, an excellent teacher whom we were sorry to lose, but an increased salary with probable advancement in the Newton High School was an irresistible inducement. Miss Weston's work proving acceptable she was later appointed as permanent assistant. In our report of last year we spoke of the need of another assistant in this school and during the summer Miss F. M. Locke, an experienced teacher, was appointed, and we believe the results in the school work have justified us in making the increase.

It is of great importance and especially in a High School, that the teachers should be not only well fitted for their work, but that they should be congenial, working well together without friction, and we are happy to say that such is the present condition in our High School. The question of omitting the graduation exercises is still an open one. Teachers are almost unanimous in their disapproval of these exhibitions, a former principal pronouncing them a nuisance and wishing they might be discontinued. We believe school boards would be glad to omit them but for the fact that the public practically demand them.

HIGH SCHOOL CADETS.

The Cadets, though not standing quite so high in the School Regiment as in previous years, still hold a commendable position, and we believe would have stood higher except for circumstances over which they had no control, a rule being in force allowing schools to pick the best men from their different companies, which was manifestly unjust to the smaller schools. We are glad to learn that the Principals have rescinded this rule.

The study of military tactics in our country schools is of too recent adoption to expect perfection in all details, but one can see much improvement since the first field day in our town in 1890. Gen. Dalton believes that field work would be preferable to the present annual parade; that the boys would learn more of actual military life and tactics which would prove of real value.

High School Principal's Report.

MR. A. H. THAYER, *Chairman of School Committee,*

DEAR SIR:—At your request I again present a few thoughts in regard to the condition and needs of the Wakefield High School.

The work of the year has been a busy one, and, in general, quite satisfactory. In my report a year ago, attention was directed to the fact that more teaching force was urgently needed. This want was supplied during the spring term by the appointment of an additional assistant teacher, and the regular work of the school was put upon its proper basis. Longer recitation periods were allowed, the work was carefully arranged into departments, useful studies, for which there was no place in the crowded program of the earlier part of the year, were once more taken up, and the school was again running along smoothly and orderly. The new course, which was mentioned in last year's report, has been in operation for a year and a half, and is surely proving the wisdom of its adoption. More systematic arrangement of subjects, former courses of study properly lengthened and new ones added, supplemented by the aid of the newest and most scholarly text books, have certainly raised the grade of the school during the past two years. The amount required of a pupil for graduation today is on an equality with the best High Schools of the state. The course of study is printed elsewhere in this report, and it is not my purpose to write further in regard to it, except to speak of the College Course.

Four years are given for a student to complete his preparation for college. This requires a great amount of work during the last two years. If a pupil is in good health and is determined to

accomplish the full preparatory work, the school is ready and willing to render all the aid in its power for that end; but unless the conditions are very favorable I strongly urge that pupils spend five years in regular preparation. That amount of time is required in the best schools, and without question a better preparation, together with a strong body and a sound mind, is of more service to any student than the apparent gain of a year in time.

The higher institutions are crowding the secondary schools with more and more work. As an illustration, the Institute of Technology, in its catalogue recently issued, announces that "in June, 1894, and thereafter, applicants will be required to pass an examination in Solid Geometry or in Advanced Algebra. It is the intention of the Faculty to require both of these subjects at no distant date." Under such conditions it will be necessary for students to do extra work and for the school to find room and teaching force for two more subjects in its curriculum.

As the higher institutions necessarily set the standard for the High School, so the latter should in a measure receive as much support as possible in elementary preparation from the lower schools. A great deal is being said today at educational meetings and in our great reviews and papers about the possibility of enriching the courses of the Grammar grades by adding elementary science, language, and mathematics, studies which are continued in the High School, and weeding out much that is unnecessary for the practical use and actual needs of the pupil. Certain it is that something must be done to relieve the pressure on the four years of High School work.

Pupils who have taken the examinations to enter higher institutions, have been successful in every instance. Perhaps it is not generally known how many students from Wakefield attend higher institutions. At the present time graduates of the school are to be found in Harvard College, Harvard Medical School, Lawrence Scientific School, Boston University, Massachusetts Institute of Technology, Tufts College, Smith College, Massachusetts Agricultural College, and the Salem Normal School. One of last year's graduates, who had not taken any special work for such a purpose, and who had not informed his teachers even that he intended to seek a higher education, not only successfully entered college last fall, but even passed the first year's examination in one course of science, the only member of the class to do

it. These facts are mentioned in no spirit of self-praise but as a just statement of the exact work of the school.

The work of a teacher is of so peculiar a nature, that it often brings discouragements, due to the fact that he can not see any marked results of his work from day to day. In fact some days it seems as though pupils had lost what had been gained in previous lessons. At such times the schoolmaster envies the rattan worker, who sees an artistic chair before him as the result of a few hours labor, or the builder, who, as the last sounds of hammer and chisel are heard, gazes with satisfaction at the day's advance toward the completion of some beautiful stone edifice. Therefore, the teachers of the High School were pleased recently, when Mr. McDonald, an agent of the State Board of Education, spoke in high terms of the general work in English in the school, in comparison with what he had noticed in other High Schools. Words of encouragement aid greatly when results are dimly seen from day to day.

The whole number of pupils enrolled during the year is one hundred and twenty-nine, an increase of twenty-one during the past two years. Attention must again be called to the average daily attendance of scholars. For a school showing progress in other departments, it seems strange that general attendance does not improve. Doubtless an unusual amount of sickness has been the cause of a considerable portion of absence, and yet many cases occur every week, where it seems that little or no excuse is given for failure to attend to duty. The average daily per cent. of attendance is nearly one per cent. lower than the average a year ago. I consider that school is the scholar's daily business, and that there is no more reason for non-attendance upon these duties than there would be for a young man to be asking for permission to be away from some commercial establishment. Pupils who after graduation are obliged to work throughout the year from 7 a. m. to 6 p. m., are frequently tardy and dismissed in a school session which extends only from 8.30 a. m. to 1.30 p. m. I respectfully request that the matter be given due attention by the parents of the pupils. It is not simply an annoyance to the teacher, but a great injury to the pupils themselves and a positive detriment to the best interests of the school.

The physical department of the school has been kept up to the standard of the past. The military company is still a member

of the Second Massachusetts School Regiment, which serves as a stimulus for the best efforts of the Cadets in healthful competition with other institutions. The girls in their exercises are worthy of favorable notice, although they work at a disadvantage. They are obliged to drill in the school-room, and are greatly hampered in dumb-bell exercises and in marching by the desks and other furniture of the room. Some regular system of physical education might well be introduced into the schools throughout the town. It surely should not be confined to this grade, for in many instances the body has been trained to its permanent form and condition, while in the elementary schools.

When speaking of a wide-a-wake school in a growing town, whose citizens expect as good schools as in neighboring cities, at a time, too, when the science education is making greater strides than ever before, it is unnecessary of course, to claim that the High School does not have increasing wants. Reference books are especially needed,—encyclopedias, dictionaries, and atlases. The latest and best tools are needed in the workshop in these days. Apparatus for science work wears out and must be repaired or replaced. Much has been added during the past year or two, as illustrative helps, and yet much more is needed. This may seem strange to those who have not had an opportunity to watch the swift advance of educational methods, but the keynote of the educational expert today is object lesson and experiment. Concrete illustration takes the place of abstract statement, and the school that fails to meet the issue is living in the past, not in the present.

The large room on the third floor, formerly occupied by the Centre First Grammar school, should be converted into a large recitation room or hall for immediate use. A better purpose than that, however, might be for the introduction of Manual Training. Sooner or later, Wakefield, well-known for its high class of industries, must see its way clear to put this important branch of study into its school curriculum. A splendid opportunity for a beginning is presented in the vacant room on the third floor in the High School building.

The school continues to receive presents for its walls. A fine portrait of the late Cyrus Wakefield, Esq., an appropriate gift, was presented to the school by Mrs. Harriet N. Flint; and on Columbus Day a bust of the great discoverer was donated by the entering class. The school itself has recently purchased a Miller Parlor Grand Piano to take the place of the old instrument, which had become worn-out

from service. This will be paid for from the receipts of exhibitions given by the school.

The discipline of the school was never better. The system of moral obligation and of just treatment of others has certainly gained a signal victory. The best of feeling seems to exist between pupil and instructor, and it is the endeavor of the Principal to foster this spirit.

History, science, language and mathematics are taught faithfully, it is believed, and with some success in the Wakefield High School, but grander and nobler thoughts cluster around much of each day's teaching. The nobility of high character must be emphasized, the love of justice and truth honored, and the grandeur of patriotism ingrafted into the minds of the pupils. Surely, the proper education today of the boy and girl in the Wakefield public school is a "preparation for the duties and responsibilities of life."

Respectfully yours,

C. T. C. WHITCOMB, *Principal.*

CLASS ODE.

BY ARTHUR CLINTON ANDERSON.

Now midst fragrant breath of roses,
 Comes the time to say adieu.
 At the entrance of life's journey,
 Stands the class of Ninety-two.
 We have left those years of labor
 Interspersed with pleasures rare,
 Broader fields extend before us,
 Each shall find his life-work there.

CHORUS,—Though our High School life is ended,
 And while years may intervene,
 Let us not forget each other,
 Keep the memories ever green.

In the days now gone forever,
 Patient teachers we have known,
 In the dear old Wakefield High School,
 Seeds of knowledge they have sown.
 Let us hope that in the future,
 Useful lives we all may lead,
 Lives that shall disclose rich harvests
 Gathered from this early seed.

TRUANCY.

Almost every year the committee are obliged to perform a disagreeable duty, that of committing some child to the (so called) truant school at Lowell, of which State Agent Walton, in the last annual report of the Board of Education, says, "I have some personal knowledge of the Lowell truant school, the 'House of Employment and Reformation of Juvenile Offenders,' as it is called. This school is grouped with three other city institutions—the almshouse, the workhouse or jail, and the insane asylum or asylums, one for men and the other for women, overlooked by the school. At the time of my last visit there were about 450 inmates in these various institutions, 90 of them insane. The school had 60 members; 11 of these were committed for larceny and vagrancy, 1 for drunkenness, and about 30 for truancy, though the superintendent said a third of that number probably were also charged with crime, the remaining members of the school were resident pupils, 'pauper children,' as the principal called them, 10 males and 8 females." Continuing, the principal says, "the membership of this school in all the years I have been identified with it has been composed of truants, vagrants, thieves and paupers and yet," says Mr. Walton, "this is the place assigned by Lowell and thirteen other Middlesex towns as the place for their children who run away from school." He recommends that the County Commissioners exercise the authority vested in them by law and provide a county truant school. One town "after twelve years' experience, concluded to trust her truants to the street and to the home, poor though it be, rather than send them here." Of the two plans, of sending them to this "House of Employment and Reformation of Juvenile Offenders" or of trusting them to our own streets, it is a question if the latter course would not produce better men.

It is only as a last resort that this extreme and disagreeable duty is resorted to, but if there were some good institution, a reformatory in every sense, there are children who would, undoubtedly, be much benefited by a few months' or a year's stay at such place, and many others who would be indirectly benefited by the possibility of being sent there on less provocation than at present.

PRUDENTIAL.

With ten school buildings containing twenty-six schools and attended by over twelve hundred pupils, it can readily be seen that

there must of necessity be considerable wear and tear of buildings, and in addition to the legitimate depreciation of the buildings is the injury and breakage caused by mischievous and malicious persons. The Committee intend, as far as possible, to attend to all necessary repairs, during the summer vacation, but notwithstanding all that is done at that time, repairs are almost constantly required.

During the past summer two more buildings have been painted and repaired outside, the North and East Ward buildings. This leaves only two, the Woodville and Franklin street school houses, which have not been painted within the past three years. The walls and ceilings have been tinted in the High School building, including the the halls, recitation rooms and the Advanced Grammar school room. Now from basement to attic, this building is in good order, but this cannot be said of the roof, which is in almost constant need of repair. We learn from a reliable source that the slates are poor and that the roof needs reslating. In addition to this, the balustrades around the roof should be removed. They are not only useless and unsightly but are also a source of expense.

The appropriation for contingent expenses would not have been over run but for the fact that many more old desks and chairs were repaired for the Lincoln Building than the Committee had estimated upon. While this made the expense less for new furniture which was paid out of the appropriation for that building, it was quite an increase in our account for contingencies.

The Committee are seriously considering the purchasing of coal for school buildings by the cargo. The school department requires about 340 tons. Other town departments use about 100 more tons. Local dealers claim that they but little more than clear expenses. If this is the case it would prove a double benefit for the town to purchase its coal by the cargo. We believe it could be done at quite a saving.

RECOMMENDATIONS.

Another year comes around and with it our annual recommendation, "that the town employ a Superintendent of Schools." We earnestly hope that this year the town may grant our request. Mr. A. W. Edson, agent of the State Board of Education, says of the towns in Worcester County, "To show the change of public sentiment in favor of competent supervision, I note the fact that, of the fifty-nine towns and cities in Worcester County three years ago but

eight of them employed superintendents of schools, while up to the present time the number has been increased to *forty-four*." Mr. Edson says further "The value of skilled supervision rests almost entirely in the training of teachers to do better work. The idea, occasionally advanced, that good teachers do not need this training, is mere nonsense. * * * * This work, the School Committee, with other interests on their minds, having neither the time nor training necessary, even if they have the ability, cannot do."

We might fill pages in support of the desirability and necessity for the employment of a Superintendent of Schools. No firm of business men would think of conducting a business without a manager, but in the case of our town six men are expected in addition to their own individual business, to conduct successfully that most important business of superintending the public schools. Again we respectfully and earnestly ask of the town the authority to appoint a School Superintendent. By doing this in conjunction with some neighboring town, the additional expense would be nominal, in fact, but little more than the price of one good teacher, while the benefit to the schools, compared with the present system of supervision, would be almost incalculable.

For the past two years we have recommended that some action be taken by the town relative to the introduction of some simple forms of industrial training. We believe that an industrial school for such graduates of the grammar grades, who do not wish to take the High School Course, would go far toward solving the problem of how to make our schools more practical, and we respectfully recommend consideration by the town of this important branch of education.

Last year we recommended the enlargement of the Franklin Street school building and a committee was appointed by the town to investigate as to the practicability of so doing. This committee reported against the advisability of enlarging the present building owing to the expense and they believed it would be only a few years before even a larger building would be required than it was contemplated making of this, and that when a new building was erected it should be upon some other lot. Though one grade has been removed the necessity still exists for the better accommodation of this district.

This is also true of the Hamilton and West districts, and the present lot in Greenwood is unsuitable, both in size and location, for a new building. Available lots are yearly growing less and are increasing proportionately in expense, and we believe it would be wise

on the part of the town to purchase lots in each of these districts, as school buildings will be needed in the near future.

We do not think it right to oblige children, and especially primary children, to travel a long distance to school, even though our forefathers when young did enjoy this privilege. It should not be a question of whether it is good for children, or whether or not parents are willing to send their children long distances to school. The law requires that "every town shall provide school houses conveniently located for the accommodation of *all* children therein entitled to attend the public schools," and schools from one to two miles distant can hardly be construed into "conveniently located" school houses.

We wish, in behalf of the town, to extend our hearty thanks to Mrs. H. N. Flint for the fine portrait of Mr. Cyrus Wakefield, which she generously presented to the High School.

The term of office of Messrs. Hill and White expire this year, making two vacancies to be filled at the annual meeting in March, for a term of three years each.

The committee would respectfully recommend for the support of schools for the ensuing year the following appropriations :

General, for teachers, janitors and fuel,	\$22,000
Text books and supplies,	1,500
Incidentals,	1,500
	<hr/>
Total,	\$25,000

RECEIPTS AND EXPENDITURES.

General fund,	\$21,200 00
Paid teachers,	\$17,090 82
“ janitors,	1,531 75
“ for fuel,	2,469 74
	<hr/>
	\$21,092 31
	<hr/>
Balance on hand,	\$107 69

CONTINGENT.

Appropriation,	\$1,700 00

IN MEMORIAM.

“In Riverside, Cal. Jan. 13th, Miss Clara P. Riggs, formerly of Wakefield.”

In September, 1889, Miss Riggs was appointed assistant in the Advanced Grammar school, and later was transferred to the Centre First Primary school where she taught till the close of schools last June.

At the beginning of the fall term being unable to resume her duties she requested a year's leave of absence which the committee willingly granted. In October she started for Riverside, Cal., in hopes of regaining her rapidly failing strength, but in January, hardly three months after her departure, came the sad news of her death.

She was of a bright, cheerful disposition, and by her death the town loses a capable instructor and her pupils a loving Christian friend and teacher.

ASHTON H. THAYER, *Chairman,*
WILLIAM E. ROGERS, *Sec. and Treas.*
EDWARD A. UPTON, *Clerk of Supplies.*
CHARLES J. RYDER,
SELIM S. WHITE,
MELVIN J. HILL,

School Committee of Wakefield.

WAKEFIELD, Feb. 4, 1893.

COURSE OF STUDY, JANUARY, 1891.

CLASSICAL COURSE.

Figures indicate number of recitations per week.

FIRST YEAR. FALL TERM.—English Language and Literature, 3 ; First Year Latin, 5 ; Algebra, 5 ; Physiology, 2 ; Drawing, 1.

WINTER TERM.—English Language and Literature, 3 ; First Year Latin, 5 ; Algebra, 5 ; Physiology, 2 ; Drawing, 1.

SPRING TERM.—English Language and Literature, 3 ; First Year Latin, 5 ; Algebra, 5 ; Physiology, 2 ; Drawing, 1.

SECOND YEAR. FALL TERM.—English Language and Literature, 3 ; Cæsar, 5 ; Geometry or Physics, 4 ; General History, 2 ; Drawing, 1.

WINTER TERM.—English Language and Literature, 3 ; Cæsar, 5 ; Geometry or Physics, 4 ; General History, 2 ; Drawing, 1.

SPRING TERM.—English Language and Literature, 3 ; Cæsar, 5 ; Geometry or Physics, 4 ; General History, 2 ; Drawing, 1.

Declamations and Essays the entire course.

THIRD YEAR. FALL TERM.—English Language and Literature, 3 ; Vergil and Latin Prose, 5 ; Chemistry, 5 ; English History, 2.

WINTER TERM.—English Language and Literature, 3 ; Vergil and Latin Prose, 5 ; Chemistry, 5 ; English History, 2.

SPRING TERM.—English Language and Literature, 3 ; Vergil and Latin Prose, 5 ; Civil Government, 5 ; English History, 2.

FOURTH YEAR. FALL TERM.—English Language and Literature, 5 ; Cicero and Latin Prose, 5 ; Geology, 5.

WINTER TERM.—English Language and Literature, 5 ; Cicero and Latin Prose, 5 ; Astronomy, 5.

SPRING TERM.—English Language and Literature, 5 ; Cicero and Latin Prose, 5 ; Commercial Arithmetic, 5.

ENGLISH COURSE.

FIRST YEAR. FALL TERM.—English Language and Literature, 3 ; Algebra, 5 ; Book-Keeping, 5 ; Physiology, 2 ; Drawing, 1.

WINTER TERM.—English Language and Literature, 3 ; Algebra, 5 ; Book-Keeping, 5 ; Physiology, 2 ; Drawing, 1.

SPRING TERM.—English Language and Literature, 3 ; Algebra, 5 ; Botany, 5 ; Physiology, 2 ; Drawing, 1.

SECOND YEAR. FALL TERM.—English Language and Literature, 3 ; Geometry, 4 ; Physics, 5 ; General History, 2 ; Drawing, 1.

WINTER TERM.—English Language and Literature, 3 ; Geometry, 4 ; Physics, 5 ; General History, 2 ; Drawing, 1.

SPRING TERM.—English Language and Literature, 3 ; Geometry, 4 ; Physics, 5 ; General History, 2 ; Drawing, 1.

Declamations and Essays the entire course.

THIRD YEAR. FALL TERM.—English Language and Literature, 3 ; Chemistry, 5 ; First Year French, 5 ; English History, 2.

WINTER TERM.—English Language and Literature, 3 ; Chemistry, 5 ; First Year French, 5 ; English History, 2.

SPRING TERM.—English Language and Literature, 3 ; Civil Government, 5 ; First Year French, 5 ; English History, 2.

SPRING TERM.—English Language and Literature, 5 ; Cicero, 5 ; Homer and Greek Prose, 5 ; Second Year French, 5 ; College Physics, 5.

NO SCHOOL SIGNAL.

Three blows of the whistle, twice, 3—3, at 7.45 a. m., for no morning session. The signal at 11.15 means one session, to keep till 12.30, then dismiss for the day. Primary schools will be dismissed at the usual hour and will have no afternoon session.

The signal will be given at 12.45 p. m. for no afternoon session.

The above signals do not include the High school.

Signals to include *all* schools will be given as follows : At 7.45 a. m. three blows repeated *three* times for no morning session. At 7.45 a. m. three blows repeated *four* times for no session of the schools during the day.

STATISTICAL REPORT.

Text books and supplies have been furnished to the public schools of Wakefield from January 1st to Dec. 31st, 1892, according to the following schedule :

HIGH SCHOOL.

TEXT BOOKS AND SUPPLIES.

The town appropriated two thousand dollars to purchase text books and supplies for the public schools of the town for the year ending 1892; and received seventy-six dollars and sixty-one cents from the sale of old books, and ninety-one dollars for tuition of scholars attending the High school during the year from Lynnfield, which sums of money the School Committee have expended in the purchase of said books and supplies, according to the following statement:

WAKEFIELD WATER COMMITTEE.

REPORT

IN REGARD TO PURCHASE OF

WAKEFIELD WATER WORKS,

MADE TO THE TOWN NOV. 13, 1893.

WATER COMMITTEE'S REPORT.

The committee chosen March 20, 1893, to investigate in respect to the purchase of the water works of the Wakefield Water Company, by the towns of Wakefield and Stoneham, herewith submit their report as follows:—

Your committee find that the contract of the Water Company with the town of Stoneham provides for the right of the towns of Wakefield and Stoneham to purchase the water works by the following clause in it:—

“ This Company further agrees that the town of Stoneham may, at any time after ten years, and not later than fifteen years from the completion of the works herein agreed to be performed, purchase those portions of said company's works constructed for the purpose of supplying the town of Stoneham with water, together with the franchise of said company, covering such proportional parts of said company to the waters of Crystal and Quannapowitt Lakes and their sources of supply, at such price as may be agreed on; and, if no agreement can be reached, at such valuation as may be fixed by a commission to be appointed by any person who shall at the time be a judge of probate for the county of Middlesex or of Suffolk, provided that the town of Wakefield shall agree and vote to do the same in regard to the portions of the franchise and works constructed to supply water for that town; and the company hereby agrees, if both towns of

Wakefield and Stoneham shall so vote, then the town of Wakefield shall have the same right to purchase the portion of the works constructed to supply water for that town, together with the franchise of said company covering such proportional parts of the right of said company to the waters of Crystal and Quannapowitt Lakes and their sources of supply."

This contract was confirmed by legislative act, and published in Stoneham town report of February 28, 1883.

A number of conference meetings of the Wakefield and Stoneham committees have been held, at one of which a sub-committee of three from each town was chosen to confer with the Wakefield Water Company, to see if they would name a price for the plant and franchise for a sale of the same to the two towns.

Mr. E. C. Miller, as chairman of that committee, wrote a letter to the company as follows:—

BOSTON, MASS., July 21, 1893.

S. K. HAMILTON, Esq., *President Wakefield Water Company*:

DEAR SIR, — At a joint meeting of the committees appointed by the town of Wakefield and the town of Stoneham, to examine into the question of the future supply of these towns, and the advisability of purchasing the plant of the Wakefield Water Company, a special committee was appointed, consisting of three members from each town committee, to confer with the Wakefield Water Company in regard to purchase by the two towns. The committee understand that the company has been authorized by the legislature to issue \$300,000 worth of bonds at five per cent, and have also issued \$125,000 worth of stock. They would like to know if the company is ready to name a price at which they will sell the property to the towns any time before December 1st, next, the towns to assume the debts of the company. In this case the committee would like to know how many of the bonds have been issued, when payable and at what rate of interest, and also the nature of any other debt they would be called upon to assume. In order to arrive at a conclusion of the reasonableness of the company's offer, the committee would like to know of what the property consists, the number of miles of pipe laid, the different sizes, etc. Also, in order to be able to properly advise the two committees, they would like to know the ordinary annual running expenses and expenses of repairs, and the gross income the company is earning at the present time.

As the contract between the two towns and the Water Company expires next winter, and the committee wishes to present the matter fully to the two towns in season for a proper consideration of what is best to do, an early reply will oblige.

In answer to the letter of inquiry the following letter was received from the Water Company:—

BOSTON, MASS., July 27, 1893.

E. C. MILLER, ESQ., *Chairman of sub-Committee, Wakefield, Mass.:*

DEAR SIR, — Yours of the 21st inst., in behalf of the sub-committees of the committees appointed by the towns of Wakefield and Stoneham to examine into the question of the future water supply of these towns, and the advisability of purchasing the plant of the Wakefield Water Company, was duly received, and I should have replied earlier, but from the fact that it was impossible for me to confer with any of the stockholders of the company. As it is, I have at this time been able to reach only one. As I understand the scope of your inquiry it is, if the company is ready to name a price at which they will sell the property to the towns any time before December 1st, next, the towns to assume the debts of the company. To that inquiry I think I am authorized to say that the company are not ready to name such price.

I am very respectfully yours,

S. K. HAMILTON, *Pres. of Wakefield Water Company.*

As the reply of the water company stated that the company was not ready to name a price for its property and franchise, your committee infer that no agreement can be reached by the committee of the towns and the Water Company, in regard to it, and it is probable that a commission of three disinterested men appointed by the judge of probate to appraise the value and fix the price would be able to do it more satisfactorily and with less criticism than would a committee of the towns and the Water Company. In view of the fact that with the continuation of the water works in the hands of a private company for the next thirty years, the inhabitants of the towns of Wakefield and Stoneham probably paying to it an annual sum of an average of forty thousand dollars per year (and increasing each year) amounting in the thirty years to twelve hundred thousand dollars, and then having no ownership by the towns in the property or franchise, as also the importance of the towns holding a position to have the most influence in the regulations as to the sales of the so-called surplus water to other towns, the committees of both towns, Wakefield and Stoneham, are unanimous in the opinion that the water works that are supplying the towns of Wakefield and Stone-

ham with water should be owned by these towns at as early a date as can be arranged for their purchase.

As the subject is one of such importance to the town, and the contract of the town with the Water Company for the use of hydrants expires December 1st, next, your committee would recommend that the Selectmen be instructed to call a special town meeting with proper articles in the warrant under which the town can provide for the purchase of the water works with Stoneham, and the subject be acted upon with due consideration; also that the town make no contract with the company of any nature until after such special meeting shall be held, and that this report be published in the town newspapers and in circulars to be sent to the voters of Wakefield.

Signed,

E. C. MILLER,
P. S. ROBERTS,
W. G. STRONG,
THOMAS HICKEY,
J. F. EMERSON,
S. O. RICHARDSON,
H. H. SAVAGE,

Committee.
